SABBATH PEACE.

For our Sabbath peace we bless Thee—
For the quiet hour of prayer—
For the holy stillness resting
On nature everywhere—
For the soft bells gently chiming
Upon the quiet air—
For our Sabbath peace we bless Thee—
For the quiet time of prayer.

For the calm and deep communion
Our wearied spirits feel,
With Jesus the Redeemer,
As in Thy courts we kneel.
There is water for the thirsty—
Rest for the weary there:
For our Sabbath peace we bless Thee—
For the quiet time of prayer.

We fear not the oppressor,
Nor the stern avenger's rod;
We bless thee that in boldness,
We may kneel before our God;
No chains, nor prison darkness,
Our trembling souls to scare;
For our Sabbath peace we bless Thee,
For the quiet time of prayer.

For the banner of thy wondrous love,
That floats above our path,
When sorrows's angry billows
Rise in tempestuous wrath—
For Thy sustaining presence
Through six days' toil and care—
For our Sabbath peace we bless Thee,
For the quiet time of prayer.

For the star of joyful tidings
That cheered the shepherds's sight—
The beacon of salvation—
The Gospel's glorious light—
Through sin and sorrow beaming—
Through darkness and despair;
For our Sabbath peace we bless Thee—
For the quiet time of prayer.

MARVELLOUS DISCOVERY OF A CANAL ACROSS THE ISTHMUS!—The New Orleans Courier of the 3d inst. publishes in French an account of a subterranean canal which, it is alleged, has been discovered, connecting the Atlantic and pacific Oceans! The Washington Globe translates the story, and we publish it for the benefit alike of the credulous and incredulous:

"A French physician established at Vera Paz, who, besides practising medicine, has the charge of extensive farming estates, upon making some excavations, undertaken with a view of forming a canal through which to carry his produce to the sea, discovered at the bottom of the Bay of Honduras, the opening of a monumental canal seventy-five metres wide, (about two hundred and forty feet) and running in a straight line towards the south-west, its sides being constructed of enormous stones rudely cut. The two walls, which continued parallel, had been followed to the distance of several leagues.

Having reached the foot of the mountains, where the volcano of Feugo is now in activity, and cut away huge trees that obstructed the entrance, they passed under a vault of 100 metres in height, (about 335 feet,) and of the same width as the canal. Nothing among the ancient Cyclopean structures in Greece could give an adequate idea of the tremendous masonry in the wall of this vault. The canal was filled with salt water, twenty metres deep. Our intrepid countryman did not hesitate to embark with some Indians in a pirogue, which he caused to be brought to the spot, and eighteen hours afterwards, (if his story is to be believed) he entered the great ocean, (the Pacific) between Guatemala and San Salvador, through an immense natural grotto, called by the fishermen of that coast the Devil's Mouth, which superstition had deterred them from ever entering. The whole vaulted part of this structure was lighted by shafts cut through to the surface above, and through the whole extent it is navigable for the largest ships.

M. Alexander Humboldt had already mentioned American edifices whose architecture indicated a very high antiquity, and revealed a peculiar civilization; but his learned descriptions give us no idea of the existance of such a monument."

Eaton Hall, Cheshire, Feb. 12, 1842.

This inestimable Medicine being composed entirely of medicinal Herbs, does not contain any mercurial, mineral, or deleterious substance. Of the Thousands *cured by its agency*, many who were on the verge of the grave for a considerable period (by *persevering* in its use) have been RESTORED TO HEALTH AND STRENGTH, *after every other means failed.*

All Diseases (and whatever may be their symptoms, however they may declare themselves, yet one cause is common to them all, viz., a want of purity in the blood and fluids) are cured by this wonderful Medicine, which cleanses the stomach and bowels, while its Balsamic qualities clear the blood, give tone and energy to the nerves and muscles, invigorate the system, and strength to bone and sinew.

The Afflicted need not give himself up to despair, as one without hope, but let him make a proper trial of the MIGHTY POWERS of this astonishing Medicine, and he will soon be *restored to the blessings of Health.*

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the "Great Eastern Remedy."

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great, and only remedy for this awful malady, and now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs Inflammation of the Lungs, croup, &c. it is unrevaled. But the Proprietors so confident of the merit of this great remedy, in the worst forms fo consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipien consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy, a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life which the medical faculty are unable to discover or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
