with the plans and specifications accompanying the same, reported that they had the several documents submitted to them under consideration, and presented the following report, which he read:—

"Your Committee conceives that a Bridge built according to the plan would be a strong one, but the expense which would be incurred to erect the same would far exceed the present grant, and far more than the funds of the Province would warrant.—the Tenders vary from £1212 to £3300.—The lowest Tender was from Mr. Dunn, who informed your Committee that in the specifications many things were left out, and in order to complete the Bridge agreeably to the plan, the extra work would cost £690. In addition to this amount, he was to have the materials now at Beattie's, and in case any proved to be defective it was to be replaced by sound timber.—It also appears that an offer has been made to build a sufficient bridge and warrant the same for several years' for £974.

"Your Committee would beg to observe, that no warrantry is offered in case of the Bridge being built according to the plan submitted by Mr. Cunningham.

"Your Committee recommend that the building of a good and sufficient Bridge should be let at Public Auction to the lowest bidder; the party taking the Bridge to give good security to uphold and maintain the same for at least 7 years.—Your Committee are of opinion, if this plan should be adopted, the sums already granted for that object, and the materials now on hand would be ample for completing the same.

"J. W. WELDON, J. C. VAIL, S. HUMBERT."

*Ordered,* That the report be accepted.

The Address of the House to His Majesty, upon the subject of the Crown Revenues and Civil List, was read, as engrossed, and is as follows:—

TO THE KING'S MOST EXCELLENT MAJESTY.

*The Humble Address of the House of Assembly, of New-Brunswick.*

"May it please Your Majesty,

THE House of Assembly of Your Majesty's Loyal Province of New Brunswick, humbly beg leave to call the attention of Your Majesty to the situation of the Crown Revenues, and the management of the Crown Lands and Forests in this Province, sensible that the paternal affection of Your Majesty, for the welfare of all your subjects, wherever situated, will induce Your Majesty to give this Address that consideration which its importance to the prosperity of New-Brunswick demands.

The House of Assembly having received such information from the Lieutenant Governor of the Province as his Excellency was authorized to give, upon the subject of Your Majesty's Casual Revenue, by which it appears large sums are received from the people of the Province, at a charge far greater than would be necessary, under proper management, are convinced of the justice and propriety of relieving Your Majesty from the payment of any part of the Civil List of the Province, and beg leave to submit this their proposition, to take upon themselves the payment of all the necessary expenses of the Civil Government of the Province, by making such permanent and other Grants as may be necessary for this purpose.

In making this proposition, the Assembly do it in the full assurance, that previous to this measure being carried into effect, Your Majesty will accede to the reasonable condition, that all the Crown Revenues levied and collected in the Province, or which may arise from the sale of Crown Lands by your Majesty's Government, shall be placed under the management and controul of the Provincial Legislature.

The Assembly are satisfied that no measure could more conduce to the true interests of Your Majesty, and to the prosperity of this Province, than the proposed one, of placing the management and controul of Your Royal Revenues in the Legislature of the Province,—by which the complaints of the people of the Province against the system adopted for collection of the Casual Revenues would be removed, and a large saving in the collection of said Revenues effected.

The Assembly are well assured, that under a proper system of management, the expense of collecting the Crown Revenues in the Province could be reduced to less than half the amount of the present charges, and that the saving to be effected would be of incalculable advantage to the Province, in opening roads and making bridges, to facilitate the improvement of the Country, and the settlement of Emigrants from the United Kingdom.

The Assembly will not further urge the necessity of correcting the present system of collecting the Crown Revenues in the Province, as they hope they have made it sufficiently apparent to your Majesty; and they therefore beg leave to suggest for your Majesty's consideration, that for carrying the proposition made in this Address into effect, they will make such provision for the salaries of all Officers in the Civil Departments, as is consistent with the resources and condition of the Province, and which, in addition to the sums required as a provision for the Ordinary Services, would leave but a small surplus of the Crown and Ordinary Provincial Revenues to be applied to general purposes of improvement: and by adopting hereafter a scale of salaries, the Assembly are of opinion, that the sums named for each Officer should be in full of all fees and emoluments of every nature and kind whatever; and that the usual fees should be collected and accounted for quarterly, and become a part of the Revenues to be placed under the controul of the Legislature.

