MR. ROOSEVELT AIDS INSURGENT

Ex-President Promises to Make One Speech in Support of Senator Beveridge's Re-Election in Indiana

INCIDENT TAKEN AS SIGNIFICANT

Senator Seeking Return As An Insurgent—Directly Opposed to President Taft's Policy on Tariff

OYSTER BAY, N.Y., July 7—Albert J. Beveridge, United States senator from Indiana, and one of the most prominent and consistent of the progressive Republicans, came down from Sagamore Hill today with a promise from Theodore Roosevelt to deliver a campaign speech in his fight for re-election to the senate. Mr. Beveridge departed content and smiling, but he left it for Mr. Roosevelt to make announcement of the proposed campaign speech in the senator's behalf, and this is what Mr. Roosevelt said:

"Mr. Foulke and Mr. Swift came to Sagamore Hill last night and spent the night here. They came to request me to visit Indiana and speak in behalf of Senator Beveridge. I promised them that I would."

He added that he agreed today to make only one speech for the senator, and so far as is known he will make only one. The time and place for this speech have not been fixed.

Those who have followed the political conferences at Oyster Bay since Theodore Roosevelt's return share the belief that he has cautiously been feeling his way in his attitude toward the administration and the insurgents, but today's incidents are considered the most important yet developed. Senator Beveridge is making his fight for re-election as an insurgent. He is opposed by John W. Kern, who ran with Mr. Bryan in the last campaign. In his fight the senator is placing himself squarely against President Taft insofar as the tariff law figures. The law which the president has defended as the best tariff measure is denounced without equivocation by the senator, and the same Republican state convention which endorsed Mr. Beveridge for another term virtually repudiated the law.

In the senate Mr. Beveridge fought the bill to the last, and then voted against it. It is pointed out, however, that with this exception, President Taft and the senator from Indiana have been pulling together so far as administration policies are concerned. There has been no break between them. The president entrusted to the senator the conduct of two administration measures at the last session of congress, the statehood bill and the Alaska government bill, and although the senator worked faithfully with the insurgent band in the senate and had a hand in the alteration of President Taft's bill, he supported the administration regularly in the last session, when the votes were taken.

WIRES CUT OUT

Western Union Stops Its Service to Several Brokerage Offices in New York State.

ROME, N. Y., July 7.—On orders from headquarters today a local stock brokerage office was deprived of Western Union wire service.

WATERTOWN, N. Y., July 7.—A local brokerage office was without wire service here today owing to the cutting off of the Western Union.

ITHACA, N. Y., July 7.—Wire service to a local broker's office was severed by the Western Union Company.

SYRACUSE, N. Y., July 7.—The local Western Union manager today cut off service to one broker here. In Cortlandt one broker was deprived of wire service.

NEW YORK, July 7 — Without warning and without explanation the Western Union Telegraph Company discontinued its service today to brokers in ten cities of this state and Pennsylvania. The cities affected are Pittsburg and Johnston, Pa.; Syracuse, Ithica, Rome, Gloversville, Auburn, Watertown and Courtlandt. Executive officers of the company stated today that under the advice of counsel they could not discuss the company's policy. Officers of the New York Stock Exchange denied that the cut in service was in any way prompted by them or that they had any knowledge of it. Officers of the Consolidated Stock Exchange, the "Little Board," could not be found tonight.

There were many rumors that the company was acting on the advice of some one in Washington supposed to be very close to the Attorney-General's office, but this could not be confirmed.

Hitherto the Western Union has always taken the stand that as a common carrier it had no right to refuse any business offered it providing such business was couched in decent language. In fact the company argued that any attempt to investigate the private affairs of its customers would be inquisitorial and intolerable.

Noted Toronto Lady Dead

TORONTO, July 7.—In the death of Eliza Ann Gwynn in this city last night, a most picturesque character is lost. Miss Gwynn's father settled in the southwestern tract of this city many years ago and owned a great portion of what used to be known as Parkdale, south of King street. He left his property to Miss Gwynn, who has within the last ten years sold most of it at so much per foot, and made a fortune from the proceeds. Within three hundred yards of the industrial exhibition grounds is a huge oak tree that has been fenced in for years. It was under this tree that Miss Gwynn said good-bye to her fiancee, who was a British officer. He was killed shortly after, and Miss Gwynn remained a spinster. She leaves a large fortune, although in secret she gave away large sums.

