SELECTED A NEW SITE.

Technical School Board Pick on 159 College-street as the Place for a New School.

The Technical School Board met Monday night and selected a site for a new technical school.

Lot No. 159, just west of the T.A.C., on College-street, is the site.

It remains now for the Board of Control to sanction the action of the Technical School Board.

Ald. Hallam reported on the advisability of the purchase, and moved that the Board of Control be so recommended, and this was carried unanimously.

The board will pay $15 for a page advertisement in the Labor Day souvenir.

Accounts totalling $285.35 were ordered to be paid.

Messrs. Hallam, Wickson, Wickens, March, Tweed, Glockling and O'Donoghue will report on Deputy Minister of Education Millar's views on technical education.

Dr. Pyne wrote, stating that the Medical Council would sell their building for $100,000.

ELEVEN SPECIAL TRAINS.

Conveyed 4500 Harvest Hands to the Northwest Yesterday—A Record-Smashing Excursion.

Harvesters' excursions to the Northwest were held yesterday all day. It took eleven special trains to carry the crowds. Every train coming into Toronto from the surrounding country was laden with farm hands bound for Manitoba to earn a few shekels in garnering in the golden grain of the west. Doubtless some of the boys will become enamoured of the country and stay there.

It is estimated that 4500 persons went west yesterday. There were 20 cars of baggage. This excursion was a record-smasher.

FINE OLD WINES

With Which Chicago Germans Will Regale Themselves.

Chicago, Aug. 22—Six huge ironbound casks, containing 500 gallons of old wine, direct from the private cellars of the King of Wurtemburg at Stuttgart, were taken from the Chicago custom house Saturday. The wine is a gift from the King to the Chicago Schwa en Verein, and it is expected to flow freely at the annual Saengerfest of that organization, to be held in Ogden's Grove.

Mr. Gowan's Denial.

Mr. John Gowan, a member of the Toronto Opera House Orchestra, has just returned from Atlantic City. He stated that he was surprised to learn in a Toronto paper that the British American Band of Toronto had got stranded in that city. Mr. Gowan was a member of the band, and he denied most emphatically that the band was in any trouble. The band is doing first-rate in Atlantic City, and will remain there until Sept. 3. After that it is possible they may go to Philadelphia for two weeks to fill an engagement there. The salaries of the men are paid regularly. There is no back money, and no foundation whatever for the statement that the band had got stranded.

Mr. Gowan says they are treated very kindly by the Americans and that the band is popular with visitors. Over the band stand where the performers play is written these words, "This Band from Toronto, Canada."

Cheap Trips to Toronto.

The Transportation Committee of the Liberal Club announce that they have made arrangements with the G.T.R. and C.P.R. to carry all persons wishing to come to Toronto to hear Sir Richard Carwright on Thursday next, 24th inst., at a fare and one-third for parties of eight from any station. These tickets are good to return in 30 days. They have also arranged for a single fare from all points via the Niagara Navigation Company Line, also from St. Catharines by Lakeside and Lincoln, and by steamer Garden City from Cobourg, Port Hope, Oshawa and Whitby, and from Hamilton by Hamilton Steamboat Co. The chairman of the committee, Mr. Peter McIntyre, would like to hear from any of the Liberal Clubs that are sending deputations, so that they can be met at the station by the committee.

The Demon Dyspepsia—in olden times it was a popular belief that demons moved invisibly through the ambient air seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial. ed

The Property Committee of the Public School Board will meet on Friday.

INVESTIGATION IS DISCUSSED

General Approval Expressed Around the City Hall at the Bay-Street Fire Inquiry.

REDUCTIONS OF ASSESSMENT.

To Increase the Civic Staff—Proposed New Stables—Paving Contract—City Hall Notes.

