THE BEAUTIES OF NATURE.

BY MISS FRANCES L. HYDE

How glorious, how beautiful all
The works of God! there's not the smallest thing
In all the vast and unlimited field of
Nature, but will reveal, if closely scanned,
Some lineament of grace, a something
To admire. The humblest flower, that lifts
Its tiny leaves up to the sun, is ripe
With beauty; with what matchless symmetry
The little bud is folded, how sweetly
The colors blend in its dainty leaf, yet
It is passed unnoticed, and the frail flow'r
Blooms in its lonely home, unrewarded.
Unregarded.

O nature thou art a
Glorious field for thought! I look around
Upon thy broad domain, survey thy wild
Fantastic scenes, thy towering mountains,
Rugged heights, those gloomy monarchs, that from
Age to age, mock all time's change, and
Rear aloft their frowning brows, with the same
Eternal grandeur, as when Jehovah
First placed them there.

O how the soul expands,
When the immensity of Creation
Is considered! what an august, what an
Amazing conception, does the planetary
System afford, of the glorious works
Of our creation! when the shades of night
Steal over the landscape, and nature seems
Hushed in sweet repose, then far, far away
Amid the floating ether, ten thousand
Brilliant orbs, send forth their hallowed light,
Cheering the immensity of space, and
Displaying in silent magnificence,
The great and glorious mechanism
Of our Creator. How strange, and yet how
Beautiful! What a theatre of light and
Glory! Oh how sweet to bow, before the
Great and wonderful author, who underneath
The vacuity, with his presence, whose
Hand pointed out the orbit of the stars,
And poured the mighty ocean into its
Fathomless abyss.

And now, O feeble
Mortal what art thou? Lift up thine eyes, and
Behold the wisdom of thy God! thinkest thou,
Of that great secret agent, that causeth
These worlds of light, to dance the mazy round,
O'er circling ages? Canst thou improve one
Portion of the harmony and beauty
Of the vast creation? Ah no! for God
Hath made *every thing* 'perfect' in his time.

REMOVAL.

THE Subscriber has removed his PIANO FORTE MANUFACTORY to the Premises in Prince Wm. street, situate between the Commercial Bank and the Bank of British North America.

The Subscriber, having enlarged his establishment, will shortly have on hand a variety of Instruments, which, for equality and purity of tone, he flatters himself that ladies and gentlemen (*Pianists*) will pronounce satisfactory, and which he can safely *warrant* to stand the climate. He begs, also, to invite the attention of the public to the celebrated IRON FRAMED PIANOS manufactured by him, which he recommends as possessing decided advantages over other Instruments, both for increased durability, and remaining unaffected by the frequent changes of the weather.

The public are respectfully invited to call and examine.

☞ PIANOFORTES Tuned, Repaired, Exchanged and Let on the most reasonable terms.

References given to gentlemen of the highest respectability, by whom he has been patronized.

EXTENSIVE MILL PROPERTY.
To be sold by Private Bargain.

ALL that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one Mill, containing six saws in single Gates; with a GRIST MILL, in good order, driving two pair of stones.

The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order and some of the Gangs could be driven throughout the entire year, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak thus securing the whole waters of the river, for the driving of the Mills.

Connected with the Mills there is a fine large Store, well adapted for the business of the country, and a Blacksmith's Shop, and a good Cottage and Garden attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.

There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side, the latter embracing the Holybrooke Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Woodstock, or to the subscribers at St. John. ROBERT RANKIN & CO.

MARSH, late DRURY.
April 3. *Prince William street.*

By the Queen's patent.

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.'

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, Inflammation of the Lungs, Croup, &c. it is unrivaled. But the Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons affected with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST EFFICACIOUS remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this: they know that in no case have such effects been produced:—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*; this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
