THE POLITICAL PROTESTS

Were Filed Without the Concurrence of the Liberal Executive.

Editor Gardiner of The Times Intimates That He and His Paper Will Support Mayor Colquhoun in Case of Another Contest—The Market Fees Still a Live Topic—General News From Hamilton.

Hamilton, March 27.— (Special).—The Liberal protests against the election of Mayor Colquhoun and Henry Carscallen, Q.C., which were filed on Saturday, have served, if nothing else, to once more bring into public notice the weakness and divisions existing in the Reform ranks in Hamilton.

In the first place the local executive was ignored. Major J. J. Mason, one of its leaders, complained that he was kept in the dark about the decision arrived at. As The World stated, the step was not initiated by the Liberal forces of Hamilton, but through the desire of the Toronto Government to do something to stop the wearisome wailings of the Hon. J. M. Gibson, and at the same time try to save the skins of "Honest John" Dickenson and William Barber, of Halton. But there are a number of influential Liberals who are doing more than grumble. Mr. H. F. Gardiner, the hard-hitting editor of The Times, when told of the protest, remarked, in his usual blunt way, that if it was a case of Mayor Colquhoun and Mr. Gibson running over again, he and the paper would openly support the Mayor.

The Conservatives treat this protest business as a joke, just a bluff, in spite of all the pretended astonishment about Tory corruption.

As to the Market Fees.

Some city aldermen who at first concurred in Markets Chairman McAndrew's legislation in placing the fee for outside butchers using the central market at 25 cents, while farmers pay only 10 cents and 5 cents, say now that they have received more light on the question and will oppose the measure when it comes up at the council to-morrow night. The light-receiving aldermen base their secession on the fact that the city now gets nearly $600 a year in weighing fees from the outside meat men, who, in addition, buy their provisions and agricultural implements in Hamilton. The butchers in the meantime are showing fight and on Saturday added $200 to the fund that will, if necessary, decide the matter in the courts.

Social Political Party.

A meeting of the new social political party was held in the Trades and Labor Council Hall last evening, and the work done at the initial meeting was undone; the platform arranged at that meeting was abolished. Rev. Mr. Whitcombe presided. After a long discussion a committee of seven was appointed to draft a new platform and report at a meeting to be held at the call of the chairman. The members of the committee are: Messrs. Buchanan, Hastings, Obermeyer, Hannaford, Whitcombe and Daw.

The Street Railway.

Fuller details respecting the street railway will not be forthcoming until the investigation fixed for April 4, but in the interval the company's canvass goes on merrily. Its chief plank, sympathy for the small stockholders, has now given place to a cry for sympathy for the manager, who, it claimed, will be ruined unless the road's franchise is extended. Manager Griffith's present condition is not due to any lack of public sympathy, but to the heartless "freeze out" financial policy adopted towards him by a number of the street railway directorate.

Social Reform Resolutions.

A meeting of the Social Reformers, held this afternoon at the S.O.E. Hall, passed unanimous resolutions against giving any relief to the street railway whatever, and in favor of a municipal stockyard.

Buchanan on Single Tax.

W. W. Buchanan lectured on single tax this afternoon, illustrating his remarks with lime-light views. He illustrated the firm footing possessed by single taxers by comparing them as standing on the solid globe, while all other reformers stood on a plank jutting out from the globe's side and supported by a brace. Ald. McAndrew presided and other speakers were Messrs. H. Juval, C. Ennis and Hannaford.

Grimsby Park Matters.

The Board of Directors of Grimsby Park held a meeting at the Ladies' College building on Saturday afternoon. Mr. Harry Bigger, of Toronto and his wife were re-appointed music directors, and the same gate keepers were re-elected. In view of the increasing attractions of Grimsby Park, the board is arranging in Montreal for a steamboat to make a daily run between Toronto and the Park.

Settled by Arbitration.

Arbitration has solved the difficulty existing between the Radial Electric Railway Company and the authorities of St. Luke's Church, Burlington, over the proposition of the railway to take possession of a crossing line. The church refused $250 by way of compensation. Arbitrator S. Barker now gives St. Luke's $350, in addition to the costs of the arbitration.

Prof. Wrong on French History.

