After....
Taking

a course of Ayer's Pills the system is set in good working order and a man begins to feel that life is worth living. He who has become the gradual prey of constipation, does not realize the friction under which he labors, until the burden is lifted from him. Then his mountains sink into mole-hills, his moroseness gives place to jollity, he is a happy man again. If life does not seem worth living to you, you may take a very different view of it after taking

Ayer's Cathartic Pills.

Western Ontario.

A Big Baptist Conference Being Held at Port Burwell.

Stratford's New Sewerage System — Government Dredge at Sarnia.

Chatham's civic holiday will be on Aug. 19.

The South Harwich hog quarantine has been raised.

Chatham pays annually $10,600 in teachers' salaries.

A petition is in circulation at St. Thomas praying for a new city hall.

The St. Thomas board of trade's annual excursion will be held at Sarnia on Aug. 17.

Stratford has decided to construct a sewerage system on the combined precipitation and filtering scheme.

Charles Glasgow, of Fingal, had his gold watch stolen at Port Stanley on Tuesday, while he was bathing in the lake.

Benjamin Roadhouse, of Mornington, has purchased from Matthew Elger, lot 3, con. 8, Ellice, Perth county, a farm of 100 acres, for $2,750.

Emancipation day was celebrated in Mohawk Park, Brantford, on Monday, by a large number of colored people from the city and neighborhood.

The husband of Mrs. J. E. Richardson, who was killed through her buggy being upset at a culvert, will sue Elenheim township, Oxford county, for damages.

The Belle River board of trade has elected the following officers: President, M. L. Menard; vice-president, N. Parent; secretary, V. Cloutier; board of directors, S. A. Adams, N. Parent, C. McClosky.

Conductor Rogers, of the Brantford Musical Society, was on Tuesday the recipient of a handsome purse of money on the occasion of his leaving the city. Dr. Rogers has been conductor of the society for several years.

John Sullivan, employed on the farm of E. W. Johnson, at Petite Cote, a few miles from Windsor, was attacked by a vicious Jersey bull on Monday. Three of his ribs were broken, and his thigh is thought to have been fractured, but the doctors say he will recover.

The government dredge, John R. Archibald, was at work dredging in the river, says the Sarnia Observer, in front of the Bushnell Oil Company's wharf. The earth brought up by the dredge is being used to fill in the opening between the wharf and the roadway.

Two strong companies will strive to secure the contract for supplying Chatham with natural gas for lighting and heating. One is a local company, the other is composed of Windsor and Kingsville capitalists, and apparently the race between the rival syndicates will be interesting.

Port Burwell has ordinarily 800 of a population. At present the population is largely increased by an influx of visitors from the surrounding country, and from Paris, Brantford, St. Catharines and other towns. There is here an excellent camping park, the property of the Messrs. Bodwell. It is proposed to make this the headquarters of a Baptist Bible conference, which will continue till Friday evening. The organizers of the conference are Rev. D. Spencer, LL.D., pastor of the First Baptist Church, Brantford, and Rev. P. R. Carey, pastor of the Baptist Church in that village. They will be aided in the conduct of the meetings by Baptist pastors from Paris, St. Catharines, Hamilton, Port Hope and other places.

Piles! Piles! Itching Piles!

SYMPTOMS—Moisture; intense itching and stinging, mostly at night; worse by scratching. If allowed to continue, tumors form, which often bleed and ulcerate, becoming very sore. Swayne's Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co., Montreal, wholesale agents.

Paris and Marseilles are now connected by telegraph lines entirely underground. They are placed in iron pipes and buried four feet beneath the surface, with man-holes 3,000 feet apart. It cost $7,000,000 to bury the wires.

We have no hesitation in saying that Dr. J. D. Kelogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera, and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

Cheap Sugar. See India Tea Company's ad, 6th page, tomorrow. ywt

Montreal	3	7	3
Springfield	11	10	0

Batteries—Belcourt, Gannon and Berger; Mains and Duncan.

Wilkesbarre-Toronto game postponed on account of rain.

RAIN IN LONDON.

The London-Guelph game was postponed yesterday on account of rain. This is the first time rain has prevented a game here this season. The management lose the $40 guarantee. Crowe was to have pitched for the locals, but he will likely make his début on Friday against the Hams.

BOTHERSOME BRADFORD.

Guelph Mercury: George Bradford has given the Maple Leaf directors more bother than all the rest of the team put together. His last offense was neglecting to go to London this morning. The executive say it is the last chance he will get to upset their calculations. Rodden has been secured from St. Thomas to play third, and Blackiock, from Berlin, may be in the game.

