noon of the 2d, he spoke a bark, name not recollected. The Captain informed him that a row boat with eight or ten men in her, took from him his chronometer, all the watches on board, and everything valuable they could find, and left the crew tied. A vessel came along shortly after, and liberated the crew, when they proceeded on their voyage. —[N. Y. Journal of Commerce.

DREADFUL STEAMBOAT ACCIDENT—*Seven Persons Scalded.*—The Baltimore Clipper says that the small steamer Oregon, Captain Jury, which has been running on Sundays from the intersection of Light and Pratt streets, in that city, to the Fish House and Patapsco Gardens, blew up, on Sunday afternoon week, about 4 o'clock, scalding some seven persons. She started from the wharf at two o'clock, P. M., stopping at the Fish House, on the South side of the Spring Gardens, and then proceeded to the Patapsco Gardens, on the Patapsco river. She had landed her passengers, and was about starting on her return trip, when the stern end of the boiler blew out partially clearing the deck, and dreadfully scalding some seven of the passengers on board, two of whom were children. Some three or four have been scalded so bad, and have inhaled so much of the hot steam that it is doubtful if they will survive. Several persons were knocked into the river, and others sprang overboard, and but for the fact of the boat being at the landing, the destruction of life would have been dreadful. We learn that the steam had been collected whilst the boat lay at the landing, ready for starting, and the fact of the boiler being nearly worn out, caused the dreadful occurence.

LEAD.—We see it stated that there is an amount of lead now lying on the wharves at Galena, Illinois, to the value of *twelve millions of dollars.*

THE CROPS.—We have no doubt, from all we see, hear, that there will be realized greater crops in this country than for the last seven years; and one great reason for this is, that our farmers are more diligent, understand their business better than they once did, put more manure upon the land, plant just enough for them properly to take care of. Hay has come in this year heavy, and we believe there has been a larger yield than usual. Corn, we learn from the farmers out of town, bids fair to exceed last year. Rye has nearly all been cut, and the yield is uncommonly large. Of wheat, oats, barley, &c., we have not learned, as yet, the result. Potatoes are good, though there has not been a large yield of early ones from the last week's heavy rains, come in well. We have not as yet heard a word indicating the return of the disease among them, and sincerely trust it will not again make its appearance. Of turnips, (of which we raise better than can be produced in Boston or New York markets,) there will be a large crop.

From all parts of the State we hear of the most cheering accounts of the coming crop. The heavy rains of the last week it was thought would do some injury, but we are pleased to learn, that all apprehensions are dispelled.—*Detroit paper.*

The farmers had most of their wheat cut and put up in the fields early last week. Before the stalk was sufficiently dry to haul to the barn, it commenced and continued to rain at intervals during the week, and did not clear off until after a heavy thunder storm on Sunday evening, since which time it has cleared up with a north wind and cool atmosphere. For a time there was great fear of the wheat growing, but since the storm abated all apprehensions on that account are dispelled.—*Niles (Mich.) Courier.*

We have made it our business to become acquainted with the crops of wheat, corn oats, potatoes, &c. Beyond dispute, the crops of all kinds never were better in the State. The wheat, with some slight small and local exceptions, is far superior to any former year. The quantity sown was greater; it is thicker on the ground; filled better, and without rust, smut or blemish of any kind.—The corn fields are like the cane brakes of the south. Never were exceeded in extent and quality. Oats, hay, &c., are also more than a usual crop.—The only deficiency is fruit. Indiana, this year, will raise produce enough to feed one half of the whole human race for twelve months if none of the crop be fed to stock or still houses.—*Brookville (Indiana) American.*

Recovered Treasure.—The schooner Cecil, Capt. Binder, has arrived at Baltimore from Cumana, having recovered about $20,000, in addition to the sums previously recovered from the wreck of the Spanish gun ship San Pedro de Alcantara, burnt and sunk on that coast some thirty years ago.

The celebrated "Leaning Tower" of Pisa, it is said, (though we don't believe it) has fallen to the ground in consequence of an earthquake which occurred on the 18th of June. It was 170 feet high and 12 feet out of the perpendicular. About 20 feet remains, so that the great secret of whether it was purposely constructed in a leaning position or not, remains undiscovered. A statement was made a short time since, that an old picture, with the column in a perpendicular position, had been discovered; this of course would go to show that its leaning position was the result of accident. It was constructed in 1174.

