Terrace Queen Won Free-For-All

The Bridgetown Mare Proved Too Speedy for the Fast Simassie

She Won in Straight Heats and Travelled in Beautiful Style

Fredericton, July 9.—While it took only the three heats to decide the match race between Terrace Queen and Simassie, seven were required before a winner was landed in 2.24 class, but there is little doubt that if the driver of Burline had driven the gelding as he should have, this race would not have been so prolonged. The track was heavy and fast time impossible, rain fell most of the afternoon, and by the time the last heat was pulled off mud was no scarce quantity.

Terrace Queen won in three straights from Simassie and travelled in beautiful form. Simassie was outclassed. The 2.24 race gave lots of opportunity for wrangling and betting. Badger who had the pole captured the first heat, but the second went to Daisy Wilkes. The next two heats went to Krement, but in each Burline was again second, and there was every appearance in the fourth heat that Burline's driver had difficulty from winning out. Some of the drivers and owners of the other horses and directors of the Associations complained in strong language to the judges. Later they ordered Burline's driver, Rickout, to hand over the horse to driver Boutillier for the future heats. The result was that the next three heats went to Burline and he won the race.

SONS OF TEMPERANCE WILL START FORWARD MOVEMENT

COMMITTEES WILL LOOK AFTER THE WEAK SECTIONS OF THE COUNTY AND REVIVE DORMANT DIVISIONS

The regular quarterly session of the Annapolis County District Division, Sons of Temperance convened at Belleisle on Tuesday, July 3rd at 3 o'clock, D. W. P. L. W. Elliott presiding.

Owingto the extremely busy season of the year but a comparatively small number of delegates were in attendance. The credential committee reported present some twenty representatives, and as many visitors from the various Divisions throughout the county.

Committees were appointed to look after weak interests in different sections and also to revive suspended and dormant Divisions wherever possible.

While some notes of discouragement were sounded with reference to temperance sentiment in some localities, yet on the whole the outlook was nopeful. Great satisfaction was expressed by Brown, one of the champions of the temperance workers in this county, was conceded on all sides.

The mammoth temperance picnic which had been partially arranged for to be held at Port Wade was laid over on account of the uncertainty of the train service over the M. & V. B. railway.

The program committee reported for a public meeting in the evening and handed in the following program which was duly rendered before a large and representative audience in Belleisle hall:

Rus ians Have Queer Divisions

St. Petersburg, July 9.—The 350 members of the Douma were finally classified according to their allegiance to the various political parties. In the final lineup the divisions are as follows: 138 belong to the party of People's Freedom, 5 to the party of Democratic Reforms, 36 to the National Democratic parties—this is the Polish, the Lithuanian, the Lecttish, etc.; 11 to the party of October Seventeenth, 2 to the Moderate Progressivists, the so-called Centre; 67 to the Labor Party, and 91 are unetteered by party allegiance.

Of these latter the sympathies of 83 are with the Labor Party, 18 incline toward the Party of People's Freedom, 11 are usually found voting with the Democratic Reformers, 3 with the Seventeenth of Octoberists, 4 with the Centre, 5 are Cossacks and 2 form a group styled "The Wild Ones."

Germany Seeks England's Friendship

Kaiser Working to Promote Better Feelings With British Nation

King Edward May Go to the Christening

Berlin, July 9.—The efforts, official and private, made to bring about better relations between Germany and Great Britain, have been pronounced a success. Emperor William is active, outside of the regular channels, in impressing Englishmen with the fact that it is his purpose to leave nothing undone on the German side to restore agreeable relations.

His Majesty met a British naval officer at a yacht club dinner at Kiel recently, and talked with him for half an hour on the needlessness and harmfulness of bickering between Great Britain and Germany and the determination on his part to preserve not only peace but to cultivate good will and confidence.

The German journalists who recently visited England have since their return filled the editorial pages of the most important newspapers with their observations, showing the causelessness of any ill-feeling between the two peoples and detailing a thousand arguments for peace and the cooperation of German-British friendship.

A committee af prominent Germans is about to invite fifty British editors to make a return visit to Germany. There is some expectation that King Edward will come to Germany for the christening of his grand-nephew, which is to occur August 12.

New York, July 11.—The steamer Caribo here from Georgetown, Barbados, reports signalling the bark Margarita on fire off Delaware Capes. There was no sign of life aboard. The Margarita was bound from Philadelphia for Halifax, coal laden and carried a crew of ten.

St. Petersburg, July 11.—Some additional details of the mutiny of the Seventh Cavalry at Tambery show that both the Infantry and Cossacks sent to subdue the mutineers refused to fire on them, the infantry bayoneting the officer who gave the command. Only a detachment of Dragoons, who it is said, had been supplied with liquor, attacked the mutineers. The officers of the Seventh fired on their own men. There were a number killed and wounded.

New York, July 11.—More than a million immigrants entered the United States through Ellis Island station during the fiscal year ending June 30, an increase of nearly 200,000 over the previous year.

