General News.

A SHERIFF COMMITTED FOR TRIAL.—Dr. Augustus Robinson, High Sheriff of Annapolis, has been committed for trial in the Supreme Court for shooting a man whom he was arresting under an execution for debt.

— If your horse has a spavin, use Kendall's Spavin Cure. See advt.

— The largest fishing vessel ever built in the Lower Provinces will be launched in a few days at Shelburne. She is 225 tons carpenters' measurement, is to be called the "Geraldine," is owned by A. N. Whitman and others, of Halifax, and is to be commanded by Capt. Wm. A. Goodwin, of Argyle.

*** Wise men say nothing in dangerous times." Wise men are nothing in dangerous diseases but the best and most approved remedies. Thus Kidney-Wort is employed universally in cases of diseased liver, kidney and bowels It will cost you but a trifle to try it, and the result will be most delightful.

— The steamer "Dominion" made her last trip for the season between St. John, Eastport, Campobello and Grand Manan on Friday of last week. Capt. Blauvelt has proved a safe and a popular commander for the route, and it is hoped that he will be found next season on the same route. The "Dominion" is a staunch steamer, and perhaps as well fitted for the route as any we are likely to have.—*Eastport Sentinel.*

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures Dypepsia, Impotence, Sexual Debility. $1.

— On Friday last a child of Asaph and Ada Weinacht was burned to death at Sebastopol, about a mile from here. Her mother had left the house for a few moments to see a neighbor. On her return she found the child dead, and an infant asleep near a burning bed in the same room. It is supposed the little girl, who was only 2 years old, after her clothes caught fire from matches, ran to the bed and from there to where she fell and expired.—*Lunenburg Cor. Yar. Herald.*

— The Sons of Temperance is one of the oldest and most staid temperance orders, if not the very oldest, on this continent, and the good work it has accomplished is immeasurable. It is gratifying to hear that this society has increased by over twelve hundred members the past year in Nova Scotia, where it has been the main intrument in procuring almost prohibitive local restrictions of the liquor traffic. The fortieth anniversary of the institution of the Sons in Halifax was lately celebrated. —*Montreal Witness.*

*The woman who seeks relief from pain by the free use of alcoholic stimulants and narcotic drugs, finds what she seeks only so far as sensibility is destroyed or temporarily suspended. *No cure was ever wrought by such means* and the longer they are employed the more hopeless the case becomes. Leave choral, morphia and belladonna alone and use Mrs. Pinkham's Vegetable Compound.

— About fifty natives of Nova Scotia, New Brunswick and Prince Edward Island, resident in Boston, have formed a Maritime Provincial Association in Boston, the first regular meeting of which was held on last Thursday evening, in college hall, Essex street. The object is social culture, and it is intended to establish a labor bureau for provincial young men and women coming to Boston in search of employment. The officers are: Dr S. J. Peters, President; S. L. T. Robinson, Associate Vice-President; Frank Seaman, Secretary; Mrs. G. A. Scribner, Treasurer; William McKenzie, Financial Secretary.

ISLAND RAILWAY DAMAGES.—The Supreme Court at Ottawa was occupied all day Monday with the case of McLeod, manager of the Union Bank of P. E. Island, who was badly injured by an accident on the Island railway in August, 1880. McLeod brought a petition of right in the Exchequer Court and Judge Henry gave a verdict of $36,000 damages. From the judgment the Crown appealed. The argument was concluded Monday and judgment reserved. There are four other cases involving $9,000 on the same grounds. Judgment reserved. This finished the Maritime Province cases and the Court adjourned to the 7th of November.

GOVERNMENT NOTES.—Canadian bank bills have actually been refused entirely in Chicago, Detroit and some other American cities. We do not wonder at this. There are a number of incorporated banks in Canada, many of them with small capital, and all are permitted to issue bills to be scattered over the country. When we are suspicious of the standing of some of our own banks, we must not wonder if the people of the United States refuse to accept money the value of which they know little or nothing. The only remedy for this evil is the issue of Government notes, which will be good everywhere, as American greenbacks are.—*Belleville Ontario.*

