FORT FRASER

has outlived its first struggle for existence. Today Fort Fraser is a trade centre, with substantial business houses. Today Fort Fraser is the seat of government jurisdiction for the Fort Fraser district and the Nechaco Valley. Today the Nechaco Valley, of which Fort Fraser is the centre, is known to have the largest and most productive area of agricultural land in the entire province. For these reasons and many others, an investment in Fort Fraser at the present low prices can not be otherwise than profitable.

PLAYGROUNDS COMMITTEE FAVORS ACQUISITION OF LOWEY ESTATE

Limit of $100,000 Is Put On the Price; Property Is Situated About One Mile Up the Bow River; Very Beautiful Natural Park; Bridge Necessary

The purchase of the Lowry estate for $100,000 was recommended to the city council by the Playgrounds comittee yesterday afternoon. The Lowry estate is a mile or more up the Bow River and is a very beautiful natural park. A few acres is now used for a market garden. It is situated in the valley of the river cut off by the C. P. R.! The entrance would be by a bridge across the Bow. There are fifty acres in the estate.

The owners are asking $175,000 for it. The committee realizes the value of the place as a city park, but believed that the price was too high. The assessed value is placed at $27,000 However, they recommended that $100,000 be offered for the place.

The committee also endorsed the request of the professional baseball club to move across the track in Victoria Park and locate near the city car barns. This will not interfere with the allotment of space to the amateur teams which play in the park. The club will erect baseball grandstands and bleachers.

The Playgrounds committee endeavored to provide an open play ground on the north hill by making arrangements with the Baptists for the use of 14 acres owned by them. The committee, however, was not successful.

To an enquiry made by the city of the price of ten acres immediately west of Louise bridge and across and along the Bow River, the Calgary Water Power Company answered that the property was not for sale.

Chairman Crichton Ald. Tregillus, Ald. Costello, Dr. Scott, Dr. Dowsen, Dr. MacRae, Geo. Lemon and W. M. Davidson were present.

MEDICINE HAT LETS CONTRACT FOR DRILLING OF MORE WELLS FOR MUNICIPALITY

Nine New Wells Are To Be Drilled; International Supply Company, of Which W. R. Martin Is the Head, Is Awarded the Contract

Medicine Hat, June 17—The largest contract for the drilling of natural gas wells ever awarded in this city was yesterday given to the International Supply company of Medicine Hat by this municipality, the total of the amount involved being about $75,000, and assuring an adequate supply of natural gas for some time, taking into consideration the rapid growth of the city and the large number of industries that are now definitely locating here. There will be nine new wells drilled, which will be located in various parts of the city by City Engineer A. K. Grimmer.

There were three tenders for this large contract, the successful bidder being W. R. Martin and A. P. Phillips, owners of the International Supply Co., who have been in this business for many years and have put down a large number of gas wells in the Medicine Hat district as well as in other parts. The price per foot, including casing, etc., of the successful tender was $5.45. The depth of each well will be from 1,000 feet to 1,200 feet, to reach the Medicine Hat gas sand. Mr. Martin expects to start the work of drilling at once, with two or three up-to-date drilling rigs, and to have the contract completed by December.

At present, the city of Medicine Hat, which controls the gas rights in four townships, has a dozen wells, of which four are used exclusively by several factories. During winter, of course, there is a heavier draft on the wells than in summer, as the gas is used exclusively for heating, as well as for cooking and lighting, the cost being the nominal figure of 18 1-2 cents per thousand cubic feet. At present but three of the eight wells ordinarily used by the city for domestic, municipal and small industrial use, are turned into the general gas mains.

It is the policy of the city government to keep well ahead of the requirements for natural gas, but the population and factories having doubled in the past year, with every prospect of this rapid and substantial growth continuing, the city council decided to have more wells drilled this year, so as to be on the safe side, especially during the colder weather when the demand is greater. Officials in the gas department at the city hall report that there is no diminution in the rock pressure and flow from the respective wells now in use, it varying from 550 pounds to 600 pounds to the square inch and with a flow of from 2,000,000 to 4,000,000 cubic feet each 24 hours.