Prof. Wrong of Toronto University delivered last night the seventh of the University extension lectures on French History. The period dealt with was that comprised between the accesion of Napoleon Bonaparte and the overthrow of the third empire at Sedan. Referring to the hatred of Napoleon towards England, the lecturer said that his motive had puzzled all historians. He himself accounted for it on the principle of "Whom the gods would destroy they first make mad."

Central Church Anniversary.

Central Presbyterian Church held anniversary services to-day with special music, and Rev. Dr. J. G. McIntosh of Philadelphia as preacher. Solos were sung by Allan Campbell and E. P. Martin. To-morrow evening Dr. McIntosh will lecture on "The Flower and Fruit of Puritanism."

Personal and General.

A. R. Lovell, an employe of the Grand Trunk Railway, Claims Department, died on Saturday from heart failure. The deceased was 67 years of age and leaves three sons and one daughter.

Mr. Lorne Carpenter is enjoying himself in Egypt. He is now able to ride a bicycle and is taking that mode of conveyance to see the sights. His many friends will be glad to hear of his recovery.

Mrs. Maud Irwin, a Hamilton singer, whose voice is in great demand, delighted a large congregation at St. Patrick's Church to-night with her rendering of "Calvary."

Last evening the Hamilton Hunt Club tendered a dinner at the Jockey Club road house to the farmers who kindly allowed the members of the club to ride over their farms last fall. About 100 farmers and hunters were present. Samuel Barker, President of the club, was chairman.

The Postoffice at Greensville, a few miles from here, was burglarized last night. All the stamps were taken.

William Jamieson, night watchman, fell on Cathcart-street last night and broke his nose and knocked out several of his teeth. After he had his injuries dressed he notified the City Solicitor that he intended to sue the city for damages.

This afternoon the dead body of an infant was found on the shore of the Bay at the foot of Wellington-street by two lads named Street and Carrol. They handed it over to the police.

Its Distinctiveness Gives It Its Distinction

The "Taylor" seamless covert coat is a dressy promenade top coat. It's regulation in generalities of style, but so distinctively different from the ordinary tailored garment as to make it quite novel, but not a bit overdrawn to meet the tastes of gentlemen generally. Consult Henry A. Taylor, draper, the Rossin Block.

A sure cure for headache.—Bilious headache, to which women are more subject than men, becomes so acute in some subjects that they are utterly prostrated. The stomach refuses food, and there is a constant and distressing effort to free the stomach from bile which has become unduly secreted there. Parmelee's Vegetable Pills are a speedy alterative, and in neutralizing the effects of the intruding bile relieve the pressure on the nerves which causes the headache. Try them.

MINERS AND THE YUKON.

Dr. Mills, One of the Deputation, Denounces the Mann-McKenzie Arrangement as Most Iniquitous.

Dr. H. E. Mills and William Rank of Dawson City are registered at the Queen's. Mr. Mills is one of the deputation of three sent out by the miners of Dawson City to see that their rights are not tampered with. The other members are Messrs. Livernash and Lendreville, now in Ottawa. Mr. Mills joins his colleagues to-morrow.

Seen by The World last night Dr. Mills said that he was not representing any railroad, but was here solely in the interests of all the miners of Dawson.

"I do not oppose a railroad into the Yukon, but I do most emphatically oppose the terms of the McKenzie and Mann deal," said Mr. Mills.

"I believe, were McKenzie and Mann to get their contract, they could paralyze the whole mining community," he added as a reason for his opposition.

A Most Iniquitous Project.

He characterized this railroad scheme as the most iniquitous project ever foisted upon a sane Government. "The contract is the absurdest, loosest and worst ever put before any Parliament. Do you know," asked Mr. Mills, "they can mortgage their lands before they build the road?"

The whole known Klondike country—that part that is being mined—covers but 862,000 acres. But McKenzie and Mann are to receive 3,750,000 acres. It is the allotment of this enormous grant that Mr. Mills objects to. "Why they could gobble up all the mining lands, because of the fact that they have their grant in fee simple and could crowd out the poor individual isolated miner."

"Why," declared Mr. Mills, "they would surround the richest mines and corner all the timber and thus freeze out the owners of rich claims."

