TROUSERS

"Mamma," queried little Florence, "should I say pants or trousers?"

"Trousers, my dear," replied the mother.

"Then," said Florence, "I must give Fido some water, for he trousers awfully."

IF any person calls your Trousers "Pants" it doesn't make any difference in their shape or alter their fit any, does it? We sell Pants to the man who prefers to have them called by that name—and "Trousers" for the same reason, and we are prepared to back up our pants or trousers as being the best made and most shapely in town. It matters not if you invest $1.50, $2, $2.50 or go up as high as $5, you'll find the same attention to detail and fit.

Pants or Trousers,
Trousers or Pants,
When you buy from us,
It's not a game of chance.

Special values at $2.50 in neat striped Worsteds that are well worth your inspection.

WANTS NO SPECIAL UNIFORM

Chief Aitchison Will Be Allowed to Dress as He Pleases so Long as He Fights Fires.

TOMATO GROWERS HOLD PICNIC.

Hotels and Livery Stables Will Be Charged 12 Cents a Thousand Gallons.

Hamilton, Aug. 26.—Ald. Birrell and Ald. MacLeod of the Fire and Water Committee want to see Chief Aitchison's manly form clothed in a uniform befitting his station. The modest chief did not appear to be in love with the scheme. At present he is supplied with two civilian suits. The majority of the aldermen were of the opinion that the chief ought to be allowed to dress as he liked so long as he fought fires in his present grand style, and he will still dress as an ordinary mortal.

In the future hotels, saloons and livery stables will be charged 12 cents per thousand gallons for the water they use. City Engineer Barrow recommends that the water mains should be extended in the northwest part of the city.

The newly formed Tomato Growers' Association held a picnic to-day at Sherman Park. They were entertained with speeches by E. D. Smith, M.P.; John Ira Flett, ex-M.L.A., and R. Thompson, M.L.A. A baby show and a long list of sports provided the rest of the fun. The affair was a great success. A. E. Bates and E. J. Mahoney were the principal promoters.

Sewers Committee.

The Sewers Committee was in session for half an hour to-night. A new sewer will be built on Madison-street from Cannon to Wilson-streets, as well as a gulley drain on Main-street at Hazells. G. E. Mills was awarded the contract for supplying special brick at $8 a thousand, and the supply of lime will be divided between E. J. Guest and James Marshall at 19c a bushel. The contract for castings goes to the Smart Turner Co. at $2-59 a hundred. Tenders for sewers were opened and awarded this way: Mill-street, J. J. Armstrong, 74 cents a foot; Madison-street, City Engineer, 90 cents.

Got Himself Disliked.

While in the city yesterday, Dr. Chamberlain, Inspector of Jails and Prisons, got himself disliked in certain quarters, by the remarks he made. "The City Hospital has been going back for the last six months," he said, and he intimated that it was only thru his kindness that the government grant to the institution had not been cut off. Mayor Morden is stirred up by what he calls the inspector's bluster and his threat to cut off the grant to the House of Refuge. His Worship says he will bring the whole matter to the attention of the government. The members of the Board of Hospital Governors say the remarks of the inspector are not true.

Happenings.

This morning Mrs. Cooley, a Beverly woman, who is the mother of five small children, was sent to jail for two months for stealing fruit.

The Sports Committee of the Summer Carnival has a deficit of about $300. It was expected that it would be $1000.

The price of wheat advanced two cent a bushel on the local market to-day, and is now selling at 72c.

The police have decided not to prosecute those responsible for the condition of Rose Wallace, a little girl taken to the City Hospital a few days ago, suffering from a terrible disease.

Robert E. Reynolds, the well-known druggist, and Miss Catharine Hicks were married this afternoon.

The days of the star chamber sessions of the Hospital Board are over. In the future, the reporters will be invited to attend. The rate for the new private wards has been fixed at $6 a week.

"SECOND TO NONE"

Is the Motto of the Coldstream Guards and the Heintzman Piano Co.—A Triumph for Canadian Art and Manufacture.

The regimental motto of the Coldstream Guards is: "Nulli Secundus," "Second to None," which the regiment and its band have well fulfilled in their long and magnificent history. It will be of interest to all Canadians to know that the piano selected to be used by the band is the famous Heintzman & Co. Piano. The motto of this firm is also "Nulli Secundus," or "Second to None," a fact that has been amply demonstrated during a long and successful history. The Heintzman & Co. Piano is a credit to Canadian art manufactures. It has been used by all the world's greatest artists on their visits to Canada. It has gained fame abroad and has carried off the highest awards at the great Expositions in London. The tour of the Coldstream Guards' Band in Canada is the most stupendous musical undertaking that has ever occurred in the annals of the country, and it is satisfactory to know that this magnificent band will be assisted by so magnificent an instrument as the Heintzman & Co. Piano.

