The Weekly Monitor.

WEDNESDAY, JUNE 19TH, 1895.

—THE agricultural committee of the Canadian House of Commons has recently been giving some attention to the matter of governmental assistance in the shipment of fruit to the English market. After discussing the question for some time the committee passed a resolution, with but one dissenting vote, expressing the opinion that the government would be justified in adopting some method of assisting our growers in placing their fruit upon the English market. The opposition of this resolution came from the representative of Digby, who thought that the government might as well be asked to place lobsters on the market. As that gentleman does not represent a fruit growing county he cannot be expected to realize the great importance of this matter to the fruit growers of the Annapolis Valley. That it is such admits of no question. To a very large number of the people of this county the question of cheaper and better shipping facilities to the other side is of vastly more importance than either free trade or protection, or any of the other questions which politicians spend so much time in discussing. Every year our fruit growers are becoming more dependent upon the English market, and without that market our fruit would some years scarcely be worth gathering. Under present conditions the expense of getting it to market is nearly double what it should be, and much greater than it now costs upper province and American growers. More than this, a considerable proportion of the apples shipped is injured on the way across, owing to the heat or want of proper ventilation of the steamer. Every shipper has grown familiar with the terms "slack," "open," "injured," etc., which so frequently occur on account of sales received from the London commission houses, and which on an average reduce the net proceeds of a consignment to the extent of ten per cent. at least.

The government has, during recent years, been spending a good deal of money in assisting to place Canadian cheese on the English market, and in consequence, largely, of this aid an enormous quantity of cheese is annually exported. More recently an attempt has been made to do for the butter industry of the dominion what has already been done for the cheese trade. At public expense cold storage has been or is about being provided for the steamers, and at both ends of the voyage, so that the butter shipped may be put on the market in first class condition. Having done this much for the butter and cheese trade of the dominion, from which the farmers of the upper provinces have mainly benefitted, it is fit and proper that the government should spend an equal amount at least in attempting to remove the grievances under which our fruit-growers labor. What our fruit-growers want and what they have a right to expect after so much has been done for the butter and cheese trade, are:

(1) Cold storage for fruit.
(2) Cheaper freights, and
(3) Legislation against drawbacks.

This last is an evil of comparatively recent growth. To charge a farmer ninety cents a barrel freight, keep seventy or at most eighty of it, and hand the balance over to some speculator or agent whom perhaps the farmer never saw or heard tell of, might very properly be made a crime or misdemeanor by act of parliament. It is a discrimination against the man whose labor creates the traffic and without whom there would be neither carrier nor speculator. If we mistake not laws to prevent such discrimination have been enacted in the United States. If the railway and steamship companies can afford to carry freight at the cheaper rates for speculators and large shippers they might very properly be made to do it for others at the same rate.

Again, it would seem that the $750,000 voted to assist in establishing a fast line of steamers might be spent to much greater advantage in giving our farmers and fruit growers cheaper freight rates than in the way proposed. The carrying of passengers and mails, while important of course, is a matter of but secondary importance when compared with the advantage it would be to the people of this valley to have cheaper and better transportation for fruit and other products.

We trust, therefore, that the agricultural committee of the House of Commons will so urge this matter upon the House and Government that something will be done about it without delay. No step that our politicians could take would be more satisfactory to their constituents.

—MANITOBA's reply to the famous remedial order of the dominion government has at last been given. It politely but firmly declines to accede to the request of that order to re-establish the system of separate schools such as existed previous to the legislation of 1890. In giving its reasons for this refusal the Manitoba government certainly makes out a pretty strong case. The great extent of the province and the sparseness of its population makes it a heavy burden upon the people to keep up even one system of schools. It further states:

"It will be obvious that the establishment of a set of Roman Catholic schools followed by a set of Anglican schools, and, possibly, Mennonite and Icelandic schools would so emasculate our present system that any approach to even our present general standard of efficiency would be quite impossible.

We contemplate the inauguration of such a state of affairs with very grave apprehension. We have no hesitation in saying that there cannot be suggested any measure which to our minds would more seriously imperil the development of our province."

