Rheumatism Yields

Only rheumatic sufferers know the agony of its darting pains, aching joints or twisting cords. But some few have not known that

SCOTT'S EMULSION

has been correcting this trouble when other treatments have utterly failed.

Scott's is essentially blood-food in such rich, concentrated form that its oil gets into the blood to alleviate this stubborn malady. Get a bottle of *Scott's Emulsion* and advise an ailing friend.

Scott & Bowne, Toronto, Ont. 17-22

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

## Municipal Council.

Continued from last week

Bad or uncollectible rates were struck off. The amount of Dog Tax included in these was $129. Of these $29 missing dogs five were assessed in Ward 14, the alleged owners being, Messrs. A. Algee, C. A. Burns, H. Jackson, Edward Spicer, Geo. Saltman, no one of whom, the Councillor stated, was the owner of a dog.

An interesting debate on the dog tax system followed. The habit that some Assessors seem to have of putting a dog opposite a name on the assessment roll without ascertaining whether the man named is or is not the owner of a dog, was severely reprobated.

Council adjourned, reassembling at 2.15.

A delegation from Wolfville appeared before the Council asking that provision be made for payment of a salary to the agent of the Children's Aid Society. Rev. Mr. Miller and Miss Annie M. Stuart addressed the Council, pointing out the benefit, both to the public and to the children themselves, of the work done by this society. Mr. Stairs, the agent, also spoke, giving instances of the saving of numbers of neglected children from lives of poverty and crime.

On motion of Couns. Meek and Parker, it was resolved that a salary of $300 per year be paid from the Municipal Treasury to the agent of the society.

Miss Stuart spoke in reference to the cemetery at Grand Pre. A part of this is on public land. It is proposed to secure an Act of Incorporation. Would the Council permit the portion of the cemetery referred to be included in the property transferred in trust, to the proposed corporation?

On motion of Coun. Gertridge, the request voiced by Miss Stuart was granted.

Mr. A. S. Burgess, of Canning, appeared in support of an appeal taken by him from the assessment of his property by the Assessors of the Fire and Water District of Canning. The property was valued by these Assessors at $16,500, the Municipal Assessors had valued it at $7,000.

Mr. North, Clerk of the Water Commissioners of Canning, replied.

The appeal was referred to a committee: Couns. Gertridge, Kinsman, Bill, who later reported recommending that the assessment of Mr. Burgess be reduced to $12,150, which report was adopted.

The Councillors submitted lists of town officers nominated in the several wards, Assessors being named as follows:

Ward 1, Wm. Newcombe, I. I. Brady
" 2, Leander Woodworth, Fred Crick Eaton.
" 3, Harold T. Eaton, Aubrey Newcombe.
" 4, C. H. Rockwell, W. B. Burgess.
" 5, T. R. Lyons, Harry Saunders.
" 6, Budd Bishop, Wm. Ward. (for Cornwallis) A. Ward.
" 7, E. Duncanson, John Schofield.
" 8, F. A. Bowser, D. H. Forsyth.
" 9, Walter Hutchinson, F. G. Curry.
" 10, S. F. Banks, Church Ward.
" 11, C. E. Gaul, E. H. Saunders.
" 12, W. S. West, B. H. Hoggins.
" 13, M. Chute, J. H. Rawding.
" 14 A.C. Hall, Chas. Vaughan.

Mr. John MacDonald was appointed Clerk and Treasurer to Overseers of Poor, Cornwallis.

The recent changes in the status of the Town of Berwick, necessitating changes in Highway Labor Districts, parts of which are within the limits of the town, on motion of Couns. Bryden and G. E. Nichols, Dist. No. 4, in Ward 3 was extended from the bridge near H. R. Morton's to the River Bridge, the northern boundary of the town of Berwick, this District also to include the highway running from the Pleasant Valley Road to the bridge near residence of E. S. Congdon; Dist. No. 6, Ward 3, was extended to the Buchanan Bridge and is also to include road from bridge near E. S. Congdon's to Andrew Woodworth Road. That part of Dist. 20, Ward 13, which lies outside the bounds of the Town of Berwick, and that part of Dist. 16, in the same ward, which lies between the railway crossing near residence of A. N. Rand and the Shaw Crossing, were formed into one District to be known as No. 20, Ward 13.

Council adjourned.

SECOND DAY.

Council met on Wednesday, 9th, at 10 a. m. All present.

Minutes of first day's proceedings read and approved.

