HOLLOWAY'S OINTMENT.

Extract of a Letter from Mr. Thomas Brunton, Landlord of the Waterloo Tavern, Connaught, York-street, late of the Rifle Guards, dated September 25th, 1848.

To Professor Holloway. Sir,—For a long time I was a martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicine, I was so bad as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indeed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I took up, I thought I would give them a trial. I did so. I rubbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pills night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicine, quite well, and have been standing to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pills and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pills and Ointment, which soon healed it when nothing else would do it. For your information I had the honour to serve my Country for twenty five years in the first regiment of Life Guards, and was eighteen years a corporal, I was two years in the Peninsula War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1832. The Commanding Officer at the time was Colonel Lyger, who is now a General. I belonged to the troop of Captain the Honorable Henry Baring. (Signed) THOMAS BRUNTON.

Cure of a Bad Leg of Twenty-one Years' Standing. Extract of a Letter from Mr. Andrew Brack, Blacksmith, Eyemouth, near Berwick, dated the 10th of August, 1848.

To Professor Holloway. Sir,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a bad leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your Pills and Ointment, which I purchased from Mr. I. Davidson, Druggist, Barwick-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful cure. (Signed) ANDREW BRACK.

AMPUTATION OF TWO TOES PRESENTED. Extract of a Letter from Mr. Oliver Smith Jenkins, dated Falkirk, August 13th, 1848.

To Professor Holloway. Sir,—I was superintending about six months ago, the erection of one of our Railway Bridges, and by the fall of a large stone my right foot was severely bruised, which ultimately got so bad, that I was advised to go to Edinburgh to consult some of the eminent Surgeons, which I did, and was told that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occupation, and at this time my toes are perfectly cured. (Signed) OLIVER SMITH JENKINS.

EXTRAORDINARY CURE OF A GENTLEMAN 80 YEARS OF AGE, OF A VERY BAD LEG. Extract of a Letter, dated Szamundham, 18th Jan'y, 1847.

To Professor Holloway. Sir,—I beg to inform you that I suffered with a bad leg for 20th years, and had been under the hands of a respectable Surgeon for some months, without getting any relief, so that at last I mentioned to the Surgeon that I should like to try your Pills and Ointment, and he said "do so, for I do not see any chance of your getting better, without my using the Ointment, to get a proper discharge." By taking your Pills and using your Ointment, I got immediate relief, and in a short time a complete cure, for which, I thank God, and to you, Sir, I return my sincere thanks. It is generally known about here, and is called a surprising cure. RICHARD STOPHER.

The above Gentleman is now so hale and strong, even in his 80th year as to be able to discharge the duties as Clerk to the Commissioners of Taxes, at Szamundham.

BY R. M. STEAMER:

The Royal Mail Steamship Niagara, arrived on Thursday morning, at 2 o'clock, in 11 1/2 days from Liverpool. She brought 83 passengers. We give our usual summary of News.

GREAT BRITAIN.—The prospect of trade in nearly every department continued satisfactory. In the produce markets there was a large amount of business going forward, and prices were more remunerative than at our last advices. Cash still continued plentiful, with every appearance of its remaining so. The Corn market at the last accounts was exceedingly tame, and prices had a downward tendency.

In the speculative circles it was confidently stated in the early part of the week before the Steamer sailed, that the Bank of England would on the 10th, reduce the rate of discount to 2 1/2 per cent. and considerable bets were made on the subject. No alteration, however, had taken place.

The President's message had been received in England, and has tended to quiet the apprehensions entertained by some regarding the Nicaragua and other questions. The President is highly lauded through the British press.

A metropolitan contemporary, the White Chronicle, assures us that Lord John Russell will introduce a measure in the ensuing Session for the extension of the franchise; and the Times, taking its cue from the Sunday Journalist, argues the question as one which has already been determined upon. Parliament is to meet on the 31st of this month (January), for the despatch of public business.

We regret to see announced the sudden and unexpected death of Lieut. Waghorn, the gallant pioneer of the overland route. He had only returned from Malta on Christmas-day. He died at his residence on the 8th inst.

An Electric Telegraph between England and France is to be commenced forthwith.

FRANCE.—The only troubles we hear of are those arising from court intrigues, all of a petty and personal character. An official statement of the President of the Tribunal of Commerce estimates the loss in Paris alone, which accrued through the revolution, to be no less than 35 millions sterling. Whilst the Chamber is at a nonplus respecting the question of the Buenos Ayres, it occupies its intermediate sittings with dull discussions upon the Criminal Code, and the question of Primary Instruction, which is indeed the education question of France.

The President distinguished New-Year's-day by a significant act of reconciliation with an estranged branch of his family—he created his uncle, General Jerome Bonaparte, a Field-Marshal of France; the first creation of the rank which has been made since the Revolution of February.

General Oudinot has received a private letter from the Pope, dated 25th Decr.; in which he expresses his thanks for the late vote of the Assembly relative to the maintenance of the French troops in Rome.