CONSUMERS' LEAGUE WILL OPEN AT PUBLIC MARKET ON SATURDAY

(Continued from Page One)

ization. That Victoria might not best us in our own game Mrs. Newhall urged everyone to join the league and not to wait till a few had brought down prices for the benefit of the many. Without co-operation from everyone, Mrs. Newhall called the work of such an organization "a thankless job, bound to come to a bad end."

All Women Interested.

Madame Anderson stated that she thought many women knew nothing of the league, because they did not read the papers, and cited cases she had found in canvassing among German women and others. Without exception she said women were interested, once the idea was explained to them, and in instances where the income was small, the women had been most grateful to these to had takeft the matter up, and all promised to be at the market on Saturday at 8 o'clock, when it opened. "Unfortunately," she added, "many people are cowards and only join an organization when it is known to be flourishing."

Secretary Woodbridge of the United Farmers of Alberta Association, before entering into details concerning the produce being brought into the market, said that he wished it understood that whatever he did or said relative to the league, he did said as a private citizen and member of the league and not as secretary of the United Farmers. Continuing, he stated that the carload of fruit and vegetables which had been ordered from British Columbia would arrive on Friday, the producer or man travelling with or before the car to see that it was not held up en route.

Good Things to Eat.

The car contained potatoes, beets, turnips, carrots and other vegetables besides strawberries and other fruit. Mr. Woodbridge could not yesterday state prices, but quoted strawberries at about $2.50 per crate, plus freight, amounting to about 11-2 cents per pound. These crates contain about 24 boxes, while the crates in the city are selling at 25 cents a box or $4 per crate, more than the producers are receiving. The drayage between the railway and the market would, Mr. Woodbridge said, amount to about 3 cents per 100 pounds. He further stated that the time in which to make arrangements with the British Columbia producers had been very short, but that in future the league committee would get consignments of chickens, butter and eggs.

Market Opens at 8.

On Saturday the market will open at 8 a.m., the stalls to be in charge of officers and members of the league. Membership cards will be at the market on sale at 25 cents each, and no one without a card will be allowed to buy. Besides the fruit and vegetables already quoted, the C.P.R. has been asked to send in cucumbers, lettuce and tomatoes from their farms, while farmers who care to bring chickens, eggs and buter will find a ready sale. It must be understood, however, that no goods will be left in the market overnight, and that all left unsold must be reduced in price or taken away. As many women are going prepared to buy in large quantities, small carters would do well to wait in close proximity to the market on Saturday morning and forenoon.

The officers appointed for the league until September were as follows: President, Mrs. E. B. Newhall; secretary, Mrs. George Wells; treasurer, Mrs. H. A. Singley. As prices can be obtained from Mrs. Wells, and as her number is not in the telephone book, it would be well to note in all Household Diaries—Mrs. George Wells, M4258.

Pacing the Policeman.

One day a leading politician was motoring along a country road when he noticed a cyclist following closely behind, apparently trying to keep pace with the car. The politician said genially, "Shall we pace you?"—and the car went ahead with increased speed. Great was the discomfiture of the car, however, when a mile or so farther on they were brought up by two constables in uniform, and learned that the cyclist was a member of the police force who had been vainly striving to overtake the car!

Alfred Was Not so Glad.

A young wife put down her book with a sigh. "What is it darling?" her husband asked. "Ah, dearest, I am so happy," she replied. "But, dearest, I am Gcsw-shie replied. "But you had such a sad look in your eyes just now." "I know, I've been reading about the unhappiness that th ewives of men of genius have always had to bear. Oh, Alfred dear, I'm so glad you're just an ordinary sort of fellow!"

