COMMERCIAL MISCELLANY.

Consul Hale of Manchester reports that the great ship canal now in course of construction will be completed within four years. The canal will be 26 feet deep and twice the width of the Suez canal. It is anticipated that 4,426,882 tons of freight will be carried the first year after opening, and the estimated gross income is placed at £704,175. A net revenue of £479,220 is expected, which will be sufficient to pay a yearly dividend of 5 per cent. on the share capital—£8,000,000. The opening of this water-way is expected to reduce carrying charges 50 per cent. In the district tributary to Manchester and to be reached by this canal there is a population of 7,000,000, one-fifth of the total population of the kingdom.

According to The London Iron good progress is being made with the canal across the Isthmus of Corinth, which is being constructed by a French company. The company has received liberal concessions of land from the Greek government, there being, however, a proviso that there never shall be any claim for a subsidy on behalf of the constructors. The canal will measure close upon four miles from sea to sea, with a width of 131 feet, and will be excavated to a depth of 26 feet below the sea level, mostly through solid rock, and the expenditure will be £7,200,000.

The railroads and telegraph lines of Egypt belong to the government. They are operated by three commissioners, of whom usually two are foreigners and one native; at present all three commissioners are foreigners. Practically nothing is or has been done during the past five years in the direction of extending the railroad facilities, and at present the total mileage (600 miles) is the same as it was five years ago. A great portion of the telegraph system originally constructed has been abandoned, including the greater portion of the Soudan and Red Sea service.

Grain and Produce.

On call to-day No. 2 fall wheat was offered at $1 to be delivered this week, 97 bid; 89 was bid for No. 2 spring on the track and 96 for No. 3 red winter.

THE WHEAT SITUATION.

The season is not far enough advanced in the northern hemisphere to more than approximately determine the results of the crop. In the United Kingdom and some portions of Canada the weather has been unpropitious for the proper development of the wheat plant. An average wheat crop in the United Kingdom amounts to 80,000,000 bushels, but there is no expectation of that this year. What it shall be will depend a good deal on August weather. If the yield reaches more than 60,000,000 the foreign wheat required from September 1, 1888, to August 31, 1889, will be 154,000,000 bushels.

The French wheat crop of 1887 was about 320,000,000 bushels. The imports during the eleven months just closed were 27,430,000 bushels against 23,440,000 bushels in 1886-7. For the last ten years the average yearly yield has been 301,000,000 bushels and the average imports 40,010,000 bushels. Estimates of the 1888 yield state that it will be 180,000,000 bushels, or 15,000,000 below the average.

The Italian wheat crop is also reported as deficient; the Austrian wheat crop somewhat below the average; but the Russian wheat crop is said to be very promising. Nevertheless, the demands of Europe this year upon wheat growing countries without her borders will be considerably greater than in 1887-8.

The Indian wheat crop of 1888-9, according to Government estimates, will be 254,000,000 bushels, or about 20,000,000 bushels in excess of that of the year 1887-8. Australia will give about 10,000,000 bushels more than the average for export. The Argentine Republic and Chili will have a surplus of probably 6,000,000 to 10,000,000 bushels.

The United States wheat crop promises well. It is estimated that the spring and winter wheat yield will total 440,000,000 bushels. The amount available for export, however, will be less in 1888-9 than in any of the three previous crop years.

The Acting County Judge.

The commission appointing Mr. F. M. Morson Acting County Judge during the absence of Judge McDougall from the city will not arrive till Thursday, it having been forwarded from Ottawa on Monday to his Excellency the Governor-General for his signature. Mr. Morson will be sworn in by ex-Judge Boyd. The commission gives him jurisdiction in all County Court matters and business relating to chambers and probate work.

Mrs. E. H. Perkins, Creek Centre, Warren Co., N. Y., writes: "She has been troubled with Asthma for four years, had to sit up right after night with it. She has taken two bottles of *Dr. Thomas' Eclectric Oil* and is perfectly cured. She strongly recommends it, and wishes to act as agent among her neighbors."

CITY HALL SMALL TALK.

Accountant Shutt Seriously Ill—Visitors from St. Mary's—Sheep Stealers.

Accountant Shutt of the Board of Works, who was seized with an apoplectic fit on Monday while at his desk, is in a very precarious condition, and fears are entertained of his recovery. His friends say that the charges made against him by John Thomas Cooper were one of the chief causes of his present illness.

Acting under the suggestion of Ald. Morrison, City Engineer Sprouts and City Commissioner Coatsworth visited Ashbridge's Bay yesterday afternoon to investigate the feasibility of extending Woodbine-avenue to the beach, the filling in to be supplied from the cut which is to connect the bay with the lake.

