To BUILDERS and ARCHITECTS

FIREPROOF BUILDING MATERIAL.

The Rathbun Company of Deseronto are now manufacturing and have for sale all kinds of fireproof building material. Their Porous Earthenware or Terra Cotta is recommended by Architects and Insurance Companies as unexcelled for protection against fire. Weighs one-third that of brick, mortar adheres to it without the use of lath, it may be nailed, sawed and worked with carpenters' tools, it takes the place of wood or brick for outer or inner walls and floors at about the same cost, insures immunity from fire, dampness and vermin, giving warmth in winter and coolness in summer, lowers insurance, decreases the cost of the building.

Persons rebuilding old structures or erecting new ones are solicited to consult their architects or write us direct in reference to this new material. 63

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