MOTHERWELL IS HOME FROM VISIT TO OKLAHOMA

Attended Meeting of International Dry Farming Congress, Called For Purpose of Removing O. A. Brewer From Office of Chairman

SIX MONTHS OF MISRULE BELIEVED TO BE ENDED

Brewer Organized Oklahoma Board of Control of Congress Consisting of His Personal Friends; Secretary Burns Manages to Block Scheme

Regina, Sask., June 18.—Honorable W. R. Motherwell, minister of agriculture, has just returned from Tulsa, Oklahoma, where, as president of the International Dry Farming Congress, he attended the meeting of the international board of governors called for the purpose of removing O. A. Brewer, an old-time political leader of Oklahoma, from the office of international executive chairman. This ends six months of misrule of the affairs of the congress since the organization moved from Lethbridge, Alberta, to the city of the southwest.

The Lethbridge convention last year was said by the officers of the congress to have been the best attended and the most successful meeting ever recorded in the history of the organization. At Lethbridge the spokesman of the Oklahoma delegation represented that the entire Oklahoma board of agriculture would back the congress, and their invitation was accepted. Brewer was then a member of the board of agriculture, but was later ousted from that office by popular vote. He organized an Oklahoma board of control for the Dry Farming Congress, consisting largely of his personal and political friends, and endeavored to control the affairs of the Conress, finally passing a proposition to several of the members of the Oklahoma board by which the exposition in connection with the Congress would become a means of private gain.

Burns Blocked Plan.

In the meantime, Brewer and his political friends endeavored to get control of the fifty employees of the United States department of agriculture in the state of Oklahoma, but his effort was defeated largely through the activity of Secretary Burns of the Dry Farming Congress, who felt that such control would result in the withdrawal of federal support from the congress in this state.

Chairman Brewer made charges against the secretary and the secretary preferred charges against the chairman, claimin among other things a fraudulent contract for the purpose of getting the congress into Oklahoma. At the same time some one began an active propaganda of destruction in the ranks of the Dry Farming Congress, and for a time the life of the oranization was threatened.

The meeting last week of the international board of governors has cleared the atmosphere of troubles; has explained away many private and public attempts that have been made to discredit the congress; has placed at the head of the international executive board W. I. Drummond, one of the best known agricultural publishers in the southwest, and has very thoroughly purged the official ranks of the congress.

Tulsa Raises $150,000.

President Motherwell states that the affairs of the congress are now in splendid shape; that the citizens of Tulsa have, by personal subscription and public bond, subscribed $150,000 for the erection of a great auditorium to seat eight thousand people, for exposition buildings, etc., and to exploit the congress and exposition.

The sum of $7,000.00 will be spent by the Province of Saskatchewan and liberal amounts by various boards of trade or aricultural societies in the province to take a Saskatchewan exhibit to Tulsa that will retain the world's trophy won by Saskatchewan at the Lethbridge exposition.

President Motherwell today expressed the opinion that hundreds of Canadian farmers will take advantage of the opportunity to boost Canadian agricultural possibilities at the Oklahoma Dry Farming Congress next fall.

Regina in 1914.

"The indications are," he said, "that the exposition will be of much greater magnitude than was the case at Lethbridge, but I believe that Canada will continue to lead in this movement. In fact, we must do so as we expect to invite and to obtain the congress of 1914 for Regina, and to maintain here the greatest agricultural convention and exposition ever held, not only in America, but in the world. I call upon Canadians to ive this matter careful and immediate attention, and especially desire that the individual farmers should co-operate with their agricultural societies in this work."

Canada has long taken a leading part in affairs of this great congress, and because Canada supports the movement, it has had remarkable growth. At Spokane three years ago the Canadian delegation captured a number of valuable trophies. At Colorado Springs they won the world's best prizes for the best exhibits, and last year Saskatchewan defeated seventeen states and three other provinces of Canada in the contest for the trophy. Alberta and Saskatchewan will combine to defend the Canadian record at Tulsa next fall.

Prominent Citizen Dies

New Westminster, B. C., June 18.—While motoring just outside the city tonight ex-Mayor John A. Lee dropped dead in his car from heart disease. At the close of his third successive term as mayor he was elected president of the New Westminster board of trade. He was a director of many of its institutions and a prominent Conservative. He leaves a widow and two children.