The officials of the City Treasurer's Department are back in their old offices. Mr. Harman is to have a new carpet and oilcloth in his private room.

Monday was the first day for the payments of taxes, and $60,000 passed into the City Treasury as the first instalment.

Residents and property owners of Armstrong-avenue, Dovercourt, have sent in an urgent petition to the Mayor praying to be supplied with city water.

Mr. George Cameron of Barrie has written to the City Solicitor stating that two sheep belonging to him had been stolen from the western cattle market, and claiming their value from the city.

In accordance with an order of the City Council, the City Solicitor has offered the parties interested in the extension of Carlaw-avenue fair values for the land expropriated. All have accepted with one exception.

In a letter to City Clerk Blevins, Mayor Stanley of St. Mary's informs that official that Aug. 9 being the burg's civic holiday, the aldermen and town officials will visit Toronto. Ald. Dodds, as chairman of the Reception Committee, will see that the visitors are well bestowed.

The City Solicitor has decided that the property owners on Sussex-avenue must pay for the extension thereof.

Mayor Clarke will not be back to business until next Monday. All civic committees will therefore meet next week, and the City Council one week from Monday. The matters to be considered outside of the reorganization scheme of the Board of Works are primportance in character.

Voting on the Zoo and other by-laws will take place on Aug. 14.

A COMPLETE REVOLUTION in the state of a stomach harrassed by dyspepsia is caused by using Northrop & Lyman's Vegetable Discovery, or great blood purifier, a medicine specially adapted to renew healthful activity in that organ, and in those which most closely co-operate with it, the bowels and the liver. Easy digestion, an increase of appetite and a free secretion of bile, mark the radical change which it produces.

At the Police Court.

At the Police Court yesterday George Webber was fined $1 and costs or ten days for stone-throwing. The young man, Patrick O'Keefe, who had been remanded for further evidence of his causing a panic in the "cage" at Hanlan's Point, was fined $10 and costs or forty days. George Abbott was fined $50 and costs or three months' imprisonment for selling liquor without a license at the grocers' picnic in the Exhibition grounds. John Cuyna, Edward Judge and John Flannigan, whose antipathies were aroused by the playing of an Orange band in Duchess-street on Saturday night and who assaulted Archibald Sherlock, were remanded for a week. Jennie McCarthy, for disorderly conduct in St. Lawrence Market, was fined $3 and costs or thirty days.

The superiority of Mother Graves' Worm Exterminator is shown by its good effects on the children. Purchase a bottle and give it a trial.

Released at Last.

Before Judge McMahon, at Osgoode Hall yesterday, an order was made for the discharge of the Debtor Slingerland, who has been confined in the jail of Norfolk, County of Simcoe, for the past five months under a writ of capias issued at the instance of Messrs. Laing, wholesale merchants, London, Ont., on their claim of about $400. Defendant, who had been a farmer, sold his farm a couple of years ago for $3000, which he invested in a country store. He failed in business, attempted to conceal some of his stock and neglected to turn over to the assignee some lands to which he was the owner in Michigan. Having now transferred these lands, the order of release was made out.

Some persons have periodical attacks of Cholera Morbus, Dysentery or diarrhœa, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

FIREPROOF BUILDING MATERIAL.
The Rathbun Company of Deseronto are now manufacturing and have for sale all kinds of fireproof building material. Their Porous Earthenware or Terra Cotta is recommended by Architects and Insurance Companies as unexcelled for protection against fire. Weighs one-third that of brick, mortar adheres to it without the use of lath, it may be nailed, sawed and worked with carpenters' tools, it takes the place of wood or brick for outer or inner walls and floors at about the same cost, insures immunity from fire, dampness and vermin, giving warmth in winter and coolness in summer, lowers insurance, decreases the cost of the building.
Persons re-building old structures or erecting new ones are solicited to consult their architects or write us direct in reference to this new material. 63

WATCH REPAIRING.
As it Often is, versus as it Should be.
Having lately taken in to repair quite a few watches that have been recently repaired by others, without success, and for which work more than double charges are sold to have been made, it occurs to me to inform the public that my charges vary from 50c. to $1.00 and but rarely exceed this. My numerous customers will bear me out in the assertion that it does not cost them more than from $1 to $2 to get good time from their watches the year round. I do not charge my confreres with overcharging for the work done, the mistake is in needlessly doing too MUCH, from not having the experience and skill to readily perceive the cause of difficulty, which may be a mere trifle. Please note the address.