The talk around the City Hall yesterday centred on the Bay-street fire investigation. There was a consensus of opinion that the enquiry should proceed and be a thorough one. That there has been mismanagement, lack of harmony and consequent impairment of efficiency was generally conceded. The opinion, too, was expressed that the chief of the fire brigade has sufficient power in his own hands to check many of the irregularities that cropped up in the preceding day's investigation. At the same time he is blamed for not sufficiently insisting on the necessity of up-to-date equipment for life-saving purposes. True, the 65 feet ladders have been time and again recommended, and the unsparing pruning knife of the Board of Control has cut off the requisite amounts. Now is Chief Graham's chance, in reporting fully on the Bay-street fire and the alleged bad management thereat, to tell the Fire and Light Committee with no uncertain sound what the defects of the present hook and ladder trucks are, and what he requires in the way of life-saving equipment to allow the brigade to maintain its boasted pre-eminence. Ald. Sheppard's suggested fire marshal would not be required if the chief and chairman were not hampered by divided counsel in the Fire and Light Committee, the members of which naturally are susceptible to outside influence. The expression was heard around the Hall that this investigation ought not to prove abortive as so many other civic enquiries have done, but that such a report and recommendation should be arrived at that the Council would have no option than to adopt. If this is not done it is more than probable that the fire underwriters, instead of reducing their rates, may increase them. The report to be presented at a special meeting of the Fire and Light Committee, is awaited with interest.

Absence of Intelligent Direction.

The Mayor yesterday said emphatically that he did not wish it to be understood that he was attacking the administration of the fire department simply because a ladder was not forthcoming in the emergency. It was the disorder and confusion, the lack of system and design, the promiscuous crowding into a small area of a lot of apparatus that was not wanted, the mismanagement—in fact the absence of intelligent direction that he most condemned at the Bay-street fire.

Increased Civic Staff.

Architect Lennox has written the Mayor, requesting that several temporary employes at the new Civic Buildings be appointed permanently. They are the chief engineer, assistant engineer, three firemen, coal-heaver and patrolman. The matter will be decided at the next meeting of Council.

Many Small Reductions.

The Court of Revision finished the consideration of the appeals in Ward 5 yesterday afternoon. The reductions in assessment were not of great account. Among them were $400 taken off No. 311 Crawford-street, owned by Maria Carlton; $150 each from an assessment of $3000 on Nos. 975 and 977 West Bloor-street, owned by F. X. Tennant and H. Cluny; $2 per foot on Nos. 61 and 63 Givens-street; $150 on No. 19 Lakeview-avenue; $125 on No. 215 Bellwoods-avenue.

Will Give Them a Free Ride.

In reply to the request of Ald. Saunders that the Toronto Railway Company assist in the entertainment of the International Municipal Association in October, Manager Keating has written that the company will place cars at their disposal for a ride round the city.

Cannot Comply With the Contract.

The Fruin-Bambrick Paving Company of New York cannot obtain lake asphalt for the pavements on Prince Arthur-avenue, Brunswick-avenue and Sorauren-avenue. As the City Engineer has refused to allow the company to use land asphalt, the work on these thoroughfares will be done by the Warren-Scharf Company.

Proposed New Stables.

In consequence of the complaint of Manager Keating of the Toronto Railway Company that the corporation stables on Yorkville-avenue are in an unsanitary condition, Ald. Saunders will move, at the meeting of Council on Sept. 18, that the property be sold, and new stables erected on a lot owned by the corporation in Tannery Hollow.

After Twenty Years.

Kendrick H. Blogg of Melbourne, Australia, was a visitor at the Civic Buildings yesterday, after 20 years' absence from his native city. He was delighted with the magnificent pile and with the progress the city had made in the two past decades.

CONVICT CLINE SUCCUMBS.

Released a Few Weeks Ago on an Error, But Now Gets Out For Good.

Kingston, Aug. 22.—Yesterday Miss Jean Henderson, a Kingston girl, visiting in Jamaica, was united in marriage to Mr. S. P. Smeeton, Registrar-General of Jamaica.

Convict Cline of Grimsby, sent to the penitentiary in May for shooting with intent, died last night. He was released several weeks ago through an error in one of the departments at Ottawa, but was speedily secured and returned to the penitentiary. There he passed away after much suffering from rheumatism and heart disease.

J. E. Thorne, grocer, Earl-street, died today, aged 63 years, from a stomachic ailment. He was an Orangeman and a Methodist. A widow and three children survive him.

Mr. Moore, of Moore & Taylor, reported to the Chief of Police that a bicycle had been stolen from the firm. It appears that G. R. Sanderson of A Battery purchased the wheel for $35, paying $9 down. Sanderson deserted from the battery some days ago, and before going sold the bicycle to Mr. Lamoureux for $5. Officer Bateson was detailed to hunt the case up, and was successful in finding the wheel. He returned it to Mr. Moore.

