FOR B.C. EMPLOYERS

A new $10 Million Employment Funding Program for Student Summer Jobs.

APPLY NOW.

Jobs now—that's the goal of the provincial government's newly appointed Cabinet Committee on Employment Development. A number of important employment-stimulating programs are being initiated. Today, priority is being given to a $10 million Employment Funding program to help B.C. employers create upwards of 8000 summer jobs for students.

Employers are urged to respond as quickly and as creatively as possible, to increase the efficiency of their own operations and to put more young British Columbians to work.

The following have been designated as key areas of job opportunities.

BUSINESS. Jobs that can be created in a wide variety of businesses throughout B.C. will be funded on a cost sharing basis. The maximum provincial government contribution will be $2.50 per hour.

FARMS. Funding to farms across the province will be on a shareable basis, with the provincial government contribution not to exceed $2.50 per hour. It is anticipated that most jobs will be between two and four months in duration.

TOURISM. Funding will be made available to Tourist Information Centres for travel counsellors who will provide information on local and regional B.C. attractions. Funding levels will be at the current minimum wage of $3.65 per hour.

MUSEUMS. To upgrade the quality of museum services throughout the province, funding will be provided for staff to research and catalogue B.C. artifacts and to conduct educational and interpretive programs for museum visitors and tourists. Funding levels will be at the current minimum wage of $3.65 per hour.

UNIVERSITIES AND COLLEGES. Funding will be provided to help create career related jobs not available elsewhere. Institutions will be required to establish jobs of at least two months duration and will be encouraged to extend the employment period using funds from other sources (i.e. research grants). Funding will be limited to a maximum of $1200 per position.

INFORMATION FOR EMPLOYERS. The Employment Opportunity Programs Branch of the Ministry of Labour, with professional staff in 16 field offices, is ready to assist employers in taking maximum advantage of this new program immediately.

Participants in this program must be students, minimum 15 years of age, who have attended an accredited educational institution on a full-time basis for at least one semester since October 1, 1981. Unemployed young people between 15 to 24 years of age will also be considered eligible.

TO APPLY. Employers are requested to contact one of the Ministry of Labour offices listed below or to make use of the toll free number ZENITH 2210 for further information.
