EXCHANGE IRREGULAR ON LIGHT OPERATIONS

New York Experienced Rises in Metal Shares, War Issues and Sterling Exchange.

FRANCS ALSO HARDENED

Advances Continue in Fabricated Steel — Rails Under Moderate Restraint.

NEW YORK, Feb. 20.—The market was irregular again Saturday on a diminishing scale of operations. Trading was wholly professional, next week's holiday and the complex international situation causing other traders to hold off.

Metal shares continued to dominate the list, American Smelting leading with an extreme gain of three points, while Utah and Chino scored the highest quotations in their history. There was further activity in American Zinc and Butte and Superior, while tobaccos, fertilizers, Mercantile Marine preferred and some of the war issues were higher by one to three points.

A few special shares, including American Coal Products and Pittsburg Coal common and preferred rose three to four points, and Bethlehem Steel responded to the company's policy of expansion by an advance of 10¾ to 479½. Rails and motors were under moderate restraint, but other leaders, notably U. S. Steel, held around the previous day's final figure.

Some of the early gains underwent substantial reductions in the late dealings, when active selling of coppers and Crucible Steel caused recessions elsewhere. Total sales amounted to 262,000 shares.

The sudden strength of sterling exchange was attributed to the recent purchase of $23,000,000 of U. S. Steel bonds, which probably called for the purchase of bills on London to that amount. Francs also hardened, but Italian exchange weakened.

Mercantile agencies reported "unparalleled conditions" in various lines of commerce here and at other centres of business distribution. Advances in fabricated steel continue and various articles of apparel are quoted at higher prices.

Bonds ruled steady in today's market. Total sales, par value, $1,645,000.

MUNRO AND PORCUPINE ALIKE IN FORMATION

Geology of Munro-Beatty Similar to That of Tisdale Township.

The geology of the Munro-Beatty gold area is very similar to that of Tisdale Township, the most important in the Porcupine district.

In each of these townships the predominating rocks are those of the Keewatin series. In Tisdale Township the Timiskaming sedimentary series, is subjected to great metamorphism, and is now tilted to almost vertical, begins at the Dome Mines, thru the North Dome, Foley-O'Brien and on in a northeasterly direction. In Munro Township there is a similar Timiskaming series, which outcrops at the southwest corner, running in a northwesterly direction thru Beatty.

The Keewatin rocks predominate, and are usually the gold-bearing veins as found in rocks of that series. The amydalridal and ellyssoidal basalts are most widely distributed.

Character of Veins.

The character of the gold veins in Munro Township resembles the character of the gold veins in Tisdale Township of the Porcupine mining area. In Tisdale Township gold is found in both the rocks of the Timiskaming and the Keewatin age. Outcrops of quartz are very numerous, and there is a great variety of forms assumed by the quartz bodies. They are traceable generally in northeasterly and southwesterly directions. Sometimes these bodies of quartz occur in well-defined veins of great length as compared to width, such as the Hollinger No. 1 vein. Ore bodies, filled from wall to wall with masses of quartz—sometimes lenticular—and schist, mixed, constitute the vein matter. An example of this mixed mass of quartz and schist may be seen at the "glory hole" at the Dome Mines. In Munro Township the bodies of quartz occur generally in well-defined veins of several hundred feet in length. Altho the general widths are two to four feet, yet there are well-defined quartz veins ten feet wide and more. These are outcrop in an easterly and westerly directions and dip nearly vertical. In places the veins are lenticular. Ore bodies with parallel walls eight and twelve apart are filled with masses of quartz and schist. These also outcrop in a easterly and westerly direction and dip nearly vertical. In a well-defined quartz vein, varying from 24 to 48 inches in width, very spectacular gold was found on the Creosus Gold Mine. Also, finely disseminated gold is found in a number of quartz veins in association with varying quantities of the following minerals: Pyrite, chalcopyrite, pyrrhatite, mispickle, calcite and galena.

Similar Schisted Zones.

On the properties of the Rose Mines Syndicate the schisted zones between parallel walls eight and ten feet wide can be traced in easterly and westerly directions, and give evidence of muss stress, differences and metamorphism. Lenticular bodies of quartz are found mixed with the schist.

The outcrop of Timiskaming series (of greywacke slates, etc., and nearly half a mile wide) can be traced in a southeasterly direction, just a few yards southwest of the southwest corner of the syndicate's property. There, at the contact of the Timiskaming series and the Keewatin basalts, the metamorphism is pronounced. And as at other contacts, deposition of rich ore bodies has been found both near the surface and at depth. It is hoped that near this contact rich ore bodies will also be found.

NEW YORK BANK STATEMENT.

NEW YORK, Feb. 19.—The statement of the actual condition of clearing-house banks and trust companies for the week shows they hold $152,008,540 reserve in excess of legal requirements. This is a decrease of $16,814,410 from last week.

