200, being a total expenditure since the commencement of the Society of £1,779,972 2s. 3d. In the last year 104 new Societies were formed, being 36 more than had been formed in the previous year.

The Report having adverted to the constitution of the Society, and to the necessity of preserving its principles entire, after the Rev. Drs. Dealtry and Brunett had addressed the meeting at some length in support of the resolution that the report be adopted, Captain Gordon rose, and addressed the meeting in a very long speech, repeatedly interrupted by hisses, applause and uproar, and contended that no person should be a member of the society, or sit on the committee, who did not believe in the Trinity, and concluded by moving an amendment to that effect. The Rev. Rowland Hill replied amidst great applause to Captain Gordon. He alluded to the noise and confusion of the meeting and said that infidels would have a great triumph over them on account of such proceedings. He did not care who gave him the Bible; he would only ask what *kind* of Bible it was. The Rev. Lundy Foot advocated the exclusion of Unitarians and Arians from all office in the Society. The Rev. J. Burnett, and Sir L. Shadwell, the Vice-Chancellor, protested against the amendment in warm language. The Hon. and Rev. B. Noel seconded Capt. Gordon's amendment in a long speech, which was received with great impatience; and he was followed on the same side by Mr. W. Phillips. Lord Lifford advised that the amendments should be withdrawn. Mr. H. Hughes, M. P., and Mr. Luke Howard, of Ackworth, also opposed the amendments amidst great confusion. The latter gentleman, who is a trustee of the Society, said, "The moment you establish a test I leave you." On the amendment being put, it was negatived by a large majority. The other business of the Society was then transacted; and the meeting broke up after a stormy and disgraceful discussion.

NAVAL AND MILITARY BIBLE SOCIETY.

The Naval and Military Bible Society held its 51st Anniversary on Tuesday, May 10th, at Exeter-hall; the Marquis of Cholmondeley in the chair. The number of persons present was about 3,000. Major Close, the Secretary, read the report, from which it appeared that the receipts were £3,220 0s. 3d., and the expenditure £3,015 18s. 7d. The report having been agreed to, the Rev. H. Melville moved a resolution to this effect, "That an addition be now made to the laws of the society, and that the first law do in future stand as follows—That no one be allowed to be Patron, President, Vice President, Treasurer, Navy or Military secretary, Governor or Member of this city, unless he acknowledge a belief in the Holy Trinity." This motion, he said, was brought forward at the desire and with the concurrence of the committee; and he advocated it in a long and animated speech, which was received with applause and loud cheers. He was seconded by Lieutenant Rind, R. N.; and opposed by Lord Calthorpe, who moved an amendment to the effect that the constitution of the society be not altered; in which he was seconded by the Rev. Mr. Brandram, secretary to the British and Foreign Bible Society. This brought on a very animated debate. The Rev. Edward Irving spoke for some time on the subject in favour of Mr. Melville's motion, as also did the Rev. Mr. Armstrong. On the question being put, the amendment was negatived, and the resolution carried by an immense majority. Although the question was the same which excited so much disturbance at the meeting of the British and Foreign Bible Society the week before, the meeting on this occasion was very orderly.

The Observer.

TUESDAY, JUNE 28, 1831.

Our London dates by the way of New-York are to the 16th May. It will be seen that the case of Poland is still hopeful, the Russians having sustained another defeat; and that the usurper MIGUEL, who has so long held Portugal in thraldom, has been humbled to acquiescence by a British naval force, a prelude to other submissions no less degrading.

Electioneering goes on in the United Kingdom auspiciously for the cause of *Reform* and attended with every demonstration of joy and exultation on the part of the people at large. In England and Ireland the majorities in favour of the Bill are great, but in Scotland a majority of 11 will appear on the anti-reform side of the question. In several papers we are informed that Lord Advocate JEFFREY has been returned for *Perth*, but it does not appear whether it is for the County of Perth in opposition to Sir GEORGE MURRAY, or for the Burghs, of which Perth is only *one*.

CIRCUIT COURT.—Bills of Indictment were found by the Grand Jury last week, against Captains Duncan, of the *Mary*; Brown, of the *Eleanor*; Connell, of the *Leslie Gault*; Elder, of the *Billow*; Risk, of the *Charity*; M'Caskey, of the *President*; and Linchey, of the *Wm. Booth*—for a breach of the Act regulating the carriage of Passengers from Great Britain to the North American Colonies.—Captains Elder, Risk, and M'Caskey, have since been found *Guilty*, and will probably receive sentence to-morrow.—Capts. Brown and Duncan have been acquitted, the latter *honorably*—having received a handsome compliment from the Court for the great attention paid by him to his Passengers, and their consequent clean and healthy state on arrival in port.—The trial of Captain Linchey comes on to-morrow. Captain Connell got to sea without being arrested, he therefore escapes for the present.—Even if no severe sentence is awarded, we hope these prosecutions may be the means of deterring ship-masters in future from departing from the letter and spirit of the law. We believe it has in many cases proceeded more from ignorance than from any wilful neglect or intentional resistance of authority, and if the result of these trials has the effect of fully making known the law and the impossibility of evading its requisitions with impunity, their great practical intention will be answered.