The Study of Music at the Loretto Abbey.

Our readers will have observed the large number of students from this institution who, this summer, successfully passed the examinations in music at the Toronto University, though it may not be known that the number was almost one hundred per centum of those who entered. No stronger testimony can be cited as to the thoroughness and efficiency of the teaching methods of the sisters in charge of the music, though it is also not amiss to indicate that the matter of the piano equipment receives intelligent attention, as Messrs. Gourlay, Winter & Leeming advise us that this week the sisters purchased from their house a number of new Gerhard Heintzman and Gourlay model pianos, in order that for the coming season's work their students should have the inspiration of study at the keyboard of pianos of the very highest character manufactured in Canada.

NO RECEIVER NECESSARY UNDER NEW ARRANGEMENT

How the Reorganization of Lake Superior Consolidated Will Work Out.

New York, Aug. 26.—The Herald says: As the result of a conference held yesterday in this city between C. C. Shields, president of the Consolidated Lake Superior Company, and leading interests in the corporation, it was decided to abandon the plan to raise money by the sale of $12,500,000 bonds. Failure on the part of stockholders to subscribe to the proposed issue brought the matter to a climax yesterday, which was the last day for receiving subscriptions. Between $3,000,000 and $4,000,000 worth of bonds had been subscribed.

It was stated definitely after the conference by one of the directors most prominently connected with the corporation that the failure to float the bond issue would not necessitate the appointment of a receiver.

"Does the plan involve the virtual reorganization of the company without a receiver?" the director was asked.

"It might be interpreted as something of that sort," he replied. "We have simply decided that the property must not slip by the board merely for lack of funds to pay its debts and keep it a going concern, and we have absolute assurance that it will not be necessary to let it do so. We have also decided definitely that its bond issue must be abandoned and that it will not be necessary for the company to be placed in a receiver's hands.

"Our new steel rail mill is the only one in Canada. We have plenty of orders now, and when the new Grand Trunk Pacific is built that business will come to us, for there is a provision in the contract with the government that the rails must be purchased in the Dominion."

It was stated that the Consolidated Lake Superior's present trouble could all be traced to the failure of the effort last year to issue about $8,000,000 in new stock. This stock was to have been paid for on the instalment plan, a certain proportion of the amount subscribed to be paid quarterly. Defaults in payments were made last December. This necessitated the Speyer loan of $5,000,000, which fell due for payment July 1. Interest, however, has been paid regularly, and it was stated yesterday that payment of this loan would not be forced unless there was a default of interest.

The capital stock of the Consolidated Lake Superior Company consists of $28,452,400 preferred stock and $74,070,000 common stock. This stock is non-assessable.

DIES TO SAVE BOY.

New York, Aug. 26.—In saving Gero Gepauli, five years old, from being crushed under the wheels of a grocery wagon, Monday, Francesca Ella, a grocer, was knocked down by the horse and died in the Hudson-street Hospital yesterday from internal injuries. Ella pushed the boy from under the wheels of a heavily laden wagon, but did not have time to escape himself and was crushed.

Funeral of a Garibaldi.

Rome, Aug. 26.—The burial of Menotti Garibaldi occurred to-day and was a most impressive spectacle. During the night the body was carried across the Campagna Romana. Groups of peasants knelt along the road and called on God to bless the remains of their benefactor. Gabriel D'Annunzio delivered a brief and touching address at the grave, which lies in the midst of a desolate plain.

For Pointing a Revolver.

Wm. J. Evans, 249 Clinton-street, was arrested yesterday, on a charge of pointing a revolver. It is charged that he pointed a revolver at John Hickey on July 31.

GOT TO

Have Sharp Brains Nowadays or Drop Back.

The man of to-day, no matter what his calling, needs a sharp brain, and to get this he needs food that not only gives muscle and strength, but brain and nerve power as well.

A carpenter and builder of Marquette, Mich., who is energetic and wants to advance in his business, read an article about food in a religious paper, and in speaking of his experience he said: "Up to three years ago I had not been able to study or use my thinking powers to any extent. There was something lacking and I know now that it was due to the fact that my food was not rebuilding my brain.

"About this time I began the use of the condensed food Grape-Nuts, and the result has been I can think and plan with some success. It has not only rebuilt my brain until it is stronger and surer and more active, but my muscles are also harder and more firm where they used to be loose and soft and my stomach is now in perfect condition. I can endure more than twice the amount of fatigue and my night's rest always completely restores me. In other words, I am enjoying life, and I attribute it to the fact that I have found a perfect food." Name given by Postum Co., Battle Creek, Mich.