WHEAT CLOSED HEAVY THRU SMALL DEMAND

Some Firmness Shown at Opening of Chicago Grain Market.

THEN WENT DOWNGRADE

Sellers Became Bold on Finding Lack of Aggressive Support.

CHICAGO, Feb. 20.—Bears had the advantage in the wheat market Saturday, chiefly owing to the apparent absence of any European buying and as a result of liberal receipts northwest the close was heavy, 1¼c to 2⅜c net lower, with May at $1.27⅝ and July at $1.22⅝. Corn lost 1⅛ to 1½c, oats ⅞c to 1½c and provisions 2½c to 17½.

Altho at the outset wheat showed a little firmness in sympathy with higher quotations at Liverpool, the tendency afterward was almost uniformly down grade. It was soon discovered that the market here had no aggressive support. Sellers therefore became bold and made much of the enlargement of receipts in the spring crop belt, especially the Minneapolis arrivals. In this connection the fact was pointed out that Minneapolis prices had gone to a discount under Winnipeg as against a recent premium of 2½c. It was said country dealers in the northwestern states were selling more freely today than has been the case of late. Evidence of liquidation by seaboard holders of wheat developed in the last part of the session. The only export business noted was $250,000 bushels disposed of at Baltimore, despite the acknowledged smallness of European reserves. Domestic crop reports were less bullish than heretofore and particularly so as to Kansas.

Corn suffered in value owing to the weakness of wheat and as a result of large arrivals. Big reductions in the estimates to the Argentine exportable surplus failed to check the decline.

Depression in the oats market came about because of the heaviness of prices on other cereals. Besides, export sales here amounted to only 15,000 bushels.

Provisions made temporary gains, influenced by speculative buying of lard.

CHICAGO GRAIN.

Mining Notes

Timmins: Two drills are working on the 200-foot level of the Dome Extension, drifting on a promising vein extension from the Dome property. It is understood that the company is considering the letting of a contract for a considerable amount of diamond drilling, in order to test a number of known veins at depth, in hopes of picking up extensions of the Dome vein systems.

Speaking of the La Palme, Three Nations merger, The Northern Miner says: The name of the new company will be Gyges Porcupine Mines, Limited, not Dominion Porcupine. It will be capitalized at 2,000,000 shares of par value of $1. 500,000 shares of the new company will go to the Three Nations Mining Co. and 400,000 to the La Palme, as reported. On the new directorate the Three Nations Mining Co. will be represented by one director and the La Palme by one director, while the remainder of the board will consist of men very well known in mining circles in Toronto. A sufficient quantity of treasury stock will be underwritten to pay off debts, which amount to about $170,000, and provide working capital, and if there are no hitches in the program work will be commenced as soon as weather conditions permit of the efficient overhauling of the surface plant, which has now been lying idle for some time.

The sinking of the shaft on the Triumph (Success) property was begun this week and it is expected that the desired depth will be reached within 30 days, under high driving pressure.

The new plant at the Richardson, Albright and Papassimakes' property at Boston Creek is now installed and in operation, says The Cobalt Nugget. The No. 2 shaft is down to a depth of 105 feet, and some ore is being recovered. The plant was in operation last week for the first time. The compressor is a Rand, three-drill, steam-driven, and the hoist is adequate to work to a depth of four hundred feet. The syndicate has already refused some tempting offers for the property, one of which was $200,000 from a Cobalt mining company, and another from a certain well-known American capitalist of almost double the above amount, for a two-thirds interest.

The Glen Lake Mining Co. has commenced a winze from near the end of the 1300-foot tunnel under Glen Lake. The winze is now down approximately 30 feet and the foot of the winze is now in conglomerate. At the point where the winze was sunk there was a depth of about 22 feet of the slates between the bottom of the crosscut and the surface. It is proposed to continue sinking some distance further and then to do some crosscutting and drifting. The present depth is about 240 feet below the collar of the shaft.

LIMITED SUPPLY WAS CAUSE OF FIRM PRICES

Exceptionally Small Market on the St. Lawrence Saturday.

FRESH EGGS DECLINED

Bulk of Simon-Pure Variety Cleared at Thirty-Five Cents Per Dozen.

There was an exceptionally small market on the St. Lawrence Saturday, caused, no doubt, by the cold weather and bad roads in the country. The limited supply caused firmer prices. Butter was in demand, and tho some sold at 30c, 32c, 33c and 34c per lb., the bulk sold at 35c, quite a quantity selling at 36c, 37c and 38c per lb.

New-laid eggs again declined. The bulk of the simon pure new-laid variety (that is the ones gathered within a week) started at 40c, declining to 38c, 37c and clearing at 35c, while those gathered during two weeks, cleared out as low as 30c per dozen.

Fowl was quite scarce, winter chickens selling at 28c to 35c per lb.; chickens at 22c to 27c per lb., and dressed fowl at 18c to 23c per lb., while some choice extra heavy live hens sold as high as 33c per lb.; those not so good selling down to 17c per lb. The few good ducks offered brought 24c to 26c per lb.