There is very much force in this reasoning. It would doubtless be of great advantage to the people of that province if all classes and sects could unite in maintaining one system of schools, just as it would be of great advantage, from a financial and business point of view, if all the people of our towns and villages would unite in keeping up one church—the church of the majority of whatever sect that might be. We could have better churches, pay our clergymen better stipends and expend more in missionary and other philanthropic work under a system of that kind. But an attempt to bring about such a condition of things by legislation would create an endless amount of opposition and trouble no matter how beneficial the result might promise to be in the end. The Manitoba legislature has been attempting to do something of this kind, educationally, to a very small extent, it is true, and the result is what might be expected where questions of conscience are concerned.

The answer suggests the advisability of the dominion government making a full investigation of the whole matter before taking further action and promises from the Manitaba government all the information necessary on the subject. It also offers to reimburse the Roman Catholics for any injustice done in the matter of private church funds.

Upon the whole the answer of the Manitoba government strengthens the case of the province and will gain for it a larger measure of sympathy than it previously had.

It is now quite probable that nothing further will be done, except it may be the appointment by the dominion government of a commission to investigate and report upon the matter, until after the approaching general election.

—Two sections of the great Russian railway across Siberia are now in operation. The aggregate of the two is 761 miles. The total length of the road is to be 4,000 miles.

Supreme Court.

The June term of the Supreme Court opened in the Central Court House, Bridgetown, yesterday, Judge Weatherby presiding.

Messrs. Roscoe and Cogswell of Kentville, and Ritchie, Q.C., Owen, Gillis, Harris and deBlois of Annapolis, were in attendance in addition to the local bar.

On Tuesday afternoon Judge Savary of Annapolis occupied a seat on the platform beside His Lordship.

During the judge's address to the grand jury, His Lordship said he regretted he could not congratulate them on the absence of matters of a criminal nature, as the echoes of former investigations of alleged crimes had scarcely died away when the people of this county were again thrown into a fever of excitement over new charges of a very serious nature. It depended to a large extent on the thorough and careful manner in which the juries discharged their various functions whether or not Annapolis county would continue to enjoy her present notoriety for crime.

His Lordship then took up the divers cases seriatim and instructed the jury accordingly.

The first charge before the court was against Jacob Marshall for breaking jail and escaping from custody. The grand jury found a true bill on both counts, and on being arraigned the prisoner pleaded guilty. His Lordship then cautioned Marshall concerning the evils of drunkenness and warned him to abstain in future, as his present condition was due to an excessive use of ardent spirits, and discharged him upon his own recognizance to appear before the court for sentence in case of future misconduct.

The next charge was against George Wallace, a young man of Bentville, for stealing gold coins to the value of thirty dollars from John Bent. Again a true bill was found, and upon pleading not guilty the prisoner was put upon his trial. The principal witness for the Crown was a lad in the employ of Bent and whose testimony was of a very unsatisfactory character. Mr. Ritchie for the defence put the prisoner upon the stand and he denied all connection with the affair. After a short deliberation the petit jury returned a verdict of not guilty.

Bridgetown Cheese and Butter Factory.

The Bridgetown Cheese and Butter Factory, which commenced operations on Monday, June 3rd, is doing a good business, and the outlock is favorable. The building, though not large is very conveniently arranged for handling a large quantity of milk, and the quantity received daily has averaged about one and one-half tons, with the prospect of a large increase before the end of the month. Mr. Sanford, the manager, says he can handle three tons of milk daily with the machinery already in position and has room for another milk vat which will double the present capacity.

The patrons receive seventy cents per one hundred lbs. for milk that will test 4% butter fat, which is equivalent to seventeen and one-half cents per lb. for butter, while the labor is all transferred from the house to the factory—a great relief to the patrons wives and daughters.

The whey and skimmed milk are all returned to the patrons to be utilized on the farm, and the bright new cheese are placed on the tables of the curing room, there to be got ready for the market, either Canadian or English.

Mr. Sanford is an experienced cheese and butter maker and shows great care in the handling and testing of milk and keeping everything sweet and clean about the factory.

