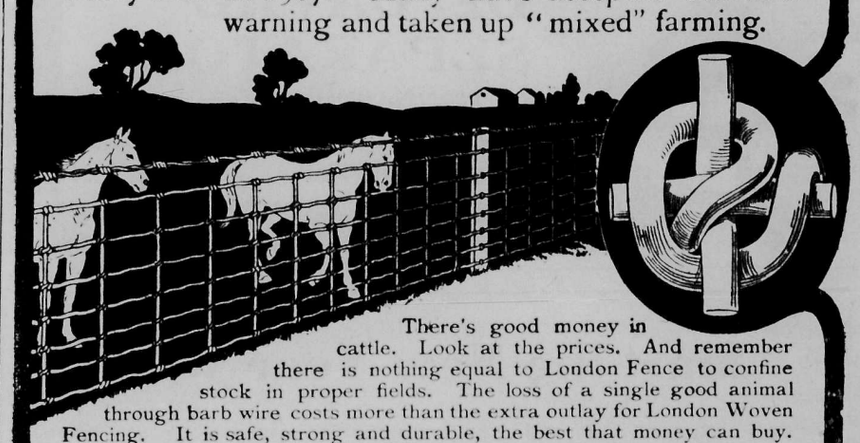
London Fence

If your wheat crop should prove a failure wouldn't you be rather hard hit? You know it sometimes fails. Most Western farmers faced a heavy loss in 1907. Many have accepted this as a warning and taken up "mixed" farming.



There's good money in cattle. Look at the prices. And remember there is nothing equal to London Fence to confine stock in proper fields. The loss of a single good animal through barb wire costs more than the extra outlay for London Woven Fencing. It is safe, strong and durable, the best that money can buy. Made of same grade of enormously strong and elastic No. 9 wire as has made London Coiled Wire so talked about. Cannot beat the London lock for vise-like grip. Full particulars in our free catalogue.

Lively Agents Desired. We've a mighty "good thing" for hustlers. There's money in our agency for a wide-awake man. How about yourself—or will you recommend to us an honest, energetic, reliable man for your district?

London Fence, Limited, Portage la Prairie, Manitoba.
