The Firemen's Gathering.

OVER 3,000 PEOPLE PRESENT.

Friday last—the day on which the "Firemen's Gathering" took place here—was a gala day for Ingersoll. The programme adopted by the committee of arrangements was carried out to the letter. Shortly before 12 o'clock the Woodstock firemen, accompanied by their band, arrived at the Station, where they were received by the Ingersoll Companies with cheers. The London firemen arrived soon after, when the whole were formed in procession, accompanied by the Woodstock Band under the direction of Prof. Racket, and the Ingersoll Band under the direction of Prof. Barnhart, and proceeded to the Maple Grove, where luncheon was provided. After spending about an hour in the Grove—the Bands playing at intervals—the several Companies, four in all, namely, the "Operative" of Woodstock, the "Phœnix" of London, and the "Protection" and "Defiance" of Ingersoll—again formed in procession, and marched through the principal streets. On the procession returning a square had formed opposite the Town Hall, where the men were dismissed—to meet again at six for dinner.

Precisely at five o'clock, a young man named Wood made his appearance on the Royal Exchange barn, from the top of which to the top of the Royal Hotel had been stretched the rope over which the "Canadian Blondin" was to walk. The youth—dressed in tight—crossed and re-crossed with apparent ease, amid the cheers of from 2,500 to 3,000 persons congregated to witness the daring feat. The best part of the rope-walking, however, was yet to come. Immediately after young Wood had retreated, a young man named McFarlane, a resident of Ingersoll, asked permission to walk the rope." At first his request was refused, but on urging the matter for some time, he was at length permitted to try—none believing, however, that he would succeed in crossing. To the astonishment of all, McFarlane succeeded in crossing with as much apparent ease as Wood, and his safe arrival on the roof of the "Royal" was greeted with loud and prolonged cheers by the large crowds in the street and on the house-tops. A handsome subscription was raised for both the daring youths.

At six o'clock the firemen dined together in the Town Hall, and in the evening a Ball was held in the Hall, which was attended by most of the firemen and by many of our citizens. The band of Barnhart's Quadrille Band was in attendance, and, as was to be expected, a very pleasant evening was spent.

The handsome manner in which the Ingersoll firemen entertained their London and Woodstock brethren will, we have no doubt, be long remembered. The "gathering" was, in every respect, highly successful, and reflects great credit on the committee of arrangements particularly, the Ingersoll firemen generally, as well as all those who contributed in any way to its success.

Ingersoll Board of School Trustees.

The regular monthly meeting of the School Board took place on Monday evening last.

Present—H. Crotty, Esq., chairman, and messrs Robertson, Chadwick, Cross, McCaughey, Galliford and Parker.

Minutes of previous meeting read and approved.

The Secretary read the Teachers' reports for June; also, a communication from Mrs Alexander, asking for an increase of salary.

On motion of Mr McCaughey, seconded by Mr Galliford, the question respecting the balance of salary claimed by Mr Schell, was referred to the Finance Committee for their report.

The Secretary read the report of the Finance Committee.

On motion of Mr Robertson, seconded by Mr Chadwick, the report of the Finance Committee was referred to a committee of the whole.

Board in committee of the whole.

Moved by Mr McCaughey, seconded by Mr Galliford, that the committee do now rise and report the report of the Finance Committee without amendment.

Moved in amendment by Mr Robertson, seconded by Mr Chadwick, that the report of the Finance Committee be amended by adding $500, for the purpose of building a school house in Ward No. 1.

The motions were then put and amendment lost.

Board resumed.

Moved by Mr Galliford, seconded by Mr McCaughey, and

Resolved—That the report of the Committee on Finance be adopted, and that the Secretary send a schedule of the school expenses to the Clerk of the Town of Ingersoll, and that the Chairman of this Board attend the next meeting of the Council to support the report.

On motion of Mr Galliford, seconded by Mr McCaughey, twelve copies of the Trustees School Manual were ordered to be purchased from the Board of Public Instruction.

