DOING TIME FOR CRIME OF ANOTHER

Case of Mistaken Identity Responsible for Plight of London, Ont., Man.

UNDER SUSPICION, GAVE SELF UP

Wife Unable to Get Word to or from Husband Serving Five Years.

London, Ont., Feb. 10.—William McDonald, a native of this city, is in Portsmouth penitentiary serving a five year sentence, it is alleged, for the crime of another. Convicted of forgery, a case of mistaken identity, it is claimed, is responsible for his plight. As the same time he fell little Mrs. McDonald received no word from his wife until he was about to leave for the penitentiary. She claims it was the first news she was able to get to him.

Two men claimed that McDonald had given bogus checks in return for large quantities of liquor. Information against McDonald was not laid with the police until three months after the transactions are alleged to have taken place.

SCHOONER SENATOR REPORTED SUNK

The schooner Senator is reported sunk in Chance Harbor with only the tops of her mast showing at low water. Captain A. J. Mulcahy visited the scene of the foundering Thursday at the request of the underwriters, but no efforts are being made at present as to any further salvage work, and it is not expected that any more steps will be taken until the underwriters have settled the matter of the insurance on the vessel and her cargo of pilings.

The captain and mate of the sunken schooner left on the train Thursday night for Boston, accompanied by J. J. Ready, local representative of the owners of the vessel, and also the cargo. Mr. Ready had a consultation with Hazen Vroom, of Vroom & Arnold, in connection with a section of the insurance on the cargo which the company that Mr. Vroom represents is carrying.

ARRESTED ON WARRANTS.

Robert Bree was arrested on a warrant last evening charging theft of coal from the C. N. R. Percy Shaw was arrested on a warrant charging non-support. One drunk and one protection'st completed the bookings at the Central Police Station.

BRITISH MINISTER OF AGRICULTURE HECKLED

Embargo Against Entry of Canadian Store Cattle Provided Ammunition.

London, Feb. 10.—Sir A. Griffith-Boscawen, Minister of Agriculture, displayed some warmth when replying in the House of Commons to numerous interjectors regarding the heavy financial burdens on agriculture in Great Britain. Several members provided an opening by referring to the embargo against the entry of Canadian store cattle.

The minister briefly mentioned the financial chase as a matter been receiving the attention of the Chancellor of the Exchequer, but he added: "Of all the extraordinary remedies for agricultural depression in Great Britain, the suggestion to remove the Canadian embargo is the most extraordinary."

Sir A. Boscawen named a list of the miscellaneous which, he said, were bound to follow the raising of the embargo, and finally asked the members not to waste time arguing the question.

ST. STEPHEN

St. Stephen, N. B., Feb. 9.—The regular meeting of the W. C. T. U. was held on Monday evening with Mrs. Harold Haley, at her home, on Prince William street. There was a good attendance in spite of the storm. Mrs. Card, Provincial "Y" secretary, was the guest of the evening. The regular business of the week was transacted quickly, and then Miss Hala Lawson, president of the "Y's," introduced Mrs. Card, who was to speak to the girls. Mrs. Card gave a very interesting and inspiring talk on the life and character of Miss Frances Willard. She spoke of Miss Willard's charming personality, her wonderful mind and keen interest in her work, and told many touching incidents of the life of this wonderful woman. Mrs. Card also gave some practical and helpful suggestions for work in the "Y's," and commended them highly for the work they were doing. At the close of her address, Miss Lawson presented her with a beautiful bouquet of white roses and thanked her for her splendid address. Miss Myra Vessey also spoke a few words of thanks and gave a short, but very interesting account of having met Miss Willard personally at a World's Conference some years ago. L., of Kings East and a spray from the Sunday School class which she taught. Interment was in Kirk Hill cemetery, Sussex.

She Has Used Them And Is Well Again

Why Women Praise Dodd's Kidney Pills.

The Healthy, Happy Woman is the One Whose Kidneys Are Healthy—Dodd's Kidney Pills Make Healthy Kidneys.

Notre Dame des Quinze, Que., Feb. 10.—(Special.)—"Yes, I have used Dodd's Kidney Pills and with good results. I am now well again."

In these few words Mrs. Alias G. Perreault, well-known and highly respected here, tells the story that is coming from other women all over Canada. They have suffered and found relief. They are praising Dodd's Kidney Pills.

For being purely and simply a kidney remedy Dodd's Kidney Pills strike directly at the seat of women's troubles, the kidneys.

