MORE EVIDENCE ABOUT THE MONCTON LAND PURCHASE

OTTAWA, June 14—(Special)—In the committee of public accounts this morning R. W. Hewson, a solicitor of Moncton, N. B., through whom some 19 acres of land required by the I. C. R. for extension of the yards was purchased, was recalled. He stated to Mr. Emmerson that he was a Conservative and for some 12 years had been a member and office holder in the party association. For some years he had been endeavoring to sell land to the government railway because it was favorably situated forming a gore between the St. John branch of the road and the main line terminating at the junction, and negotiations for the sale of the land to Mr. Lodge had been proceeding for some time before the sale was effected.

There were several different properties included in the sale, and the railway would not want any one of the properties unless all could be procured. There had, he said, been a great increase in values of land recently. He knew that land in the vicinity had been held at $1,000 an acre and had heard of other land being held at $2,000 per acre. That was for land across the street from land which the government had purchased, of the later quotation, however, he had no personal knowledge.

Mr. Hewson was examined at some length by Mr. Emmerson as to the congestion in the Moncton registration office, and the time it required to make a search of the title to the property in question, and expressed the opinion that Mr. Friel's account for that work was not unreasonable.

To Mr. Ames Mr. Hewson said he had not been secretary of the Conservative Association since Sept. 1904, but the $300 he had made out of this transaction had not changed his politics. He had conducted all arrangements in the purchase, but Mr. Matthew Lodge had advanced the money for the purchase.

Mr. Lodge had received $18,880 from the government for purchases to cover his own advance of $5,015, a purchase of $5,000 from the witness and the witness' fee of $300, so that Mr. Lodge made a profit on the transaction of $8,400.

Mr. Pottinger, general manager of the I. C. R., was called, but he did not know anything about the matter except what he learned from the minister of railways.

"Call the minister," Mr. Foster asked next.

Hon. H. R. Emmerson went into the box and described his visit to Moncton, in August, 1904, for the inspection of land, when it was decided to be desirable to get it all for railway purposes. He did not know then that Mr. Lodge was getting options on the land, but Mr. Lodge told him the land was for sale.

Mr. Lodge had never been authorized by him to act as a purchaser of these lands for the government nor led to believe that the government would buy the land.

Mr. Emmerson expressed the view that if the government had gone to different owners and bought land it would have cost a good deal more.

WILL HAVE DOG SHOW

The executive of the Exhibition Association has decided to hold a dog show in connection with the big fair this fall. Thomas McCullough will be in charge of the exhibits and a capable man will be brought here to act as judge. Suitable prizes will be provided and it is expected that this will prove to be one of the strong features of the exhibition. It is probable that the southern end of the machinery hall will be utilized for the display of canines.

Manager C. J. Milligan left yesterday for St. Stephen, where he will confer with some of the manufacturers regarding the placing of exhibits in the big show.

Search for the Missing Children to be Continued.

Sheriff J. A. McQueen, of Dorchester, came to the city Wednesday and was at the Royal. Speaking to a Telegraph reporter, Mr. McQueen said that there were no further developments as to the mysterious disappearance of the two Cremmer children. Speculation as to their probable fate is still rife and the desire to ascertain the truth has in no way abated.

At present Policemen Chappel and Thomas, of the Moncton force, are at work at Cape Tormentine trying to find the missing tots but so far without success. The reward of $100 has served to stimulate the search.

Mr. Sumner is very much interested in the matter and, as a result of his efforts, probably another party will go to the scene on Monday and search anew. Sheriff McQueen has readily agreed to this and the party will also likely include Chief Tingley, of the Moncton police. Efforts are also being made to have Detective Williams, of the I. C. R., assist.

The sheriff is in daily receipt of letters from all over the country showing that the interest is widespread. Letters even from Montreal are received by him offering suggestions and theories. At present Mr. McQueen's theory, though he admits that he may be wrong, is that the children were lost.
