Poetry.

From the Rochester.

Ye may believe your pills illinois, grow
great over you good,
Or, over sweet, over yer cribbage in
some cozy hood;
Ye may whimper for whist, an' for loo
yo may groan,
But for 'ca, 'ill 'ma out of the sail
channel stone.

In mild Winter when heavy King Frost
rages wi' rocks,
An' has silenced pike song o' lift bursts
and shocks,
When the bould bobbitt bouch has one
story to tell,
Let me off and 'ave' ten the pearl at
Saville.

When the whiter o' the stone and the
whisk o' the wave,
An' the jokes an' the toasts set my
heart too brave,
It's a power, a power, a deal for a 'Dr.
Doctor John Frost, believe me, supplies
the best pills.

Here thunks shouting winkingly, "Lay
me one there,
Noo just be over the mills, I'm wanting
one more;
Noo watch her, now mum, now, boys,
hah the wave;
Weel play'd, sir! weel play'd, sir! oh,
she's over, let her dee."

What words half are entering, "It's a
perfect pit fit."
Or, "Man, you for a tipper, but look it's
over yoot;"
"A great shot, sir! great shot, sir!"
man over the pond,
"You play like a book, sir!" the echoes
resound.

"Tak' an' twatch on that or an' twatch
on this;
Noo mak' eyes at yer stone, I don't want
yo to miss;"
An' to dee it, what pleasure, a kingdom
to win,
When, "Hooa!" should the ship, "you
have played it, my son."

Yes, gae bounce over yer billiards, grow
great over yer pewt,
Or sour crooks over yer cribbage in
some cozy hood;
To may whimper for whist, an' for loo

But let me to Rozelle wi' the aul' chan-

ODDS AND ENDS.

Charles Lamb said of one of his critics:—"The more I think of him, the less I think of him."

Men who travel barefooted around a newly-carpeted bedroom often find themselves on the wrong tack.

"A school boy spelled "sob," and then defined it thus:—"It means when a fellow don't want to cry, and it bursts out itself."

To be pleasant is a duty. Show freed man a [illegible] Show to [illegible] back in five minutes.

Who always comes to a ball after midnight?—One a. m.

The asylum of every household—the kitchen and [illegible]

The merchant tailor never presented a magnificent cover at the king.

"Why did you [illegible] without looking at me?" said a beautiful woman to Talleyrand. "Because, madam, if I had looked, I could not have passed."

"Molly, I think you'll never get the river on fire," said a lady to her servant. "—Indeed, ma'am, I'd never be after doing anything so wicked—I'd be burning up the little fellur," replied Molly.

They do funny things on the River Seine, as the following from a French newspaper shows: "A young man of agreeable presence and desirous of getting married would like to make the acquaintance of an aged and experienced gentleman who could dissuade him from taking the fatal step."

"It's well enough for you to name your boy Elias," said Aunt Hannah, "but for goodness sake don't name him Alias, cause the Alises is always a cutin' up bad. There's Alias Jones, Alias Brown, Alias Thompson, Alias one-eyed Jake, all been took up for robbin' an' steelin'."

A Sacramento lawyer remarked to the Court: "It's my candid opinion Judge that you are an old fool." The Judge allowed his mildly beamer eye to fall upon the lawyer a brief moment, then, in a voice husky with suppressed emotion, said: "It's my candid opinion that you are fined $100."

An anti-tobacconist, in addressing a company of sailors, warned them against chewing and smoking and declared that every pipe one had, however moderately it was indulged in, "Avast there," exclaimed an old salt; "I know a pipe that never hurt anybody."—"What is it?" blandly asked the lecturer.—"A horn pipe!" yelled the old tar, and the lecture was extinguished in a flood of laughter.

"You've sowed the wind, and now you reap the whirlwind," said the school teacher, as he brought his cane down in a hurry on the back of a rebellious boy. "Yes, and it's a regular hurryanee, too," sobbed the youngster, between the whacks.

Only a [illegible] has not some [illegible] which [illegible] on thread from his best coat collar, and felt his heart beating quickly for it. Or gazed upon a lock hair away in some much and not felt the influence of tender memories! Only a woman's hair! And yet we do not like it in biscuit.

Tall and bulky people require more sleep than thin people. In a state of health, the amount of sleep required to restore nervous energy averages from six to eight hours. Sleep on the right side, and eat nothing heavy before retiring.