ITALY.—In Italy matters continue in a very unsatisfactory state. It is now plainly admitted that the Pope will not consent to return to Rome. General Baraguay d'Hilliers preserves a guarded silence respecting his late unsuccessful visit to Portici; and indeed the permanent military occupation of Rome by the French seems now unavoidable. In the mean time the Government of the Cardinals continue to engender dissatisfaction, and every thing remains unsettled. The brother of the Pope and his nephew have gone to Rome, but no political result has followed.

AUSTRIA.—From Austria there is little intelligence. The Archduke Albert has been suddenly summoned to the head of the troops in Saxony. Considerable bodies of troops have gone by rail from Vienna to the frontiers, but the motives of these military movements continue unexplained. The Chambers of Wurtemberg so recently convoked have been once more dissolved. The King, in his act of dissolution, alleges that the Diet did not attempt to pacificate the country, but to undermine its policy—that its plans for the union and fusion of the German states were simply impossible—that the members were arrogant in their speeches, had a mania for abusive language, and were actuated by a furious spirit. The business of

the country could not go on with such a Diet, so he dissolved it.

TURKEY.—It seems that a sort of ovation has been given at Adrianople to the Italian corps which fought under Bem. The son of the Pacha received them with military honours, and conducted them to a church where mass was said for the souls of the brave fellows who had perished in the Hungarian war. The Russian and Austrian ambassadors at Constantinople have protested against the Pacha's conduct; but with regard to Bem, Kossuth, and the Polish refugees in Turkey, we have no accounts of any kind, and their removal from the Ottoman empire does not seem to be contemplated, whatever their friends here may have given out respecting their speedy arrival in England.

PERSIA.—An insurrection of a serious nature has broken out in Isfahan, in Persia. The house of the governor was attacked, and he and 30 of his servants were put to the sword.

INDIA.—Calcutta papers to the 21st Novr. and Bombay papers to the 3rd Decr. had been received in London. The Punjab was quiet, with the single exception of Peshawar. Some disturbances had broken out on the frontier of Peshawar. Some fighting is expected. Sickness is prevailing at Mooltan.

Sir Thomas Turton was a prisoner (Nov. 21.) for debt in the Calcutta gaol; but living in comfortable style.

DOMESTIC

Tribute of Respect to the late Hon. Daniel MacFarlane. In the Court of General Sessions of the Peace for the County of Cumberland, January Term, 1850.

On motion of Joseph Oxley, Esquire, seconded by Hon. Henry G. Pimco, by and the unanimous vote of the Justices present, the following Resolutions were passed—

1st. Resolved, That the Justices in Session assembled, desire to record their sense of the very great loss they in common with the whole community have sustained in the death of the late Honourable Daniel MacFarlane, the lamented and highly esteemed Custos who presided over the deliberations of this Court for a period of eight years, with the utmost urbanity and impartiality.

2nd. That during the long period of forty years, in which the late Mr. MacFarlane was honoured by four successive Sovereigns with a place in the Commission of the Peace for this County, his conduct was ever marked by strict integrity, as well as by earnest endeavours to reconcile differences, and repress litigious feelings between neighbours in the section of the County where he resided, and where his decease cannot fail to be regarded as a severe public loss.

3rd. Resolved, That the members of this Court desire to express their feelings of deep sympathy and condolence with the widow and family of the deceased President on the heavy bereavement they have sustained.

Resolved, Therefore, that the resolutions be communicated to Mrs. MacFarlane, on behalf of the family, and that Justices Joshua Huettis, Stephen Fulton, John H. Pimco be a deputation to wait upon her for that purpose.

Unanimous, THOMAS LOGAN, President, HILARY S. MORSE, Clerk of Peace for County of Cumberland, January 24, 1850.

Rail Road Map.

We have received from the Hon. Provincial Secretary a copy of a Map of a recent Survey, executed by Mr George Wightman, who was appointed by the Government to ascertain the best route for a Railroad from this City to Windsor. From an examination of the Map (Mr. Wightman's report we have not yet seen) we should judge that no very formidable obstacles exist to the accomplishment of so desirable an undertaking. The commencement, progress, and final completion of a Railroad between this place and Windsor, we should hail as a boon fraught with incalculable benefits to the Western part of the Province, as well as to the travelling public generally. We suppose the subject will occupy the attention of the present Legislature.

Persons interested will bear in mind that the Ninth day of February is the last day allowed by the House for the reception of Petitions on private matters.

LETTERS RECEIVED.

Since our last letters have been received from Rev. R. A. Chesley, (with remittance 20s.), Rev. J. Narraway, and Mr. G. Murray.

Erratum: We are requested to state that the size of the new Wesleyan Church at Wallace is 46 feet by 38, instead of 40 by 36, as previously published.

Memoir of Mrs. Janet Formally of Tracadie. BY HER BROTHER MR. RICHARD MURPHY.
