Chicago Gossip.

J. P. Bickell & Co. say at the close of the market:

Wheat—General showers over spring wheat district and weak foreign cables were signals for profit taking closing values 1¾c to 2¼c lower. While the weather conditions have improved, irreparable loss has been heavy and while reaction may extend further on improving weather, we believe purchases on sharp declines preferable.

Erickson Perkins & Co. had the following at the close:

Wheat—The tenor of our advices today regarding spring wheat shows no improvement. The market, however, showed a tendency to halt and a reactionary tendency was no more than natural. The movement of winter wheat will doubtless have a great influence on the minds of speculators, even those bullishly inclined, for any selling pressure, resulting from such movement must be taken care of either by professional buyers or milling trade. For this reason we should be inclined to go rather slow on the buying side at the moment as the setback so far from the higher point has been very small compared with the advance.

Corn—Mr. Snow, who is traveling thru the corn belt, wires that all vegetation in Eastern Kansas shows that there has been ample rainfall so far, and that in the northern counties of Central Kansas, while rainfall has been less, crops have not suffered. We favor sales on all hard spots.

Oats—Prices easy with other grains, altho the decline was not as great as in wheat or corn. Northwest houses moderate on the break. Selling was in the way of profit-taking and by locals. Reports where cutting is taking place show fine yields. We see nothing on which to take the long side.

149 CARS AT UNION YARDS QUALITY OF CATTLE GOOD

All Offerings Sold—Price for Cattle 10c to 25c Lower—Sheep Easier Lambs, Calves, Hogs, Steady.

The quality of cattle was good, better than was expected, and better all round than a week ago.

Trade was fairly good, altho it was a hard market to gauge, taking it all round, but when over 3000 cattle are disposed of and the market cleaned up we cannot say anything else but trade was good.

Prices were easier all round was the general concensus of opinion of both buyers and sellers, and it is not often you'll get both to agree on this point.

George Campbell, buyer for Morris & Co., reported cattle 10c to 25c lower for good, and 15c to 25c on the medium.

Market Notes.

The following speaks for itself as regards what cattle dealers have to put up with in shipping their stock:

On Saturday last, at 3 p.m., a drover reports having loaded his cattle on the G. T. R. at Whitby, where they remained on the car at that point until Sunday, at 6.55 a.m. They reached the market at 11.30 a.m. Sunday, after being over twenty hours on the car, covering a distance of about 35 miles. The M. P. for that district, Mr. Fowke, should take a note of this.

T. S. Sproule says: "Three hundred thousand Orangemen and hundreds of thousands of Protestants in Canada are heartily in sympathy with you."

have been of a bullish nature, but little enthusiasm has been aroused, the advance being mostly at the expense of the short interest. To-day's advices included reports of heavy showers over Oklahoma, breaking the drought in that state, and warmer conditions thruout the balance of the belt. What is now needed is a cessation of rainfall over the entire belt, with the exception of Central and West Texas. Continue to advise sales of the new crop on all bulges.

PLUCKY DRIVER.

The Very Ill Insists on Piloting Car into Mexico.

LAREDO, Texas, July 11.—The departure from her native land of the Flanders "20" "Under Three Flags" automobile took place this afternoon and the car spent the night in a corral adjoining a chile concarno emporium in Nuevo Laredo, across the bridge. The long series of customs formalities concluded and the crew expect to start early to-morrow morning for Monterey, which may be reached in two days. Arrangement had been made for Jesse Applewhite, a local garage man, to drive the car across the bridge in place of W. J. Lane, who had been persuaded to engage accommodations for Detroit, doctors advising that his rheumatism must develop even more serious symptoms. At the hour of the start, however, Lane hobbled to the car and insisted on being lifted to the position at the wheel with Bruske shifting the gears. Lane piloted the car to the bridge on which the flags were shifted, the Mexican contingent at last going to the point of honor. Then, with the same hand at the wheel which had brought the car thru Canada and the United States, the Flanders entered on the third and final round of her trip. Lane is somewhat better to-night and tho every movement costs him agony, insists that he will continue the trip, riding by rail when necessary, and will drive the car into Mexico City to the finish.
