COMMERCIAL MISCELLANY.

Notwithstanding the satisfactory reports of the state of trade, from various points of the country the business failures in the United States and Canada keep up to large proportions. Last week they numbered 254 as against 228 the preceding week and 216 in the corresponding week of last year.

It may be stated as a matter of curiosity that the longest railroad bond on record, probably, is that of the Elmira and Williamsport Railroad Company. The loan amounts to $570,000, carries five per cent interest and falls due A.D. 2862.

Lionel Hurwitz, the Englishman who has been getting New York brokers to speculate for him and has not defrayed his losses, was arraigned at the Tombs and discharged. The Police Justice decided that Messrs. Douglas and Jones, the complainants, must have redress in a civil court.

The Canadian Pacific is reaching out for further conquests in New England. It now has in view the control of, or at least a traffic arrangement with, the Maine Central Railroad. In this way it would be privileged to use the tracks of the Portland & Ogdensburg Railroad. It will be remembered that the latter company has been recently leased to the Maine Central. A definite proposition is understood to have been made to the Maine Central, but no results have as yet been arrived at.—Wall-street News.

The advance in wheat is not solely due to speculations, The Wall-Street News contends, and as proof of its contention points to the unwillingness of farmers and millers to sell at the price Old Hutch made. Farmers, says The News, know that the demand for seed wheat next spring will be greater than ever and husbanding the best wheat for seed which they believe will be worth more for seed than can be realized for milling purposes.

The complaint of the Coxe Brothers & Co. against the Lehigh Valley Railroad Company, directs attention to the policy of the Anthracite Carrying Companies of mining coal at a loss, trusting to make up that loss on the freight. The coal companies organized for defence but their policy has resulted in crushing out the individual operator and absolutely preventing the owners of mining property and the skilled miners from reaping the profit to which he is fairly entitled.

A number of new American companies are forming to develop iron ore mining along the line of the Kingston and Pembroke Railway. There will be more prospecting done this winter than ever before. Owners of smelting furnaces in the United States are finding ore of desirable quantity and are willing to buy all that can be mined.—Wall Street News.

Grand's Sale of Horses.

At Grand's sale this morning the whole list was disposed of. There were 35 horses—a mixed lot, with sales from $50 to $140. There was a fair local demand and business shows an improvement. The demand for general purpose was good and for drivers fair. Horses for coal carts are in strong demand.

Mr. Thomas Ballard, Syracuse, N.Y., writes: "I have been afflicted for nearly a year with that most-to-be-dreaded disease Dyspepsia, and at times worn out with pain and want of sleep, and, after trying almost everything recommended, I tried one box of Parmelee's Valuable Pills. I am now nearly well, and believe they will cure me. I would not be without them for any money."

West Toronto Junction.

Editor World: In an article that appeared in your issue of the 29th inst., you state that in a few months Toronto will embrace the outlying suburbs of Windermere, West Toronto Junction, Braeondale, Deerpark, Davisville, Victoria Park and a number of other places. The remark may cause some misconception in the minds of your readers. West Toronto Junction scorns the comparison with the suburbs mentioned. The Town has already taken the stand of remaining independent from Toronto, and has no idea of becoming annexed either in the near or distant future. The conditions of West Toronto Junction are it is needless to point out, unique as compared with those of Parkdale or any of the suburbs of Toronto. Apart from its attractions as a place of residence, there is every promise of the town becoming the principal manufacturing centre of Ontario. And it is well able, if we are to judge by the signs of the times, to maintain the stand it has adopted. Annexation in the next few years would be suicidal, and rumors of annexation are most prejudicial to the interests of the town. R. H.

FIREPROOF BUILDING MATERIAL.
The Rathbun Company of Deseronto are now manufacturing and have for sale all kinds of fireproof building material. Their Porous Earthenware or Terra Cotta is recommended by Architects and Insurance Companies as unexcelled for protection against fire. Weighs one-third that of brick, mortar adheres to it without the use of lath, it may be nailed, sawed and worked with carpenters' tools, it takes the place of wood or brick for outer or inner walls and floors at about the same cost, insures immunity from fire, dampness and vermin, giving warmth in winter and coolness in summer, lowers insurance, decreases the cost of the building.
Persons re-building old structures or erecting new ones are solicited to consult their architects or write us direct in reference to this new material. 63

BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
