DOMINIONS WILL HAVE VOICE WHEN PEACE IS SIGNED

Lloyd George Delivers Important Message to Editors of Canada.

MUST CRUSH GERMANY

"God of Brute Force Must Be Broken and Burned in Own Furnace."

LONDON, July 13.—The governments of the British Dominions will have a voice in determining the terms of peace, according to Mr. Lloyd George. The prime minister made this statement in a speech at a dinner given in honor of the Canadian editors who are visiting England, at which Lord Beaverbrook was the host.

"This is a war in which we engaged the empire," said the premier, "when we had no time to consult the Dominions as to policy, and it is perfectly true that the policy which we adopted to protect small nations in Europe was a policy which we embarked upon without any consultation with the Dominions. But you approved of it. Henceforth you have the right to be consulted as to the policy beforehand, and this is the change which has been effected as a result of the war.

Imperial Cabinet Reality.

"The contributions which you have made to enforce these treaties have given you the undeniable right to a voice in fashioning the policy which may commit you and for that reason an imperial war cabinet is a reality.

"Another point in which you must have a voice, is the settlement of the conditions of peace. We have discussed war aims and the conditions under which we are prepared to make peace at the war cabinet. We arrived at an agreement on the subject last year with the representatives of the Dominions, and we shall reconsider the same problems in the light of events which have occurred since—and we shall reconsider the whole of these problems, I have no doubt, in the course of the next few weeks.

"Canada and Australia and New Zealand, yes, and Newfoundland—they have all contributed their share of sacrifice, and they are entitled to an equal voice with the representatives of these islands—will determine the conditions under which we are prepared to make peace. Unless I am mistaken we are pretty well in agreement upon them.

No Hugger-Mugger Peace.

"There must be on hugger-mugger peace. It must be a real peace. We are not waging war for the sake of killing or of being killed, but for the sake of establishing a just and durable peace for the world. You cannot make peace unless it is both just and likely to endure.

"We in this country, who have lost hundreds of thousands and have had millions maimed, and you in Canada, whose casualties have amounted to scores of thousands, and Australia, who has also played her share in these things—we are not making these sacrifices in order to establish a fraud upon this earth, and anything less than a real peace will be defrauding not this generation, but the next generation; it will be defrauding humanity.

"Germany has waged three wars, and each time she has added through those wars to her power, her strength, her guidance, to her influence and each successive war she has waged has inevitably encouraged her on to the next. If she had had one check you would not have had this war. If this war succeeds in adding one square yard to her territory, of adding one cubit to her stature, of adding a single iota to her strength, it will simply raise their idea of militarism for which the world is being sacrificed at the present moment.

"The god of brute force must this time be broken and burnt in its own furnace."

Another Reduction In German Rations

AMSTERDAM, July 14.—According to a Berlin dispatch printed in the Frankfurter Zeitung, the present meat ration of 250 grammes will be distributed only until the middle of August, when it will be reduced to 200 grammes for all German towns having a population of more than 100,000.

Smaller towns, which are assumed to have received plenty of supplies of vegetables from surrounding districts, will be allowed a smaller meat ration.

SUBSTITUTES LACK CAUSES TEMPORARY LIFTING OF RULES

One-to-Four Regulation Not Enforced Yet.

APPEAL TO PATRIOTISM

Food Board Issues Statement Urging Use of Darker Bread.

OTTAWA, July 14.—Because of the limited supplies of substitutes for wheat flour at present available in Canada, in comparison to the demand which would result from the operation of the recent order of the Canada food board requiring the use of substitutes in certain proportions by bakers, confectioners, public eating places and private households, the Canada food board has deferred, until a date to be fixed, the operation of certain sections of that order.

Bakers, confectioners, public eating places and private households will not for the present have to use one pound of substitutes to every four pounds of wheat flour in baking. They must, however, use one pound of substitutes to every nine pounds of wheat flour, as provided in the law now operative.

Dealers in Eastern Canada, as well as in Western Canada, for the present will be required to sell one pound of substitutes with only every four pounds of standard flour.

