THE CHALLAND SALE AN NORFOLK CO.

There are a goodly number of richly bred Holsteins in the C. H. Challand sale, slated for March 18th, that will attract many good breeders from the Black and White districts of Ontario. The list of Holsteins include Leota 2nd, a sister to Madam Posch Pauline, the cow that holds all Canadian records for 7 days, 30 days, 50 days, 90 days, 180 days, 365 days, 30.01; 30 days, 136.34; 60 days, 247.50; 90 days, 390.14. Many others in the herd are also closely related to this cow, there being three of the dams, three grand-dams and two grand-sires and the sire of Leota 2nd. As Mr. Challand is leaving his farm, his sale also includes the farm implements and all the other live stock. There is a particularly nice pair of matched Percheron mares, rising four-years old, sired by the imported stallion Greyfas. There are also two colts rising two years and a Clyde mare rising seven. Eighteen Shropshire ewes, forty Shoats and five brood sows are also among the list of stock. This is certainly an opportunity for many farmers to secure breeding animals of the very best kind. The sale terms are cash or six per cent on joint notes. Both East and West bound morning trains will be met at Renton Station, G. T. R.

A PRODUCTIVE DAIRY HERD

This is the day of big records for dairy herds in Canada, and Alberta is already cutting, drawing and blowing the corn in hard to follow fashion. Alberta's claim of $28,000 or more. Allow 30c for each cotton bag required.

months last 13,671 pounds of milk, which sold at $313. It should also be mentioned that the bull calf of this cow was sold at a good figure. Alma, a grade cow, which was bought in Ontario for $70, produced last year 13,648.5 pounds of milk, which brought in the sum of $302. It would probably be difficult to find a more profitable cow than this, considering the small price at which she was bought.

Arbogast Bros. of Selbringville, Ont., have just written Farm and Dairy that the dam of their herd sire, King Segis Alcartra Calamity, has made a fine seven-day record of 3.5 lbs. butter. She is still on test and is doing a little better.