The woman with healthy kidneys is the healthy woman. The weak, sickly woman shows restlessness drag and who carries with her everywhere a weight of weariness and pain should look to her kidneys.

Ask your neighbors if Dodd's Kidney Pills are not the greatest of all kidney remedies.

How to Make Fine Cough Syrup at Home

You know that one is most in season at present and that coughs are quite common. Well, I think that I have found the best cough syrup I ever tried. It is very easily made. Take 2 ounces of Pinex and add to it 1 pint of home made syrup. Shake well. The mixture is good for any cough and should last a family a long time. Children like it because it is pleasant to take. It is also very effective for bronchitis, hoarseness and throat troubles. Pinex is a concentrated compound of pine and is well known for its prompt action in these troubles. To avoid disappointment, ask your druggist for 2 ounces of Pinex and add to it 1 pint of home made syrup. Take a teaspoonful every hour or two. Good results are guaranteed in 24 hours. Pinex is sold in all parts of the world. It is very compact, and will not spoil in any climate. Mix it in your own home and save the difference. The Pinex Co., Toronto, Ont.

CENTRAL BAPTIST CHURCH SERVICES

Large Attendance Last Evening at Service Conducted by Rev. E. H. Cochrane.

The special services being conducted by the Rev. E. H. Cochrane at the Central Baptist Church have markedly been growing in interest, attendance and results. Last night's meeting was the biggest so far, the general spirit of the service was one of earnest intensiveness. The spirit of prayer is deepening and the "win one" spirit is abroad. Amongst the membership. A number have already decided for Christ and it looks now as though the congregation are on the threshold of a big spiritual movement.

Rev. Mr. Cochrane's sermon last night was a powerful one, he took as his text "What shall it avail a man if he gain the whole world and lose his soul."

The meetings will be continued tomorrow morning and evening and every evening next week.

Big Drop In Dodge Brothers' Prices

An announcement of more than ordinary interest is contained in the advertisement of the Victory Garage and Sports Co. Ltd., in today's issue of The Standard in which the new prices on Dodge Brothers motor cars are listed. The new figures show radical price reductions on every class of automotive vehicle manufactured by Dodge Brothers, the smallest being on the roadster which is now ready for delivery in the Maritime Provinces at a reduction of $365, while the greatest drop is shown on the Sedan, which is now offered at $765, less than recently quoted prices.

These are indeed substantial reductions, though all of recent date, because, in that they do not indicate any cut of such a magnitude as accompanied the announcement of the new prices of Dodge Brothers last year, they show the automobile trade, which last year was admittedly the worst ever experienced in the business, the unprecedented gains in 1921, the demand for Dodge Brothers motor car which had left no car in the 1920 product was delivered at the year ended, meaning not less than 150,000 were delivered of the year, meaning something not less than the factory was closed down for three months.

Announcement of a revival of business in 1922 on Dodge Brothers' factories have been kept going nearly during the last few months with the result that the manufacturing organization has not only been kept intact, but has been speeded up in production to such an extent that old costs have been materially reduced, so that lower prices can now be put into effect upon a sound cost basis, which will likely be maintained throughout the coming year.

The present price, in Dodge Brothers car, is, in fact, in proportion to pre-war levels, the lowest, it is claimed, notwithstanding the immediate improvement in the industry, the reductions in classes of Dodge Brothers vehicles above and below the present price range are expected to be followed with equal promptness by other manufacturers, so that the motor car industry may be expected to be in a position to offer to the public the lowest prices for motor vehicles that have been known since the pre-war days.

"Passion" Is A Wonderful Film

Private Exhibition of Famous European Classic Given Here Last Evening.

After being held in abeyance until the close of the war because of the unwelcomeness of things European on this side of the water the Franco-German-Russo cinema triumph "Passion" is now being shown in the Kor centres of British Empire and United States. As far as Canada is concerned it has had its premiere in Montreal, Winnipeg and other cities of the West and is booked for screening in Toronto in the near future. A private view of this extraordinary photo-play was given in Imperial Theatre this city last night between 10 o'clock and midnight over two hundred specially invited guests being present.

"Passion" is simply a new title for the story of Madame Dubarry mistress of Louis XV of France, whose caprices led that dotdering old monarch into such flagrant misdeeds of state and diplomacy that the bloodiest revolution in all history resulted, the strikin head of the King's mistress falling into the basket with those of thousands of aristocrats. St. John people, have not been privileged to enjoy the art cinemas of foreign lands because of the intervention of war for nearly a decade and subsequent difficulties, but now that the bars are lifted and nation is again trading with nation throughout the world these gems from other lands are coming to us and surs are going to them.

