SCHOOL TENDERS ARE BELOW ESTIMATES

Twenty Thousand Dollars Less Than Appropriations in One Case.

LIVELY DISCUSSIONS

Protests Are Made Against Excluding Press From Committee Meetings.

Tumult during the public discussions of the property committee of the board of education was followed by another secret session yesterday afternoon. When the press were requested to withdraw Trustee Wemp made a timely protest. He pointed out that if the newspapermen had to get their information second-hand from interested members of the board it was the trustees' own fault if one-sided reports leaked out.

Trustee Miller made a similar protest at the management committee. The property committee members offered to allow the press to remain if pledged to secrecy. The muzzle offer was declined.

The committee room was crowded at the open session. About 20 contractors were present.

Workers' Privileges.

Secretary John Doggett appeared for the building trades council to ask for a renewal of the holiday and sick leave privileges of union men in the maintenance staff of the building department. The privileges were cut off by a resolution of the board on the ground that the board's obligation ended when the union rate of pay per hour was paid.

The plea that the mechanics should be given equal privileges with other employes of the board was favorably received, but any action will have to be taken by the board.

Contractors whose tenders came before the committee were present in force.

Noisy, but good-humored debates were held over temporary arrangments for various over-crowded schools where additions are to be erected this summer.

C. J. Doughty of the building department brought the discussion to a halt by reporting that there were now "portables all round" which could be utilized, and the arrangements were left with Business Administrator Pearse with authority to act.

Tenders were let for several school additions and plans adopted for others. Especial animation was manifested respecting the $150,000 addition to the Dewson Street School. This will be a complete unit, and the additions will eventually outclass in size and equipment the present school. This marks the finish of the forlorn hope battle made by last year's "progressives" to have the Dewson School scrapped and for a new site, and entirely new building in its place. Yesterday's verbal tempest was over pro tem expedients to ease the overcrowding.

Additions to School.

Approval was given the plans for the $35,000 new front wings and entrance to Kew Beach Public School. The addition will give four new class rooms and by a slight alteration of one of the present wings give space for a principal's office on the north side of the ground floor corridor.

Plans for two new wings, for four class rooms and a teachers' rest room at Riverdale Collegiate Institute were passed and the new Bolton Avenue Public School. The addition will cost about $80,000.

The tenders were all well within the appropriations, being $20,000 less than the estimate on one of the big new buildings.

Trustee Wemp placed before the committee an offer from the militia department of the Dominion government to lease a site for a temporary public school for North Riverdale. The offer was accepted, a portable to be installed to give immediate accommodation for two classes. This will furnish a school for about 80 younger children, who are now too distant from a school.

Use of the Riverdale Collegiate Institute gymnasium was applied for by two neighboring churches. Requests were sent to a sub-committee.

A deputation from ward two asked that the Park School playground should be available for boys and girls over fourteen years of age, after five o'clock and that the O'Neill Park should be used by the juniors. Consideration was promised.

COMMUNITY SERVICE FINDS CHILDREN HOMES

In making his regular monthly report to those who supported the federation drive last November, M. C. MacLean, secretary of the Federation for Community Service, has much to say regarding the federation activities in the child welfare branch. In referring to the work of the infants' home and infirmary he shows that no fewer than 108 infants were cared for during February and March, and that 30 mothers during this period received the kindly attention of the home. But the most interesting announcement is that homes have been found for 50 children, 40 being placed in boarding homes and 10 given permanent homes. Eight mothers were placed in permanent position and no inmates died.

The report also shows that the federation for community service contributed to this child welfare branch the sum of $4,639.66.

Burials in Toronto Show Large Decrease

There were nearly 100 fewer burials in the Toronto cemeteries in the month just closed than in March of 1920. The returns follow:

	1920.	1921.
Mount Pleasant	147	127
Necropolis	29	23
Prospect	245	216

St. Michael's	11	6
Totals	689	597

WOMAN'S PLEA FOR COMMUNITY SPIRIT

Home and School Club sa Greatest Movement in Modern Education.

That the Home and School Club is one of the greatest movements in modern education is the gist of what was said by speakers at the home and school luncheon held at the Central Y.M.C.A. yesterday. Miss A. E. Marty, M.A., the first woman inspector of the province, comparing conditions of today with those of the past, said that the school is today recognized as a miniature world where children are developed for citizenship. She advocated the kindergarten thru every phase of education up to the university, and made a plea for adult education and the community spirit. This, she said, could be done by the home and school clubs, which could also do much for preparing the way for the enforcement of the adolescent school act and for the consolidated school.

As president of the Trustees Association, Judge J. H. Scott of Perth told of its large membership and the significance of its operations, even tho but half the province has been taken into its organization. He hoped the whole of the province would be reached before the next annual meeting.

Great Reconstruction.

That Ontario is in the midst of the greatest educational reconstruction the province has known since the days of Egerton Ryerson, so great that those most closely associated with it do not understand its magnitude, nor will this be appreciated for fifty years to come, was the statement of the new president of the Ontario Education Association, Dr. J. D. Waugh.

Mrs. John Todd of Orillia, president of the Ontario Women's Institute, representing 39,000 women, stated that in every institute effort is being made to have a home and school committee, recognizing the home and school association as the heart of the new movement.

Miss Hodgkins, specialist in physical training, emphasized the importance of scientific physical training under trained instructors in developing sound, intelligent citizens. That there are only two schools in Canada where instruction along this line can be given, was also stated.

New Officers Elected.

S. B. McCready of Toronto was re-elected president, Mrs. Alex. MacGregor of Toronto was re-elected corresponding secretary, Mr. C. B. Hamilton was re-elected treasurer, Mrs. A. C. Courtice was re-elected organizing secretary, and Miss Austin of New Toronto was elected recording secretary, succeeding Mrs. Harris McPhedran, who resigned.

