GALT.

At a meeting held in Trinity Church, Galt, on Monday, the 18th inst., to take into consideration the appeal made by the Lord Bishop of the Diocese, in his Pastoral Letter, upon the subject of the University, the following resolutions were unanimously adopted:—

Moved by Absalom Shade, Esq., seconded by Dr. Seagram, and

Resolved,—1. That this meeting desires to express its hearty approval of the Pastoral Letter, lately addressed by the Bishop to the Clergy and Laity of this Diocese, being firmly persuaded that Religion should form the groundwork of all education, and that the system of communicating secular knowledge, apart from religious influence or supplication of the Divine blessing, is sinful and pernicious, and deserving the condemnation of every Christian.

Moved by Mr. Reid, seconded by Mr. Craig, and

Resolved,—2. That the Statute passed in the late Session of the Provincial Parliament, annihilating the Charter of King's College, and establishing in its stead the Toronto University, has entirely destroyed the religious character of the Institution, excluding as it does all religious worship and instruction, declaring ministers of religion incapable of holding certain offices therein, and abolishing the necessity of any belief in Christianity on the part of the Professors; that under these circumstances we cannot hesitate to pronounce it a Godless Institution, and in our opinion no member of the Church of England can consistently give it his support.

Moved by Mr. Davidson, seconded by Mr. Hearle, and

Resolved,—3. That this meeting cordially approves of the course adopted by the Bishop in petitioning the Queen and Imperial Parliament, and sincerely trusts that the prayers of those Petitions will be granted, thereby doing justice to the Church in this Province; and in the event of the application not being successful, they will heartily unite with his Lordship in making an appeal to the liberality of the mother country, and pledge themselves according to their ability to assist in accomplishing so noble an undertaking.

Moved by A. Shade, Esq., seconded by Mr. Rich, and

Resolved.—4. That the resolutions adopted at this meeting be published in *The Church* newspaper.

GODERICH.

A meeting was held in St. George's Church, Goderich, on the 18th inst., the Rev. E. L. Elwood, A.M., presiding. Several resolutions were passed unanimously, and the Petitions to the Queen, and the two Houses of Parliament numerously signed, the Parishioners pledging themselves to carry out to the utmost of their ability, the admirable suggestions of their valued and higly esteemed Diocesan with regard to the proposed University.

GRIMSBY.

A Meeting of Churchmen, and others friendly to the Church, was held in the village of Grimsby, on Thursday last, 21st inst.

The Rev. F. J. Lundy, D. C. L., Rector, was called to the Chair, and Mr. R. F. Nelles, was appointed Secretary.

The following Resolutions were carried unanimously; after which the meeting was addressed by Sir Allen Napier McNab, M. P. P., Lieut. Colonel Kingsmill, and the Rev. Mr. Armstrong, Rector of Louth.

The able speeches of these gentlemen were listened to with marked attention, and much applauded. There could not have been less than 200 persons present, and the utmost harmony prevailed.

Moved by Peter Nelles, Esq., J. P., Churchwarden, seconded by Mr. F. Bingle,—

1. That this Meeting receives with much gratitude the able Pastoral letter of the Venerable Bishop of the Diocese regarding the foundation of an University, under the auspices of the United Church of England and Ireland.

Moved by John McLean, Esq., seconded by Mr. R. F. Nelles,—

2. That as Churchmen we have ever been taught that Religion and Education were from the very first joined together by Almighty God, and we consequently *dare* not put asunder these which He hath joined together.

Moved by Mr. Andrew Pettit, Churchwarden, seconded by Mr. John Nixon,—

3. That a Royal Charter was granted, and an endowment set apart to found the University of King's College at Toronto, on the 15th day of March 1827, by His Most Gracious Majesty King George the Fourth, in which Royal Charter are the following words:—"Whereas the establishment of a College within our Province of Upper Canada, in North America, for the education of youth in the *principles of the Christian religion*, and for their instruction in the various branches of science and literature, which are taught in our Universities in this Kingdom, would greatly conduce to the welfare of our said Province."

Moved by Robert Henry, Esq., J. P., seconded by Mr. William Fisher,—

4. That we, as Churchmen, were thankful for the invaluable privilege of being enabled to educate our sons for the learned Professions, and at the same time to secure their being instructed in "all things which a Christian ought to know and believe for his soul's health," according to the doctrine and discipline of our National Church.

Moved by Mr. William Nixon, seconded by Mr. Isaac Marlatt,—

5. That for more than six years the University of King's College has been in successful operation, a blessing to our Country and our homes; and that whilst it was a "School of the Prophets" for our Church, its advantages were debarred to none of those whose religious opinions differ from our own.

