

Columbia Wooden Horns

No. 41, Oak, price, \$12.00.
No. 42, Mahogany, price, \$15.00.

Although wood horns have been made and used for a number of years, we have never placed one on sale until recently, because we were unable to find a horn that would meet all our exacting requirements, both as to appearance, acoustic qualities and durable construction. Our horns are made of seasoned three-ply veneer, oak or mahogany, cross-banded and so constructed that they will absolutely not warp or lose their shape. Both the outside and inside layer of veneer are arranged so that the grain runs spirally. There is only one joint on the side, a patented wood rim, which holds the bell in perfect shape. This horn embodies all the good points of other horns, with many improvements. By its use the annoying "dominant note," so evident in some horns, is permanently eliminated. The Columbia Wooden Horn, like all other Columbia Horns used in connection with the aluminum tone arm, screws solidly into the elbow, so that it cannot fall out, and is readily interchangeable, fitting any disc graphophone and any of the tone-arm cylinder graphophones.

Sent on one week's trial. Money refunded if you are not satisfied.

Complete catalogues of Columbia Graphophones and Records (disc or cylinder) sent on request.

Write to-day for us to place your name on our mailing list for the Monthly Supplements of New Records.

BUY IDEAL FENCE

YOU should build fence like you make other permanent improvements. Tinkering does not pay. Fences made of light wire, and wires that break rather than give when it gets cold; fences that an unruly animal could break through; fences not properly stayed—these are not paying fences. Ideal fence is the right kind. It is made of No. 9 hard steel wire from top to bottom, and is heavier and stronger than any fence on the market. Remember, it costs no more to dig your post holes, set your posts, stretch your fence and staple it when the heavy Ideal fence is used than for a light, flimsy article. And notice how the Ideal fence is locked at every crossing. It is heavily galvanized to keep off rust. Adapts itself to extremes of heat and cold, and always presents a handsome, well-stretched appearance. It pays to study the matter over thoroughly before you buy any kind of a fence. Our little fence book gives you all the pointers. Write us today for free copy.

Spray with the EMPIRE KING

IT TAKES precedence over any other spraying machine made. It is not enough for a pump to simply squirt water. Our KING is a combination of three machines in one; while it maintains a strong, steady pressure on the nozzles, it also keeps the liquid in the tank thoroughly agitated, and with each stroke of the pump-handle it cleans the suction strainer twice. Brass cylinder, plunger and valves see to greatest strength, long life, and freedom from corrosion. Every consideration urges it as the best pump. We also manufacture the **Monarch Garfield Knapsack**, and many other kinds and sizes of sprayers. Write for our excellent book on spraying formulas, etc. Mailed free.

Genasco Ready Roofing

Genasco is economical roofing.

It costs a little more in the beginning because it is made of Trinidad Lake Asphalt, the perfect natural waterproofer and weather-resister.

The thing that makes the first-cost more makes the last-cost less. And last cost is what counts.

Get the roofing whose composition you know—the Trinidad Lake Asphalt roofing backed by a thirty-two-million dollar guarantee. Mineral and smooth surface. Look for the trade-mark. Write for samples and the Good Roof Guide Book.
