FRESH AIR FUND.

A Committee Organized to Give Poor Children Outings this Summer.

Humane Secretary J. J. Kelso presided at a meeting held in Richmond Hall yesterday afternoon, the object being to enlist the sympathies of the Toronto philanthropists in furtherance of a scheme to give poor children not reached by any other organization an outing and a good feed two or three times during the summer. There was a good attendance of ladies and gentlemen.

Rev. Dr. Parker having opened the meeting with prayer, the chairman dwelt on the need of such an organization and the good it would do. He also said the Humane Society would try to get a bylaw passed prohibiting young girls from selling newspapers or anything else on the streets and licensing boys over 8 years of age. It was proposed to distribute the tickets for the trips and feeds through the Salvation Army, the Christian Union Mission, lady visitors and similar organizations. Mayor Clarke, ex-Mayor Howland and other gentlemen had sent letters approving the scheme and promising help, so that the chairman felt anxious to start the society at once.

Short addresses in support of the movement were given by Ald. Piper, Peter McIntyre, Miss McMaster, Miss Alexander, Rev. Dr. Parker, J. Ross Robertson, Mr. Saunders, Rev. W. Patterson and others, after which the following were appointed a committee to carry on the work: Mayor Clarke, ex-Mayor Howland, Ald. Fleming, Ald. Piper, Ald. Macdougall, Rev. Dr. Parker, Rev. W. Patterson, J. L. Hughes, Christian Brother Tobias, Miss Alexander, Miss McMaster, Rev. D. J. Macdonnell, Mrs. Piper, Mrs. Brett, Miss Howe, Mrs. Claus, Mr. Stark, Mr. Saunders, Peter McIntyre, E. Taylor and J. Ross Robertson.

The Public, Separate and Model School children will be asked to contribute two cents each to the funds. The meeting adjourned until Tuesday evening next, at the same place.

They Were of Canadian Manufacture.

As some misapprehension exists regarding the casket and case in which were placed the remains of the late Archbishop Lynch, it having been alleged that the casket was supplied from New York, The World gives the following authentic particulars. Messrs. Semmens, Ward & Evel, undertakers' furnishers, Hamilton, manufactured the casket, the order for which was taken by Mr. L. C. Hawkey, manager of the Toronto branch of the firm, 32 Front-street west. It was a splendid piece of workmanship; manufactured out of solid red cedar, covered with rich black broadcloth and drapery, with combination of silk and velvet fringe and metallic inside. The handles were long extension woven silk bars with heavy silver attachments. It was richly upholstered inside with white satin, the lid being hinged. The outside case which contained the casket when taken to the grave was of highly polished solid oak, with silver corners, lined with purple plush. The casket and case were the first of the kind ever used in Toronto.

Ice Blockade in Thunder Bay.

The Port Arthur grain elevators are running a good chance of holding last season's wheat for some time yet. The ice is unbroken in Thunder Bay 10 miles out and shows no signs of giving. Manager Henry Beatty of the Canadian Pacific Railway Company's line of boats told The World yesterday there was much inconvenience at the Port on account of the blockade. It was costing the company a good deal as the crews had been hired for the season and the vessels were unable to leave Owen Sound or Sarnia, as they could not get through the Straits.

Let the Blue Devils Subside.

From The Hamilton Spectator.

The Toronto World expresses the opinion of a great majority of the people of Canada when, a few days ago, it asked the traducers of the country and the searchers after political nostrums to rest from their labors and let those who are really working for the country to go on with their labors undisturbed.

To BUILDERS and ARCHITECTS

FIREPROOF BUILDING MATERIAL.

The Rathbun Company of Deseronto are now manufacturing and have for sale all kinds of fireproof building material. Their Porous Earthenware or Terra Cotta is recommended by Architects and Insurance Companies as unexcelled for protection against fire. Weighs one-third that of brick, mortar adheres to it without the use of lath, it may be nailed, sawed and worked with carpenters' tools, it takes the place of wood or brick for outer or inner walls and floors at about the same cost, insures immunity from fire, dampness and vermin, giving warmth in winter and coolness in summer, lowers insurance, decreases the cost of the building.

Persons re-building old structures or erecting new ones are solicited to consult their architects or write us direct in reference to this new material.

MIRACLE GOLD.

BY RICHARD DOWLING,

Author of Tempest Driven, The Duke's Sweetheart, Fatal Bonds, etc., etc.

"Weird and strange indeed are the incidents of 'Miracle Gold,' Mr. Richard Dowling's new novel. He ranks himself by natural aptitude amongst those to whom the pain and pathos of human nature come more forcibly than its pleasures. Mr. Dowling's portraiture of suffering humanity is very forcible. To go no further in those volumes full of startling episodes than the first instalment of graphic sensationalism, we have a very thrilling episode of the sorrow of an orphan heroine. Mr. Dowling plays boldly upon our fancies and makes us shudder."—Daily Telegraph.