On motion of Mr Cross, seconded by Mr Chadwick, the application of Mrs Alexander was laid over until the next meeting of the Board, and the mover gave notice that he would, at that time, bring in a motion to raise the salary of Miss Hovenden $20 per annum.

On motion of Mr McCaughey, seconded by Mr Galliford, it was

Resolved,—That 2,000 school reports be printed for the use of the Grammar School, Mr Reuley's and Mrs Adkins' rooms—and that Mr Chadwick, the Headmaster and the mover be a committee to procure the same, and that they also procure a blank form for the monthly reports of the different schools.

Board adjourned.

☞ The Rev. G. J. Magill, head master of the Union School, is prepared to take a limited number of pupils as day boarders. For particulars see advertisement.

☞ The regular monthly lecture, under the auspices of the Ministerial Association, was delivered in the Town Hall on Tuesday evening, by the Rev. M. Benson. Subject—"The Price of Place." The Rev. lecturer delivered a very impressive and instructive discourse, which was listened to throughout with the greatest attention. At the conclusion a vote of thanks was unanimously tendered Mr Benson. The next lecture will be delivered by the Rev. Mr Beardsall on the evening of the Second Tuesday in September. Subject—"Sacredness of Home." We hope to see the Town Hall well filled [illegible]

The Minkler Oil Well.

PROSPECTS MORE ENCOURAGING.

We have very great pleasure in informing our readers that the indications of the existence of coal oil in this neighborhood continue to be very favorable. On Tuesday last, in company with several of the lessees and other gentlemen, we visited the well on the farm of Benjamin Minkler, Esq., about five miles west of Ingersoll. The quantity of oil on the surface was larger than ever before seen, and experienced oil men are of opinion that oil in large paying quantities is not only to be had on Mr Minkler's farm, but on most of the farms in the neighborhood. The lessees of Mr Minkler's farm are about commencing to bore. The result, it is confidently believed, will meet their most sanguine expectations. As an evidence that oil is to be found in paying quantities, we may mention that an experienced oil man, Andrew Ross, Esq., of London, who represents a wealthy company, has already purchased or leased nearly five hundred acres of land in Mr Minkler's neighborhood, and next week will sink a well—an engine having been purchased and already on the way. We can only repeat, that we believe the existence of oil on the "Minkler farm" is no humbug, the opinions of some people to the contrary notwithstanding.

Base Ball Match.

"BEAVER' vs. "YOUNG CANADIAN."

The "Beaver" Club of Newcastle paid a visit to Woodstock on Tuesday last, where they engaged in a match with the "Young Canadian" Club of Woodstock, for the Silver Ball and championship. A very large assemblage of spectators was collected on the occasion, considerable interest being taken in the match. Both Clubs were fully represented, each turning out their best nines. The game opened in favor of the "Young Canadians," by a score of 24 to 10, who very creditably maintained the lead up to the close of the 6th innings, when the totals stood 80 to 28.—Finding that there would not be time to play the remaining 3 innings before dark, and, also, thinking it quite unnecessary, there being so much difference in the score, the Newcastle boys thought they might as well "cave in." The playing was very good all round, except the fielding of the Newcastle Club. We think they will need considerable more practice before the Silver Ball will find its way to the Town of Newcastle. We append the score:

Board of Health By-law.

A mistake having been made last week in the "making up" of the Board of Health By-law, we re-publish it this week in its correct form:—

BY-LAW No. 97,

For appointing a Board of Health and defining their duties.

Whereas, it is necessary and expedient to appoint a Board of Health in and for the Town of Ingersoll.

Be it therefore enacted by the Municipal Council of the Town of Ingersoll, in Council assembled, under, and by virtue of Chapter Fifty four of the Consolidated Statutes of Upper Canada,

1. Be it enacted, therefore, by authority of the same, that David M. Robertson, Alan Macr, W. H. Eakins, William Springer and I. R. Walker be and are hereby appointed Health Officers of the Town of Ingersoll.

2. Be it further enacted that the above named persons shall constitute a Board of Health within this municipality, and shall have full power and privilege as set forth in Chap. 59 of the Consolidated Statutes of Upper Canada, entitled "An Act respecting Public Health."

