In certain districts a homesteader may secure an adjoining quarter-section as pre-emption. Price $3.00 per acre. Duties—reside six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

THE MARKETS AT A GLANCE

There is an uncertain tone to the flour market, due to the possibility in large measure to speculation as to what the Canadian food controller is likely to do. In the United States it is anticipated that the food controller may take full control of the purchase and distribution of wheat and that millers will come under this control. This would place the handling of the flour in the hands of the Government. Should this be effected in the United States there is strong probability that it might have a bearing on the Canadian situation as the food controllers of both countries are avowedly working in harmony. There was a decline in flour during the week.

Sugar held in steady position, although there was a disposition to look for higher prices in view of the advancing market in the United States. Consumption of sugar is reported to be increasing, as the preserving of fruit necessities heavier drains on stocks. Strawberries will be at their point of heaviest production during the latter part of the present or first part of next week.

Butter was in easier market, declines having been recorded, due to the big production. Eggs are also easier price. but there is a disposition to anticipate the bottom of the market is somewhere near on eggs. Live hogs commanded considerably higher prices, with fairly heavy arrivals. Poultry arrivals were better during the week, but the demand is light and prices have declined. New potatoes are reaching the market in large quantites from the United States and prices are now down to a basis of old potatoes.

Among the lines in which changes were recorded in an upward direction are cotton clothes lines, cotton twine, lampwick, hand cleaner, shoe polish, salt, sulphur, jar rings, vinegar, rolled oats, cornmeal, cornflakes. Business continued to be quiet during the week.—Canadian Grocer.

"Many cities are establishing homes for their returned soldiers. Let Brantford not be behind in providing this citizens' tribute to the valor of Brant County's men."

FROM AN OLD RAILWAY MAN

Buffalo, N.Y., July 5, 1917

Editor Courier:

The old Buffalo and Lake Huron G.T.R. boys, who had a reunion in your city on July 1st, wish to thank you for your notice of July 3rd. Through the courtesy of Mr. Park, photographer, we enjoyed the auto ride over the city and suburbs of your beautiful city—a more appreciative party couldn't have been scarred up. We all knew the city when it was a small town, surrounded with Sandy (and vinegar) Hills, and swamps.

Some of the reminiscences of the old boys were startling, to say the least. It speaks well for the quickness of hand and eye, to say none of the party present was minus the full quota of fingers and thumbs, but all were qualified to give the correct grip of fraternal friendship. It used to be the fashion for nearly all to wear the "mark" of the pin and link fraternity, in the old days, but many of them got mangled up so that "marks" were indistinct, so this party of ours must be the survival of the fittest or luckiest. But don't go off with the idea that we were a party of just has beens, as all have had the experience, and grown up with the new appliances, viz.: air brakes, self-couplers, electric lighting, air whistles, etc., invented from 1850 to 1917.

The following original lines will show that now we are taking a rest and enjoying the simple life that we still have our troubles, but trifles don't bother us.

The Old Railroad Man

He retired (Age Limit) not fired,
For many year he was hired
By railroads to handle their engines and cars,
The most strenuous job this side of Mars,
But he found it required as much caution and skill
To keep out from under an automobile.

But his old occupation was really worth while,
So at trucks and mobiles, he'd cynically smile,
But they sure made him hump,
And kept him on the jump
To keep from getting a serious bump
But he till keeps up, his snickering smile,
And says: "That a miss is as good as a mile.
