Nordica at her concert in St. John, will sing six other numbers in English. This coming from a girl who was born on a New England farm, and who will sing to a Canadian audience, is a remarkable concession. Let us trust the Dagoes in the audience will not make a disturbance about it—Halifax Echo.

A train of immigrants passed through last night from Halifax for the west. They were all from the British Isles, and were for the most part young people. Their varied styles of dress showed that many of them hailed from several counties in England. About twenty-five of them collected together in the stain shed and sang Rule Britannia and other patriotic songs in a whole souled way. On Sunday three immigrant trains of ten cars each passed through.

COMPLIMENT FOR G. S. MAYES.

Alderman Who Had Opposed Him Urged Payment of Bill for Extras.

When G. S. Mayes was awarded the contract for the erection of the new warehouses at Sand Point a certain North End alderman strongly opposed the granting of the contracts. Mr. Mayes' tender was several thousand dollars lower than any one's else and this alderman thought the work could not be done by Mr. Mayes at the figure and in the time specified. Mr. Mayes finished his work on time to the day, and yesterday, when a bill for some extras came before the council the alderman who had opposed the granting of the contracts to Mr. Mayes moved that the bill be paid and expressed his pleasure at being able to do so, adding that the work had been well done. It was certainly a high compliment to Mr. Mayes' ability as a contractor.

MILLINERY OPENING.

Ladies interested in French Millinery should visit Manson's show rooms, 51 Charlotte street, Wednesday, Thursday and Friday, this week. This display has every indication of being the finest collection of imported millinery and novelties that will be seen this season.

LADIES' DAY.

Retail Millinery Openings Attended by Large Numbers of the Fair Sex.

Last night's drop in temperature and the forbidding aspect of this forenoon's sky had little effect upon hundreds who were bent on inspecting the headwear for spring and summer as displayed in the leading houses today. Though the outward conditions were not very suggestive of bursting buds and gamboling lambs the interior displays infused a new enthusiasm in the minds of all who saw them, for they were bright and happy forerunners of the most welcome months in the whole twelve. Attendance at all the openings was very large and sales were correspondingly brisk. Many gorgeous decorations set off the showing of millinery and noticeable features were the innovations along these lines employed by some of the houses, considerable expense being entailed in making the surroundings suitable to the occasion.

All day long — at least up to the time the Star went to press — a steady stream of ladies wended their way to the several openings. At Manchester, Robertson, Allison's, Limited, all expressed themselves as highly delighted with what they saw and bought. The showing was made in the silk room, on the second floor of the main building, and with natural light excluded the inspection of hats, etc., went merrily on, and will continue to go on tomorrow. Three arc lights and several rows of incandescents cast a pleasing brilliancy upon the delicate output of Parisian millinery establishments, and with flowers in banked effects, foliage, a wealth of trimmings and materials in their shimmering gaiety, natural-appearing fruit, etc., the scene was one of richness and exquisite tastefulness. Not a color clashed, particular attention being given the harmony of tints and shades; even the adornments of the ledges and fixtures — a sort of trellis frame—corresponding with the general attractiveness of the surroundings. The millinery reposed on stands in the centre of the big apartment and in an enclosed booth Miss Vaughan and other of the head milliners, met purchasers and aided them in their selecting. Every facility was thus afforded purchasers.

The trimmed millinery itself was of the highest order, having been selected by A. V. Branscombe in Paris a short while ago. The Napoleon, Torpedo, Gainsborough and poke shapes, the latter for children, seemed to be the most in evidence, though there were others of which the shoppers thought a great deal. National lines were quite distinctly drawn, the English hats seeming to be smaller than those of our American cousins, and trimming and materials being less flaring in color. Veils are here again and will be worn in long drapes and one of the chief materials is Maline, a net in all the popular shades and tints. It is very pretty.

St. Andrew's Church Congregation Have no Idea of Calling Mr. Dickie.

Gordon Dickie, of Little Bras d'Or, was likely to receive a call to St. Andrew's church in this city, His Honor Judge Forbes, who is prominently identified with the church, said this morning that the statement was entirely unfounded, that Rev. Mr. Dickie had refused the call to St. John and the congregation had accepted his explanations as sufficient and in consequence had no idea of further considering him.

THE FIRE PATROL.

At the Opera House last evening the Dailey Stock Co. presented a melodrama of the finest water and the deepest blood color in the shape of The Fire Patrol. NOT THE LOCAL SHEET

This Paper is More Sporty Than the St. John One Now on the Market.