The use of a label or sticker on bread is made permissive, and not compulsory. The attention of police authorities is especially called to this change in the original order. One clause of the new order urges upon bakers to prepare for the use of 20 per cent of substitutes, which will be made compulsory at the earliest possible date.

The Canada food board's statement relative to the new order says that the public must not expect white bread. The statement continues:

"To demand white bread is unpatriotic at this time, when all bakers are required to use substitutes for wheat flour in bread making. The darker the bread, the more likely it is that the baker has complied with the food board's regulations. Bread containing substitutes in the proportion stipulated by the Canada Food Board is fully as nutritious and even more healthful than the bread made from the white patent flour of former days.

"In the present emergency, when it is necessary for us to stretch our diminished wheat supply until the next harvest, and do all in our power to share our wheat with the people overseas, the food board appeals to the public to appreciate the situation, and to make it as easy as possible for the bakers to use the required amount of substitutes."

STATE OF SIEGE IN QUEBEC DISTRICT AFTER M.S.A. FIGHTS

100 Soldiers on Duty in Trouble Zone.

VAUDREUIL, Que., July 14.—The district around here is now practically in a state of siege with the arrival Sunday evening of a detachment of 100 soldiers of the Canadian Garrison Regiment, in charge of Capt. Garand and accompanied by Capt. Duchastel of the intelligence department, and Capt. Dodds of the transports department. They are camped just outside the village.

In addition a party of 100 Dominion police, 50 civil and 50 military, arrived by train and took up their headquarters in the town.

The eight or ten who have taken to the bush, and about whose action in defying the law the disturbance arose, are still at large, and are keeping very quiet. The whole neighborhood is, however, in a state of terror at the fear that further bloodshed may take place.

Tobacco Rations for States May Be War Necessity Now

WASHINGTON, July 14.—Government control of the tobacco industry of the United States may result from the heavy requirements of the Allies and the American military forces abroad. Rationing of the American population is believed to be a possibility.

The war industries board announced today that it has been conducting an investigation to determine the requirements abroad and the amount that might be considered in this country to meet the situation.

WILSON WINS IN FIGHT TO CONTROL U.S. WIRE SERVICE

Congress Grants Authority to Take Over Lines.

WASHINGTON, D. C., July 14.—Congress last night granted President Wilson's request for authority to take over and operate telegraph, telephone, cable and radio lines. By a vote of 46 to 16—the minority all Republicans—the senate passed without amendment the house resolution granting such power for the period of the war.

The resolution will be signed by presiding officers of the Senate and House and transmitted to the president Monday.

All attempts to amend or modify the administration measure, which passed the House July 5 by a vote of 221 to 4 were defeated. Amendments by Senator Watson, of Indiana, to except telephones and press wires from the resolution were defeated.

An amendment by Senator Gore, of Oklahoma, Democrat, to limit action regarding telephones long distance wires, was voted down, while an amendment by Senator Reed, of Missouri, designed to insure unrestricted public use of facilities, was twice rejected.

WIRE MEN PLEASED.

CHICAGO, July 14.—S. J. Konenkamp, president of the Commercial Telegraphers' Union of America, today sent the following telegram to Secretary of Labor Wilson regarding the Senate's adoption of wire control:

"We have already pledged ourselves with the president and are confident the interest of our locked-out members will be taken care of and our other grievances adjusted."

To Samuel Gompers Mr. Konenkamp wired:

"It means greater co-operation in winning the war because justice is now guaranteed at home."

Chicago, July 15.—Opening: Corn—July, $1 59; August, 1 60.

Oats—July, 74⅛c; August, 71¼c.

Chicago, July 15.—Although favorable weather and big receipts led to a material setback in corn prices today, the effect failed to last. Aggressive buying on the decline brought about a rally which more than overcame all the losses. Selling pressure was light. The opening prices, which varied from ⅜c to 1¼c lower, were followed by a slight additional sag and then a sharp return.

Oats swayed with corn. Trade lacked volume. After opening ¼c to 1½c down the market rallied to well above Saturday's finish.