☞ Never be ashamed of confessing your ignorance, for the wisest man upon earth is ignorant of many things, inasmuch that what he knows is a mere nothing in comparison to what he does not know. But we apprehend very few are ignorant of the wonderful effect of the "Canadian Pain Destroyer," its a most sure and rapid cure for colds, rheumatism, pleurisy, colic, cholera morbus, and most common complaints. Sold by all medicine dealers.

SKIN DISEASES.—Of whatever nature are completely eradicated by the use of Fowle's Pile and Humor Cure; its effect is marvelous for Scrofula, Salt Rheum, Ring-Worm and even Leprosy, it has proved itself an almost never failing cure. (See special notice.)

☞ Consumption, so prevalent and so fatal, is dreaded as the great scourge of our race, and yet in the formative stages, all pulmonary complaints may be readily controlled by using "Bryan's Pulmonic Wafers." They will relieve the worst cough in a few minutes, and have a most beneficial influence on the bronchial and pulmonary organs—but they must be used in time. Public speakers and singers will also derive great benefit from them. Sold by all druggists and country dealers. Price 25cts per box.

LOSS OF APPETITE IN HORSES.—Horses lose their appetite from various causes, but most frequently by the approach of some disease. This circumstance ought not to be overlooked by those who own horses, but should be immediately attended to so by so doing the disease may be checked, and the life of the horse saved. To do which we are positive there is nothing equal to "Darley's Condition Powders and Arabian Heave Remedy;" it purifies the blood, corrects all derangements of the digestive organs and as a necessary consequence the appetite is restored, the skin, and the coat assumes a soft and shining appearance. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

A German Camp comprising 100,000 soldiers is to assemble at Torgau in the spring under the Emperor William. The idea that the movement is aimed against Russia is ridiculed by many, who call to the mind that Russia will not allow the troops, based on her territory in the autumn, when they are all assembled, and consequently, [illegible] Though by no means as near France as any part of the old Prussian territory, and not offering any special advantages for military operations beyond this, as it is in a mountainous valley, surrounded by wooded hills, where the manœuvring of large bodies of troops cannot fail to do great damage. The French Army, it has long ago been ascertained, will, in the spring, be ready to take the offensive, as nearly like to actual war as is possible in a time of peace.

PEPPER CAKE.—One lb. flour, ½ lb. of butter, ½ lb. of sugar, ½ lb of flour, ½ lb. of currants; oz. of candied lemon-peel, ½ pint of milk, 1 teaspoonful baking powder. Put the flour into a basin with the sugar, currants, and sliced candied peel; heat the butter to a cream, and mix all the ingredients together with the milk. Beat the whole well, until everything is thoroughly mixed. Put the dough into a buttered tin, and bake the cake from 1½ to 2 hours.

ALMA PUDDING.—Half pound of fresh butter, ½ lb. of powdered sugar, ½ lb. of currants, 4 eggs. Beat the butter to a thick cream, stir in, by degrees, the sugar, and mix both these well together; then dredge the flour in gradually, add the currants, and moisten with the eggs, which should be well beaten. When all the ingredients are well stirred and mixed, butter a mold that will hold the mixture exactly, tie it down with a cloth, put the pudding into boiling water and boil for 3 hours; when turned out strew some powdered sugar over it and serve.

HOUSEHOLD MEASURES.—As all families are not provided with scales and weights referring to ingredients in general use by every housewife, the following informations may be useful:

Wheat flour, one quart is one pound.

Indian meal, one quart is one pound and two ounces.

Butter, when soft, one quart is one pound one ounce.

Loaf sugar, broken, one quart is one pound.

White sugar, powdered, one quart is one pound one ounce.

Best brown sugar, one quart is one pound two ounces.

Eggs, average size, ten eggs are one pound.

Sixteen large tablespoons are a half-pint, eight are a gill, four are a half-gill, etc.

A number of deaths in the snow are reported from Scotland. Chas. Grant, sixty years of age, perished on Dec. 26, while walking from Kirriemuir to Dundee. On Sunday, Dec. 27, some people going to church at Stathaven found a man lying dead in the snow; and at Auchterarder, on Saturday, James Rae, an cutler, died from the combined effects of drink and exposure. Mr. James Patterson, Priory place, Dorchester, was found frozen to death at the door of his cousin's house near Chorley. He was to have been married in a few days to a young lady staying in the house, and was expected there on a visit on Christmas.

The London, Eng., Times, in a recent article, says:—"In the gloom surrounding us one thing is perceptible. All men are arming. Germany is armed to the teeth, and surrounding nations, including the best part of the world, cannot do otherwise. Momentary dreams of peace have fled away. Germany recognizes the stern necessity that what she won by arms she can only hold by arms, and while arms are in her hands." The Times confesses that Germany cannot raise a third army. Her hopes are in her navy.

