To the Trade:

Monday, Sept. 6th.

Repeat orders, special purchases, and orders short shipped, have been arriving in great quantities for the past week.

Monday—that is to-day—we commence showing these goods, and as many of the lines are well known and large orders already placed, others entirely

New, of extraordinarily good value, we reasonably expect an early clearance. We want every buyer visiting Toronto from this time out to see our

DR. M'KAY AGAIN.

West Victoria Liberals Select the Same Old Member for the Local.

Lindsay, Ont., Sept. 4.—The West Victoria Reform convention was held here to day for the purpose of electing officers of the association and choosing a candidate to contest the riding for the Ontario Legislature in the Liberal interests. Notwithstanding the busy season the convention was very large and representative, there being present electors from all parts of the riding. It was convened at 11.30, Mr. F. C. Taylor being elected president, Mr. William Cameron vice-president and Mr. D. R. Anderson secretary.

At 1.30 Mr. Taylor called the meeting to order, and in a few well-chosen words thanked the association for having selected him as their president.

The first item of business taken up was the selection of a candidate. The convention unanimously chose Dr. McKay of Woodville, who has so ably represented the riding in the last four Parliaments.

Mr. George McHugh, M.P., and Hon. E. J. Davis also delivered addresses in defence of the Hardy Government.

An Opportunity to Buy Furs.

Perhaps in no former season have furriers been so well stocked with new season furs as is the case this year. Business, they tell us, has opened out earlier than for some years past. "This, at least," said Mr. Fairweather, head of the firm of J. & J. Lugsdin, "is our experience. We completed the improvements in our store in good time in August, and immediately put the fur show rooms in shape and opened out with the choicest stock, we believe, ever shown by the firm during their twenty-five years' history."

Continuing, Mr. Fairweather said: "More than ever furs will lead the fashion this season. They will be worn for comfort, and also because of the style that surrounds a fur garment. Where other garments are worn, such as a tailor-made costume, furs will be made to supplement these, especially in neck furs, like ruffs and caperines, because of the richness and style that they give to a lady's dress."

J. & J. Lugsdin are to be complimented on the character of their premises, immediately next door to Ryrie Bros. These are not only large and roomy, but are fitted out in very suitable manner, and, best of all, are heavily stocked with goods, and what shopper does not want a wide choice when shopping?

The opportunity is one that presents itself not simply to our own city people, but also to thousands of visitors here during the Exhibition term, to see furs as perhaps they have never seen them before. J. & J. Lugsdin being practical furriers, there is every dependence to be placed upon the character of the furs they offer shoppers.

Specialties.

The most casual observer must have noticed Scores' high-class specialties. No. 77 King-street west is a hive of industry, where superb garments at low cash charges are sold to gentlemen whose keen appreciation of the best British woollens naturally lead them to a firm who know how to buy such goods and where to buy them. Scores' buy and sell for cash, and, what is more, go direct to the British manufacturer for what they want. Their values in Scotch tweed suitings at $20, $22.50 and $25 are simply amazing, and their specialty in covert coatings at $20 is another indication of their superior purchasing powers. All the new autumnal tints will be found, and this season they are more than ordinarily attractive.

City Hall Notes.

The City Council will meet at 9 o'clock this morning to take part in the Labor Day parade.

The petition sent in by eight out of the eleven property owners on the west side of Bond-street, between Shuter and Wilton-avenue, was for a 5-foot brick sidewalk next to the road, with stone curbs. They will probably get it.

Important to Smokers

Mr. M. McConnell, cigar dealer, corner Leader-lane and Colborne-street, has a special line of extra fine cigars for Exhibition week. Gentlemen who require a box of really fine cigars at a moderate price should call and see his stock. On account of Mr. McConnell's extensive purchases in cigars he is enabled to give very low prices, wholesale and retail.

Two Bottles Cure Pimples.

Gentlemen,—For a long time I had pimples breaking out all over my face. I was told about B.B.B., and started its use. After taking one bottle I was much better, and the second bottle made a complete cure. I have recommended it to others of my friends, and they have found it uniformly satisfactory. A. F. BEST, Whitebread, Ont.

Not Going Out of Business.

Mr. Sydney Ashdown wishes to state that although he has returned to take up a position in his father's business in London, Eng., the business of the Anglo-Canadian Music Publishers' Association, Limited (Ashdown's), 88½ Yonge-street, will be carried on as usual, with Mr. John Hanna as manager.