— Some men appear to consider it a hardship to pay for a newspaper that has been sent them regularly every week for five years or more without a cent of pay. If they would look upon the other side they could not help wondering how the publishers can afford to wait so long for his pay, and instead of considering themselves crowded, they should hasten forthwith to the printing office with the pay due the patient and long-suffering printer together with a humble apology for negligence. Bills accumulate upon the subscription book of every publisher of a country newspaper, which must be sent on trust to most of his subscriber or not at all. —*Aroostook Pioneer.*

— Hell Gate, New York, which the shipping interests of the world know to their cost is one of the most dangerous passages on the coast, is to be illuminated. Congress last year appropriated $20,000 for the erection of an iron tower at this place, for the display of electric lights, and the other day Prof. Morton, of New York, Chairman of the Board of Experts, reported to the Lighthouse Board that the most favorable locality for the tower is at Hallett's Point. At this point a tower two hundred and fifty feet in height is to be built, with lights of twenty thousand candle power to illuminate the channel. This, it is expected, will render the dangerous passage as navigable in the night as in the day, and the advantages accruing therefrom to the coasting trade and the shipping generally cannot be over-estimated.

CHANGE OF STEAMERS.—The "Empress" made her last trip for the season between St. John, Digby and Annapolis, on Saturday last. On Monday, the stmr. "Dominion" made her first trip for the winter season, between the above named ports. Although a stiff northeaster prevailed at the time, the passage across was made in four hours, the "Dominion," as usual, proving herself to be a staunch sea-going steamer. The "Empress" proceeded from St. John to Yarmouth on Sunday la t to enter winter quarters, arriving at seven p. m. Capt. Flemming arrived by train from Yarmouth on Monday and took charge of the "Dominion," relieving Capt. Wm. Watt, who piloted her across the Bay. We are informed that Capt. Blauvelt will assume command of the "Dominion" after becoming acquainted with the nooks and crooks of the route, and that Capt. Flemming will retire for a vacation during the winter.—*Digby Courier.*

A GREAT LOSS.—We are sorry to learn that Mr. C. P. Blanchard has lost one of his Ayrshire Cows, which died on Friday night last. We asked Mr. B. to give us some particulars in reference to this cow and he has furnished the following:—"Lady Franklin," winner of the first prize at Dominion Exhibition, Halifax, 1881, over 30 other competitors. This cow had her first calf on the 4th Oct., 1881, and her last calf on the 20th Sept., 1882. During the year she gave over 4000 qts. of milk. When fresh in milk she gave 22½ qts. per day, and 6 months after calving over 15 qts. per day. She gave her own weight in twenty days. The milk was sold for the Halifax markets at 3 cents per quart and realized during the year over $120.—*Truro Guardian.*

— The cable brings word that Lord Dufferin is to be made a Marquis for his diplomatic services. The career of Lord Dufferin, still a comparatively young man, has been a most brilliant one. He is the son of the fourth Baron Dufferin, his mother being one of the most beautiful Sheridan sisters. He was educated at Oxford, but left that university without taking a degree. While still a minor he succeeded to his father's title, and under Lord John Russell's first administration he was a lord in waiting on the queen. He travelled from Oxford to Ireland, accompanied by a friend, in 1847, and published an account of his experiences. In 1859 he made a voyage to Iceland in a yacht, and wrote an account of the expedition under the title of "Letters from High Latitudes." He was sent to the east in 1860 by Lord Palmerston to make inquiries into the massacre of the Christians there, and for his services he was made a K. C. B. In 1872 he was appointed governor general of Canada. His administration of affairs in the Dominion was most successful. Harvard University conferred on him in 1878 the honorary degree of L. L. D. Since then he has been sent to St. Petersburg as ambassador in a time of great difficulty, and thence to Constantinople. He has been the recipient, perhaps, of more titles, distinctions, and posts of honor than any man of his time. He was created an English Baron in 1850, nominated a Knight of St. Patrick in 1863, appointed Lord Lieutenant, county Down, in 1864, sworn a Privy Councillor in 1868, and made an Earl of the United Kingdom in 1871. Of the adage, "Nothing succeeds like success," we have a striking illustration in the careers of Lord Dufferin and Sir Garnet Wolseley.

Effective Work.