Would Depopulate the Country.

"What effect would this railway have upon the country?" was asked. "It would depopulate the country. Miners would go across the line to mine, where they would pay no tax, except $2.50 to record, and could make their own mining laws. Across the line is just as rich as ours," was Mr. Mills' opinion.

"What is your opinion of Wm. Ogilvie's report?" the reporter asked. "He is a clever surveyor, but his reports on mining are utterly ridiculous," said Mr. Mills with a smile.

McKenzie and Mann will pay the Government but 1 per cent., while a miner has to pay 10 per cent. upon his gross product. If the deal goes through the Government loses a source of revenue, while having to pay largely to preserve law and order. "The Government gains nothing; McKenzie and Mann grab everything," were Mr. Mills' last words.

Chimes for the New City Hall.

Editor World: There have just been installed 19 new bells in the Tower of St. Patrick's Cathedral, New York. The total weight of the bells and clappers is 30,831 pounds. They are capable of being chimed for 175 tunes. The reason for having the 19 bells is simply to be able to play "The Star Spangled Banner." The bells are operated by compressed air, the invention of a young Canadian, who received his education in Toronto, and his mechanical education at the Toronto Technical School, and who is now a mechanical and electrical engineer in New York.

It is claimed for this new system that it is capable of more efficient work, more certain in its operation and far less costly. Here is a good example for Toronto. We have spent over $2,500,000 on a magnificent pile of municipal buildings with a tower every way suitable for a large chime of bells, that will be the only real and pleasant attraction of the costly pile. Surely the citizens will not stop at $18,000 or $20,000 for a suitable chime of bells. This $20,000 could easily be saved from other work in the buildings, which do not need to be finished at the present time. They could be installed and ready for ringing on the Queen's Birthday, 1899. The city will have to purchase, in any case, a large hour-bell of from 10,000 to 12,000 pounds, which, fixed and installed for striking the hours, and Westminster chimes, would cost at least $6000.

Fourth, The court can form no definite opinion of the condition of the wreck from the divers' evidence.

Fifth, Technical details of wreckage from which court deduces that a mine was exploded under the ship on the port side.

Sixth, The explosion was due to no fault of those on board.

Seventh, Opinion of the court stating that the explosion of the mine caused the explosion of two magazines.

Eighth, The court declares that it cannot fix definitely the responsibility.

The report is unanimous and is signed by all the members of the court.

SPAIN'S SIDE OF THE STORY.

A Great Patriotic Movement Occasioned by the Warlike News From the States.

Madrid, March 27.—The latest intelligence from the United States has occasioned a great patriotic movement throughout Spain. A large number of persons have announced their intention to give up a day's pay for services in order to raise funds to purchase a warship. A committee, over which the Bishop of Madrid will preside, has been organized to receive subscriptions. Special theatrical performances are announced, the receipts of which are to be devoted to this purpose.

The Duke of Veragua, who knows President McKinley personally, is reported as saying: "President McKinley does not inspire me with confidence. He thinks himself the first statesman in the world. He is proud and vain; and his great vanity makes him believe himself a Napoleon, when in reality he is an ignorant sutler."

People Will Not Sell Cuba.

El Liberal, referring to dispatches from Washington, alluding to President McKinley's decision to propose that Spain should free Cuba for an indemnity, says: "The Government may answer what it pleases, but the Spanish people as a whole will not deign to discuss this proposal. Spain will go to war in fulfilling her duty, but not for ephemeral glories or the desire of conquest. We may emerge vanquished, which is somewhat doubtful, but we will never come out dishonored."

Get Ready for Fight.

El Imparcial says: "It is indispensable to get ready all the elements we possess for a naval fight, and it is urgent that they should go to Cuba."

"The United States will maintain the advantage if they can place seven ironclads in front of the Vizcaya and the Almirante Oquendo; but when our two ships actually have to fight, this disadvantage will disappear before the skill and courage of our sailors."

Spain Will Not Flinch.

Berlin, March 27.—The Madrid correspondent of The Berliner Tageblatt says: "Spain will not only refuse to allow American interference in assisting the suffering Cubans, but will decline to pay an indemnity unless it is shown unmistakably that the Spanish authorities were responsible for the Maine explosion. If President McKinley demands these two things war is unavoidable."

