NEW YORK MARKET SLUMPS WHEN BOND BIDS OPEN

Bids Fall Considerably Below the Usual Estimates; All Issues Irregular

New York, May 20.—After slowly gathering strength during the greater part of today's market, stocks received a setback late in the session when bids were opened for New York City's $45,000,000 issue of 4 1-2 per cent. bonds. The bids fell considerably below the usual estimates.

The view commonly held as to the probable issue price of the bonds was indicated by the trading in the bonds "when issued," which has been in progress on the curb for some time. The bonds sold as high as 100 3-4 and today there were sales at 100 1-2 before the bonds were opened. When it became known that bids from some of the largest financial institutions were being received at par or slightly above, the bonds sold off to 100 3-16 and the outstanding city issues also weakened.

The city's bond offerings had been looked forward to with unusual interest, in the hope that the result might indicate the revival of an investment demand. Some encouragement was derived from the fact that many more individual bids were received than on the occasion of any city bond issue since 1908, but the street expressed disappointment that the comparatively high rate of interest did not result in higher bids. The depression of sentiment as a result was registered in a reaction in the stock market which cancelled a large part of the gains made earlier in the day.

Prices of stocks moved irregularly at the outset but the undertone was firm. Withdrawal of pressure from the Rock Island and St. Louis and San Francisco issues, which were especially weak yesterday had a stimulating effect and traders were inclined to take the long side of the market. The upward movement received considerable impetus from the circulation of a rumor that the Harriman dissolution plan had been decided upon to the satisfaction of all parties at interest. On the strength of this rumor Union Pacific and Southern Pacific rose strongly and the rest of the market moved up with them. Although the rumor was subsequently denied the market retained its advantage until it receded its set back late in the day.

Bonds were higher. St. Louis and San Francisco general 5's touched 72, a new low record. Total sales par value, $1,430,000.

Panama 3's coupon advanced 1-8 on call.

Receipts 247 cars, with 4,000 cattle; 321 calves, 483 hogs and 560 sheep and lambs. Demand, however, for good cattle proved active and prices were maintained at about last Tuesday's level. TORONTO MARKETS.

Toronto, May 20.—With a new low record or two achieved and business on an even similar scale than usual, it could not be said that the Toronto stock market was a specially lively affair today. Brazilian was a shade firmer than yesterday, though it dropped earlier in the day to 94. Canadian Loco hit a new low mark for the year at 52 3-4, which is 2 1-4 points below the previous level. There was no life to stocks, however, aside from these. On the curb Mexican Northern went to 13 5-8, a new low record. The stock has been heavy for some time. At the company's office here, this morning, the statement was made that the report of an issue of new securities was without foundation.

MONTREAL MARKETS.

Montreal, May 20—A few issues displayed an improving tendency in the local stock market today but the improvement was slight and was offset by further declines at other points on which some low records for the year were established. The general tone of the market remained for either pronounced strength or pronounced weakness.

Power which sold at 221 to 220 3-4, as compared with 220 at the close on Monday; Textile which recovered 1-4 to 85; Brazilian 1-4 higher at 94 3-4; Hilcrest which rose 2 1-4 to a new high record of 47 3-4 and closed at 47; and cement common which rose 1-4 in the afternoon on a fair demand and closed firm at 29 1-2 bid, were the only stocks to display an upward trend. Toronto rails continued quiet but steady around 143 1-2 with the price bid, and 45 asked at the close of the day.

C.P.R. failed to maintain the rally of the previous day and fell back to its lowest price, 236 1-4, in the afternoon, all the gain of Monday thus being eliminated. Iron weakened on the morning news of a new issue of preference stock and closed at the low of the day, 48, with a net loss of 3-4.

On light selling a number of issues brought into new low ground for the year. These included Detroit which sold at 72 ex div. and and closed only 1-4 better; Spanish at 60; Canadian Loco at 53; Illinois Preferred at 89. Union Bank shares sold at 144 ex div., as compared with the previous low of the year, 147. MacDonald equalled its low record of 53 1-2.

In the bond list the firmness of Montreal Street 4 1-2's which sold at par on transactions amounting to $35,000 was an encouraging feature in a rather dreary day's business.

The total business, 3,692 shares; 430 mining shares; $37,020 bonds and debentures.

LONDON MARKET

London, May 20.—Money and discount rates were dearer today. With the exception of a rise in home rails on the settlement of labor troubles and a slight recovery in copper shares, the stock market was dull and easy. Further realizing in order to aprticipate in the Chinese loan affected foreign bonds and gilt edged securities, and Kaffirs sagged when they were offered by Paris. Consols lost another eighth. American securities opened quiet. Prices advanced a fraction during the pending the Wall street opening. Later the list declined under the lead of Canadian Pacific which was sold at Berlin, and offerings from New York. A slight rally followed and the market closed steadier, a fraction above the lowest.