The following specific information, imparted by thoroughly reliable people will convey a clearer idea than any amount of abstract reference, how certain desirable results are being accomplished. Mr. Alex. McKechnie, Rochesterville, Ottawa, Ont, says: "I was a perfect cripple with rheumatism in my arms and feet for more than two weeks, when I was advised to try St. Jacobs Oil. I did so; in two days I went to work, and at the end of a week I was as well as ever. I consider St. Jacobs Oil a "dead sure" cure for rheumatism in every form." Mr. James Dempsey, Coburgh St., Ottawa, is pleased to remark: "Having suffered for some time past with rheumatism in the back, I am gratified to say that I have been completely cured after a few applications of St. Jacobs Oil, and can confidently recommend it to any one suffering in like manner.

TELEGRAPH NOTES FOR THE WEEK

Fredericton, N. B., Nov. 6.—Judge Steadman, in the County Court this morning sentenced Newton Lee and George M. Lee convicted of wounding Policeman Vandine while attempting their arrest on the 31st of July, to twenty years service in the Dorchester Penitentary.

St. John, Nov. 7.—A fire of considerable magnitude occurred here this morning at 45 Germain St., burning the building of J. Z. Kaye, the store of F. Beverly, and part of John Beck's produce store, and R. J. Patterson's saloon. Part of the buildings were old, though faced with brick, and burned readily. There were fireworks in Beverly's store, which caused an explosion. The fire was behind the Royal Hotel, but the distance between the buildings prevented the fire touching the hotel. Mr. Kaye loses heavily and is only insured for eighty thousand dollars in the Royal. Beverly is insured in the Commercial for three thousand and is a heavy loser. The other losses are covered by insurance.

Manilla, Nov. 8.—A Typhoon passed over here to-day, doing great damage.

Kingston, Nov. 8.—Last night William Jones died of *tetanus*, resulting from the bite of a hog on Sunday. It acted in a refractory way and he bent it. It turned upon him and bit his hand between the thumb and the index finger. He had the wound dressed at once but from the animal's teeth poison communicated to his flesh and so rapidly that even if the arm had been amputated two days after the bite was inflicted, it is doubtful whether his life would have been saved.

London, Nov. 8.—The *News* says: "Mr. Arthur's administration will be seriously hampered by the Democratic successes. It is more than probable that the wish to tie his hands led many of his supporters in 1880 to oppose him now. The rebuke thus given to the President and his friends was thoroughly well deserved."

Berlin, Nov. 8.—Newspapers here commenting on the Democratic victory in the United States, express hopes of a return to free trade and a more honest railway policy.

London, Nov. 9.—The *Telegraph*, in an editorial on the American elections, referring to civil service reform, says: "We may take it for granted that disgust at the continued indifference of party managers to the national disgrace tended greatly to stimulate thousands of voters, who stayed at home, or defying all traditions of their political lives, voted the Democratic ticket. It would be strange if it were reserved for the Democrats to cleanse the Augean stable of American politics and secure for the people what every well-ruled State must have—upright and permanent civil and judicial service."

The *Standard* says: "If the Republicans in the United States ly seriously to heart the plain lesson of Tuesday's elections, they will not, in the long run, have much reason to deplore the magnitude of the discomfiture in which the misconduct of of their leaders has involved them. The result will certainly give an impetus to civil service reform."

Cairo, Nov. 9.—A note was issued by the Egyptian Government to-day announcing the abolition of European control.

It is stated that the Egyptian Government has presented a note to the diplomatic agents of England and France demanding the abolition of joint control.

Ottawa, Nov. 10.—It is reported here that the Prince of Wales will come to Canada to preside over the next meeting of the British Association for the Advancement of Science, which will take place at Montreal during the coming year.

Dublin, Nov. 10.—At a meeting of the corporation of Dublin to-day a heated discussion occurred on a motion to thank the Irish regiments who served in Egypt for their gallantry and to confer the freedom of the city on Gen. Sir Garnet Wolseley.

An amendment by Mr. Sullivan, declaring that Ireland had no interest in the war, the only result of which was to increase taxation and carry ruin to Irish homes, was ultimately carried by a vote of 27 to 21.

London, Nov. 10.—The *Standard's* Cairo despatch says that active negotiations are proceeding between the Porte and the Khedive with a view of stopping the trial of Arabi.

Paris, Nov. 11.—The police seized a large bundle of revolutionary manifestos in accordance with a pledge given by the Prefect of Police to the municipality. The crucifixes were yesterday removed from the primary schools, where they still remained.