There is every prospect of the enterprise proving a success, and we hope ere long to see the factory taxed to its fullest capacity.

Impressive Memorial Service.

The many friends of our former resident, Rev. J. H. Balcom, of Lawrencetown, will read the following extract, taken from a late issue of the *Templeton Recorder*, published at Templeton, Mass., with great pleasure:

"Impressive Memorial services were held in the Baptist church at Baldwinville last Sabbath. Every seat in the church was filled. Ericson Post 109 G. A. R. attended in a body, also Stephen T. Brooke Camp No. 124, ladies aid society, auxiliary to the sons of veterans, and ladies, relief corps, and the pastor, Rev. J. H. Balcom, preached a special sermon, taking for his subject, "The War of the Great Rebellion," and for his text Revelations 12: 7-10, "And there was war in Heaven." Previous to the sermon the choir sang "Boys in Blue," when Rev. Mr. Balcom made an impressive opening prayer, after which he handled his subject with ease, even preaching without notes. He held his congregation spell-bound, and at times moved them to visible demonstrations of emotion by his intensely earnest utterances. It was the great effort of his life, and he paid a glowing tribute to the dead soldiers whose memory is to be commemorated by the entire nation to-day. The church was handsomely decorated with flowers, banners and flags of the post. The pastor invited the congregation to sing "America," which closed Memorial services."

JONES—DODGE.

The wedding of Miss Edith Blanche Dodge, daughter of Mr. and Mrs. John A. Dodge, of Orchard street, North Cambridge, and Frederick George Jones, son of Alderman Jones, of Somerville, took place Wednesday evening, June 5th, at 8 o'clock at St. James' Episcopal church, North Cambridge. There was a large attendance of friends and relatives.

The church was prettily decorated. The ceremony was performed by the rector, Rev. Edward Abbott, D. D., assisted by Rev. Edward P. Lee, rector of St. James' church, West Somerville. Organist Forsyth rendered Lohengrin's wedding march as the bridal party entered the church, and Mendelssohn's march following the ceremony.

The bride was given away at the altar by her father. The bride was attired in white satin with pearl trimmings, and carried brideroses. Miss Minnie Gertrude Dodge, sister of the bride, was maid of honor, and was attired in pink lansdowne, trimmed with chiffon lace and carried pink roses.

Following the wedding, a reception was held at the home of the bride's parents on Orchard street. The couple were remembered with many handsome gifts, and on their return from their honeymoon will live in Sharon, Mass.

July 1st Celebration.

In response to notice given, a fairly large number of citizens gathered in the Court House, on the evening of Friday, 14th inst., for the purpose of completing arrangements to entertain and interest the crowd of visitors, we have every reason to expect will favor us with their presence, on the first day of July.

Councillor Vidito was elected chairman and Richard Shipley, secretary, after which suitable remarks were made by several present, including Mr. Jno. Hall of Lawrencetown, who always enthuses an audience with his voice and presence.

It was finally moved, seconded and passed, unanimously, that a committee be appointed to carry out the necessary arrangements.

The following committee was accordingly elected:—

Richard Shipley.	W. D. Lockett.
E. A. Craig.	E. L. Fisher.
W. E. Bath.	Robert Bath.
W. H. Cochrane.	

The meeting then adjourned, to meet again on Wednesday evening, 19th inst.

Methodist Conference.

The Methodist conference meets this year at Bear River, and Rev. Mr. Hale, the resident clergyman, says the attendance will be very large. With hardly an exception all the ministers of the province, together with laymen from the many circuits, will meet together this year at the most picturesque spot in the province, on Wednesday, June 19th, to discuss the several matters pertaining to the church. Rev. Dr. Carman, general superintendent of the Methodist church in Canada, will preach at Bear River on Sunday morning, June 23, when an ordination service will also be held.

Awarded More Contracts.

At a meeting of the Board of School Commissioners of the City of Halifax, held on Monday evening last, the tender of Curry Bros. & Bent, of this town, for the construction of the addition to the Bloomfield street school was accepted.