WILL VISIT CANADA

Bishop of London and Lord Brassey to Come Here During Next Few Weeks.

LONDON, July 7.—Hon. Sydney Arthur Fisher, Canadian minister of agriculture, and Archbishop Langevin sailed for home today on the steamer Royal Edward.

Right Rev. Arthur Foley Winnington-Ingram, Bishop of London, will sail for Canada in August to inspect the missions there.

Lord Brassey will sail on Saturday for Quebec in his yacht Sunbeam. He goes to Canada to study the question of emigration of children and a scheme for the colonization of families. He will spend a month in northern Canada, and will go west to the Pacific coast.

Passenger Airship Business

FRANKFORT, July 7.—The directorate of the Passenger Airship Company has decided that the Zeppelin VI., now at Friedrichshafen, will be transferred to Baden-Baden to carry out the programme for possenger trips during the summer. A substitute for the destroyed Deutschland will be constructed as quickly as possible.

Cameron Wins Again

AMHERST, N. S., July 7.—Fred S. Cameron, winner of the Boston marathon, added another wreath to his crown of laurels by winning the Canadian 10-mile championship race on the Ramblers' grounds at Amherst this evening. The race was held under the auspices of the C. A. A. A. Four entries had been received for the race, James George, of Beaverdale, Ont.; Edward Cotter, Y. M. C. A., Toronto; Edward White, Brockville, and Fred Cameron, of Amherst. George and Cotter failed to put in an appearance, and hence only Cameron and White toed the scratch. The race proved uneventful.

CROWNING TRIUMPH FOR THE PERSECUTED

Picquart Attains Height of His Ambition—The Command of An Army Corps Is His at Last

PARIS, July 7.—General Picquart, who was the hero of the Dreyfus case, and who for the part he took in exposing the famous scandal was for a time banished from the French army, today scored the crowning triumph of his military career.

After his reinstitution in the army Colonel Picquart, as he then was, procured his stars as general, and became Minister of War. Recently, however, he was appointed to the command of the Second Army Corps, which has its headquarters at Amiens, and today he officially took over that command. The command of any army corps is the highest ambition of every French officer.

General Picquart rode through the town with his brilliant staff, and paid the customary visits. There were a few hostile cries from the Nationalists, who had endeavored to foment an agitation by placarding the town with objectionable posters, but the demonstration was of no importance.

SAYING FAREWELL TO MR. McNICHOLL

Vancouver Friends of Former Grand Trunk Pacific Purchasing Agent Give Banquet and Presentation

VANCOUVER, July 7.—George A. McNicholl was the guest at a banquet last night, and his hosts were representative shipping and commercial men of the port, who have come to regard "Mac" as a warm friend during his residence in Vancouver. For some time purchasing agent of the Grand Trunk Pacific, Mr. McNicholl was recently appointed superintendent, with headquarters at Prince Rupert, and he will proceed to the northern port on the Prince Rupert, sailing next Monday night. It was felt that he could not be allowed to go without his friends expressing in some tangible form their warm appreciation of his character, and it was decided to tender him a banquet, which should be the occasion for the presentation of a solid silver tea service.

W. D. Whitehead, of the Coast Steamship Company, was chairman. The others present were Captain Fred Amesbury, of the Vancouver and Victoria Stevedoring Company; Captain J. S. Gibson, Washington Stevedoring Company, Seattle; Captain Simon D. McKenzie, of McKenzie Brothers; Captain Nicholson, superintendent of G.T.P. steamers; J. C. Irons, Vancouver agent of the Canadian-Australian line; Matt Barr, J. Anderson, Fred Tiffin, Mr. Druce, Mr. Beaumont and Mr. Rosevear.

Felicitous speeches were made by Chairman Whitehead, Captain Nicholson and others, and Mr. McNicholl leaves Vancouver with the very best wishes of a large circle of acquaintances.

Coal Lands Withdrawn

BEVERLEY, Mass., July 7.—Continuing his policy of practical conservation, President Taft signed orders tonight withdrawing 35,073,184 acres of coal lands from the public domain in North Dakota, South Dakota, Washington, Colorado and Arizona.

U. S. Postal Savings Banks.

CHICAGO, Ill., July 7.—Postmaster General Hitchcock, who was in this city today, expressed the opinion that no postal savings ban can be established before January 1, 1911. He made this statement during a conversation with Postmaster Campbell, who requested that one of the first banks be placed in operation here.

