### SUBSCRIPTION BIBLES.

A fresh supply of these has been received this week, so that we have been at length able to fill several orders which much to our discomfort and the inconvenience of our agents have had to wait a long time. We have remaining now a small surplus stock, and we advise all our agents to send in their orders at once, -before a rise in the prices which seems inevitable. The publishers have given us notice that they cannot continue to supply us upon former terms, the prices of materials for Book making having risen very greatly in the United States. Halifax,

### SOMETHING NEW. The Marvel Copyist

A WONDERFUL INVENTION

#### The PAPYROGRAPH and ELECTRIC PEN Superseded.

No Copying Press required .- Most simple Precess invented. Instant Reproduction without Press or Damping.

Clergymen Enabled to Vastly Multiply their Usefulness.

One to two hundred copies of Church Reports, Pastoral and other Letters, Sunday School Les-sons, Prayer-meeting Topics, Circulars, Plans, sons, Frayer-meeting Topics, circulars, Plans, Drawings, Specifications, Music, etc., in one, or more colors if desired, at one operation. This process can be repeated for any number of thousands of copies.

Copies can be made on any kind of Paper with mit precious preparation, and can also be made o Muslin, Linen, Leather, Sik, Wood, etc.

### HOW IT CAN GREATLY SERVE THE

PREACHER. There are scores of ways in which a clergyman will find this invention of the greatest service to him. It is important that the annual report of his labors, or that the treasurer's or secretary's report, or the report of some committee be placed in the hands of all members : in five minutes a child can take 100 or more copies from the original writing, each one a perfect fac-simile. Thus days of labor or a heavy printer's bill is saved. Often a paster will find it of great value to address personal letters to each member; by this process the letters can be prepared in a few minutes. Also programmes and tickets of monthly concerts or entertainments, the topic for prayer-meetings, etc. etc. : additional copies (a score or 100 if desired) of a sermon or newspaper article which he wishes to write, tracts for distribution through his neighbor. hood, invitations to attend his services, all can be

done quickly and neatly through this wonderful The whole method is simplicity itself. We deem this method, after examination and use in ouroffice, as far preferable to either the PAPTROGRAFE or ELECTRIC PEN, or any other of this class of duplicating processes. Its weight is less than 4 pounds. There is nothing about it liable to get

out of order. The whole process is perfectly

OUR PAPYROGRAPH OFFER WITHDRAWN We have been astonished at the simplicity cheapness and efficiency of this new invention, and as it will accomplish with one-tenth the trouble and one-sixth the expense the work of the Papyrograph, we withdraw our offer, made last month is

#### favor of this new invention. ORDER AT ONCE, AS THE PRICE WILL

PROBABLY BE ADVANCED. There is a conflict between rival manufacturers for the patent for the process. This rivally has run the price down to \$6.00. As soon, however as the right to the patent will be determined, the successful claimant will most likely advance the price, as he will then hold a monopoly.

BEWARE OF IMITATIONS ALREADY IN THE MARKET.

### Directions for Use.

Write the article to be copied on any kind of paper with the prepared ink. Let it dry without blotting. Place the writing, ink side downward, on the

pad, press it lightly with the hand so that all parts touch the pad and let it remain five minutes, that remove carefully and an impression will remain of the pad. Place the paper to be printed on the pad smooth lightly with the hand and a copy is made. This repeat to the extent of the number of copies