The same firm have also been awarded a contract for the construction of a new dwelling house for Mr. William Gormeley, of Perotte, to be built on the lot adjoining the restaurant of Mr. Sandford Bishop, at Annapolis.

—Queenstown, June 13.—Steamer Halifax City, Harrison, from London June 9 for Halifax and St. John, N. B. put in here today with pump rods bent and the consequent carrying away of the links and levers. She has been docked for repairs.

—Mr. Neily's building at Aylesford, to replace those destroyed by fire, are being pushed along as rapidly as possible. One is ready for goods. All the buildings destroyed were Mr. Neily's own property, the report that any part of them belonged to the Massey-Harris Co. being altogether a mistake.

—The Sutton *Herald* is responsible for the following, which if correct is very valuable information, but hard on Paris Green merchants: A retired farmer says he has made a discovery. In each potato hill he plants a bean. This he has done for the past three years, and during that time he has never been bothered by potato bugs.

MORE FAT CATTLE.—Williams, the cattle drover, took another car load of fat cattle to Halifax by yesterday's freight train. They were beautiful specimens of what can be produced in the county and a credit to those who fed them. Among the number and worthy of particular notice were those from the stalls of Henry Calnek, Charles Withers and Edgar Fellows, of Granville.

—A young man en route to Boston from Cape Breton a few days ago was stopped at Bangor and ordered back because he did not have the sum of fifteen dollars on his person, which their alien law requires immigrants to have on entering the realm of the "Stars and Stripes." Verily the Americans would prefer the "dollars" to our men. The said young man returned home, short of the price of a ticket to Boston and back.

—The Truro *News* asks: "Is it a fact that the council of public instruction has ordered the girls and boys of our academies to stand one of the severest examinations of the academic year, on July 1st—Dominion day? If so, it certainly must be some oversight, that on a recognized public holiday, from Cape Breton to British Columbia, our hard worked young students should be compelled to keep indoors at the severest mental work, while all Canada is in holiday attire. Who is responsible for this blunder?

—Two men were lynched last week at Danville, Illinois. The lynchers claimed that they feared the men would be pardoned by Governor Altgeld. There would have been time enough to lynch them after their pardon had been pronounced. It is noticeable that some of the best papers in the west use language, the tone of which seems to justify the lynching. They say in effect, "the people must be protected, and if the laws cannot be depended upon they must protect themselves." The evil is spreading and reformers seem to be helpless.

—The number of young men from Nova Scotia and other provinces entering the professional ranks as doctors and lawyers is increasing year by year. On one day last week one hundred new doctors were added to the list of qualified physicians for the province of Ontario. In noting this fact the *Toronto News* asks: "Where are all those men to earn a living?" There is not a city, town or village in that province that is not over-crowded now. The *News* thinks that the money spent in educating these young medicos would have bought a fruit or poultry farm from which most of them could make a good deal better living than they will from supplying physic to their fellows.

Notice to Policy Holders.

The Union Assurance Society, of London, G. B., established in A.D. 1714, as appears by notice elsewhere, have bought out the business of the Eastern Assurance Company. All persons holding policies in the Eastern Assurance Co. can have the same exchanged for a new policy in the Union by applying to H. Ruggles, agent of the Union for Bridgetown and vicinity.

Personals.

Dr. M. G. E. Marshall returned from his Sydney trip on Saturday.

Mrs. Z. L. Fash, of Liverpool, is visiting relatives and friends in town.

Mr. and Mrs. James McNeil of Boston are visiting relatives in Melvern Square.

Prof. Coldwell, of Acadia College, is the guest of Mr. and Mrs. William Chipman.

J. Edgar Batton, and wife, of Waterville, Me., are visiting their relatives at Clarence.

Mr. Harry Withers, of Boston, accompanied by his wife, is on a visit to Granville, his former home.

D. F. Sheehan, who has been spending several months in New York, returned home a few days ago.

Rev. John Lockward of Port Medway, Queens county, has been appointed rector of Clementsport.

Dr. F. S. Smith, of Liverpool, Queens county, a recent graduate of Philadelphia, has located at Clementsport.