FLYS

Baltimore has made 75 more runs than any team in the league.

Denny Lyons has been released by Pittsburg and Harry Davis will play first base regularly.

Baltimore's base running is something to be proud of. They had six actual steals the other day.

Henry Chadwick considers Klobedanz, Corbett, Lewis and Damman the four leading pitchers of the National League.

Billy Barnie is having his troubles and some of the Brooklyn players will be a few chips shy when salary day comes around.

Nick Young cannot handle the umpires any longer. They violate his instructions, play off sick, miss trains, etc. There were three subs at work on Saturday.

Montreal has a new pitcher and a new third baseman. The third baseman who has taken Mulvey's place is Charlie Smith, released from Wilkesbarre.

With Lush and Staley out of the game, and McHale with a lame ankle, Toronto is not so well fortified for a bruising finish.

Toronto goes away for its last series on Aug. 14, and returns home Sept. 7. According to the schedule the locals finish the season at Montreal.

At a game in New Jersey the other day a hot liner struck one of the spectators on the head and bounded into the air to a height of fifteen feet. This so amused one of the bleachers that he laughed until he dislocated his jaw.

Considering that the Hams for some time have been making an average of four hits off London pitchers, the following from the Hamilton Spectator suggests that the sporting editor has just returned from a long holiday: "The Cockneys, while strong in the field and good at the bat, are manifestly weak in the box, and this weakness may be their undoing."

Hamilton Spectator: "Keenan was presented with a bouquet when he stepped up to bat in the second inning. The presentation brought him luck. He made a hit and got around easily while the Hams were rattled, and then scattered the flowers to the four winds. * * * London's career of victory has been effectually stopped. It has lost three out of the last four games played."

Hamilton Herald: "It was not learned whether Mr. Phelps' return to the Canadian League was due to an apology having been sent him for the insult alleged to have been offered by 'Hi-Yu' Roberts. * * * Cockman played short during the last half of the game in a decidedly brilliant manner. * * * Andy Reid received a number of foul tips on the top of the head. 'Never mind that,' encouraged Jo Jo; 'they'll fill you full of knots.'"

Guelph plays at Hamilton today, and Hamilton at Guelph on Saturday.

Andy Reid, the clever catcher of the Londons, has a sore back and hand, and though willing to play, will be given an occasional rest, Hickey going behind the bat and Strowger to the outfield.

Gunther has been placed near the foot of London's batting order. "Oh, what a falling off was there, my countrymen!"

The Chicago club has done little else this season besides furnishing surprises. It holds the single day's batting record; it beat Boston three straight games, and ran away from New York with Rusie up.

Catcher Smith, of Buffalo, was incapacitated by the collision he had with McAuley, of Rochester, some time ago. He has been paid in full to Aug. 1, with a handsome bonus from President Franklin, and will not be in the game again this season.

There are no stars on the Baltimore team in the estimation of the players. The way the men call each other down when a play is lost demonstrates effectively why the birds win games. Joe Kelley is supposed to be captain, but Doyle and McGraw both went at him the other day for not bunting, and then they all turned on Jennings for trying to steal second with only one out. All look alike to the Orioles, with a slice of the Temple cup money in sight.—[Washington Star.

Thus far this season the Phillies have played the teams ahead of them 33 games, of which they have lost 24, and won but 9. Of these they have won two out of nine from Boston, none out of four from Baltimore, two our of eight from Cincinnati, three out of three from New York, and two out of nine from Cleveland. The protest on the last game at Cleveland may improve this showing a trifle, but even then it is too wretched to need extended comments.—[Philadelphia Press.

On Tuesday next the Arlington baseball club will play the St. Thomas Browns. After giving the Dominions such a drubbing at the Irish Benevolent Society's picnic, the Browns thought they would put up a pretty good game with them. Petrolea also sent a challenge, but the Arlingtons wish to defeat the Browns.

Bill Clark has a batting average of .196 in the last twelve games

THE TURF.

FANCY PRICES FOR RACERS.

Lexington, Ky., Aug. 5.—C. T. Patterson has bought of H. P. Headley the latter's one-half interest in the racer Ornament, on a basis of $14,000. Ornament has won in his career about $70,000.

Nashville, Tenn., Aug. 5.—Jim Key, a well-known horse, owned by Dr. Wm. Key (colored), of Shelbyville, has been sold to U. G. Duffield, of New York, for $10,000.

WINDSOR RACES

Windsor, Ont., Aug. 4.—Today's results:

First race, 7 furlongs, selling—Springtime 1, B. F. Fly, Jun., 2, Spokena 3. Time, 1:35. Betting and also rans not given.

