FARM NOTES.

Horses feet need constant care during the cold, muddy, spring weather. A daily cleaning of the exposed parts is essential to health.

Clean the poultry house and sprinkle with ashes or plaster. If lice abound, apply kerosene in small amounts to the perches, from which it will spread to the birds in effective quantities.

Remove the surface water from the fields by trenches, before the ground is deeply thawed, and avoid wasteful washing of gullies. See that the outlets of all drains are clear and working properly.

A New York farmer reports raising upwards of 100 bushels of shelled corn to the acre, on land which had been two years in clover. Under every hill was p'aced a handful of hen manure dusted with lime.

Cows neglected through the winter, now need careful attention. A warm bran slop, with a little ginger, should be fed daily. Calves may be freed from vermin by a mixture of lard and sulpher rubbed along the back and sides.

Sheep losing wool, may be relieved of the irritation by a mixture of equal parts of sulpher and cream of tartar, given in half ounce doses. Push early lambs forward rapidly, with a little milk from a fresh cow. They quickly learn to feed from a dish.

Engage the farm hands now for the year, and have steady employment for them. Do not let men be exposed in hard, cold rains, at the risk of a long sickness in the busiest time of the year.

Breeding sows should be in separate pens, and given warm beds of cut straw for their young.

ADDRESSED TO THE AFFLICTED

HEALTH is WEALTH you cannot be truly happy if in health; it is our capital in life.

The unfortunate suffering from Nervous Debility, Impotency, Nervous Prostration, Seminal Weakness and the numerous forms of Genito Urinary derangements, whereby the Generative Power is weakened, and in time fully destroyed, will find in DR. This long tried remedy has never been found wanting, no matter what treatment you have previously had.

DR. LOWRY'S REMEDY infuses new Life in the Debilitated; it assimilates with the blood, and supplies that deficiency in the Nervous System, which is the cause of debility and physical prostration. It acts on the Liver, Kidneys, Bladder, and Reproductive Organs, causing healthy secretions, thereby stopping waste and building anew—when the face resumes the Bloom of health, the Eye its Lustre, and the Brain its Power. This remedy can be obtained of Druggists and Dealers generally. Price per package $1; three packages, $2, sufficient to cure ordinary cases.

Ask your druggist for it, do not take any other. If you cannot obtain it send direct, with price, and it will be sent securely sealed, by mail to your address.

ADDRESS (Carefully) JAMES RENNIE, (MARKET.) TORONTO.

PERMANENT PASTURE

EVERY FARMER IN CANADA SHOULD HAVE A GOOD PERMANENT PASTURE, WHICH CAN ONLY BE SECURED BY SOWING A SUITABLE MIXTURE OF GRASSES IN PROPER PROPORTIONS.

RENNIE'S MIXTURES FOR PERMANENT PASTURE

have been prepared from prescriptions based on a practical experience of many years, and gave the most complete satisfaction to purchasers in former years. The Mixtures contain the best and most nutritious GRASSES and CLOVERS, and are specially prepared for HIGH LANDS and LOW LANDS. A full seeding of 30 lbs. supplied per acre. PRICE, per acre, $4.25 (bags extra). For quantities of ten acres and upwards, PRICE, per acre, $4.00. ☞ Special quotations for quantities of 100 acres or over.

RENNIE'S MIXTURES FOR MEADOW AND PASTURE

produce very heavy crops of superior Hay, and are strongly recommended for more general use. 24 lbs. supplied per acre. PRICE, per acre, $3.00 (bags extra). Special prices for large quantities. Only the finest and cleanest samples are included in these preparations. A large supply of clean Clovers and Grasses separate, always on hand at moderate prices. Quotations on application. For further information with full description and prices of the various Natural Grasses and Clovers, see Catalogue for 1884.
