SOLID ACHIEVEMENT SECOND TO NOTHING

British Hold Like a Rock on Roads to Calais and Boulogne.

BEST CHANCE IS MISSED

Germans Will Try Again, But Conditions for Allies Have Vastly Improved.

London, April 21.—Writers in the Sunday newspapers, reviewing the fighting in Flanders last week, emphasized the splendid resistance offered by British troops to the German onslaughts, which, The Observer says, is a "glorious and solid achievement second to nothing in our history."

This newspaper continues:

"So far we hold like a rock. On the roads to Calais and Boulogne the Germans, instead of gaining another ten miles, have not gained ten yards. We do not mean that the issue already has been definitely decided against the enemy. Beyond all doubt there soon will be a third and bigger attack. But in one respect the conditions are changed, not momentarily but definitely, for the better.

"Until a few days ago the British army for nearly a month has borne three-fourths of the fighting against the enemy, but last Wednesday French reinforcements reached the northern battle. Italy is sending her troops to France. Every week America is speeding up the Atlantic transport. It is a long battle of reserve.

"But the record of last week's fighting, in which the British army till now has saved the northern field and the general cause, strongly suggests that the enemy's first chance in this campaign was his best, and that, however the coming battles may sway, we shall wear him down."

Henry Spenser Wilkinson, Chichele professor of military history at Oxford, writing in The Sunday Times, says that altho the qualities of British soldiers as fighters have been proved on a hundred battlefields century after century, yet there never has been a more striking manifestation of their courage, determination and obstinacy than the battle of the last month.

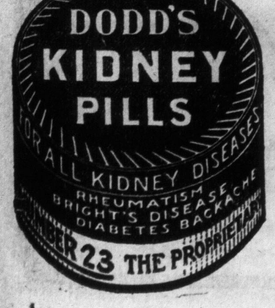
DETROIT RAILWAY GETS EMPLOYES' ULTIMATUM

Detroit, Mich., April 21.—Unless the Detroit United Railway agrees to the demand of its motormen and conductors for higher wages and other concessions relative to the improvement of working conditions the entire controversy will be thrown into arbitration within the next two or three days or the city will be confronted with a strike.

This understanding was arrived at early this morning when the men after an all-night session decided to issue an ultimatum to the company that no further delay in the negotiations will be tolerated after Tuesday night. The employes were enthusiastic of the prospect of forcing the D.U.R. to accede to their demands.

The men are asking for 45c to 50c an hour with time and a half for overtime. This is an advance of 10c, 13c and 18c, according to length of service.



THE WEATHER

Meteorological Office, Toronto, April 21.—The barometer is now quite low over the great lakes and relatively high both east and west. Rain has been general in Ontario and Quebec. Elsewhere the weather has been fair.

The Safest Matches in the World

Also the Cheapest are

EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.