TRINIDAD.—We read in the *Port of Spain Gazette* of the 15th ultimo, of the arrivals there of the barque *Cormoall*, 100 days from Madras, and 27 days from St. Helena, with 277 Coolies from the first named Port, and with 97 captured Africans whom she had brought from St. Helena—and that another Barque, the *Bangalor*, 92 days from Calcutta, had also bro't 301 Coolie Immigrants, of whom 232 are men, 44 women, the remainder children. Another Coolie Vessel is also spoken of as expected to close arrivals from Calcutta for the present season.

The Trinidad *Spectator* speaks of the wet season having set in, and of the weather of this year having been uncommonly propitious. It is stated, that from 14 000 to 15,000 hogsheads of sugar are still in the Island, besides a large quantity of Molasses.—This we suppose, is rather a serious affair, as the roads in the wet season are almost impassable.

The Berbice Gazette, of the 14th ultimo, also informs us that three batches of Coolies had been received within a few days. On the 6th, the *John Calvin*, from Madras, with 270; the *Lady Peel* from Calcutta, with 241; and the *John Wickliff*, with 276—making a total of 787.

PRECISELY WHAT WE PREDICTED.—The Express says:—"Since the passage in Congress last winter of the law regulating the Bonding of Emigrants, the tide of emigration by way of Canada, has been rapidly increasing. The Commissioner of the alms house is daily annoyed with petitions from people who came into the country through the Northern channel. It required no keenness of prophecy to foretell that the restrictions which we were laying upon the foreign passenger business would deprive us of that profitable business while it would inundate us with foreign paupers landed in Canadian and neighbouring ports. We shall see the effects of these mischievous laws next year, unless they should be repealed. But we may very soon look for full supplies of paupers from Canada. They are pouring into Montreal and Quebec in unexampled numbers; many of them who will immediately come down the canals to join their friends, or to be taken care of by our citizens, would unquestionably have come directly here but for our bonding regulations."—[New York Mirror.

The Elections throughout Nova Scotia for members to serve in the Provincial Legislature, took place on Thursday the 5th instant. The papers generally state that the elections have taken a turn adverse to the Conservative cause, the radicals claiming a majority of seven or nine. We give the returns as far as have come to our knowledge:

FOR HALIFAX, M'Nab and Doyle for the Town, and Howe and Mott are returned for the County.

ANNAPOLIS.—The three conservatives are returned for this County, viz:—The Attorney General, by 350 over Chipman; Thorne by a majority of 200; and Whitman, by 125 over their opponents.

HANTS COUNTY.—Smith and Wilkinson have been defeated in Hants by Card and McDougall; Fraser is again returned for Windsor, and Dimock for Newport. Sangster has beaten Elkanah Young for Falmouth.

KINGS' COUNTY.—Brown has beaten Harris in Horton; Beckwith is again in for Cornwallis; Hall and Moore have carried the county of Kings against S. Chipman and Borden.

COLCHESTER COUNTY.—From the Eastward we hear that Creelman is elected in place of Ross for Colchester; Wier in place of McLellan for Londonderry; Crowe again in for Onslow, and Fleming for Truro.

CUMBERLAND.—The Conservatives have carried the three seats.

PICTOU.—G. R. Young and Robinson, have been elected by a majority of 95; and Blackadar, by 35; showing a gain of one for the Liberals in this county.

YARMOUTH.—Huntington and Kinny have been returned for the County: Ryder, has been returned for Argyle.

SHELBURNE.—McKenna, Homer, and Snow are returned.

GUYSBOROUGH. Desbarres and M'Donald.

FOR THE CHRONICLE.

Mr. Editor.—An anonymous scribbler in the *Morning News* of 6th inst. in reply to the communication of an "Old Puritan" of the 2d ult., inserted in your paper, has very unjustifiably, and unhandsomely brought my name before the public. Now all the arduous duties of my sacred calling forbid my entering into a newspaper controversy with any individual, even if I felt inclined so to do. Had I the time and inclination, I could by the testimony of many highly respectable individuals, prove that the facts contained in the letter of an "Old Puritan," are "the truth, the whole truth, and nothing but the truth"—whereas the communication falsely signed "Truth," is a tissue of misrepresentation and untruth."

I have to request, that if the parties intend to continue their controversy, they will omit the mention of my name altogether.

Yours, &c.

Wister's Balsam of Wild Cherry,

the greatest remedy for

CONSUMPTION,

And the best Medicine known to Man for

Asthma, of every stage, Liver Complaints, Bronchitis Influenza, Coughs, Cold, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c., and all other diseases of

PULMONARY ORGANS.

A very important disease over which this "Balsam" exerts a powerful influence, is that of

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectually remedy in ASTHMA, a complaint in which it has been extensively used with decided success, even in cases of years standing.

It not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavour to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that Consumption may and "CAN BE CURED," if this medicine be resorted to in time.