So it is with "Passion." A story acted by a mixed company of the greatest artists of France and Germany headed by the brilliant Polish star, Pola Negri. Sitting through the wonderful film last night the thought could not be dispelled that the witches was really living in that luxurious yet troublesome period previous to the French Revolution. Palace interiors, costuming of peasants and noblemen, gardens, royal courtyards, the cobbled streets of Mediaeval Paris and every other detail was accurate, as to authentic history. In fact the stately residences and adjacent outdoor were the actual premises on which the historical scenes were acted in France.

"Passion" has been a magic word in Modern since its wonderful scenes were "shot" consuming a period of over a year. It was openly predicted by those who saw private exhibitions of it in Europe that it would excel in many points the best productions of the New World. This assertion seemed to be authenticated in the minds of critical film-savers at last night's exhibition. The picture is redolent of the atmosphere of old Europe. It is a very intimate close-up of royal scenes in those dangerous days of free license as between men and women in high places. Consistently and logically the DuBarry episodes keep themselves into a tremendously tragic climax in which the guillotine is the principal actor.

"Passion" is to be positively shown in St. John in the near future and as one of the three outstanding film achievements of the history of the business to date will doubtless create unusual flutter.

Warm Your Blood.

A poet has said that "the owl for all his feathers was a-cold." Some people for all their wraps are a-cold whenever they are out-of-doors even in normal winter weather.

It is plain that they need the warmth there is in pure, rich, red blood, which reaches through arteries and veins from head to foot, all over the body. They could be told by many people, from experience, that to have this good blood they should take Hood's Sarsaparilla. This great medicine has really made it possible for many men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and its benefits are as lasting as those of any tonic possibly can be.

If there is biliousness or constipation, which often occurs as a result of the lingering effect of cold, Hood's Pills may be taken. They are gentle yet positive in their action, and are specially compatible with Hood's Sarsaparilla, and are gentle and thorough.

Install Modern Safety Vaults

Contract Signed Yesterday for Extensive Alterations in Eastern Trust Co. Premises.

The contract for extensive alterations in the premises of the Eastern Trust Co., and the installation of one of the most modern and up-to-date safety vaults in Eastern Canada, was signed yesterday and work will be commenced on the job this morning. The work is to be completed by July 1st. F. Neil Brodie is the architect and Manzer, H. Mooney & Sons the contractors for the work, which will cost about $15,000.

The plans call for the remodelling of the present offices on the street floor. The building of a safety vault, 16 by 20 feet inside, three coupon rooms and toilet and cloak rooms in the lower floor formerly used by John Jackson as a barber shop.

The vault will be built of concrete and steel and old rails, there being incorporated in it no less than 3,000 lineal feet of heavy rails, the concrete being poured around them.

Health Conditions In Old Country

Hon. W. F. Roberts Receives Word Influenza Epidemic Widespread Throughout England and Scotland.

The Hon. W. F. Roberts, Provincial Minister of Health received the following telegram from the deputy minister of health, at Ottawa last evening in regard to the Influenza Epidemic now prevailing in the British Isles, and other parts of Europe.

"Cable received from High Commissioner, London, reports influenza epidemic still widespread throughout England and Scotland. Marked decline in London and other large towns. Similar epidemic in France, and continental countries. Far East relatively free."

(Signed) DR. D. A. CLARKE,
Assistant deputy minister of health.

Freight Car Jumped Track

Accident Near Bloomfield Yesterday Morning Held up the Traffic for Some Time.

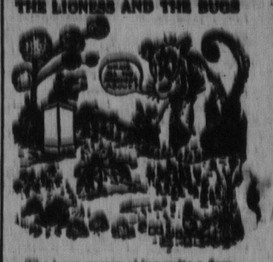
A freight train which left here early yesterday morning met with a mishap near Bloomfield at eleven o'clock which resulted in holding up traffic for a time. One of the cars left the track and tore it up for quite a distance. The cause of the accident was a defective wheel.

A wrecking train was sent out from the city and in a few hours made good the damage done and traffic was resumed. The Maritime Express due at 1.35 did not arrive until 3.15, and the train which left here at 1.40 was held at Hampton until the track was clear.

In England a light two-passenger automobile has been produced that floats on water and can be propelled with blades fitted to the rear wheels.

GEO. H. FILM Fables

THE LIONESS AND THE BUGS



The bugs were making quite a fuss
About their children numerous
And flies and gnats and ants and bees
Boasted their countless families.