Second race, ½ mile, selling—Early Bird 1, Onette 2, Florie 3. Time, :52½. Duke of Littlegrove, Sunbonnet, Bettie McMurray, Verna J., Prince Wilmeer also ran. Rida and Gipsy Prince fell in stretch.

Third race, in heats, 5 furlongs — First heat—Sidney Bender 1, Sobriquet 2, Essie II. 3. Time, 1:05½. Spoons, Marcellina, Deedama, War Club also ran.

Second heat—Sidney Bender 1, Sobriquet 2, War Club 3. Time, 1:05½. Essie II., Spoons, Marcellina, Deedama also ran.

Fourth race, 1 1-16 miles, selling — Cloga 1, Traveler 2, Prima 3. Time, 1:57. Baalgad, Inca, Brendoo, Otho, Royal Dance also ran.

Fifth race, 7 furlongs, selling—Terrapin 1, Audrax 2, G. R. Longhurst 3. Time, 1:35½. Afternun, Miss Frances, Katherine, Wild Mountain, Trade Last, Blasco also ran.

NEWPORT RACES.

Cincinnati, O., Aug. 4.—The winners at Newport today were all at good prices. The bookmakers were decidedly out of line on several of them, and the handicap people made a raid on them. The fourth race was declared off. Weather fine. Track fast. Summaries:

First race, selling, 7 furlongs—Mertle Reed 1, La Wanda 2, Master Piece 3. Time, 1:29½. Little Land, Timorah, Whileaway, Anna Garth, Timorah, Little Nigger, Dominica, Holy Number and Munden also ran.

Second race, 4½ furlongs, selling—Clara Van 1, Locust Blossom 2, Lady of the West 3. Time, :54¾. Elsie M., Lindolette, Emma G., Fannie W., Poeso, Elizabeth Berlle also ran.

Third race, 1 1-16 miles—Eddie Burke 1, Prosecutor 2, San Juan 3. Time, 1:48½. What Next also ran.

Fourth race—Declared off.

Fifth race, 5 furlongs—Dutch Comedian 1, McCleary 2, Bucksaw 3. Time, 1:02. Sound Money, Han D'Or, Aster, Injury, Provolo also ran.

Sixth race, 7 furlongs, selling — Goose Liver 1, Annie M. 2, Kitty B. 3. Time, 1:28. Henry Launt, Kallitan, Lockhart, Madrilene, Mitchell also ran.

THE BRIGHTON RACES.

London, Aug. 4.—At the second day's racing of the Brighton August meeting today, the Lorillard-Beresford stables' brown gelding Sandia finished second to Mr. Faircle's bay colt Eager, in the race for the Brighton cup of 500 sovereigns, in plate or specie.

KILLED HIS RIDER.

Chicago, Aug. 4.—In the hurdle race here today the horse Twelve Fifty (Crane) fell over the first jump and killed his rider.

WELLAND MEET CLOSED.

Welland, Ont., Aug. 4.—The Welland Driving Park Association's closing day was held today, and was a success, although rain fell soon after 5 o'clock, necessitating the postponement of the 2:13 trot. Following is the summary:

Running race:

Millard, J. R. Paisley, Toronto	2	1	1
Metre, Jos. Davies, Toronto	1	2	2
Vano, W. Schooley, Ridgeway	3	3	

Time—1:20, 1:27, 1:28.

2:13 trot:

Superior Gift, A. Griffiths, Welland	2	1	2	2
Bryson, H. Scott, Caledonia	1	2	3	1
Goldring, J. H. Glover, Aylmer	3	3	2	3

Time—2:18¼, 2:20, 2:20¼, 2:23.

2:30 trot:

Shadeland Duval, Dent Dalton, Delhi	1	1	1	
Oliver Mowat, George Reid, Caledonia	2	2	2	
Florence, C. A. Milloy, Brantford	4	3	5	
Wheel of Fortune, James W. Brad, Colborne	3	5	7	
Pat, D. Little, Aylmer	6	6	3	
Fred T., L. H. Taylor, Niagara Falls	5	4	4	
Josephine, J. S. James, Homer	8	7	6	
Simon D., E. Davey, Berlin	7	8	ds	
Jolette, Henry L. Hageman, Buffalo	9	9	ds	

Time—2:23¼, 2:22¼, 2:22¼.

WHEEL.

RACING AT PORT HOPE.