NEW YORK, March 22.—The Herald today says: The control of the Morning Telegraph has been purchased from the estate of the late William C. Whitney by E. B. Thomas. This announcement was authorized last night by William E. Lewis, the editor of the paper.

Mr. Lewis said there would be no change in the policy of the paper, and that it would be carried on along the lines laid down by the late Mr. Whitney when he became its owner eighteen months ago.

Mr. Thomas, the new owner, is prominent in turf circles.

A BUNCH OF BOYS.

In Police Court This Morning for Firing Revolvers and Snowballs.

Edward Speight and George Brown, two boys, appeared in the police court this morning to answer to the charge of discharging a revolver on Chapel street on the 17th instant. Both boys denied the charge, and explained that the were firing off cartridges by means of rocks.

The police who reported the matter brought forward John Lethern and Frank Ross as witnesses of what took place. Both witnesses swore that they saw Speight and Brown with a revolver on the day in question and saw them discharging it. The boys flatly denied all that was testified against them, and the case was adjourned until this afternoon, when more witnesses are to be heard.

About two months ago a number of revolvers were stolen from Komiensky's Main street. The police believe that Speight and Brown may know something about the robbery.

A number of other boys were up this morning for throwing snowballs on Sheriff street. They were Alex. Miller and Chas. Graham, for throwing snowballs on Sheriff street, and Albert Doherty and Morey and Vernon Cassidy, charged with throwing snowballs at people passing along Main street.

Miller and Graham said they were only in fun. The magistrate, however, would not accept the excuse, and fined each of them $8.

Young Doherty was the only one of the second lot of boys who appeared. He pleaded guilty to the charge and the magistrate imposed the like fine of $8.

The magistrate intimated that it was about time that some measures were taken to suppress snowball throwing in public places. Boys were taking upon themselves too much liberty, and it was necessary that an example should be made.

DELINIA FROM BUCTOUCHE

Will Compete With Chinese Laundrymen for a Few Months.

Delinia Gallant, who recently, while on her way from Buctouche to Salem, Mass., by some mischance found herself in this fair city of the Loyalists, appeared in court this morning to answer for the second time the charge of intoxication.

It was Monday last when Delinia first landed in St. John. She was then in unusually good spirit, and ravished the eyes of beholders with two large bottles of gin which she carried uncovered. She sank to the floor of the depot and had to be picked up by the depot police. Somewhat later she was put aboard the Boston train, but when she reached Vanceboro the American officials would not allow her to pass. Delinia came back to the city on Friday still inebriated. On Sunday morning she was found in the station house snoring on one of the benches and Officer Collins took her in charge.

This morning when asked what she had to say to the charge of drunkenness in the station, she said "I'm guilty."

His honor gave her two months in the Home of the Good Shepherd.

PRAYED, THEN KILLED HERSELF.

(Special to the Star.)

SHERBROOKE, March 22.—Mrs. Marthesault, of Wotton, on Sunday evening at the close of family prayers rose from her knees and without speaking retired to her room and cut her throat dying in a few minutes. Temporary insanity is regarded as the cause of the act.

WINTER PORT MATTERS.

The Sand Point berths were not long without a steamer at them. Within 12 hours of the time of the departure of the Tritonia for Glasgow another ship of the Donaldson line, the Lakonia, was at No. 4 berth. The Allan mail boat Tunisian was soon at No. 2.

The Donaldson str. Concordia, from Glasgow, for this port, left Greenock on the 21st.

Str. Manchester Commerce, Captain Baxter, sailed Sunday from Manchester for Halifax and St. John.

The Lakonia had among her passengers Captain Herbertson, of Herbertson's, Ltd., quarrymasters, of Galashiels, Scotland. The firm with which he is concerned carries on a large business and this gentleman has come to Canada in their interests. He is a captain in the King's Own Scottish Borderers, and fought in the South African war. The Lakonia brought out 21 horses for Toronto, 15 cattle, three pigs and two collie dogs. The horses are for Toronto people and are a fine lot. The cattle, pigs and dogs are for Graham Bros., the Ontario firm who handle so many horses and cattle. The Lakonia will leave St. John for Liverpool and Glasgow, via Halifax, taking her departure from St. John on Saturday. At Halifax she will receive 400 standards of deals, 3,000 barrels of apples, 774 cattle and 15 horses.