And then they asked the lioness,
"How many cubs do you possess?"
"One," she replied, with mien grand,
"But it's a LION—understand."

The moral's plain as plain can be
"Quality counts—not quantity!"

THE PIONEER OF MOTION PICTURES IN CANADA

L. Ernest Gelinet, of Montreal, is the man who placed motion pictures on the map of Canada. Seventeen years ago he opened his first small theatre in Montreal, called the Cinematoscope, which is now one of Montreal's leading theatres, although Mr. Gelinet is not now interested in it. It was the first moving picture theatre in Canada. From this small beginning the industry grew up until it is classed today as one of the foremost industries of the continent. Mr. Gelinet heads the Pathe Canada in Canada and is the president of the Specialty Film Import, Limited, of Montreal, with branches in St. John, N. B. Montreal (local agency) Toronto, Winnipeg, Calgary and Vancouver.

APPOINTMENTS IN CIVIL SERVICE

Commission Makes Public Changes by Amendments to Civil Service Legislation.

Ottawa, Feb. 10—(Canadian Press)—A list of the appointments which have been removed from the jurisdiction of the Civil Service Commission, some of which have been taken out as the result of amendments to the Civil Service Act passed last session, has been issued by the Commission in answer to a multitude of inquiries which all the departments of the government service have been receiving as to how appointments to the service are made. It is pointed out that, while probably 98 per cent. of the positions in the public service are under the control of the Civil Service Commission, there are some exempt by "special legislation," or by reason of particular conditions which make it desirable in the public interest to be exempt them. In the latter case, the exemption is authorized by the Governor-in-Council upon the recommendation of the Commission, under section 38 B.

The exemptions of both classes, up to Feb. 1, 1922, are as follows:

A—Deputy ministers, and those holding the rank of deputy ministers and members of any commission or board appointed by the Governor-in-Council.

B—Private secretaries to Ministers of the Crown.

C—Temporary sessional staff, Senate and House of Commons.

D—Members of the Royal Canadian Mounted Police.

E—Positions in connection with the Government Railways, or any railway owned or controlled by His Majesty, or any position on any ship of His Majesty until Parliament otherwise directs.

The expression "ship of His Majesty" is defined by the act to include "every transport or vessel, however propelled, which is used in navigation or in the improvement of navigation and which is the property of or chartered or employed by His Majesty the cost of which, or any part of the cost of which, has been defrayed out of the consolidated revenue fund of Canada."

F—The employes of the Income Tax Commissioner's office in the Department of Finance; the temporary employes on the staff of the Soldier Settlement Board; and the temporary employes of the staff of the Department of Soldiers' Civil Re-establishment, all of which are exempt by special legislation dealing with these bodies.

IS YOUR NOSE PLUGGED? HAVE YOU CATARRH?

If Subject To Colds, Here is Real Good Advice.

Don't load your stomach with cough syrups. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrh. Easy to do this with CATARRHOZONE, which helps a cold in five minutes. Even to the lungs goes the healing vapor of Catarrhozone, all through the bronchial tubes; nostrils; and air passages—everywhere a trace of disease remains will Catarrhozone follow. You'll not have colds nor will you suffer from sniffles, bronchitis, or throat trouble if Catarrhozone is used. Get it today but beware of dangerous substitutes meant to deceive you for genuine Catarrhozone. Large size, two month's treatment, costs $1.00, small size 50c., sample size, 25c., all dealers or the Catarrhozone Co., Montreal.

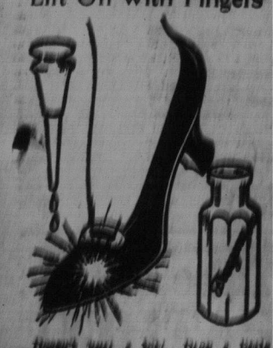
BOARD OF TRADE RECEIVES LETTER

The Board of Trade yesterday received a letter from the deputy minister of railways in connection with trade through the port, and better passenger accommodation for this city. The letter says:—"The management of the Canadian National Railways is in the matter of the improvements at the terminals at St. John very anxious consideration, also that they are sure to further the interests of Canadian ports in every way possible, and at no time have diverted traffic to foreign ports. He drew attention to the fact that the routing of traffic in the majority of cases is largely beyond the control of the railways, as they have to respect the bill of lading."

Odorless onions are now successfully grown in Boise, Idaho.

CORNS

Lift Off with Fingers



Doesn't matter a bit! Drop a little "freezone" on an aching corn; instantly that painful corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callouses without soreness or irritation.