Recent Scotch statistics show that the "Land o' Cakes" is losing its agricultural character and becoming a commercial, mining and manufacturing country. The agricultural class diminished in number during the last decade from 372,947 to 270,098. The explanation is found largely in the fact that tillage has been abandoned in many sections for grazing, and that the moors return a greater rental as deer-forests than as sheep-walks. The commercial class increased 31,763. Glasgow has a population of over 40,000. Edinburgh has a population of 197,978.

PRESENCE OF MIND IN ACCIDENTS.—Professor Wilder gives these short rules for action in case of accident: For dust in the eyes, avoid rubbing, and dash water into them; remove cinders, etc., with the round end of a lead pencil. Remove insects from the ear by tepid water; never put a hard instrument into the ear. If an artery is cut, compress above the wound; if a vein is cut, compress below. If choked, get upon all fours and cough. For light burns, dip the part in cold water; if the skin is destroyed, cover with varnish. Smother a fire with carpets, etc.; water will often spread burning oil, and increase the danger. Before passing through smoke, take a full breath, and then stoop low; if arbon is suspected, then walk erect. Suck poisoned wounds, unless your mouth is sore. Enlarge the wound, or better, cut out the part without delay. Hold the wounded part as long as can be borne to a hot coal or end of a cigar. In case of poisoning, excite vomiting by tickling the throat, or by hot water or mustard. For acid poisons, give alkalis; in case of opium poisoning, give strong coffee and keep moving. If you fall into water, float on the back, with the nose and mouth projecting. For apoplexy, raise the head and body; for fainting, lay the person flat.

ELECTRICITY.

THOMAS' Eclectric Oil.

Worth Ten Times its Weight in Gold!

Pain cannot stay when it is used. It is the cheapest Medicine ever made. One dose cures common Sore THROAT. One bottle has cured Pneumonia. Fifty cents worth has cured an STRAYERS COUGH. It positively cures Cholera Asthma and Croup. Fifty cents worth has cured Crick in the Back and the pain of Rheumatism of eight years standing. The following are extracts from a few of the many letters that have been received from different parts of Canada which, we think, should be sufficient to satisfy the most sceptical. "Oxford, of Sports, Ont., writes: "Send me 6 doz. Dr. Thomas' Eclectric Oil. Sold all I had from you and want more now; it is cures are truly wonderful." Wm. Lawrence, Franklin, writes, "I have sold all the agent left, it acts like a charm—it was sow at first but taken splendidly now." H. Cole, of Lona, writes, "Send forward 6 dozen Thomas' Eclectric Oil. I am pestered by out; nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Bradford, writes—"Send me some more Eclectric Oil, I have sold entirely out. Nothing takes like it." Miller & Hood, Tiverton, P. O., write—"The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckhorn, P. O., write—"Send us one gross Eclectric Oil, we find it to take well."

Special Notices.

Holloway's Pills and Ointment are neither manufactured nor sold in any part of the United States, although they may be obtained in the B. N. American Provinces.

Each Pot and Box bears the *British Government Stamp*, with the words, "Holloway's Pills and Ointment, London," engraved thereon.

It has become necessary to make this announcement, because the New York Chemical Company (who pay nobody), finding at last that their name has been so exposed, have assumed the title of "Holloway and Co.;" but, even now, no one will buy their medicines direct from them, so that they have made arrangements to supply exclusively the firm of Messrs. Henry and Co., of New York, with their so-called "Holloway's Pills and Ointment."

It is presumed that, from the large connexion Messrs. Henry and Co. have in the British Provinces and elsewhere, the public is very likely to be imposed upon by unscrupulous vendors and others unless they exercise great caution to prevent their being misled, by finding these medicines bearing a stamp with the name of "Holloway and Co., New York," printed thereon.

Many respectable Firms in the British Provinces, who obtain my medicines direct from here, have very properly suggested that I should, for the benefit of themselves and the public, insert their names in the papers, that it may be known that my medicines can be had genuine from them.