We erred last week in stating that Judge CHIPMAN presided—His Honor Judge BOTSFORD is on the Bench. It is not probable that the business of the Court will be finished before Friday, or perhaps Saturday.

Yesterday forenoon, two horses in the cart of Mr. HENRY AUSTIN (the shaft horse not much accustomed to harness, belonging to W. H. ROBINSON, Esquire,) were left standing at Mr. GODSON's door, near the Catholic Chapel. Mr. Austin was just returning to the cart, but before he could get within reach of the reins the horses started and ran down the full length of Princess-street to Johnston's steps (so called) in Prince Wm.-street, where Mr. Robinson's horse broke from the harness and tumbled halfway down the steps, whence with some difficulty the animal was extricated without receiving much injury. The other horse was more seriously hurt against the railing.—Unfortunately an elderly woman was on the steps at the time, and narrowly escaped with her life. She was severely bruised, though none of her limbs were broken; but medical assistance was immediately procured, and she is likely soon to recover.—It is hoped this will operate as a caution to Cartmen and others, not to leave their horses standing in the street, without being properly secured.

We feel much pleasure at the promptness with which our suggestion as to the necessity of a *light* in the evenings at the corner of Germain and Princess-streets, has been attended to.—We now take the liberty of pointing out another *want* at the same spot, which is very generally felt, viz: temporary *steps*, or perhaps a few planks fastened together, with battens across, would answer as good a purpose—such a convenience would be highly prized, particularly on Sundays, for the majority of Churches being in Germain-street, it is very inconvenient for half the town to be obliged to travel round two or three squares to get into their right path, which they are now compelled to do unless they feel themselves competent to climb up or jump down (according to the way they are going) the face of a rock of some 5 or 6 feet.—As the expense would be trifling and the accommodation great, we hope the suggestion has only to be made in order to meet with attention in the proper quarter, to which we have seldom to make an appeal in vain.

GOOD NEWS.—The *City Gazette* says, "The master of a regular trader from Nova-Scotia informs us, that in former years he used to take from this place from 20 to 30 barrels of Flour, each trip, and this season he has yet taken but one solitary barrel. At Wilmot Mountain, good wheat is now selling in plenty at 5s. per bushel; this we call good news!"

The new Colonial Trade Act was officially received by the officers of His Majesty's Customs at this port, in the last English Mail; and its provisions are accordingly in operation here.—*Courier.*

At a Meeting of the Committee of the Chamber of Commerce of this City, held on Thursday evening last, it was Resolved, that the Chairman do communicate immediately with the Committee of the "*North American Colonial Association*" in London, and forward twenty guineas in aid of its funds; and also that he become an annual Subscriber of Five Guineas.—*Ibid.*

QUEBEC, June 8.—Comparative statement of arrivals, tonnage, and settlers, to the 8th of June of the past and present year—

	Vessels.	Tonnage.	Settlers.
1830	263	72,037	8,353
1831	394	101,164	22,988

The sick and poor among the emigrants have much augmented within the last week or two. A considerable number of those without means to meet the expenses of travelling upwards, have set out on foot; and they beg their way to get employment when they can. Others have asked alms about the streets; and public contributions are now about being levied to transport many to Montreal by the steam-boats.—*Neilson's Gaz.*

JUNE 10.—There are numbers of women on the way from Quebec to Montreal by land, leading a child in one hand, carrying another on her back or at the breast, with the thermometer at 90°, and not a farthing to help them among people whose language they do not speak, but the poorest of whom never fail to assist them without any other *certificate*.—The wealthy people in the United Kingdom who encourage these poor people to expose themselves to such misery have hearts harder than stone, and want more kinds of reform than one.—*Ibid.*

JUNE 13.—Total number of emigrants arrived up to this date, 25,672.

PRINCE EDWARD ISLAND, June 14.

