

A GREAT LABOR SAVER

Did you ever think of what it costs some men to provide the necessary stable help. Labor is scarce, and time means money. You can save both time and money if you have a proper equipment.

Louden's Litter Carrier

has a box made of galvanized steel, with either steel or wooden ends, and rivetted together so that it is water-tight. Its gear is very simple, yet strong and durable. The track is double-headed steel, and can be curved or bent to suit any stable or passage-way. If you use our Swinging Crane Hinge the litter may be carried far away from the stable without having any posts placed in the yard.

A post card will bring you free catalogue, circulars and full particulars.

The LOUDEN MACHINERY CO., Guelph, Ont.

Cow Stalls and Stanchions, Feed and Litter Carriers, Barn Door Hangers, Haying Tools, etc.

It will soon be time to use power for cutting feed, pumping and other farm requirements. NOW is a good time to consider the merits of the various engines. We offer in the

AIR-COOLED PREMIER

a gasoline engine which is simple in construction, and will carry any load that the water-cooled engines of the same size will. 2 and 4 H.-P. only, but big enough for any farm work. When writing, it is a help to state the purpose for which the engine is wanted.

Connor Machine Co., Exeter, Ont.

The Perfection Seed and Grain Separator

Patented 1901

You have tried the Others, now try the Best. The PERFECTION will do what the others never thought of doing, and we have all the good points patented. It is the cheapest mill at the price, as it will easily outwear all others, and turns twice as easily; \$20,000.00 were spent in experimenting on the Perfection, and you have the benefit of our experience. It would take a large space to tell all its good qualities, so write at once for Free Circular "C," giving full particulars. See our exhibit under the Grand Stand at Toronto, in the Implement Building at London. Enquire of nearest agent or write.

Do You Want the Cheapest and Most Durable Roofing?

USE DURABILITY BRAND Mica Roofing

For steep or flat roofs; waterproof; fireproof; easily laid. We pay the freight on all orders of five square and over to any railroad station in Ontario or Quebec. Send stamp for sample, and mention this paper.

Hamilton Mica Roofing Co.,
101 Rebecca St., Hamilton, Can.

HARD WORK MADE EASY!

200 lbs. is mighty hard work on a slippery plank for a man. Note the condition of the barnyard caused by the manure being piled near the barn. It makes a disagreeable yard and an unsanitary bad-smelling stable.

1,000 lbs. is easy work for a boy when it is in a BT Litter Carrier. On a strong level overhead steel track it is easy to run the manure a good distance away from the barn, where it can be dumped either on a pile or directly into a wagon.

Cleaning out stables is one of the hardest and most disagreeable jobs on the farm. With a BT Litter Carrier you can take five times as much manure at a trip as with a barrow, and the Carrier is so easily handled that a boy can do the work. Surely that is better than making five trips through the mud and snow. No planks to lay—no paths to shovel—you have always a solid overhead track to run on. Decide now to have a BT Litter Carrier to help you. You will appreciate it every day. No other machine on the farm is used so many days of the year.

A GOOD PAYING INVESTMENT

A Litter Carrier is a permanent investment. Running as it does on a level overhead track, there is nothing whatever to go wrong with it. We guarantee the BT Litter Carrier absolutely for five years. Other farm machinery is guaranteed for one year only. The BT Litter Carrier will last for 50 years. If there are any defects, they should develop in five years, and we guarantee our Carrier absolutely for this length of time. With no other Litter Carrier is such a guarantee given. In fact, most of the firms change their Carrier every year, and they will have to keep on changing, for they simply cannot possibly get around the patented points on the BT Litter Carrier. Get our catalogue and see why the BT Litter Carrier is such a success. When you understand the different styles, you would not take any other Litter Carrier at any price.

BUY A BT LITTER CARRIER

More BT LITTER CARRIERS were sold last year in Canada than all other makes combined. Here are some of the reasons why:

The BT Litter Carrier is the simplest in construction and more heavily built. It weighs 50 lbs. more than the next heaviest. It has no gearing, cogs or ratchet.

Double purchase is used in lifting. It goes up easily.

There are no worm gears to wear out.

Large wheels on double roller arms run on the track, which means steady and easy running.

The Carrier is windlassed by a crank-wheel. There is no noise and rattle as with a chain lift.

The crank wheel never comes in contact with the box, so that it always remains clean for windlassing and also to shove the Carrier along the track by.

The bucket is made of 18-gauge galvanized steel—four gauges heavier than others.

The track is 2 inches in depth—next deepest is only 1½ inches. The BT Litter Carrier Track will carry a much bigger load than any other. It is also easier to erect, as the hangers will suit any style of ceiling.

It costs no more than others.

Write and get our prices, as now is the best time for installing a Litter Carrier, and we will make you a special proposition at the present time.

It will pay you to write us now. Fill out the coupon before you forget. You will be surprised how cheaply you can put in a BT Litter Carrier.

We also build Steel Stalls and Cow Stanchions and all kinds of Hay Carrier Goods.

BEATTY BROS.,

FERGUS, CANADA

Fill out the coupon below at once and get our book describing the BT Litter Carrier, and our prices. The book tells how a Carrier should be erected.