The Assembly cannot think that the Crown Revenues, even under a judicious and economical system of management, will, for a long period, be sufficiently productive to pay the annual expenses of the Civil List, and they are persuaded that in a few years, a large proportion of those expenses must be provided for out of the Ordinary Revenues of the Province.

The Assembly cannot refrain from remarking how desirable it would be, that a final arrangement should be made of all questions of Revenue which have arisen or might arise between Your Majesty's Government, and the Legislature of this Province, and they therefore most earnestly pray, that your Majesty would give to this Address an early and favourable consideration.

# THE OBSERVER.

ST. JOHN, TUESDAY, MARCH 27, 1832.

The Halifax Mail, due on Saturday morning, did not reach this city till yesterday morning, in consequence of the present bad state of the roads. The English Mail for February, arrived by the same conveyance,—but it brings dates only to the 3d of the month. We had previously received by the Western Mail on Saturday, London dates to the 8th and Paris to the 10th of Feb. via New York.—A variety of extracts, to which we refer our readers, will be found in the preceding columns.—Austria and France are each proceeding in force to occupy the revolted towns in Italy.—And DON PEDRO, according to some accounts, had actually sailed on his expedition against Portugal. As the legitimate guardian of the Infant Sovereign of the Country, he certainly has the best claim to the Kingdom, and we hope his efforts to rescue it from the iron rule of an unprincipled usurper, may be crowned with victory. France has, it is said, intimated to Spain, that in the event of FERDINAND marching his troops to the assistance of DON MIGUEL, the French forces will cross the Pyrenees.—The Belgian Question yet remains unsettled.—And it seems to be a very general opinion that from one cause or other a general European War is not far distant.

COLONIAL *vs.* BALTIC TIMBER.—We learn that a letter of a late date, has been received in this city from Liverpool, stating it to be reported in that city, on the authority of General GASCOYNE, that His Majesty's Ministers, immediately *after* the passing of the *Reform* Bill in the House of Commons, intended once more to try their strength on the Timber Duty Question. Should Ministers be so impolitic and unjust to their Colonial interests as again to force the Question upon Parliament, we devoutly trust their defeat may be signal, and forever set at rest this "still vexed" subject.—It is we fear but too obvious that the ruin of these North American Colonies would attend, with *rapid certainty,* the abolition of the protection at present given to their exports.

The schooner *Pilgrim,* SLOCOMB, Master, arrived yesterday from Wilmot, Nova Scotia, and in addition to a large quantity of Beef, Pork, Mutton, &c. has brought over about 200 bushels Indian Corn, of superior quality, and 20 barrels Flour—the produce of Wilmot, the inhabitants of that township having raised more grain last year than they required for consumption.

DARING ATTEMPT AT ROBBERY.—The House in Dock-street, at present occupied by Mr. J. CRIPPS, as a Pawn Office, was entered last night, by cutting out the lower Pannel of the Door, and some cash, chiefly in copper coin, taken away. It is supposed that the Robbers must have been alarmed, as there was property of great value in the place, the whole of which, as far as can yet be ascertained, was left untouched.

QUEBEC IMPORTS.—Value of Merchandize imported from G. Britain at Quebec in 1831—£1,257,078: 2: 1—from Ireland, £55,847: 16: 7—from Br. N. Am. Colonies, £25,278: 2: 5—from Jersey, Gibraltar, Sweden, Spain and Portugal, £10,579: 4, &c.

*Prince Edward Island.*—Exports from that Island in 1831:—11,749 bushels wheat, 17,754 do. barley, 116,703 do. oats, 214,056 do. potatoes, 2,693 do. turnips, 155 barrels pearl barley, 1,192 do. flour, 175,289 lbs. oatmeal, 78 barrels beef, 830 do. pork.

The Maitland and Roslin Castle, transports, with the 96th Regt. on board, arrived at Jamaica on the 5th February, from Cork.