From reports received by the Department of Agriculture, it appears that up to the 31st October, 1881, 153,055 immigrants arrived in Canada, $2,482 of whom remained in the Dominion. This does not include British Columbia arrivals or reports from the United States frontier between Emerson and the Rocky Mountains.

Cairo, Nov. 11.—Lord Dufferin made an excellent impression on the Egyptian ministers. He told them he had not come here to take the direction of affairs out of the hands of Sir Edward Malett but to work with the latter on terms of perfect equality. Malett yesterday discussed with Sir Auckland Calvin the subject of division of the work in connection with Lord Dufferin's mission. The business of the mission commences immediately, as Lord Dufferin has received instructions from the British Cabinet by the mail which has just arrived.

The Troubles in France.

The present troubles in France originated two or three months ago among the miners of Montceau-les-Mines, a coal and iron region in the Saone-et-Loire, and beginning in a dispute about wages, rapidly took an anarchical turn, and produced an association or club, which wrecked and desecrated the churches in the neighborhood, and put bombs under the doors of obnoxious persons, sent threatening letters, and issued inflammatory placards Large bodies of troops have been there preserving order through most of the summer but without restoring confidence. The Anarchists being evidently encouraged by the tolerance of the Republican Government, the contagion has now apparently worked down to Lyons. There is doubtless a good deal of exaggeration in the reports about the state of things there. No part of France, however, has greater reason to be afraid of Anarchists than the mining and manufacturing districts of which Lyons is the centre. From the first revolution down to the troubles of 1871, it has been the theatre of the bloodiest and most ferocious conflicts between the Socialist and society, and excepting those of Paris. Under Louis Phillippe the insurgents held the streets of the city for three days against the troops, and every revolutionary movement in the metropolis has met with a readier response in Lyons than in any other city. There is no question, however, that the temper of the great body of the working classes in France is far soberer and more rational and practical than it has ever been before since 1830. Among the bulk of the workingmen the eutopianism of 1848 is now rarely to be found. But, on the other hand, the fiercer and crazier spirits are crazier and fiercer than ever, and in this way make up in some degree for the smallness of their numbers.

A New Catechism in Drayton.

Q.—What is rheumatism?

A.—Rheumatism is a humorous sensation that causes men to rub their joints with St. Jacobs Oil, play practical jokes, throw things around, wear crutches and stay indoors, swathed in red flannel.—*Drayton (C.) New Era.*

Q.—What is St. Jacobs Oil?

A.—A peculiar substance of a very penetrating nature, which causes rheumatism to leave the system astonishingly quick,—insuring evenness of temper thereby, and ability to do one's work satisfactorily. It banishes crutches, retires flannels, produces happiness, and brings us down to a serene old age without the martyrdom of pain.—*Exchange.*

— The fruit crop in Scotland has been a complete failure. It is the worst season for the last fifty years. One orchard, which is rented for $1,000, yielded one barrel of apples.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

CARD.

HAVING been requested by a large number of the rate payers of Ward No. 10 to allow myself to be put in nomination for Councillor for said Ward, I have great pleasure in acceding to your request, and pledge myself, if elected, to do my utmost for the general interest of the Ward, more particularly in reference to the Road and Bridge service.

H. F. BURNS.

[To the gentleman who signed the requisition.]

Annapolis, Nov. 10th, 1882.

Requisition

To Alfred Vidito, of Granville, Ward No. 4

We the undersigned, rate papers of Ward No. 4, take the present opportunity of recording our appreciation of your services as Councillor for the past three years, especially the work you have done regarding our Poor.

We earnestly request you will again allow yourself to be nominated to represent this ward, and pledge our support to secure your election on the 21st day Nov., A. D. 1882.

GENTLEMEN:—In reply to your flattering and numerously signed requisition to allow myself to be again nominated to represent Ward 4, I beg to assure you that it affords me much pleasure to accede to your request.

I shall endeavor, if elected, to vote intelligently and conscientiously on all measures that may be brought before the Council; and further hope my services may be productive of material advantage to the County generally, and Ward 4 in particular.

Thanking you for your esteemed requisition, I have the honor to remain, most sincerely, gentlemen,

Your obedient servant,

ALFRED VIDITO.