Port Hope, Ont., Aug. 4.—About 2,000 people witnessed the second annual meet of the Port Hope bicycle club at the athletic grounds this afternoon. The grand stand was packed to overflowing. Following is the summary:

One mile novice—T. Nattrass, Millbrook, 1; A. Murray, Hamilton, 2. Time, 2:37 2-5. This race had to be run in heats owing to the large number of entries.

Boys' race—Dave Wilson, Toronto, 1; A. Murray, Hamilton, 2. Time, 2:42 1-5.

Half-mile, open, amateur—R. Thompson, Toronto, 1; R. E. Axton, Brantford, 2; John Davidson, Brantford, 3. Time, 1:13 2-5. This race had also to be run in heats owing to large entries.

One mile, professional—Angus McLeod, Brantford, 1; Harley Davidson, Toronto, 2; McCarthy, Toronto, 3. Time, 2:26 2-5. R. Miller, Hamilton, and C. Greatrix, Toronto, also started. McCarthy, who was riding strong, would in all probability have made a difference in the finish of this race had he not met with the mistfortune to break a rim in the fourth lap.

Three miles, handicap, amateur—R. E. Axton (scratch), Brantford, 1; John Davidson (scratch), Brantford, 2; E. McEachren, Toronto, 3. Time, 7:41. D. Wilson, Toronto, and R. Thompson, Toronto, also started. Limit, 25 yards.

Angus McLeod gave an exhibition mile for track record, paced by Gibbons and Boake, on a tandem. Time, 2:13.

The team race was declared off on account of rain.

A NEW RECORD.

Scranton, Pa., Aug. 4.—A new world's half-mile unpaced tandem record, flying start, was made by Ralph Gregory and Ben Keller, of this city, today. Their time was :55¼; best previous time, :55 4-5. The record will stand, as the attempt was made under regular L. A. W. sanction.

SPOKES.

The Y. M. C. A. wheelmen will hold a moonlight excursion to Port Stanley on Tuesday next.

A Frenchman has invented a spoke shaped like a windmill. He claims for it that it will not retard the movement of the bicycle when the wind is ahead, but when coming from the side or rear will materially increase the momentum. He has had it patented.

Cycling is becoming very popular in Ceylon, and, strange to relate, the government has adopted regulations giving wheelmen the right of way. Under all circumstances other vehicles must turn out of the path and allow the wheelman to have the best of the road.

An Englishman has placed on the market an oil gauge for bicycle lamps, consisting of a vertical tube with a slot in front. The glass shows how much oil is in the reservoir at all times, and is marked at a certain point to designate the lowest amount of oil needed.

The city council of Syracuse has about decided to dispense with the tax on cycles, as it is found that not more than one-third of the wheelmen are paying it. One of the requirements of the ordinance under which the tax operates is that a tag shall be attached to all wheels ridden on sidewalks, but as few wheelmen take advantage of the opportunity even this is ineffectual.

From Chatham comes the news that the reeve of the township of Raleigh, through which is one of the most favored cycling routes, will undertake to see that a portion of the roadway is scraped and fixed into a shape more suitable for cyclists than at present. It is also his intention to have notices placed at intervals along the roadway, asking that vehicles are not driven over the part set aside for bicyclists.

ATHLETICS.

SPIDER KELLY SQUASHED.

San Francisco, Aug. 4.—Jack Everhardt, of New Orleans, was given the decision over "Spider" Kelly last night after twenty rounds of fighting. Everhardt sustained his reputation as a rusher. He was the stronger man of the two, and his close work may fairly be classed as superior to Kelly's. In point of cleverness Kelly clearly outpointed Everhardt, but began to tire from the terrific pace after the twelfth round. Some fault was found with the decision.

The Dangers of X Rays

The Light Used by a Dentist Destroys the Skin and Tissues.

Useful but Dangerous Is the Verdict of Medical Men.

A New York dispatch says: The members of the medical profession are beginning to realize that danger lurks in the use of the Roentgen rays, and that unless great care and skill are employed in connection with a long exposure of any part of the human body to the cathode light serious injury may result.

The matter has been called to the attention of the Medical Society of the County of New York. The dangers of the X-rays will probably form one of the subjects for discussion at the next meeting of the society in September.

From time to time instances where the rays have done damage have been reported. A flagrant case which occurred recently in this city was learned of today, in spite of strenuous efforts that have been made to keep the facts suppressed. It appears that the use of the X-rays has become quite a fad among some of the dentists of the city, because the prominence of the jawbones and their thin covering of skin and muscle make it easy to use the rays for purposes of diagnosis.

USED X-RAYS IN THE DIAGNOSIS.

