**Amatite Roofing Needs No Painting**

**AMATITE** is made of pitch, and it makes an ideal roof. There are two layers of this wonderful waterproofing material in Amatite.

If you are a practical man and know what a nuisance and expense roof painting is, you know the value of a "no-paint" roof.

Amatite comes in handy rolls with nails and cement free. Skilled labor is needless. You can lay the roof yourself.

Look into the subject. We will supply you with sample without charge or obligation. Address our nearest office.

**Creonoid Lice Destroyer and Cow Spray**  
Use it before milking and cows will yield better.

**Everjet Elastic Paint**  
Save money by using this black paint wherever the color is no objection. Elastic, heat-proof, durable. Use it for "rubber" roofings and all exposed iron and wood.

The wearing surface is composed of a pitch-concrete made by embedding crushed mineral matter into a tough pitch matrix.

Rain has no more effect on the pitch than it has on the mineral, and year after year Amatite roofs give perfect service without any paint or care.