L. L. Ogilvie was appointed Surveyor of Highways in District 26, Ward 14, in place of A. C. Hall.

J. A. Beckwith was appointed Revisor in Revised Dist. No. 5, in place of R. H. Banks.

Reports Trustees School Lands, Horton and Cornwallis, were read and ordered filed.

Reports Overseers of Poor for the several Townships were read and adopted: Aylesford asks leave to assist the Poor District for $1500 for support of Poor: Cornwallis asks for assessment of $2,000; Horton the same.

Read report of Treasurer: Income, $31,351.29; Outgo, $26,471.91, leaving balance, $4,879.38 Adopted.

Messrs. Geo. L. Thomson and M. E. Mills were appointed Auditors for ensuing year.

Read application of Ephraim Haverstock for appointment to the Temperance Act, at salary of $350. Mr. Haverstock was appointed.

The report of C. A. Patriquin, Inspector for the past year, was read. The accounts show a deficit for the year of $910.96, including Inspector's salary of $500

On motion of Coun. Gaul, the report was received and adopted.

Commenting on this Report Couns. G. E. Nichols and W. L. Nichols both expressed the opinion that it afforded good reason to support the action proposed one year ago, namely, the appointment of two inspectors The County was too large a field to be watched by one man. The expenses of operation would be little, if any, greater under two Inspectors than under the present system. Coun. W. L. Nichols suggested a returned soldier, Sergt. Robert White, for the position.

Read petition from residents of Chipman's Corner School Section asking that the 'Parade' at that place be not disposed of but retained for its present use of school grounds.

A telegram from Col. W. E. Thompson, of the Militia Department, which had just been received, was read. It warned the Council to take no action in regard to the Parade, as it was the property of the Department of Militia and Defence.

Ross Chipman, Esq., promptly rose and denied this statement, referring to several public "Parades" which he, as a Supervisor of Public Grounds, had been instrumental in disposing of. Mr. Wickwire, the Solicitor, reminded him that, in all these cases, Legislative action was necessary to give the title the appearance of validity.

After some further discussion it was resolved that the prayer of the petition be granted.

On motion of Councillor Parker, it was resolved that the newspapers of the County be asked to publish the Health Officer's Report, as a matter of general interest.

Coun Parker moved that the action of Council at April Term, 1917, in the matter of boundaries of Highway Labor Districts on Harborville Mountain road, be rescinded. The motion was ruled out of order.

Coun. Bezanson moved that District No. 10 in Ward 5, be extended north to the centre of the Clem Road, so called (the southern boundary of Ward 14). Carried.

The matter of a contribution to the Patriotic Fund was again raised and after discussion was referred to a Committee consisting of the Warden, the Clerk, the Solicitor and Couns. Parker and Bill.

This Committee reported later with a resolution deferring action to April Term, in order that more complete information regarding the working of the system heretofore followed might be available. The resolution was carried.

Council took recess, reassembling at 2.30 p.m. All Councillors were present except Coun G. E. Nichols, absent through illness.

On motion of Coun Bishop, Mr. F. S. Fisher war heard in regard to action to define boundaries of Commercial street, Berwick.

Mr. Outhet was heard in reply.

A resolution passed directing the Supervisors of Public Grounds for Cornwallis, to render their report at April term.

The presentment was read. Amount $28,871, necessitating a tax rate of 60 cents on $100 of valuation ($4,691,000).

Coun. Bishop moved that, in the appointment of an Inspector under the N. S. Temperance Act, a condition of the appointment be made, reserving the right to terminate the appointment, if desired, at April Term; Salary being paid prorata.

Mr. J. H. Cox, on behalf of the Farmers' Association, spoke asking appropriation for a Demonstration Building.

On motion of Coun. Bill the matter was deferred to April Term.

The Committee to which a claim of Geo. R. Pineo was referred in Jan., 1917, which failed to report in April of that year, now reported that they were unable to agree and recommended that Couns. of Ward 1 investigate and report in April next. Report received and adopted.

A resolution was passed regarding lands in Canning expropriated by the federal government to the effect that if that government would maintain a certain road on the said lands, this Municipality would waive its claim for compensation for the said lands.

Concluded on page 2.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's stepmother told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. Lowery, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

Minard's Liniment Cures Dandruff.

Minard's Liniment Co., Limited.

Sirs,—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently, it will never fail to cure cold in the head in 24 hours It is also the best for bruises, sprains, etc.

Yours truly,
J. G. LESLIE.

Dartmouth.

St. Peter—Right this way, ladies, to get your halos.

Shade of Mrs. DeStyle—Now, Mr. Peter, before I take one I would like to know if you allow the privilege of exchanging it if I find when I get home that it doesn't fit?