The following is a list of the Firms alluded to; and I particularly recommend those who desire to get my medicines to apply to some of the Houses named:—

Messrs. Avery, Brown & Co., Halifax, N. S.
Messrs. Forsyth & Co., Halifax, N. S.
Messrs. T. B. Barker & Sons, St. John, N. B.
Mr. T. Dee Briney, Charlotte Town, P. E. I.
Messrs. Langley & Co., Victoria, B. C.
Messrs. Moore & Co., Victoria, B. C.
Dr. John Fallon, Chatham, N. B.
Messrs. Munro & Co., Montreal.
Messrs. J. Winer & Co., Hamilton, Ont.
Mr. B. J. Rose, Toronto.
Mr. A. Chipman Smith, St. John, N. B.
Mr. John Bond, Goderich, Ont.
Messrs. Elliot & Co., Toronto.
Mr. J. Chaloner, St. John, N. B.
Messrs. Hannington Bros., St. John, N. B.
Mr. R. S. Priddy, Windsor, Ont.
Mrs. Orpen, Morden, N. S.
Mr. George C. Hunt, Jun., Fredericton, N. B.
Mr. W. H. Thompson, Harbor Grace, N. F.
Mr. J. M. Wiley, Fredericton, N. B.
Messrs. W. & D. Walls, Montreal.

The medicines are sold at the lowest wholesale prices, in quantities of not less less than £20 worth—viz., 8s. 6d., 22s., and 34s per doz. and boxes of Pills or pots of Ointment, for which remittances must be sent in advance.

Chemists and other vendors of Holloway's genuine Pills and Ointment may have their names inserted in the local papers if they will please apply here—

THOMAS HOLLOWAY.

THE GREAT NUMBER OF CASES benefited and cured has established beyond a doubt the remarkable efficacy of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya in the treatment of diseases of the lungs. Consumption, in the majority of cases, is unmistakably the result of depraved nutrition and poor blood. There is loss of appetite, feeble digestion, imperfect assimilation of food, and consequent failure of nerve power, to maintain the vital forces. The cough, raising of phlegm, night sweats and general debility arise from slow starvation, as it matters not how much nourishment is taken in if the stomach cannot prepare it for sustaining the constitution. The Elixir immediately supplies the waste of brain and nerve, invigorating the stomach liver and kidneys, and thereby arresting decline.

DOCTOR BALLOU

OFFICE

No. 10 King Street West,

Three doors from Yonge St., Toronto.

As an evidence of his ability we give below extracts of cures by gentlemen whom he was with as before, which is of our opinion, sufficient proof to keep him busy as long as he chooses to remain in the city, which will be until he cures every one he will take.

I desire that the citizens of Toronto and vicinity (to whom I am well known) should know of the wonderful cure that Dr. Ballou performed upon my son, William J. Spears, in this city, on January 16th, 1874. He had a very severe attack of Inflammatory Rheumatism, and was brought home from school at Cobourg in a helpless condition, and was confined to his bed, on which we carried him to the Albion Hotel, suffering from fearful torture, to be treated by Dr. Ballou, having little hope that he would ever be cured, after spending so many afflicted with it for a lifetime. But what glad surprise awaited us. After one single treatment his pain entirely left him, his swollen knees and ankles became as nate as ever, and in three days he was, and is to this day, as well as he ever was. In any other age such a cure would be considered almost a miracle. If there are any who desire further proof let them come and see.

ACHIBALD SPEARS,
No. 469 Queen Street West, Toronto.

I would cheerfully recommend Dr. Ballou to all my acquaintances, as his services to me were beyond all price, and I had tested the skill of the so-called best physicians

D. A. CAMPBELL,
175 Sherbourne street.

Dr. Ballou cured me of Lung and Throat Disease in three treatments, when I was so weak that I could scarcely walk to his office.

KATE ROBITTER,

Dr. Ballou cured my daughter of Epileptic Fits which she had for eleven years, and she never had one after his first treatment, and before it she had them as often as eight to fifteen every week.

WM. P. McMULLIN,

Many other cases of Rheumatism, Dyspepsia Dropsy, Liver and Lung Disease, Heart Disease &c., may be seen at his office.

The Doctor also cures Cancer, Paralysis, Spermatorrhœa, and is perfect master of all Sexual or Private diseases. Treatments strictly confidential, and all letters addressed to him at 10 King street, West, will be attended to. Box 2046. 1443 1y

by Business Men to be a thoroughly practical business school. A large number of its graduates and members are occupying responsible positions in Canada and the United States, on their own as well as on others' accounts, and by the satisfactory manner in which they discharge their duties plainly evince the great benefit to be derived by pursuing a systematic course of instruction in accounts and business practice, under the supervision of a practical accountant and a man of business experience, before entering into mercantile life; and to which all, both Principals and employees, give their unqualified assent and endorsement.