The vice-presidents for the coming year are: Dr. A. E. Marty, Toronto; Mrs. W. J. Corson, London; Mrs. Reece of Birchcliffe, Miss Cherry of Toronto and Dr. L. Meade-Sirrs of Windsor; Mrs. S. T. Medd of Peterboro, Mrs. Wm. Todd of Orillia and Mrs. George Brodie of Newmarket.

YEAR'S CUSTOMS RECEIPTS SHOW DECIDED SHRINKAGE

Since the beginning of the year there has been a steady increase in the customs revenue at the port of Toronto, and for the past three days substantial jumps fall to be recorded.

Figures for the past fiscal year which ended yesterday, will show a drop from last year of approximately $1,252,000.

Service in Memory Of the Zeebrugge Raid

The provincial executive committee of the Navy League of Canada (Ontario division) have arranged for a special raid of Zeebrugge commemoration service to be held in the Allen Theatre, East Richmond street, on Sunday evening, April 24, at 8.15, under the patronage of his honor the lieutenant-governor, Premier Drury, Mayor Church and Major-General Victor Williams, C.M.G., accompanied by many other prominent men of the city. The musical portion of the meeting will be of a special character and addresses will be given

LAKE OF BAYS.

In the Highlands of Ontario, 145 miles north of Toronto, lies the beautiful district known as the Lake of Bays region. One thousand feet above sea level, the climatic conditions are ideal. There is absolute immunity from hay fever. Splendid hotel accommodation, including the Bigwin Inn, the largest summer hotel in Canada, and one of the most popular. For illustrated descriptive literature write any agent Grand Trunk Railway System, or to C. E. Horning, D.P.A., Toronto, Ont.

Add Minister's Name To Company Action

The Ontario minister of forests and mines has been added as party plaintiff in the action brought by the attorney-general against the Shevlin-Clark Company, and arising out of the timber probe.

R. T. Harding's affidavit before Master-in-Chambers Cameron says that it is necessary to have the addition "to enable the crown to have all the rights and remedies arising out of all the transactions of the defendants, and without the minister the plaintiffs will not be able to have the liability of the defendants adjudicated upon."

SLEEPING SICKNESS DEATH.

Another case of death being due to sleeping sickness occurred yesterday, this time a baby, when Herbert Bruce, aged four years and three months, died at his parents' home on Pape avenue.

HE HAD EVIDENCE.

Louis Calhern, leading man of the Lois Weber studio, was once a reporter on a western newspaper.

"Our star reporter was sent out one day to learn if the saloons of Denver were open in defiance of the law," said Mr. Calhern. "Four days later he returned, and reported that they were."

ORDER YOUR COPY EARLY

FREE

This week only

At any drug store named below, a 10-day tube of Pepsodent. Simply present the coupon. Let this new way prove itself. Judge by results what it means to you. Learn now the way that millions know to whiter, safer teeth.

For Beauty's Sake

Remove that film-coat from your teeth

Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.

This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.

Film—the great enemy

But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.

Now a new dental era

Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.

These methods are combined in a tooth paste called Pepsodent. Together they combat the film as nothing else has done. And they are fast bringing, the world over, a new era in teeth cleaning.

That is the tooth paste you are urged to test. See the instant results—watch the effects for ten days. Then decide for yourself between the old ways and the new.

The unique effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.

See and feel it act

Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

Now daily used by millions

Millions of people are now using Pepsodent. You can see the results wherever you look—in glistening teeth.

Women who think their teeth white now should see how they look with the film gone.

With men who smoke the films are apt to be particularly discolored. They will see the most conspicuous results.

But children need Pepsodent most. Their teeth are most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. It may save them troubles life-long in effect.

WOMAN WINS PRIZE FOR ONE-ACT PLAY

At the meeting of the Women's Canadian Club yesterday the successful competitor in the contest amongst writers of one-act plays, for which a prize of $100 was offered by the club, was announced, the winner being Mrs. Bettie Primrose Sandiford, wife of Professor Sandiford of the University of Toronto. There were fifty competitors, all being amateur writers in Toronto or York county. The name given the drama is "Crows." The judges were Mr. Hector Charlesworth, Mr. Roy Mitchell and Mrs. John Garvin.

The speaker of the occasion was Lieut. W. J. Osborne-Dempster, who told of some of the things he saw while in Russia on active service, and as a prisoner of war. The conditions as described, particularly those of the women and children, were a picture of the barbarities of Bolshevist government.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis, accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Question Signatures On Pavement Petition

Several residents of Coleman avenue will present to the city council on Monday their version of the circumstances under which the city was induced to consent to the laying of a bitulithic pavement on that street, and they will ask for an asphalt pavement instead.

Messrs. Noel Drummond, Robert Nimmo and Fred Davis, who presented their case to the works committee the other day, alleged that some of the 57 signatures on the bitulithic petition are not genuine and other residents signed under a misapprehension. They now want asphalt because it is less expensive than bitulithic and will, they contend, meet the traffic requirements of their street. Seventy-one property owners out of a total of 82 have signed for an asphalt pavement.

SESSIONAL APPOINTMENTS.

W. A. Langton has been appointed special lecturer in architecture, and H. B. Dunnington-Grubb, special lecturer in landscape architecture at Toronto University.

UNKNOWN MAN IDENTIFIED.

Charles Sallway of the Aged Men's Home, 51 Belmont street, died, unknown, in St. Michael's Hospital and was brought to the morgue yesterday, where he was identified by C. Erwood, 456 Grace street.