3. Be it further enacted that it shall be the duty of the Board of Health to hold regular meetings from time to time as it may be necessary for the preservation of the health of the Town.

4. Be it further enacted that the Board shall, at its first meeting, appoint a Chairman and Secretary, who shall hold office during the ensuing year or until their successors are appointed.

5. Be it further enacted, that it shall be the duty of the Secretary to keep a book, to be procured for that purpose, a record of all proceedings of the Board and of all complaints, and the action taken thereon by the said Board for the purpose of preserving the public health.

6. Be it further enacted, that the Health Officers, or any two of them, may, in the day time, as often as they think necessary, enter into and upon the premises within the said Town of Ingersoll, and if, upon examination, they find the premises are in a filthy and unclean state, that in their opinion may endanger the public health, they, or any two of them, may order the proprietor or occupant of the premises to clean the same, and to remove what is so found thereon.

7. Be it further enacted, that in case the owner or occupant of the premises, as aforesaid, shall neglect or refuse to cleanse the premises or remove the cause of such complaint within twenty four hours after receiving such notice, shall be subject to a fine of not less than one dollar or more than forty dollars.

8. Be it further enacted, that it shall be the duty of the Health Officers, or any two of them, in case the owner or occupant of the premises aforesaid refuse, within the time mentioned in the preceding section, to comply with the directions given, to employ a constable and have such nuisance removed or cleansed as aforesaid, and lay such information before the Mayor or some other magistrate of the County.

9. Be it further enacted, that any person or persons whomsoever found violating any of the provisions of this By law, or interfering with any of the Health Officers in the discharge of their respective duties, shall, upon conviction before the Mayor or other magistrate, be subject to a fine of a sum not less than one dollar or more than forty dollars.

Rowdyism.

On Wednesday evening, about half past nine, three "roughs," named respectively James Corbet, William Keating and Anson Hubbard (colored), in company with a lewd woman from Dunnville, named Harden, got into a row opposite the low groggery on Thames Street Bridge, kept by a woman named Williams. During the *melee* Corbet was stabbed seven times. His injuries are of so serious a character that it is thought he cannot recover. Constable Dundas succeeded in arresting Keating and the woman Harden, who are now safely lodged in the lock-up. Hubbard—who is said to be the one who stabbed Corbet—succeeded in making his escape. We again ask our Town Council—"Is it not time a policeman was appointed?" Corbet is under the care of Drs. Scott & McCausland, and, at last accounts, was doing as well as could be expected.

Public Holiday.

Can we not afford to have a holiday in Ingersoll? Almost all cities and towns around are having a holiday, and we are sure that just now when there is little business doing, one day's enjoyment would be both pleasant and beneficial, and we are sure that the Railway Company would willingly give us a train to any point where it might be thought we would best enjoy ourselves, and see the sights; say to the ever busy city of Detroit where besides seeing that large and beautiful city we could have the advantage of a ride up or down the Detroit river in the Railway Company's steamers, than which nothing could be more pleasant just now. It only requires to be mentioned; let some one take up the matter and go ahead.

Pic-Nic Entertainment.

The Catholic congregation of this town intend giving a pic-nic entertainment on Thursday, the twenty-fourth inst. The place selected for the occasion is the shady grove very kindly offered by Mr Ramsey, at the west end of the town. The committee of management will spare no trouble to make the afternoon of the 24th an interesting one to all their friends who will be so kind as to join on the occasion with their presence. The object of the pic-nic is to raise funds for various charitable and religious purposes in connection with the Catholic church. The ladies of the congregation will set up tables to entertain their guests, as also refreshments will be offered for the comfort of all, and especially of those who will partake in the games and plays of every description which will there take place—such as foot ball, swings, etc., etc. Admission to the grounds, and tables, 25cts. Hurrah for the twenty-fourth, when is anticipated a most pleasant afternoon, enlivened by the gay and harmonious sounds of our much improved Band. Tickets will be sold at the stores of Messrs. J. O'Neill, W. Fetherston, J. Callaghan, F. Stone; and at R. A. Woodcock's book store, at Mr P. Kennedy's, at the church and at the gate. Entertainment to commence at 1 o'clock p.m.—*Com.*