'Do you believe in the survival of the fittest?'

'No,' replied Miss Cayenne. 'When several men call on the same evening the greatest bore is always the last to go home.'

## The Right Way to Shampoo.

Blonde hair, unless shampooed very carefully, will darken with age. Egg shampoo is not good for light hair for it contains sulphur which will darken it rapidly. Oils, also, have a darkening effect on light hair and should not be used unless absolutely necessary. An excellent soap jelly for blonde hair is made by shaving a cake of Castile soap into a sauce pan and dissolve it in a pint of boiling water. Keep the mixture warm while shampooing the hair use half a teaspoon of bicarbonate of soda to each teaspoon of jelly. If you find that the soda has too drying an effect on the hair use half the quantity. Do not dry blonde hair by artificial heat. It will lose its sheen and texture. Rub the scalp briskly, but gently, with a heavy towel to stimulate circulation and then sit in the sun, separating the strands so that each portion receives its share of the sun bath. This manner of drying requires a much longer time, but the softness will reward you for your patience

Brunettes should use shampooes containing oils, sub carbonate of soda and yolk of eggs, for instance. They are excellent for dark hair, stimulate growth and improve the lustre. A wonderful shampoo for the dark-haired lady is made of yolks of two raw eggs slightly beaten, one half pint of claret and one gill of soft water. Rub this into the scalp and hair thoroughly and allow it to remain for twenty minutes. Now wash in the usual manner.

## Winter Weather Hard on Little Ones.

Our Canadian winters are extremely hard on the health of little ones. The weather is often so severe that the mother cannot take the little one out for an airing. The consequence is that baby is confined to overheated, badly ventilated rooms; takes a cold and becomes cross and peevish. Baby's Own Tablets should be given to keep the little one healthy. They regulate the stomach and bowels and prevent or cure colds. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Vastness of Greenland.

Greenland is the largest island in the world. Its total length from Cape Farewell, its southern extremity in 60 degrees north latitude, to Cape Morris K. Jesup, its northern extremity in 83½ degrees north latitude, is in round numbers 1,500 miles, almost exactly the same as the length of the United States on the ninety-seventh meridian, from the mouth of the Rio Grande to where our northern boundary crosses the Red River of the North. The greatest width of Greenland is about the same as the distance from New York to St. Louis.

In regard to its area the figures of various authorities differ very widely. It may be sufficient to say that it can be grouped in size with the United States east of the Mississippi, Alaska Mexico, Colombia, Persia, Portuguese West Africa and Turkey in Asia.

Its interior is covered with a great sheet of ice rising to elevations of probably 10,000 feet in places and several thousand feet in thickness. The available ice free land is a strip of varying width along the coast intersected by numerous deep fords.

When one turns the pages of American arctic exploration Greenland is found more or less intimately associated during over sixty years with all American expeditions, except the Jeannette expedition.

Americans have lifted nearly all of its northwestern and northern coasts out of the arctic night and fog and have twice crossed its northern part American names and its coasts, and the name of American marks its no there known land in the world—Rear Admiral Peary.

## Where Is the Profit?

The Weekly Bulletin of Leather and Shoes says that nine-tenths of the shoe business in the United States could be done direct between the manufacturer and consumer at a saving of over $200,000,000 per annum. This statement is made upon the strength of a letter from a prominent tanner who rebels at paying $9 a pair for his daughter, a school girl He asserts that he would be glad to sell the leather for these shoes at 60 cents a foot and that $1 80 would buy enough for a pair of shoes. The outer soles can be bought for 40 cents per pair, the labor to make the shoes 60 cents, a total of $2 80 per pair for the three important elements. This leaves $6 28 for the inner sole, heel, lining, etc., and the retailer's margin.

## Be Ready for Emergencies.

The best way is to always keep a bottle of Dr. Chase's Syrup of Linseed and Turpentine in the house, ready for emergencies. Then when croup, or colds come suddenly they can be promptly cured before they have time to reach an acute and dangerous stage. To meet this requirement we have put the syrup up in family size bottles which contain nearly three times as much as the 25 cent bottle and sell at 60 cents.

## What is Camouflage.

Camouflage is a word that you will get no help for in searching your dictionary, as it is what might be termed a war addition to the English language. It is almost as new in the French language, there being little or no record of its use until this war It does not appear in the French dictionaries of 1896 nor is it included in Larousse.