GANNET ROCK.—We understand the Commissioners of Light Houses for the Bay of Fundy have lately made alteration in the Light on the Gannet Rock. THOMAS REED, Esq. has lately returned from thence, having tried several experiments, by taking off part of the red glass, &c. and it now shows a good light with a little red shade, and may be depended on.—This light stands about 80 feet above the level of the sea, and may be seen very plain five or six leagues distance.—*Courier.*

HARBOUR OF ST. ANDREWS.—The Commissioners of Beacons and Buoys in Charlotte County, have given notice, that the Light on Indian Point, will, on the first day of April next, be removed about a cable's length N. E. of its present situation. Vessels entering the harbour from the Eastward will require to make the necessary allowance.—The mast on which the present light is shown, will remain; on the head of it a conspicuous object will be placed as a sea mark.—On the first of May, a square block will be placed on the Sand Reef—and a pole on Indian Point Bar, exhibiting a flag.—A buoy of large dimensions will be seen at least five feet out of water, at the East end of Stinson's Bar. These marks, with the channel buoys, will point out to mariners every danger in approaching the harbour in that direction.—*Ib.*

The Hon. Thomas Baillie, Surveyor General of the Crown Lands in the Colony of New-Brunswick, who is staying in this country on leave of absence, has just received instructions from Lord Goderich, the Colonial Secretary, relative to some plans for the improvement of New-Brunswick.—*London Paper.*

FRIENDLY SONS OF ERIN SOCIETY.—On Monday last, the Anniversary of the Patron Saint of Ireland was celebrated by the "Friendly Sons of Erin' Society in this City.—A large body of its Members, together with several Guests, commemorated the joyful day, by dining at Mr. Welch's, Church-street.—The dinner consisted of good substantial fare, served up in a style which did great credit to the taste and attention of Mr. Welch.—The Chair was ably filled by Mr. T. Waters, President of the Society, and well supported by Mr. Joseph M'Pherson, Vice-President. The Songs and Toasts went round with flowing bumpers of the mountain dew.—Conviviality and good fellowship diffused their joyous influence, and recollections of the green little Isle, so full of interest, cast a charm over the enjoyments of the evening.—*Communicated.*

MILITIA GENERAL ORDERS.

The attention of Commanding Officers of Regiments is called to the General Order of the 24th January last; and His Excellency the Lieut. Governor expects that no further delay will be made in transmitting to the Adjutant-General the documents therein alluded to.

By command,
G. SHORE, Adjt.-Gen. Militia.

KING'S COLLEGE, FREDERICTON.—The Right Rev. the Visitor, has been pleased to nominate Messrs. D. L. Dibble, T. Wetmore, and H. J. Jarvis, Scholars on the foundation of the Society for the Propagation of the Gospel; the appointment to bear date July 1st, 1831, and to be held so long as the said Scholars shall be resident in the College.

The following is an extract of a letter dated Sierra Leone, January 18, 1832:—"A bloody engagement took place at the Gambia a few days ago, between the British troops and the Mandingoes, (a very powerful nation,) in which the former were cut to pieces; and we are in daily expectation of hearing of the capture of Gambia by the Mandingoes."—*Globe.*

TO CORRESPONDENTS.—"*An old Inhabitant of St. Andrews, but also a lover of Fair Play,*" has been received, but as we do not feel disposed to meddle in the local disputes of a sister town, we hope the writer will excuse our taking any further notice of his clever and caustic communication. We perfectly agree with him in thinking that the boasted Liberty of the Press is too often degraded into Licentiousness, and that whenever this unhappily occurs, no gentleman should condescend to notice the attacks made upon him, by scurrilous and anonymous scribblers. Calumny generally defeats itself, and we may say that the Editor—whether "Juvenile" or grey-headed—who prostitutes his columns to party scurrility and abuse, forgets the respect due to the public, and the duty he owes himself.

In the communication of "H." in our last, 14th line, for "school" read *scheme.*

RELIGIOUS TRACT SOCIETY.

THE Public are respectfully informed, that a Society was formed in this City in December last, under the designation of the *Saint John Religious Tract Society,* Rev. I. W. D. GRAY, President; and composed of such Persons of all the Religious denominations in this City, or throughout the Province, as are desirous to promote the spread of Evangelical Religious Knowledge, and who subscribe and pay annually 5s. to the funds of the Society, half of which sum shall be returned to subscribers in Tracts at the sterling price. The London Religious Tract Society have liberally sent out a donation of Tracts through Mr. BEATCH, to the value of £3 8s. sterling, to encourage the formation of this Society—and funds have recently been remitted to that Society to the amount of £ 5 for a fresh importation of choice Tracts.—The Depository for the Tracts on hand at present, is kept at the store of M'KENZIE & TISDALE, where they will be disposed of at sterling cost to encourage circulation—the proceeds to go into the funds of the Society.

ANGUS M'KENZIE,
St. John, March 13. *Secretary & Treasurer.*

TO THE LADIES.
