the propagation of the faith amongst those souls, naturally timid, who in all times and countries have been the most numerous."

The first edition of the BIBLE in print was done at Mentz, between the years 1450 and 1455. It was beautifully executed, with clear type, lustrous ink, and on good paper—containing 1282 pages. Of this edition, but eighteen copies are now known to be in existence, four of which are printed on vellum. Two of these on vellum are in England, one in Berlin, and one in Paris.—Ten of the rest of the eighteen are in England, and one in the United States. The latter was purchased at auction, in London, in 1848, for the sum of £500 sterling.

SOFT SOAP WANTED.

As it is expected that the Hon. Joseph Howe will be here soon and as his large stock of soft soap must be by this time nearly exhausted, it is expected that the two parties who were so liberally supplied by him when here last will look out for him and abundantly supply him in return on his arrival, because candidates for office and the people's favour make great use of the article. He will require a particular kind, such as will make a lather that will cover all our *beards*, and give the numerous Shylocks who are now impatiently waiting to shave us, a chance to make a clean sweep. For further information please apply to one who yet hopes every person in this Province will be saved from those who are now looking for the pound of flesh.