A young woman came to a dentist here complaining of a pain in the jaw. An examination of her teeth was made and various remedies were tried, but no relief was obtained, nor could the dentist find out what the trouble was. It was either a diseased nerve, some abnormality in the growth of the tooth or a piece of necrosed bone. He determined to resort to the X-rays to find out.

Accordingly an appointment was made with a scientist who owns a set of Crookes tubes, to take a shadograph of the woman's jaw. No medical advice was taken as to the advisability of submitting the patient to the ordeal, although she was run down and debilitated by the pain she had been forced to endure, nor was any inquiry made as to the possible bad effects of an exposure to the rays.

Two attempts to get a shadograph were made. The first was a failure, and accordingly a second exposure for a longer time was undertaken. It resulted successfully, so far as obtaining a good negative of the woman's jaw was concerned, but disastrously otherwise. The time of the exposure could not be accurately learned.

EXPOSED TOO LONG AT A TIME.

The woman was in the room with the apparatus for about an hour and a half, but the rays were not applied constantly, during that time. On the second exposure those in charge of the machine simply went ahead until they judged they had a good plate, apparently without any reference to the length of time it took.

The woman was sent home. The next day it was found that she had suffered severe injuries from the effects of the rays. The flesh, not only over the jawbone, but down on the side of the neck and the breast, had been burned. It was not a mere blistering of the superficial skin, but the vitality of the deeper tissues had been destroyed. The dentist was notified, and in great alarm sent for a physician, who has since been busy alleviating the patient's sufferings. The woman is not out of danger yet, as blood poisoning is liable to set in. If she does recover she will always bear the marks of the burns.

Dr. Charles H. Avery, secretary of the County Medical Society, considered it only officer who is still in town. He talked freely about the dangers of the X-rays.

"No better work can be done," he said, "than to report these abuses of the Roentgen rays and inform the community of the dangers of their use in unskilled hands.

A USEFUL BUT DANGEROUS THING.

"The society will undoubtedly discuss the matter at its next meeting in the fall. I think the newspapers can do more good by warning the people about the dangers of the rays than any action of a medical society."

Dr. Avery said he had heard of several cases where slight inflammations and burns had been produced by the rays, but had heard of nothing so serious as the foregoing case.

"I have myself," said Dr. Avery, "subjected my hand to the rays, but experienced no evil result, and I believe they can be used for good service in the practice of surgery if sufficient precaution be taken and not too long an exposure is made. There is an old rule in medicine that drugs that will cure will also do harm. Arsenic and opium are remedial agents of great good, yet in large doses they are deadly. I imagine it is so with the Roentgen rays. Knowledge of their power must be essential in order to work safely with them."

Robert C. Taylor, counsel for the County Medical Society, is about the an open question whether the dentists might not use the X-rays as well as physicians. If the X-rays can be considered a part of the dentist's armentarium then the dentists cannot be prosecuted for using them in the practice of their profession. If the dentists make mistakes their patients can have recourse to a suit for damages.

WHICH STYLE SUITS YOU?

To suit a long, narrow face, the hair should be dressed round, and it is always best to show a coil or so from the side behind the ears; also endeavor to fill up the nape of the neck as much as possible.

For a sharp featured face always avoid dressing the hair right at the top of the back of the crown in a line with the nose, as this so accentuates the severe outlines. Dress the hair low down or else quite on the top to meet the ringe.

For a round face narrow dressings are becoming and can be taken well down the neck.

For a broad face narrow dressings are preferable, but should be kept somewhat high.

Exceedingly tall people should keep the hair dressed rather low and decidedly round.

Very short women should have their hair dressed high, as it gives addition to their stature.

It is very rarely that we find purely white hair; it is usually a gray white, and with this latter no colors are so suitable as dark greens, browns, ambers, purple tints, deep cream, dark reds and warm shades of dark blue.

FISHERMAN'S LUCK.

Billy—Have you any luck fishing today, Jimmy?

Jimmy—Great! I didn't stick the hook inter me finger, ner slip off de log an' fall in, ner get bit by mosquitoes, ner lose any uv me clothes, ner get licked w'en I got home.

LUMBAGO

CURED BY

DODD'S KIDNEY PILLS

I had been troubled for several years with Lumbago. I could hardly stand; until one day I was advised to use Dodd's Kidney Pills. I secured a box, and I can safely say I have never felt the pains since. I believe they are an excellent pill, and I highly recommend them. You may publish this if you see fit, so as to help others.

R. B. JOHNSON,
16 Davenport Rd., Toronto.