Rev. E. H. Howe, now of Parrsboro, has been spending a few days among his former parishioners at Kingston Village.

Miss Vose, of Boston, is the guest of her friend Mrs. O. T. Daniels, with whom she will remain for a few days longer.

Mr. Harold Campbell, of Philadelphia, arrived here yesterday on his annual vacation, and is the guest of his aunt, Mrs. F. C. Harris.

Miss Minnie Kathleen Magee, the talented elocutionist who has recently been taking Boston audiences by storm, is home at Melvern Square for the summer.

Miss Ida F. Chesley, graduate of the Mass. Gen. Hospital, Boston, is enjoying a rest at the home of her parents, Mr. and Mrs. P. L. Chesley, Granville.

Mrs. Eber Brinton and little daughter Cora, of St. Croix, passed through town Saturday en route to St. John, where she will be joined by her husband from Providence, R. I.

Mr. and Mrs. F. G. Jones, whose wedding is elsewhere announced, took their departure homeward on Wednesday last. During their stay in this town they were the guests of Mr. and Mrs. E. Ruggles.

Mrs. Robert Ingalls, who has been on a visit at the home of her parents, Mr. and Mrs. F. C. Harris, left for Winnipeg on Saturday last. Her mother accompanied as far as St. John, returning on the following Monday.

Unfortunate Newfoundland.

St. John's, Nfld., June 15.—The resignation of several officials is reported in consequence of the reduction of salaries. Judges of the supreme court are indignant because of the reductions made in their cases. It is rumored that Sir Herbert Murray, now here as British relief administrator, will probably be appointed governor. Governor O'Brien will leave July 13th. He declined to remain longer, though requested by the Marquis of Ripon to do so. The opinion of the mercantile community is that the increased duties will produce less revenue than the old duties. Unless the business situation alters materially, the government will have to borrow money again in December.

The Revival of Trade.

The trade returns at Ottawa for May are of a very satisfactory nature, increases being noted in every item. Exports were valued at $8,898,932, an increase of $1,035,000. Imports were valued at $9,429,957, an increase of $268,786. The duty collected amounted to $1,522,793, an increase of $137,395. The total exports for the eleven months are only $2,000,000 behind the same period last year.

LAWRENCETOWN'S No Credit Store!
DEPARTMENT 1.
Buy at the "No Credit" Stores.
Goods Better, Prices Lower, Attention Prompter, Losses by mistakes fewer.
☞*Positively no credit books kept from this date.*
From the date of this notice our stock will be larger, fresher, and just in line with the customers' wants, if possible to make it so, and cash will be at a greater premium than ever.
DEPARTMENT 2.
Wanted along with Cash:—
Good Butter, Large Eggs,
and all other Farm Products in good order.
I intend to visit the St. John market regularly and often. I have made there some valuable connections for the handling of the farmer's produce. I want to secure a vigorous demand for the first-class Butter, the reliable Eggs, and the best of the small fruit products of this vicinity. I want my customers' assistance to accomplish this. The day of the prosperity of the small farmer, as well as all other small operations, seems to be nearly to an end. It is only by skillful and concerted action that it can be prolonged. Come and let us mature our plans for a vigorous fight for the life that our business is entitled to.

Forceful Words

CHAS. R. REID,
the well-known Contractor and Builder of Yarmouth, N.S., says:
In the spring of 1894 I was completely run down—suffering from after effects of **LaGrip**—dizzy-headed, exceedingly weak and unfit for anything. Lost appetite and flesh and my blood was in a very bad condition.
Commenced using **FOSS BLOOD PURIFIER;** took it regularly and carefully with **astonishing results.** My health hastily improved with the use of 3 bottles, but I continued the medicine until I had taken 6 bottles. **FOSS** did great work for me and I am pleased to testify to its **wonderful virtue.**
It gave me a great appetite, purified and enriched my blood, strengthened and built up my whole system. I weigh more to-day than ever before and enjoy perfect health.
I would highly recommend FOSS to all suffering from impaired health. It is a remarkable **tonic** and **curative.**
☞Ask your Druggist or Dealer for it.