Moved by Lieut. Col. Simmerman, seconded by Mr. Joseph Moore,—

6. That by an Act of the last Session of Canadian Parliament entitled "An act to amend the Charter of the University established at Toronto," &c. &c., we are deprived of the advantages possessed by three other Societies of Christians in Upper Canada—the endowment of King's College is wrested from its noble purpose—Clergymen debarred from its highest offices—Religion and the worship of God *banished from its walls*—and the very *name* of *Royalty*, though its founder was a *King*, and a GEORGE, *proscribed and dishonoured*.

Moved by Mr. John B. Pettit, seconded by Mr. Robert H. Nixon,—

7. That against this monstrous and unparalleled act, Roman Catholics, Presbyterians, and Methodists, have as well as ourselves recorded their solemn protest; and have nobly refused to surrender their present privileges in order that they might be made partakers of this *Godless* scheme of education without religion.

Moved by Mr. Jonathan J. Pettit, seconded by Mr. John Durham,—

8. That while we solemnly record our sense of the oppression under which we labour, we cannot fail to remember that as *Churchmen* we are bound by every consideration to submit to "the powers that be," for they "are ordained of God," and that, since the noble intentions of the Royal founder of King's College have been rendered inoperative, as far as regards ourselves and our children, we are the more constrained to use every exertion to remedy the evil.

Moved by Mr. Andrew P. Muir, seconded by Mr. John H. Pettit,—

9. That our venerable and indefatigable Bishop having pointed out the way in which we can establish a Church University, independent of Political influences, we hereby declare ourselves ready, according to our ability, to contribute towards the Foundation of such an Institution, in the humble trust that God will be pleased to bless our endeavours to bring up our children in His "nurture and admonition," that so they may become "trees of Righteousness" planted unto Him.

Moved by Mr. Alexander Carpenter, seconded by Mr. Denis Nixon,—

10. That a subscription list for the Church University be opened at once, and subscriptions and donations in money and lands be now received.

Moved by Mr. Robert Waddell, seconded by Mr. R. F. Nelles,—

11. That the following persons be a Committee to obtain subscriptions and donations, with instructions to report, with all practicable speed, to the Treasurers at Toronto:—

The Rector of Grimsby.	Messrs. J. Adolphus Nelles.
The Churchwardens.	" John B. Pettit.
Messrs. Jonathan T. Pettit.	" John McLean, Esq.
" R. H. Nixon.	" Lt.-Col. Simmerman.
" R. F. Nelles.	" Robert Henry, Esq.

with power to add to their number.

Moved by Mr. Thomas O. Bingle, seconded by Mr. John Nixon,—

12. That these Resolutions be forwarded for insertion to the *Church*, *Hamilton Gazette*, *British Colonist*, and *Constitutional*, for insertion in their respective columns.

THE PROPOSED CHURCH UNIVERSITY.

At the Annual meeting of the Niagara Branch of the Diocesan Church Society, held in St. Catharines, on the 27th ultimo, the following Resolution was proposed by the Rev A. F. Atkinson, and seconded by G. Rykert Esq.:—

Resolved—That the United Church of England and Ireland having been deprived, by a late Act of the Provincial Parliament, of her University,—an Institution, which, as she trusted, had been secured to her by Royal Charter,—it now becomes the imperative duty of the members of the Church heartily to respond to the appeal made by the Lord Bishop of Toronto, in his recent Pastoral Letter to the Clergy and Laity of his Diocese, and to second by every means in their power his Lordship's effort to found a Church University, in which religion and sound learning should go hand in hand, and from which the knowledge of God shall never be excluded; thus giving to the present and to future generations, in all time to come, the best guarantee, that the education of the youth entrusted to her care shall be based on the only sure foundation—*The Word of God*—"which maketh wise unto salvation."

SACRED CONCERT AT GODERICH.

The Choir of St. George's Church, Goderich, gave a Sacred Concert, on Tuesday evening the 12th inst. The selection of music was admirably chosen from Handel's Oratorios of Messiah, and Solomon, and also the classical compositions of Kent, Russel and King. The attendance from the town and surrounding neighbourhood was very numerous. Truly the people of Goderich ought to feel grateful to the Messrs. William and Ebenezer Woodcock, the former the Organist, the latter the leader of the Choir, for their untiring zeal and energy in affording such a rich treat to the friends who were present on the occasion.

ARRIVAL OF THE STEAMER NIAGARA.

New York, March 23.

The Steamer *Niagara* has arrived at Halifax, with dates from Liverpool to the 8th.

The *Europa* arrived at Liverpool on the 3rd instant; the *Hermann* at Southampton on the 4th.