The Rome correspondent of The Berliner Tageblatt telegraphs: "The Marquis Visconti Venosta, the Italian Foreign Minister, says the Cuban situation has grown worse, but that outside of Austria, which morally supports Spain, for dynastic reasons, no European power is inclined to show practical sympathy for Spain.

"Ricciotti Garibaldi says that if the United States will defray their expenses he will engage to send 40,000 Garibaldians to Cuba."

Sagasta Government Sustained.

Madrid, March 27.—The elections for the popular branch of the Cortes have passed off, on the whole, quietly. The indications are that the Government of Senor Sagasta will have an enormous majority, estimated at 300 of the 432 seats in the Congress.

DELIGHTED DRAGOONS.

An Order From Ottawa Calls for Four Men From the Squadron for Klondike Duty.

The Dragoons at Stanley Barracks were made happy on Saturday morning by a communication from Ottawa ordering a draft of four men from the squadron for the Yukon expedition. Eighteen men volunteered for the service, and will be examined by Surgeon-Major Nattress at the Fort to-day, when the four will be chosen.

The order came entirely unexpected by the soldiers, it having been decided by the Militia Department to send Dragoons only from Winnipeg, but it is surmised that the Prairie City could not provide the large complement required.

At Stanley Barracks on Saturday night there was a farewell Klondike at home tendered to the men who are to leave on the expedition. Many ladies were present, and dancing was kept up till midnight.

Queen's University Dinner.

The Queen's University Association of Toronto met for dinner at Webb's Saturday night at 6.30. A sumptuous repast was presented, and after the table was cleared speeches of unusual cleverness were given by the prominent members of the association. Special mention should be made of the erudite and logical speech of Prof. Adam Shortt of Kingston upon "Modern International Relations." The general principles of international law were concisely presented, and their influence upon the probable war between the United States and Spain was forecast. The learned speaker was heartily applauded.

Fund for Mrs. Sternaman's Defence.

Editor World: I have been appointed treasurer of the Sternaman defence fund, and have accepted the responsibility and will acknowledge personally all subscriptions sent me. I trust a hearty response will meet this call upon public sympathy. The fund is intended to provide a proper defence for this woman, Mrs. Sternaman, who now lies in Cayuga jail, awaiting her trial, which takes place May 3. There is no time to be lost and I trust that the response will be ready and generous. Address, Rev. J. G. Foote, Cayuga, Ont.

Most Encouraging Report.

The tenth annual report of the Provincial Inspectors of Factories was issued on Saturday by the Department of Agriculture. It comments upon the revival of business among the manufacturers, following upon the bountiful harvest of last year, and high price of wheat. Many factories, it states, have been working overtime, and twice as many factories employing women had been granted permission to lengthen the hours of labor as during the same period last year. No infringements of the law regarding the employment of children had been found.

Guelph's Big Affair.

Guelph, March 27.—The Agricultural Society of South Wellington met Saturday afternoon. The meeting was large and enthusiastic. It was decided to join the Guelph Fat Stock Club and hold a monster winter show in the Victoria Rink next December. The prizes will be very large and the affair will be the very best ever held in the Royal City, not barring the provincial show.

Fire in a Boat House.

Harry Hodgins' two-storey frame boat house at the foot of Spadina-avenue was destroyed by fire on Saturday night. The damage is met by $600 insurance in the Alliance Company. What caused the blaze is a mystery.

John Kerr, 371 Margueretta-street, was arrested by P. C. Wallace (225), on Saturday night, on a charge of theft, preferred by Sam Jones.

Grand Trunk Superintendents Fitzhugh of Toronto and A. B. Atwater of Chicago and Assistant Superintendent W. R. Tiffin of Allandale, left for Montreal at 9 o'clock last evening.

The C.P.R. Pacific Coast connection, which should have arrived in Toronto at 3.30 p.m. Saturday, did not reach here till 6.50 p.m. yesterday.

SOUTH AFRICA.

John Bull Has Stiffened His Back and Will Not be Any Longer Fooled With.

