I have also the sole right to use

Young's New Axle Cutter

Patented in the United States and Dominion of Canada. We would call the attention of alll owners of carriages or waggons to this Machine and the benefits derived from its use. All waggon axles after being two or more years in use become worn till they become loose, requiring the use of leather washers to take up the lateral play; the washers soon filling with sand, cause the axles to wear much faster, unt the axle is soon ruined, or nearly so.

THE REMEDY.

By the aid of this very simple machine, the shoulder for the axle nut is outback and the thread extended, allowing the nut to be screwed farther on, causing the wheel to urn as evenly as when new. Give us a call before purchasing elsewhere. A Paint shop is in connection with the Factory.

☞ Orders respectfully solicited and satisfaction guaranteed.
