## Labor-Saving and Money-Making Equipment

**A** LOT HAS BEEN SAID about the scarcity of good farm help, and the difficulty our farmers have of keeping their sons on the farm. Well, most farmers have gone through the mill themselves, and can perhaps sympathize with the boy who seeks to get away from the drudgery that he imagines farm life has in store for him.

**B**UT WHY DRUDGERY? ABOUT the worst back-breaking work on a farm is stable-cleaning with old-fashioned methods. It certainly is a job any man would like to pass up. But fortunately modern methods with modern machinery have taken the drudgery out of stable-cleaning.

Nowadays, you fill a Loudon Litter Carrier—raise it by a light pull on a chain—push the load easily and quickly to wherever you want it. Not much hard work for you in that, is there?

**A**LL EXPERTS AGREE THAT Liquid Manure is 50% more valuable than solid manure. Are you losing this 50%?

A Loudon Litter Carrier will save it for you—and not only prevent the waste, but will make stable-cleaning an easy "chore."

The Loudon swinging equipment is an ideal way of disposing of manure. With it you get a twenty or a thirty foot swing, and can dump the load on waggon, spreader, manure heap, or wherever you want it.

**A** DISTINCT LOUDEN FEATURE is that you can run the loaded carrier right on to the pole while swinging at any angle. You do not have to straighten the track each load.

The flexible hinge permits the carrier to run over it while at an angle.

**T**HE SUN-SHINY SIDE OF farming is the money-making side.

An equipment that makes money is Steel Sanitary Stalls and Stanchions for cows. Now there is no doubt that a contented, comfortable, dreamy-eyed cow will give more milk than one housed in unsanitary, badly-ventilated quarters, where it has little freedom and comfort. And when you are thinking of cow profits, you must think of these things.

The most successful Farmers and Dairymen have thought of these things, and have equipped their stables with Cement Floors, Mangers, Steel Stalls, Stanchions, and Carriers for Feed and Litter. Stables so fitted are lasting, well ventilated and sanitary. Light and air with their germ-destroying powers fill every part of the stable. Under such conditions cows are comfortable and clean, which consequently means more and better milk, and this, in turn, means bigger profits.

**S**TANCHIONS.

Louden Stanchions are perfect stanchions—perfect in construction—simple to lock and unlock—allow perfect freedom and comfort, yet provide a perfectly secure tie. They are made of smooth, light, strong, high carbon steel tubing, with malleable iron fittings. Construction and material are such that there are no crevices to harbor germs or dirt.

**H**OW DO YOU FEED YOUR cattle? Do you use the old-time shallow trough, where cows scatter their food in the feed-way, and steal each other's fodder—preventing the keeping of accurate records of feed costs and results?

Galvanized Steel Mangers are the modern way. They are convenient, and prevent feed-waste. They keep the stable tidy, too. The bottom is of cement, and the steel part is raised and lowered to allow the trough to be thoroughly cleaned. The trough can also be used for watering purposes.

**E**VERY FARMER HAS experienced annoyance and loss of time and temper over faulty barn-door hangers and tracks. The Loudon Hangers are made in five different styles, to suit various conditions. We recommend Loudon's Bird-Proof Hanger as illustrated.

It is a hanger that gives perfect service all the year round. It always runs easily and cannot get out of order.

It cannot be clogged in any way—either by nesting birds or trash in summer, or by snow, ice or sleet in winter.

**A** USEFUL BOOK TO HAVE.

Every farmer can find something useful in our book "Perfect Barn Equipments." It illustrates and describes many money-making, labor-saving devices, about which a farmer ought to know.

THE SERVICES OF OUR EXPERIENCED BARN ARCHITECT ARE AT YOUR COMMAND, FREE, FOR THE ASKING. TELL US WHAT YOU WANT.

THE LOUDEN MACHINERY CO. - DEPT. 11 - GUELPH, Ont.

### AN IMPROVEMENT.

"I got a new attachment for the family piano," said Mr. Growcher; "and it's a wonderful improvement."  
"What is it?"  
"A lock and key."

### RELIEF FOR THE SICK.

"Listen, Robbie; this rich cake is very unhealthy, and I—"  
Robbie—"Well, s'pose we put it right out of its misery, mamma."

### BABY'S REASON.

"Dear me!" cried mamma. "What is the baby crying for?"  
"He's mad at me, mamma," said Mollie. "I was trying to make him smile with the glove-stretcher."

### TO LET.

"What's the difference between a haunted house and a handsome man about to kiss you?"  
"I give it up."  
"Why, you can't let a haunted house."