ANOTHER TELEGRAPH LINE.

Juneau Has Raised a Subsidy to Have Connection With Dawson.

Juneau, Alaska, Aug. 15, via Vancouver, B.C., Aug. 22.—A subsidy has been raised here for the construction of a telegraph line to Skaguay, there to connect with the line to Dawson. It is hoped to have the line in operation by the 1st of October.

Lackey's $35 or 35 Days.

Many cases were disposed of at the Police Court yesterday. Most of them were matters of intoxication, carrying with them $1 and cost.

Frank Lackey, who smashed a plate glass window, will have to pay $35 or go over the Don for 35 days.

Thomas Collins, who assaulted P. C. Wallace, was sent to jail, and the doctor will pronounce upon his sanity.

No Wind To-Day.

The man who makes the weather says there will be but little wind to-day, while the sun will shine bright and warm.

Couldn't Estimate Its Value.—Dr. Agnew's Cure for the Heart never fails. It relieves in 30 minutes, it cures. It is a beacon light to lead you back to health. W. H. Musselman of G. A. R., Weissport, Pa., says: "Two bottles of Dr. Agnew's Cure for the Heart entirely cured me of palpitation and smothering spells. Its value cannot be estimated. I feel like a new man."

WIARTON OWNED BY SCOTS.

Caledonian Games Drew an Enormous Crowd—The Toronto Highlanders Were an Attractive Feature.

Wiarton, Ont., Aug. 22.—To-day the Sons of Scotland owned the town. Never has there been such a gathering of Scotia's sons as the crowd that witnessed the Caledonian games at the new Driving Park.

The splendid pipe band of the 48th Highlanders of Toronto arrived here on the late train last night, together with several extra coaches of guests, scores of whom had to walk the streets all night, as the hotels were all filled by 6 o'clock. To-day it is a perfect jam.

The procession to the grounds was headed by the 48th Highlanders, and the Wiarton Citizens' Band. The streets were lined along the route of march clear out to the grounds, fully a mile distant. The attractions, which included athletic sports of all kinds, piping, dancing and fancy dress, were on a scale never before attempted in this part of the country. The sports were well contested. The feature of the day was undoubtedly the grand bayonet and English quarter-staff contest between Pte. Stewart (champion of the world) and Sgt. Williams, both of the 48th Highlanders. The judges were John Ramsay of Owen Sound and Daniel Stewart, chief of the Sons of Scotland, Brussels.

The day's proceedings wound up with a grand concert on the grounds. The committee having the celebration in charge had everything working like clockwork.

A LIST OF FALL FAIRS.

STORM PLAYED HAVOC.

Thirty Houses and Two Churches Destroyed on a Southern Island.

Norfolk, Va., Aug. 22.—A special to The Virginia Pilot from Washington, N.C., says that the recent storm played havoc on Occracock Island, destroying 30 houses and two churches, washing away the Norfolk and Southern Railroad piers, grounding several steamers and schooners, wrecking smaller craft of fishermen, drowning not less than 20 men, and all the horses and cattle on the island. The island was under water three days.

An Amusing Circumstance.

At the Dunlop Trophy race on Saturday at the Woodbine an automobile, from some derangement of its interior economy, refused to move. An urchin who had, like the rest of Torontonians, begun to imagine there was only one cure in the world, and desiring to see the event in which the automobile figured, cried out: "Give it a Hutch." As if it required only the mere suggestion, the difficulty vanished, and the automobile was able to proceed immediately.

ACTORS OF THE UNIVERSITY

The Hallowe'en Club Will Present Shakespeare's Midsummer Night's Dream on Nov. 1.

THE CAST IS ALREADY SELECTED.

Rehearsals Are Going on Four Times a Week—Promises to be a Success.

For years it has been customary at Toronto University for the students to celebrate Hallowe'en by attending a theatre en masse. This year will be no exception, but the attraction will be afforded by the students themselves. Early in the spring a Hallowe'en Club was formed at Varsity, and put on a permanent basis. The officers are: J. G. M. Merrick, president; W. A. R. Kerr, vice-president; F. D. McEntee, manager, and F. E. Brophey, treasurer.

G. W. Hastings.

To their care was entrusted the task of selecting a play, and players among the students, to celebrate Hallowe'en, 1899.