On Saturday, the Adelaide, Capt. Barrett, sailed for Bristol, with a full cargo of Wheat and Oats. The departure of this vessel may be viewed as an event of no ordinary interest, when it is considered that she carries the first cargo of grain ever shipped in this Colony for the Parent Country; for although this Island has long been in the habit of exporting largely to the adjoining Colonies—in many instances with considerable loss to the shippers, the English market has never before been attempted. With such spirit, however, has the trade commenced, that two other vessels, of much greater burden, are at present on the berth loading for the same destination. The Adelaide was loudly cheered on her departure.

United States Consular Commercial Agency,
ANTIGUA, 7th May, 1831.

SIR—In consequence of the great scarcity of provisions at this Island, (hardly a barrel of flour or meal being for sale) the Governor yesterday considered it necessary to issue an order, preventing any vessel arriving here with provisions from leaving the port.

I consider it necessary to mention this through you for the interest of merchants in the United States; and at the same time, to observe that there is a scarcity of the articles above mentioned in all of the windward Islands at present.

I have the honor to be, sir, your most obedient servant, RALPH HIGINBOTTOM.

To the Collector of the Customs, New York.

Fayetteville.—The Observer of 7th inst. printed on a half-sheet, informs that a press presented by Messrs. Gales & Seaton, of the National Intelligencer, was on its way to them, which would soon enable them to issue their paper as usual. The Observer adds—"The melancholy aspect of things has been considerably enlivened within a day or two by the sudden appearance of four small houses, moving along among the ruins, to occupy places in the former business part of the town. They were moved entire, except floors and windows, upon timber waggons, drawn by horses.—We yesterday saw the ruins of a three story brick store entirely removed, the flooring on the ground, and in a day or two it will be laid and every preparation made for rendering it habitable as soon as possible. As was stated in our last, the spirit of enterprize is very far from being crushed."

The Boston Committee, have forwarded $2000 to the sufferers; the 1st ward in New York $4000; $2500 from Norfolk, including $104 from two Masonic Lodges; $5000 from Philadelphia, with a promise of $5000 more.—*Boston paper.*

Mr. E. B. Rathbone, merchant of New York, has died of his wounds, making thirteen deaths from the explosion of the Gen. Jackson.—He was in his 27th year.—*Boston Patriot.*

In New York city, last year, May 1, there were 1500 finished houses unoccupied. This year, May 1, more less half that number of unfinished buildings are occupied. Business was never better there.

MARRIED.

On Saturday evening, by the Rev. Mr. Cummins, Mr. WILLIAM CUNNINGHAM to Miss ANN TOWNSEND, both of this City.

Last evening, by the Rev. Dr. Burns, Mr. THOMAS DAVIES, to Mrs. ELIZABETH HAMILTON, both of this city.

DIED.

In this City, on Wednesday last, MEHETABEL, daughter of Mr. Joseph Clifford, aged one year and nine months.

On Saturday morning the 25th instant, after a short but severe illness, which she bore with great composure and pious resignation to the Divine will, (universally esteemed by all who knew her) SUSANNAH, aged 31 years, wife of Mr. Edward Roche, of this city; leaving an affectionate husband and three children to lament the loss of a most loving wife and tender parent.

On Sunday afternoon last, HENRY EDWIN, infant son of Mr. George A. Garrison, aged 7 months.

PORT OF SAINT JOHN.

Brig William, Cannon, Lancaster, do.
Civilian, Banks, Hull, do.
Leslie Gault, Connell, Londonderry, do.
Beaver, Hattrick, do. do.
Schr. Frances Ann, Kinney, New-York, plaster.

SYDNEY, (C. B.) June 4.—On Monday the 30th ult the bark Aurora, Joseph Herring, Master, bound from Liverpool to Miramichi, with dry goods, to Messrs. Cunards, was lost on St. Paul's Island—the Captain, two passengers, and some men, left the Island in a jolly boat, for Prince Edward Island; the mate and remainder of the crew have arrived here, except the Cook, who died on St. Paul's Island—a vessel has been sent by Lloyd's agent to save the cargo and materials. The Mate states that the Ship's jibboom was over the rocks before they saw the land—had a Light House been erected, this vessel with many others sharing the same fate, would no doubt have been saved.

IMPORTANT TO NAVIGATORS.—Capt. Swinton, of the barque Mariner, reports that while lying too, in a heavy gale of wind, on his passage from London to this Port, in Lat 46, Lon 29, 37, he observed a Rock, exposing at times a surface of about 40 feet. It was about 9 o'clock in the morning that Captain S. discovered it, visible only in the furrow of the sea, and directly in the course of the Mariner; who then can tell how many unheard of mariners, may, by means of it have fallen victims to that fate which Captain S and his crew so providentially escaped.—Miramichi Gleaner.

☞ NOTICE.