It is derived from 'Camouflet,' which originally meant 'Smoke puffed in the face of a sleeping person,' but its general meaning is mystification. In military circles 'Camouflage' means the disguising of guns, military posts and ships so that they may deceive the enemy and escape observation. There is no particular set of rules in 'Camouflage,' the effectiveness of any depends on a proper estimation of the colors, which most effectively blend with the landscape. Ships striped like a barber's pole deceive the eye altogether, both as to size and their distance from any given object. A certain scheme of Camouflage will mystify the enemy in his conning tower and deceive him so that it is almost impossible for him to get an accurate range at long distance.

The school teachers on the East side of New York are finding some interesting material in the manner in which alien parents are saving up all in the war. One little girl told her teacher how "the folks at home" are going to help. "My father and mother and me," she said, "we made it on a piece of paper last night. My father has makes $18 a week, and he pays for the rent $18 the month, $2 for coal, $3 for milk for the baby, $7 a week for eats. Then he gets left $4 the week. He gives my mother $2 for clothes, he keeps $1 the week and puts $1 the week for the war savings. He does that so long as the war should last."

Silicus—We never hear the best things that are said about us.

Cynicus—No, we are dead then.

Save Food

In a time needing food economy many people are not getting all the nourishment they might from their food.

It is not how much you eat, but what you digest that counts.

The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food, for you need less.

3-18a

## The Moon and the Weather

People who rely on the moon as a weather indicator, writes a London Chronicle correspondent, must have very short memories, for accurate comparisons prove conclusively that there is no connection whatever between the weather and the moon's change of phase.

Professor Schuster analysed a whole century's weather records and, as a result, was unable to trace any lunar period in them. Several authorities are agreed, however, that there is a tendency for clouds to disperse as a full moon comes to the meridian of any place; but it is a far cry from that to the definite belief that the weather changes with a change of the lunar phases.

These changes, of course, can be predicted for years in advance with perfect accuracy, and if the weather depended on them, weather forecasting would be the simplest of all the sciences, instead of the most difficult.

## Used for Shaving.

Many men are troubled, more particularly in the cold weather, with a sort of roughness of the skin or eczema caused by shaving. The application of Dr. Chase's Ointment after the shave soon cures the trouble and by using it after each shave you keep the skin soft and prevent irritation and soreness. Because of its antiseptic qualities this ointment prevents and cures Barber's Itch.

A Sunday School teacher had her class about her one hot August Sunday when a terrific tempest came. The thunder boomed, the lightning flashed and crashed. The teacher asked the boys if any of them knew why lightning never strikes twice in the same place. One of the boys answered 'When the lightning strikes a place the same place ain't there any more.'

In northern Italy snow has fallen to a depth of from three to five feet, bringing the operations to a halt. The movement of supplies to the enemy armies in the hills is being greatly impeded and the indications at present, are that fighting of great intensity will be impossible while the snow lies on the ground.

First Doctor—Was your operation to-day a success?

Second Doctor—I made a successful cut into the patient's eastern front and received an indemnity of five hundred dollars.

Rheumatism Entirely Gone

After Twenty-seven Years of Suffering—Swelling and Puffiness Has Disappeared — Not a Pain or an Ache Left.

A most astonishing cure of rheumatism and eczema has been reported here, and Mrs. Ray is enthusiastic in telling her many friends how cure was effected.

Rheumatism and eczema frequently go together, and in this case caused the most keen distress imaginable. All the swelling and puffiness resulting from many years of rheumatism have disappeared, and there is not a pain or an ache left.

Mrs. G. H. Ray, R.R. No. 4, Kincardine, Ont., writes: "Mrs. Ray has been using your Kidney-Liver Pills. She was very bad with rheumatism and eczema, and had had that fearful itch for twenty-seven years. It was simply terrible what she suffered. I persuaded her to try $1.00 worth of Dr. Chase's Kidney-Liver Pills. She is now on the last box, and let me tell you she scarcely knows herself, she is so free from both those diseases. All the swelling and puffiness caused by the rheumatism has gone away, and she has gone down in weight 18½ pounds. She never has an ache nor pain, biliousness nor sick headache all these months. She often says herself 'How glad I am that I know what to do instead of paying doctors so much to make me worse.'"

There is only one way that the poisons in the blood can be cleaned away and the cause of pains and aches removed, and that is by the healthful action of the kidneys, liver and bowels. Because Dr. Chase's Kidney-Liver Pills act directly and specifically on these organs and insure their activity they remove the cause of rheumatism and other dreadfully painful and fatal diseases. One pill a dose, 25 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto.

Look for the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the box you buy.
