POULTRY.

The poultry have now all arrived, and the judges have commenced work amongst them. The birds that were exhibited in Toronto are beginning to show the ill effects of the continued confinement, while others are suffering from the moult. In Asiatics some first-class birds are exhibited, Dark Brahmas being sent by Messrs. S. Butterfield, Sandwich, W. H. Doel, Doncaster, and J. Peart, Freeman, while the Light Brahmas are well represented by specimens sent by S. Butterfield and R. McKay, Hamilton. The Cochins are fairly represented in their different varieties, but their popularity has disappeared, as they are eternally brooding, and not particularly good for the table. Messrs. Aldous, Berlin, Geo. Hope, Toronto, and Mr. Butterfield are prominent exhibitors in this class. The French breeds are slim in attendance. Houdons are the most popular, being layers of large sized eggs. The White Leghorns are growing in popularity, and their yearly average as egg producers is very high. Messrs. S. Butterfield, W. M. Smith, and Stahlschmidt show some black old birds. The Black Spanish (together we think still over-bred to fancy points, and still a valuable breed. Messrs. Banks and Mann, of Toronto, are the principal exhibitors of old birds. The Dorkings seem to be renewing their popularity of late years in Canada. Jas. Mann shows a fine pair of imported coloured birds. W. J. Way, of Toronto, again sends his collection of bantams, and J. J. Weldon, of London, his collection of pigeons. The geese and turkeys are, as usual, immense in weight and size, and among the exhibitors are those well-known breeders Jas. Main, W. Smith, and Jas. Russell.

Hore & Son, Hamilton, who make an exceedingly creditable display of home manufactured articles.

MEETING OF THE COUNCIL.

A meeting of the Council of the Agricultural and Arts Association was held on Monday at the Royal Hotel. Mr. J. C. Rykert, President, was in the chair, and there were present the Hon. D. Christie, J. B. Aylesworth, C. Drury, E. Caswell, K. Graham, Prof. Brown, S. White, Prof. Mills, J. Shipley, Otto Klotz, K. W. Roy, H. Wilmot, and Geo. Moore.

After routine business,

The PRESIDENT presented and read the report of the judges on prize farms. The following awards were reported, 21 farms having competed: First prize, gold medal—J. B. Carpenter, township of Townsend, North Norfolk. Second prize, silver medal—Christopher Barker, South Dumfries, North Brant. Bronze medals—H. & J. Hutchison, Niagara township, Niagara; Thomas Edgar, North Dumfries; Dilman Shantz, Waterloo; John Fothergill, Nelson. In the case of H. & J. Hutchison, Niagara, a silver medal was suggested instead of a bronze medal, the farm work being unusually good. The farms examined, of which the above gained the prizes, were in groups, No. 1 comprising the following electoral districts and counties:—Niagara, Welland, Lincoln, Haldimand, Monck, Wentworth, North Wentworth, South Brant, North Brant, South Norfolk, North Norfolk, South Waterloo, North Waterloo, and South Halton.

Mr. KLOTZ presented the report of the Committee on Diplomas and Protests, which was adopted.

The Hon. DAVID CHRISTIE moved that the extra prize for coffins be not allowed, and that in future no exhibition of such articles be permitted. He said he considered it very unseemly to parade the insignia of death at our fairs. The motion was carried.

The President distributed samples of no fewer than eighteen varieties of grapes and of the best kinds of pears among the members, all grown upon his property in St. Catharines.

The meeting discussed the fruit with much gusto and passed a vote of thanks to the President for his courtesy.

Mr. DRURY suggested the engagement of the band of the 18th Battalion to provide music on the fair grounds, and the matter was referred to the committee.

The meeting then adjourned.