TORONTO'S GREATEST TAILORING STORE.
TORONTO IS INTERESTED
in our astonishingly great values. We are not, because these values spring from simple but far-reaching causes. Doing a cash business, our books are not disfigured by BAD DEBTS. Bad debts necessitate your paying high prices to atone for those who neglect to pay at all. Then we go direct to Europe to buy our goods and pay cash down—thus securing values that have no equal in Toronto.

Figures Eloquent With Meaning.

We have a grand line of Scotch Tweed Suitings at $20, $22.50 and $25, in all the new colorings and designs. Lovat's checked and faintly striped, as well as olive and olive and brown mixtures, are all good lines. Dark greens and browns on olive grounds, or black and white on grey, form exquisite combinations and are decidedly rich in appearance. The old credit price for similar quality was $26, $28 and $32.

For a Fall Overcoat our line of English Covert Cloths at $20 is specially attractive. No such values can be seen in Toronto. The shades are the newest and most select, and the garment is cut somewhat sacky, but not extravagantly so.

Score's Guinea Trousers, spot cash $5.25, are really worth $8 and $9 a pair.

TIPS FROM WALL STREET.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day:

Northern Pacific preferred was the conspicuously strong stock of the R. R. list to-day, it was active and advanced on shorts covering. Missouri Pacific was strong on an enormous increase in earnings for the last week in August, over $200,000 gross. The Atchison statement for July shows a gross increase of $238,000, but a decrease in surplus of $60,000. The anthracite coalers showed strength. Generally the tone of the market was strong, but irregular. It was left more to itself, there being a good many important absences from the Street. Several things are in prospect that might have an unfavorable effect on stock values, particularly the Cuban Question, which may come into prominence next week, and colder weather is indicated for the corn section. We repeat that we think it would be well for long money to look at profits, and look for a break to buy stocks. Weekly bank statement shows loans increase $8,417,000, deposits increase $4,764,000, circulation increase $536,300, legal tenders decrease $4,000,000, specie decrease $205,000, and reserve decreases $4,213,000.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day:

Wheat—The news in the market to-day was bullish, but the trade was remarkably small, and prices were only steady. Cables were quite steady, but there was an absence of foreign trade in all markets. The shipments of wheat last week were enormous, amounting to 6,268,000 bushels, the largest for any week since August, 1891. Some reports were here of very poor yield in Russia, and the partial failure of the potato crop in Ireland. The visible supply is expected to show another good decrease, estimated at about 1,000,000 bushels. The legitimate situation is certainly very strong, but speculation seems disinclined to take hold at the present comparatively high range of prices.

Corn and Oats—The corn market held its own remarkably well to-day, considering the light speculative trade, and the efforts of local talent to depress prices. On all weak places there were buying orders sufficient to absorb all offerings, and the market closed firm. Country offerings were very light, and the heavy receipts at this point have no effect, as sales against same were made some time back.

In oats there was only a moderate trade, with a moderate tone to the market.

Provisions—Opened steady, and ruled dull all day. Packers were free sellers of October, but trade was light. International Packing Co. bought October lard. Market closes easy, at about lowest prices of the day. Estimated hogs, Monday, 35,000; next week, 135,000.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The market opened firm at ⅝c higher than last night's closing prices, and on moderate buying advanced another ½c, to 94⅝c. The foreign orders were on both sides, but limited, and of no special significance, except as favoring the buying side. Influences were of a general order, and sentiment was about equally divided. Foreign markets were disappointingly dull and slightly lower, especially the English, which were affected more particularly by the favorable change in the weather. It is expected that the English farmer will be a ready seller at current comparatively high prices, and in anticipation of "Michaelmas Day," Sept. 29, a day of harvest day settlements. Private cable advices confirmed the public cables and noted quiet continental markets, Paris being easy, and London dull. There were no encouraging responses to over-night offerings of wheat, or counter bids, either, except out of line of current values. Resting selling orders were in hand, but were above the market limits. The clique was credited with giving the market support by buying through a number of commission houses. The volume of business, however, is lighter than it has been for weeks. Baldwin & Guernsey were buyers early, and that house and Bartlett Frazier sold quite freely in the last hour. Schwartz, Dunsee and Lester were moderate buyers. Minneapolis reported good flour sales for export, which was somewhat out of line from the advices from the seaboard. Northwestern receipts were larger than a week ago, but about 300 less than a year ago. World's shipments indicated over 8,000,000 bushels. Expect fair increase afloat, and decrease in European stocks. Argentine shipments, nil. In last hour there were good selling by early buyers, which caused market to decline. We think it a good purchase on the slump.