A Students' Play.

It is known that McGregor Young of Osgoode Hall and Prof. Leacock of B.C.C. have been working upon a play dealing with student life, after the manner of "Charley's Aunt," but as they have not yet completed their work, the club chose Shakespeare's "Midsummer Night's Dream" as most suitable for amateur players, and not devoid of interest to theatre-goers.

For the past six months rehearsals have

E. N. Armour.

been held by a carefully selected cast, and the boys feel confident of the success of their effort. At present, four times a week, at University College, the different parts are being studied under the direction of H. N. Shaw, B.A.

The cast so far ascertainable is composed of George W. Hastings, Thesus, Duke of Athens; Lysander, H. N. Shaw; Nick Bottom, the weaver, Eric N. Armour; Flute, the bellows-mender, A. J. G. Macdougall. Among the others billed to play are: F. C. Trebilcock, Trinity Medical School; P. W. O'Bryan, Toronto Medical School; F. E. Brophey, University College; O. Wilson, Toronto Medical School; J. Carswell, Dental College; K. Parry, Varsity; F. A. Cleland, Toronto Medical School, and A. E. Hamilton, Varsity.

It is expected that Miss McLeay, sister of Mr. Franklin McLeay of London, Eng., will essay the part of Hippolyta, Queen of the Amazons, and Miss Gertrude Hughes, that of Hermia, daughter of Egeus, in love with Lysander. The other female characters will be cast from the students in elocution at the Toronto Conservatory of Music, and the Toronto College of Music.

Music in Good Hands.

Prof. Torrington has volunteered his services in the conduction of the musical part of the play, which is no small feature. Mendelssohn's nocturnes, overture, Wedding March, scherzo and intermezzo are skilfully woven into the presentation. The solos and the choruses will be sung by members of the Glee Clubs of the University.

The play will be presented under the patronage of President Loudon and the faculty, and will doubtless create as much furore as the presentation of "Antigone" did a dozen years ago.

THE UNITED STATES PERMIT

Canadian Soldiers to Pass Through Their Territory on Way to Yukon.

Ottawa, Aug. 22.—The Militia and Defence Department has received permission from the United States Government for small bodies of troops, intended as reinforcements for the military field force in the Yukon, to pass through American territory, with all their arms, accoutrements, etc. It is learned that a good many members among the hundred men to be recalled are applying to headquarters for their discharge and intend to remain in the Yukon. Not a few of those who it is intended shall remain are also desirous of returning to civilian life in the country, and consequently it is probable that reinforcements of the same comparative size will have to be sent in.

MARCHAND DOESN'T BELIEVE IT.

Says Klobb and Meunier Could Not Have Overtaken Voulet.

Paris, Aug. 22.—The Libre Parole publishes an interview with Major Marchand, the African explorer, who, while not doubting the death of Lieut.-Col. Klobb and his companions, declares the story of the killing an infamous calumny, as he does not believe that Col. Klobb had time to overtake the Voulet expedition. Major Marchand thinks the fate of Klobb and Meunier due to their recklessness in attempting to traverse a dangerous region with insufficient escort.

Bowmanville Robbery.

Provincial Detective Rogers has gone to Hull, where he will investigate the arrest of the men there charged with stealing the money from the Bowmanville bank some time ago.

CANCER And Tumors cured; at home; no knife, plaster or pain. For free book with testimonials, write Dept. T., Mason Medicine Co., 677 Sherbourne St., Toronto, Ont.

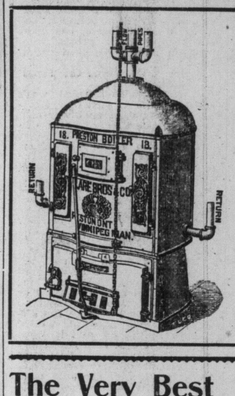
Dealers in Good Goods Sell Carling's

CARLING LONDON

The Essence of Perfection in Hot Water Heating Is Attained With a PRESTON BOILER



Because all waterways are completely surrounded by fire.
" It is a single piece boiler without joints.
" It affords vertical circulation.
" It has an exceptionally long fire travel.
" Its inner surface is corrugated.

Send a rough sketch of the building you want heated, and we will send you catalogs, estimates and advice.

We also manufacture coal and wood hot air furnaces, combination heaters, hot water radiators and registers.
