LONDONER HONORED

Mr. George J. Galarneau Named Grand Organizer for the West of the C. M. B. A.

The Grand Council of the C. M. B. A. of Canada at a recent meeting appointed a Londoner, Mr. George J. Galarnetu, grand organizer of the society for Western Canada. His territory, consisting of all the country lying between Kenora and the Pacific coast. Mr. Galarneau, who has been conducting a shoe store on the corner of Oxford and Maitland streets for the past five years, has always taken a deep interest in the workings of the society since joining Branch 371 in the East End about ten years ago, holding a large number of offices in that branch, and last year establishing a new branch in the North End in connection with St. Michael's Church, known as Branch No. 498. He was born in Courtright, Ont., coming to London about fourteen years ago, and previous to starting in business, worked for the London Shoe Company, Limited. Mr. Galarneau is the first Londoner to be appointed to a high office in the C. M. B. A. since the late Mr. S. R. Brown, formerly grand secretary of that organization. He expects to assume his new office on or about the 1st of March. It has not been decided yet which city of the west he will make his headquarters. Mr. Galarneau is a nephew of Sister Serephine of Mount Hope Orphanage.

GAS, SOURNESS AND INDIGESTION VANISH

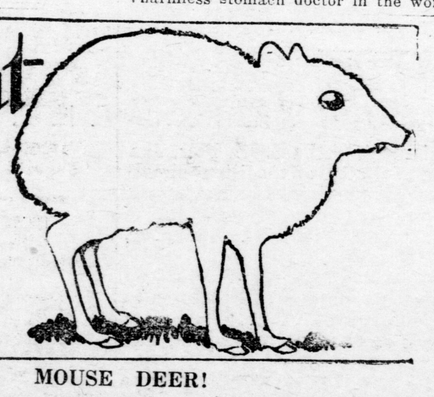
As Soon as "Pape's Diapepsin" Gets in Stomach All Distress Is Gone.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Diapepsin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvellous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.

What It Is



MOUSE DEER!

That's the answer to The Advertiser's animal puzzle, printed Saturday.

Scientists and bookish persons call it a "chevrotain." But IT is a mouse deer, and is traceable to the same ancestry as the ordinary deer. It is the smallest deer in the world. It is 8¾ inches high, and weighs 60 ounces.

Some thousands of years, or during the middle Tertiary time, this mouse deer's ancestors roamed over North America, but years and years ago it took a dislike to our climate and moved to warmer climes.

This one was found in India and was sold to Taylor Pyne, who brought it to America and gave it to the New York zoo.

When the mouse deer lives at home, it is the most timid of animals, hiding in dense jungles, and is rarely seen, so shy is it.

It walks with a queer, stiff-legged, tip-toeing gait. Its head resembles that of a mouse, except for the tusks. It has the legs and hoofs of the deer family, while its body looks much like that of an American rabbit when hunched up. Its fluffy fur is snow white, except for a reddish tinge along the spine.