The new C. P. R. hotel at Summerland is about completed.

MAPS OF CANADA FOR EXHIBITION

Two of Large Size Completed by Geographic Branch Show Railways and Location of Economic Minerals

MINT SENDS OUT MANY NEW COINS

Captain Bernier's Expedition to Arctics Ready to Set Out—Peculiar Feature of His Previous Voyage

OTTAWA, July 7—The geographic branch of the Department of the Interior has just completed two huge maps of Canada which will be used for exhibition purposes. They are 15 feet by 9 feet 6 inches. One is a mineral map showing the location of all minerals of economic value throughout the Dominion and the working mines, differentiation being obtained by means of various colors. The scale is 20 miles to the inch. The railway map shows the railway systems in different colors, and also the proposed government routes to Hudson Bay.

The mint has sent to the railway a whole truckful of new gold and silver coins. They were in $1,000, $2,000 and up to $5,000 packages. The money was brought down from the royal mint carefully guarded all the way. On the train several men will watch it through its journey.

The technical education commission met in camera in the room of the Northwest Liberal members in the House of Commons this morning and started to map out their itinerary of the Maritime provinces. The itinerary is not completed. They will first to to the principal points in Juebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia, and are expected to be able to go to Europe early in the winter.

L. P. Brodeur, minister of marine and fisheries, will not go down to Quebec to see the Arctic sail. Capt. Bernier may sail at any time now. It is said that the captain will try to navigate the northwest passage, which some of the crew practically accomplished last trip, but there is no official confirmation of this. On the last trip, which was pretty profitable in the way of furs to the captain, he himself left the Arctic for only one night, while the harder voyages and expeditions were made by the crew under other officers.

School Ship's Voyage.

CHERBOURG, July 7.—The school ship Iasca arrived here today and exchanged salutes with the arsenal.

Fight Pictures in Britain

LONDON, July 8.—The movement in favor of government action looking to the suppression of the pictures of the Reno fight is extending to a considerable section of the House of Commons. Both parties support the movement. Some of the morning newspapers advocate a general suppression as tending to prevent glove fights, which they say are promoted merely for the sake of the profits from the pictures. The question was discussed by the Glasgow corporation yesterday.

Russo-Japanese Convention

ST. PETERSBURG, July 7.—The Novoe Vremya, in a leading article, expresses great expectations from the Russo-Japanese convention. The Novoe Vremya considers it a foundation for stable peace in the Far East, serving as a barrier against the encroachments of outsiders in that sphere. Russo-Japanese neighborly relations relieve Russia and Japan of the burden of heavy armaments, enabling Russia to complete the Amur railroad and continue colonization on a vast scale.

Aviation Records

BETHANY PLAINS, July 7.—At the aviation meet in the preliminary contest for height, Hubert Latham reached an altitude of 1,384 metres (4,540 feet), beating Paulhan's record of 1,296 metres (4,250 feet). The world's record for a 200 kilometer aeroplane flight was broken today by Hubert Latham, who flew the distance in two hours and 46 minutes. Olieslayers, of Belgium, endeavored to break Farman's record of four hours 8 minutes and 36 seconds of continuous flight. After he had been aloft three hours and 38 minutes Olieslayer had travelled 150 miles, which is in itself a new world's record.

New York's Fire Chief.

NEW YORK, July 7.—Mayor Gaynor announced today that he will look personally into the findings of the committee which has been investigating the conduct of Edward F. Croker, chief of the New York fire department, in a recent fire in which two firemen lost their lives. The report of a majority of the committee is said to be hostile to the chief, but the mayor will rule on the evidence in the report and not on the findings of the committee members. Chief Croker, himself a member of the committee, will file a minority report. The chief has enemies in the department, but he has also strong backing with the chamber of commerce, the New York board of fire underwriters and the Manufacturers' association.

Extortion From Aliens

NEW YORK, July 7.—That extortionate fees were demanded of would-be-citizens by so-called lawyers, and even by organizations supposedly formed to assist aliens in becoming citizens of the United States, was the purport of testimony given today before the congressional committee headed by Representative Wm. S. Bennett, appointed to investigate the conditions surrounding the issue of naturalization papers in this country by the federal and state authorities. One of the witnesses called today was L. B. Elikowitz, secretary of the naturalization league. There is extortion practiced on the aliens, he declared, by lawyers or those who call themselves lawyers. I know one case where organizations have extorted money from would-be-citizens.