The *London Gazette* says that a Queen's messenger passed through Milton on the 25th ultimo, with orders to Sir William Parker to cease hostilities against Greece.—Her Majesty has authorised a publication of the following liberal rewards for the discovery of Sir John Franklin, viz.: £20,000 to any one who will actually relieve the crews of the ships; £10,000 for the relieving, or information that may lead to the relief of any of the crews; and £10,000 to any one who shall first succeed in ascertaining their fate.

Accounts from the manufacturing districts are not satisfactory, and many of the mills in Manchester and other places are working short time, and some stopped altogether. It is not believed that this is more than a temporary arrangement.

FRANCE.—The Anniversary of the Republic of the 26th of February passed off without disturbance.

The Minister of Finance states that the revenue will be adequate for the public service this year, without a new loan or increased taxes. The Postmaster-General opens all letters addressed to suspected persons. This conduct has given rise to a warm debate in the Assembly. It is said that France and Russia are completely united upon the Greek question. It is stated that the French fleet in the Levant had sailed for the Greek coast. We learn from the French budget, just published that the army is to be reduced to 408,600 men, and that the expenses of the nation are to be reduced 84,000,000 francs The conduct of Lord Palmerston, in continuing the Greek blockade, is severely commented upon by all the English journals, and were it not for a belief which exists that his Lordship has made a demonstration against Russia his conduct would meet with general reprobation. The Russian Government has presented an energetic remonstrance against the proceedings of the English Government, and public opinion is general that, if necessary, the Czar will give the Greeks sufficient support. The Russian note to the Minister at London says, "You will demand of Lord Palmerston to what extent he intends to employ force in support of his claims, in order that the the allies of King Otho may be in a position to consider what means may be necessary for them to adopt to guarantee the independence of that Monarch and his people"

The steamer *City of Glasgow* will sail from Glasgow for New York on the 9th.

Colonial.

We have been requested to give notice that the Toronto Horticultural Society intends resuming its exhibitions of flowers, fruits, and vegetables, during the ensuing season. A general meeting of the Society will be held at the office of Messrs. Robinson & Allan, on Saturday next the 30th inst., at four o'clock, for the election of officers for the current year. The lists of premiums to be awarded for the different objects of competition will be made up immediately afterwards, and left at Messrs. Scobie & Balfour's, and Mr. H. Rowsell's, King Street, and Messrs. Gordon's and Fleming's seed stores, Yonge Street.

At the meeting of the Corporation of this city on the 28th inst., Alderman Bowes gave notice of a resolution, recommending the appointment of a Police Magistrate.

MONSTER CATTLE.—We were, yesterday, shown a monster ox which was purchased by Mr. Patrick Mullaney, of this city, from a Mr. Burns, of the State of New York, and brought over here on Saturday last to be slaughtered for Easter use. Parties desirous of seeing this animal will have an opportunity of doing so, at Mr. Mullaney's Stall in the Market, until Thursday next, when it will be slaughtered for sale. It is of the Durham breed, is five years old, and weighs 3000 lbs! It was chiefly fatted by stall feeding, with Indian Meal, Turnips, &c., and was, we understand, fed by the celebrated American statesmen, Mr. Henry Clay. There will also be exhibited for a few days, at Smith's Masonic Arms Hotel, opposite the market, a tremendous ox and heifer, unsurpassed in size and weight, here or elsewhere.—*Colonist.*

A new series of Quarantine Regulations appear in the last *Official Gazette.*

His Worship the Mayor has received the commission appointing the Aldermen of this city to be Justices of the Peace, issued in order to remedy a blunder in the Municipal Corporations Act. It will not surprise our readers much, we dare say, to hear that some of the Aldermen decline the "honour" thus conferred upon them, because they have no respect for the Government which confers it.—*Patriot.*

ELECTRO-BIOLOGY.—We witnessed some experiments in *electro-biology* made by Dr. Freeman on Tuesday evening, and they certainly were very interesting. Two subjects were operated upon with complete succeess, and several of the phenomena exhibited were curious in the highest degree.

Home District.

We observe that a public meeting is to be held at Streetsville, on Wednesday, 10th April, at 12 noon, to take into consideration the propriety of having the Townships of Toronto, Chinguacousy, Caledon, Trafalgar, Esquesing and Erin, set apart as a new county.

Gore District.

Several large flocks of pigeons lately passed over Hamilton. Sign of early spring.

Eastern District.

At the Criminal Court in Montreal, the Grand Jury *ignored* the bills for arson against the parties accused of having set fire to the Parliament Houses on the 25th of April last. The announcement was received in Court with loud cheers.

THE PARKMAN MURDER.—The trial of Professor Webster, is still going on. No new facts of any importance have been hitherto elicited.