SUDDEN DEATH.—An old man, by the name of John Williamson, died very suddenly on Wednesday evening 9th inst, at the residence of his son, 11th concession, where he occasionally resided for a few days. The deceased had long been addicted to intemperate habits which no doubt hastened his death. Having been absent for some time he returned quite unwell, on the Monday previous. Alarming symptoms were noticed towards evening of the day on which he died, when Dr. Lancaster of Culloden was sent for, who arrived about 9 o'clock p.m. finding the old man in the agonies of death. Shortly after his arrival he was seized with an apoplectic fit, from which however he seemed to recover, but breathed his last about fifteen minutes afterwards.—*Com.*

☞ At the last monthly meeting of the Ministerial Association, the Revds. Messrs. Benson, Cross and Baldwin were appointed a Committee to make requisite preparations and arrangements, initiative for the organization of a Mechanics' Institute in this town. We sincerely trust the Committee will be successful in organizing a Mechanics' Institute—for we are sadly in want of such an institution.

TO CORRESPONDENTS.—"A. Z."—Your lines are respectfully declined. "W. H. C."—Your letter in reply to E. M. P. is too personal, therefore we decline inserting it. We must also decline inserting any further correspondence on the subject of C.S.E. We would willingly do so, however, did we think the readers of the *Chronicle* would be benefitted thereby. A good story is told of the Bury (England) election. It is said that Mrs. Peel went to canvass an elector in behalf of her husband, Mr Frederick Peel, and found that the man whom she wanted was not at home. His wife, however, volunteered the information that he could not vote for Mr Peel because he had voted for Mr Phillips, and had received £25 for doing so, whereas he would have got only £20 from the other side.

MUSIC MASTER—
DRAWING MASTER—
DRILL SERGEANT—SERGT.-MAJOR GRAY, late of the Royal Canadian Rifles.

THE COLLEGIATE INSTITUTE—with accommodation for 150 Boarders—will be ready for the reception of Pupils by the 1st of SEPTEMBER next, 1865.

The object contemplated is to provide a Classical, Scientific and Commercial Education, for the sons of gentlemen, commensurate with the wants and progress of this rising country.

The Discipline of the Institute will be based, as nearly as possible, upon the model of the great public schools of England and Germany.

The utmost care and attention will be bestowed on the moral and religious training of the pupils, under the direct charge of the Reverend the Head Master. The fact that the Masters will be resident, secures supervision at all times: the preparation of the lessons in the evening will also be under their superintendence.

To secure every comfort for the Boarders, a lady of high character and experience has been secured to take the management of the domestic department.

COURSE OF INSTRUCTION.

Languages: Ancient—Latin, Greek, Hebrew. Modern—French, German.

Mathematics, Pure and Mixed.

Natural Sciences: Physical Science, Chemistry, Natural History, Geology, Mineralogy, Experimental Philosophy, and the Use of Instruments.

English and Commercial: Composition, History, Geography, Book-keeping, Music, Drawing, Gymnastics, Drill.

The above course will be divided into three Departments—1. The Classical Department. 2. The Modern and Scientific Department. 3. The Junior Department.

(1.) In the Classical Department all those branches of knowledge will be taught which are necessary to prepare pupils for the universities and the learned professions.

(2.) In the Modern and Scientific Department the Course of Study will embrace less Latin and Greek, and more Mathematics, Modern Languages, English Literature, History, Geography (including Physical and Political), Composition and Book-keeping.

There will be a Special Class to prepare pupils for the competitive examinations for admission at Woolwich and Sandhurst, for direct Commissions in the Army and Navy; for the Civil Service, and for Mercantile Pursuits.

(3.) In the Junior Department, younger boys will go through a course of study, which will equally prepare them for either of the two other Departments. Special attention will be paid to a thorough grounding in the Grammars, and the essentials of an English education. Boys will be admitted to this department at seven years of age.