Sydney, July 11.—The Elder-Dempster steamer Angola, Vera Cruz for Sydney and Montreal, is ashore near Louisburg.

Battenburg Shows Navy How to Shoot

London, July 9.—Admiral Prince Louis of Battenberg has distinguished himself by some very able tactics during the British naval manoeuvres now in progress.

He still flies his flag on the cruiser Drake as Admiral of the Second Squadron. By a very daring ruse at the beginning of the mimic war he carried his fleet through the close blockade of the narrow Straits of Dover without losing a ship.

Prince Louis is particularly enthusiastic on the subject of naval gunnery. The other day he was standing unperceived at the entrance to the fore barbette of the Drake watching a marine's gun crew trying to aim a ponderous weapon. He soon saw that the gun captain was not familiar with the use of the range-finder.

Stepping forward, he said: "Let me show you how to do this."

The Prince took the lever of the adjusting gear in his hand and brought his eye down to the right. Suddenly he pulled the electric trigger; there was a terrific roar, and the projectile of 350 pounds weight flashed fair through the floating target.

OBITUARY

MRS. SARAH NELSON.

The death occurred on Saturday at 3 p. m. of Mrs. Sarah Nelson, of this town. The deceased was 67 years of age and was in good health up to a year ago, when she suffered from a stroke of paralysis. On Wednesday last she had a second stroke which proved fatal. Mrs. Nelson leaves a sorrowing husband, two sons and two daughters, with two sisters and two brothers in the United States. Of a genial and kindly nature, ever helpful and sacrificing for others, she will be greatly missed. Burial took place on Sunday afternoon in Bridgetown cemetery, Rev. A. J. McDonald officiating.

AMUSEMENTS

During the past week the amusement lovers of the town have had a chance to gratify their desires there having been three different companies here. On Thursday "Utah" was played to a good house and made a hit. The next evening Torrie Brothers' moving pictures were shown. These were among the best ever seen here but they had a very poor house. Last night La Barre's Minstrels played to a house packed beyond its capacity. They gave a good show and created much amusement by their local hits.

Rabbits Become a Commercial Commodity

Melbourne, July 9.—It was stated at a public hearing that £1,000,000 worth of rabbits were shipped to England every year; that the rabbit as a commercial commodity, was "only in its infancy," and that the trade would probably graw to £5,000,000 a year.

Will Carry Apples Only

New Transatlantic Steamship Service to Operate Soon.

The first steamship service ever operated exclusively for the exportation of American apples is now being arranged for by Harry M. Isaac of M. Isaac & Sons, Limited, fruit importers, of London. The ships will ply between Boston and London and Hull. Formerly it has been the custom to ship the apples on the large freight ships, but the business has grown so as to support a line of steamers.

Mr. Isaacs, who is now in New York says that the exportation of apples will be greatly expedited by the new service, and that much of the fruit will be marketed to better advantage abroad. It has been necessary heretofore to rehandle the fruit, at considerable delay and loss. The steamers will sail every fortnight, and will have a capacity of 20,000 barrels.

New York alone exported 609,847 barrels of apples last season, the total exports from all ports being 2,411,478 barrels. The prospects for the crop this year indicate that it will be very large throughout the United States.

CENTREVILLE.

Captain D. M. Messenger and wife of Barton, Digby Co., were the guests of their friends here last week.

Miss Lilah Hutchinson is visiting at Little River, Digby Co.

Miss Grace Brooks is spending her vacation with her parents, Mr. and Mrs. R. C. Brooks.

British Claims Settled by China

Pays $20,000 for Death of Missionary's Child in Recent Riots

Agrees to Punish All the Guilty Persons

Pekin, July 9.—Mr. Carnegie, the British charge d'affaires here, has finally settled the British claims growing out of the anti-foreign riot at Nan-Chang, Province of Kiang Si, in February of this year.

China pays $20,000 indemnity for the killing of the child of H. C. Kingham, a British missionary; $3,500 for the British mission property destroyed, and agrees to punish the guilty persons, who are to be designated by the British legation, and to reward those who protected the missionaries.

Yuan Shuh-sun, the governor-elect of Pekin, has arrived here, but has not assumed office. Chinese officials explain that he will present a memorial to the throne embodying his recent inquiry into the charges against the Vicetoy of Canton, and will then withdraw from Pekin until the Shanghai question is settled.

Yuan Shuh-sun, as Taotai of Shanghai was unquestionably guilty of conniving at the outbreak by which British and foreign property of the value of more than £250,000,800 was placed in jeopardy of mob violence. But for the prompt landing of bluejackets, the results would have been disastrous.

The action of Taotai was regarded as so hostile that Sir E. Satow demanded his removal. He was removed but was promoted to one of the most dignified posts in the empire, the Chinese government applauding his "patriotic conduct." The British legation will continue to protest against his taking office in Pekin until full reparation has been made for the damages caused during his regime in Shanghai.