New York, March 27.—"Reading between the lines of the recent Ministerial statements, it seems pretty clear that the report referred to a couple of weeks ago that England had yielded to French pressure by consenting to refer her rights at Boussa to arbitration was incorrect," says the London correspondent of The Sun. "The Anglo-French situation, therefore, is nearer the crisis stage than ever, and war can be averted only by some kind of surrender on the part of France. One thing certain at this moment is that the French Government has at length made up its mind as to the British intentions and the limits of British forbearance. That is a real advantage for the cause of peace. Baron De Courcel, the French Ambassador here, undoubtedly received an intimation, which might almost be described as an ultimatum, during his two hours' interview last Tuesday with Mr. Balfour and Mr. Sanderson.

"It is rumored to-day that Baron De Courcel has made arrangements by which the French claims to Boussa and Nikki have been formally withdrawn, upon the understanding that no public announcement of the surrender will be made until after the general election in France."

LOOKS RATHER THREATENING.

British Warships at Hong Kong Ordered to Coal and be Prepared to Go to Sea at Once.

London, March 26.—A despatch to The Times from Hong Kong says orders were issued to the naval establishment there to make urgent preparations to place itself on a war footing. The staff, it is added, was augmented and mobilization was ordered. The despatch further announces that 29 French cruisers have gone north, avoiding Hong Kong.

The British battleship Barfleur has gone to Nagasaki, Japan.

Warships Ready for Sea.

Hong Kong, March 26.—All the British warships are coaling and provisioning, having been ordered to prepare for immediate readiness to go to sea. The navy yard here is working day and night.

A Nest of Spies.

Sebastopol, March 26.—As a result of the discovery of serious and wholesale bribery and corruption 100 dockyard officials and officers of the Russian Black Sea fleet have been arrested. Admiral Kopyloff, commander of the fleet, has been dismissed. Five officers have committed suicide since their arrest.

THE LEASE SIGNED.

China Will Retain Sovereign Rights and Port Arthur and Talien Wan Will Be Open Ports.

Pekin, March 27.—M. Pavloff, the Russian Charge d'Affairs, signed to-day the agreement regarding the lease of Port Arthur and Ta-Lien-Wan and the railway concession. Port Arthur will be given over to-morrow. Chin-Chow will remain Chinese; but the Russians will establish a small station in the environs. China will retain sovereign rights generally and Port Arthur and Ta-Lien-Wan will be open to the warships of all nations.

Regarding the customs, the Russian reserve to themselves the collection of the duties, but nothing is divulged as to their eventual destination. The Russians will probably take the forts at Port Arthur. The Chinese have decided to open Fuh-Ming, Province of Fo-Kien, as a treaty port.

DESPATCHES TAMPERED WITH.

A New Cipher Had to be Brought Into Use by the Government.

London, March 27.—When events in the far East began to assume a serious aspect, the British Foreign Office made the unpleasant discovery that its despatches were being tampered with.

It became necessary to discard the old cipher code and devise a special one. Proceeding upon the assumption that the operators in the service of the Eastern Telegraph Company were all British-born and might be trusted, the Foreign Office concluded that the tampering occurred in China and that the probability was that the wires between Pekin and Shanghai had been tapped, but discovery, so far, has gone no further.

A week ago an important despatch addressed to the British Minister at Pekin disappeared on the way, and efforts are now being made to find it. The disappearance was probably accidental, but the Foreign Office is much perturbed.

A BURIAL CERTIFICATE.

Friends of Thomas Taylor, Christian-Scientist, Have Difficulty in Getting One.

On Saturday Coroner A. J. Johnson was notified of the rather sudden death of Thomas Taylor, which occurred at 601 Bathurst-street on Friday. Taylor was a Christian Scientist, and in conformity with his belief received no medical attendance. He was a sufferer from consumption, but was out a day or so before his death. Dr. A. J. Harrington, Bathurst-street, was requested by the family to sign a burial certificate, but the law would not allow him to do so. He, therefore, informed Coroner Johnson, who, after considering the circumstances of the case, issued a burial certificate last night, and the funeral will take place to-day. Deceased leaves a young wife and one child.

On Saturday night a false alarm called the firemen to The Globe building.

Mr. O. A. Howland will address the Conservative Club in the Arcade club rooms at to-night's meeting.