The Collegiate Institute being furnished with a complete set of Scientific Instruments, peculiar facilities will be afforded to the pupils for acquiring the practical use of them, for Engineering, Mining, Telegraphing, and also for the Study of the Natural and Experimental Sciences.

BOARD AND TUITION FEES.

For Board and Washing ..... $140 per annum
Tuition Fees for Board'rs and Day Pupils equally including Modern Languages, and all the other branches (except Music, Drawing, Gymnastics and Drill) ..... $8 per annum.

A reduction will be made in the case of sons of clergymen.

The payments for Board and Tuition, which are apportioned between the three Collegiate Terms, must be *strictly in advance*. All other school accounts will be sent in, in the usual way. A Term's notice must be given in writing to the Head Master before removing a pupil.

Books and Stationery supplied in the school at Regular Prices.

COLLEGIATE TERMS.

The School is divided into three Terms, which commence and terminate as follows:—1st Term—20th January to the Thursday before Easter. 2nd Term—The second Tuesday after Easter to the 20th of June. 3rd Term—1st of September to the 22nd of December.

Every pupil will be required to return without fail on the day appointed for the reopening of the school after a vacation, as unpunctuality not only sets a bad example, but deranges the entire work of the classes. Fines, after the rule of the public schools in Europe, will be imposed on every boy who fails to appear at the appointed time, unless he produces a *bona fide* certificate of ill health, or other unavoidable accident.

PRIZES.

A liberal number of Prizes will be awarded at the Annual Examination before the Midsummer Vacation, in the disposal of which regard will be had to the general conduct as well as to the work of the various competitors during the preceding year. Special encouragement will be held out for the cultivation of truthfulness and high honor, of manly and generous qualities among the boys in their intercourse, whether in or out of school.

Exhibitions and Scholarships for Universities will be founded as the Collegiate Institute progresses.

THE BUILDING, GROUNDS, ETC.

The Collegiate Institute is situated near the town in a beautiful site, in the most healthy city, and stands in ten acres of ground.

The new and extensive buildings contain 40 spacious Class Rooms; a large Dining Hall; Library; Museum; Dormitories; and Bath Rooms supplied with hot and cold water for the use of the Boarders. The whole premises have been designed and arranged with a special view to the convenience, comfort and health of the occupants, in accordance with the most modern improvements, as respect warmth and ventilation.

A Sanatorium has been arranged, isolated from the rest of the buildings, where pupils, in case of sickness, will receive the best medical attendance.

The Grounds (fenced in) comprise Cricket Field, Gymnasium, Five's Court, Covered Shed for wet weather, etc., and every encouragement will be given to the pursuit of manly and healthy games, under careful superintendence.

REMARKS, ETC.

1. To insure early admission to the Collegiate Institute, it is necessary that timely application be made to the Head Master, as from the number of scholarships already taken up, it is expected that the vacancies at his disposal will be limited; and a considerable interval may elapse before a pupil, entered on the books, can actually be admitted.

2. The Clothes brought by each pupil must be according to the regulation list appended.

3. A Report by the Head Master, of the pupils severally, with regard to proficiency in their studies and their general conduct, will be transmitted to their parents and guardians at the end of each term.

4. Parents are requested not to send with their boys, or allow them to bring, novels or works of fiction. Independently of the pernicious effects upon a boy's mind, produced by such indiscriminate reading, the invariable result is that school lessons are neglected. A School Library, to which pupils are required to subscribe $2 per annum, will be provided for their use; and it will be furnished with such interesting works as will be suitable and profitable for a boy's reading.

5. Boys will be allowed unrestricted liberty in corresponding with their parents and friends. If letters are sent home badly written, or carelessly spelled, the evil might be checked if any glaring examples were forwarded to the Head Master.

6. Parents are earnestly requested not to furnish their sons with a large supply of pocket money, as this practice tends to foster extravagance. Parents would do well to authorize the Head Master to give a fixed sum for pocket money every week, on a scale graduated to a boy's position in the school with power to increase it in cases of industry and good conduct.

Application for admission, and for all further particulars, to be made to