WHILE the usefulness of Building Societies, whether as furnishing the opportunity for safe investment, or capitalizing real property, is very generally admitted, it is also felt that the large amount which each share in the existing Societies represents operates as a denial of the benefits they are intended to confer to all who are unable to pay the present *minimum* monthly instalment: by the establishment of the Church of England and Metropolitan Building Society, it is designed to remove, as far as may be, this impediment, by reducing the value of Shares from £100 each, the standard which now appears to be generally in use, to £12 10s., thus embracing a much wider field of operation, and opening the door for the admission of a class of individuals, the most numerous in this young and thriving country, and at the same time the most needing, because the least provided with pecuniary resources.

A Building Society established upon such a plan will offer facilities to persons of small means to make gradual acquisitions of property by deposits in the manner of a Savings' Bank; while to those who are desirous of contributing to the support of a Church of England University, or the erection of churches, parsonages, school-houses, and the like, coming more immediately within the scope and intent of a Church of England Building Society, the opportunity will be furnished, by subscribing for one or more shares in the name of such Institution, at a small monthly or quarterly charge, of giving permanent aid to the object of their especial interest.

Although these are its principal objects, the advantages of the Society are nevertheless fully open to all parties desirous of investing funds therein with a view to the acquisitiou of freehold or leasehold property, the removal of incumbrances or liabilities upon property already held by them, or the benefit of receiving the amount of their shares in advance upon furnishing good mortgage security.

Viewed as a means of raising money on real property, the advantageous working of these Societies has been already ably and clearly demonstrated by former writers, and the public mind is too well informed on the subject to require a lengthened dissertation.

They possess to a certain degree the two-fold character of a Savings' Bank and an ordinary Banking establishment. Like the Savings' Bank, they create a capital by the accumulation of small sums periodically paid in and set out at interest; like the ordinary Banking establishment, they advance money by way of loan, but on real in place of personal security: more productive than the former, through the privileges secured to them by law; better protected than the latter, in proportion as real is superior to personal security.

The interest paid by Savings' Banks on deposits is limited to five per cent., those Institutions being restricted in their investments to Bank Stock and Government Debentures; while the premiums permitted by Statutory enactment to be received by Building Societies, in making loans to their Stockholders, raise the average of interest in favour of the depositor with the latter to ten and twelve per cent.

The following short paragraph, taken from the Prospectus published by the Toronto Building Society, may not inappropriately be quoted by way of conclusion to these remarks:—

"As institutions of this nature have stood the test of a quarter of a century's experience in England (where abundance of money could always be had at a low rate of interest),—their principles having, during that period, been thoroughly and satisfactorily elucidated,—it is but reasonable to assume that in this country, where the comparative scarcity of money increases its value in direct proportion, the profits and advantages arising from a Society of the same description, properly conducted, will place its success beyond a doubt."

The Rules of the Church of England and Metropolitan Building Society have been compiled from those of the Toronto, Upper Canada, and other Societies, which have now for some time been in successful operation, with such alterations and additions as experience has shewn to be desirable, or as have been deemed essential to the accomplishment of the objects which this Society has more particularly in view.

☞ Printed copies of the By-Laws and Regulations can be obtained from the undersigned, at the Offices of the Society, Albany Chambers; and it is requested that all Communications may be *post paid.*

EDUCATION.

THE REV. H. N. PHILLIPS informs his Friends, that he has removed his Establishment from TORONTO to PICTON, with the view of receiving into his Family a few Boarders, of not more than sixteen years of age, to be Educated with his own sons.

In order to render his system of Education as complete and perfect as possible, he will devote his time solely to the Care and Instruction of his Pupils.

A prominent feature in his plans is, that those placed under his roof, be not allowed, even during the hours of relaxation, to be without proper surveillance, thus preventing those fatal practices which but too often have their origin when boys ought to be engaged in such healthy recreations as will refit them for study; and thus, too, uniting, what indeed can never be separated without inflicting incalculable injury on youth—moral and intellectual training.

The advantages offered at Picton, beautifully situated as it is amid the picturesque scenery of the Bay of Quinte, easy of access both by Land and Water, and remote from the frequent excitement of more populous Towns, appear, in every respect favourable to this design.

Besides half-yearly public examinations, there will be weekly recitations, and frequent lectures on scientific subjects, illustrated by diagrams and suitable apparatus.

The comfort and health of Boarders will receive from MRS. PHILLIPPS peculiar and unremitted maternal care.

TERMS:

For Board and Tuition, in all the ordinary branches of a sound English Education, with the Greek and Latin Languages, and the Mathematical sciences—£50 per annum, payable quarterly in advance. The terms for Day Scholars may be known by personal application.