In the wagon section the attendance was remarkably thin, and it was so bitterly cold in this section that vegetables had to be kept covered to keep them from freezing. The poor humans just standing it as best they could—but looking, oh so uncomfortably cold. The prices on vegetables remained about stationary with the exception of hothouse rhubarb, which was slightly cheaper, some of splendid quality being offered at 90c per dozen.

There was not any hay brought in.

Hay and Straw—

Herrings—100-lb. bag, $3.50.
Smelts—Frozen, 1's, 12c lb.; 2's, 9c lb.

LONDON STOCK EXCHANGE.

LONDON, Feb. 19.—The stock market maintained a cheerful tone today on the Russian war news. Rubber and oil shares were firm and active in spots, the war loan and consols hardened a fraction and foreign bonds received attention; but otherwise business was small. American securities were neglected and prices showed irregular changes. Money was in better supply owing to government disbursements. Discount rates were steady. American exchange was firmer at $4.76¾ for cable transfers.

MONEY RATES.

Glazebrook & Cronyn, exchange and bond brokers, report exchange rates as follows:

	Buyers.	Sellers.	Counter.
N.Y. fds.	½ pm.	½ pm.	⅝ to ¾
Mont. fds.	par.	par.	⅛ to ¼
Ster. dem.	4.78⅞	4.79¼	4.81½
Cable tr.	4.79½	4.79¾	4.82½

—Rates in New York.—
Sterling, demand, 4.76½.
Bank of England rate, 5 per cent.

NEW YORK CURB.

Hamilton B. Wills had the following at the close: The market this morning followed the same course as on yesterday with the Oils and Coppers to the fore and zinc and lead stocks not far behind. The trading was in good volume for a Saturday, and prices were steady.

PRICE OF SILVER.

NEW YORK, Feb. 19.—Bar silver 56⅝c.

BUFFALO LIVE STOCK.

EAST BUFFALO, N.Y., Feb. 19.—Cattle—Receipts, 300; firm.

Veals—Receipts, 125; active; $4 to $12.50.

Hogs—Receipts, 5200; active; heavy and mixed, $8.65 to $8.70; yorkers, $8.25 to $8.65; pigs, $7.75 to $8; roughs, $7 to $7.40; stags, $5 to $5.75.

Sheep and lambs—Receipts, 3600; sheep, active; lambs, slow; lambs $8 to $11.60; yearlings, $6.50 to $10.25; wethers, $8.75 to $9.25; ewes, $4 to $8.50; sheep, mixed, $8.50 to $8.75.

THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., President.
JOHN AIRD, General Manager. H. V. F. JONES, Ass't General Manager.

CAPITAL PAID UP, $15,000,000. RESERVE FUND $13,500,000

EXTENSION OF CANADIAN TRADE

The Bank will make enquiries into the possibilities and requirements of markets abroad for exporters or importers who desire to extend their trade with British colonies or possessions. Owing to the large number of its correspondents and agents, it has unusual facilities for this work.

SHIPMENTS OF ORE FROM COBALT SMALLER

COBALT, Feb. 19.—The ore shipments this week are considerably lower than last. The total number of pounds shipped for the week ending last night was 491,970 pounds, compared with 687,924 pounds a week ago. Six cars were despatched from as many companies. Bullion shipments for the week were at zero. Not a single ounce was shipped during the seven-day period. Ore shipments for the week were:

Company.	Pounds.
McKinley-Darragh	84,924
Dominion Reduction	88,000
Mining Corporation	84,525
La Rose Mines	87,140
Buffalo Mines	75,385
Penn Canadian	71,996
Total	491,970

Bullion shipments for the year to date are as follows:

Mine.	Ounces.	Value.
Nipissing	409,282.56	$233,680.01
Mining Corporation	53,774.62	30,798.77
Crown Reserve	47,000.00	28,300.00
Dominion Reduction	65,000.00	37,050.00
O'Brien Mine	36,987.00	21,542.46
Totals	612,044.18	351,371.24

UNION STOCK YARDS.

There are 188 cars of live stock at the Union Stock Yards, comprising 2473 cattle, 2606 hogs, 213 sheep and lambs, 40 calves and 660 horses.

CIVIC ABATTOIR.

List of Week's Killings From Feb. 12 to Feb. 18, 1916.

Total number of cattle dressed by owners	99
Total number of cattle dressed by city	443
Total number of small stuff dressed by owners	185
Total number of small stuff dressed by city	477
Total number of live stock slaughtered	1202

MONTREAL GRAIN MARKET.

MONTREAL, Feb. 20.—Export trade in wheat yesterday was quiet, there being very little demand from foreign buyers owing to the fact that the exporters offered little. Coarse grain on spot continued to be limited and the undertone easy. Flour was quiet and unchanged. Millfeed was fairly active.
