☞ We see some strange remarks in the last *Islander*. He seems extremely fond of quarrelling. We inform him that his "gladness" may have a foundation as erroneous as his "legal opinion." The petitions expressed nothing compulsory, as he well knows, or ought to know before he pretends to inform the public on the subject—and the resolution of Mr. Haviland simply embodied the request of the petitioners—nothing more nor less—which resolution the *Islander* says "was lost and *should be*." No twisting will ever extricate the Editor of the *Islander* from this post of opposition to the earnestly expressed prayer of the many thousands of intelligent Protestants who signed the petitions. We advise him to acknowledge his error, as any further multiplying of words without meaning will only expose his infirmity.

Mr. Warburton's letter in the *Examiner* does not improve his position before the public. Though we distinctly deny that we are a political paper, yet, true to our title, we shall *protect* "truth" and "right," and condemn all opposed to them, whether found among Roman Catholics, Liberals, or Conservatives.

Young Men's Christian Association.—On the evening of Thursday, the 9th inst., the Rev. George Sutherland delivered a most eloquent and instructive lecture on the "Life and Times of Whitefield." Seldom have we listened to a more successful and interesting lecture. The Reverend gentleman had culled his information from many sources, and presented a more complete and vivid picture of the history, genius, character and personal appearance of the great modern apostle, than could be gained from the perusal of volumes of biography. He showed such a hearty appreciation of, and sympathy with, the devoted missionary spirit which animated that great and good man, that he imparted some of his own enthusiasm to all who heard him. The lecture, which lasted an hour and a half, was delivered extemporaneously, and its interest was much enhanced by pleasing descriptions from personal observation of scenes in Georgia connected with the labors and exertions of Whitefield, in behalf of the early colonists of that state. The audience was deeply attentive throughout; and it is to be regretted that the inclemency of the weather prevented a larger number of the friends of the Association from enjoying so rich a treat.

Young Men's Christian Association.—The usual fortnightly meeting will take place at the Temperance Hall, on Thursday evening next at 8 o'clock. Some interesting addresses from the Patrons of the Association are expected. As this is the last meeting for the season, a full attendance of the members and the public is respectfully solicited.

St. James' Church.—The Annual Meeting of Pew-holders and Members of the above church was held on Monday, the 13th inst. The Report of the Trustees for the past year was read and adopted, after which the following persons were elected for Trustees for the ensuing year, viz:—H. D. Morpeth, Esq., Mr. James Anderson, Mr. J. W. Morrison, Mr. James Watts, jr., Mr. R. McKenzie, Robert Potts, Esq., M. D., David Stewart, Esq. H. D. Morpeth, Esq., Chairman. Mr. James Anderson, Treasurer. Mr. J. W. Morrison Secretary.

New South Wiltshire Temperance Society.—On Tuesday evening, 7th April, Mr. Carvill delivered a very interesting lecture on Temperance to a large Assembly. This Society was formed in January. On the first night we numbered eighteen, the members are now ninety. The change wrought already has been marked even by strangers.—*Com.*

Presentation.—The young men of the Free Church congregation, New London, have lately, through George McKay, Esq., presented their pastor, the Rev. Alexander Sutherland, with a handsome set of Carriage Harness, value £7, as a token of their sincere esteem.

Talk of the Road will be continued in our next, and will be occasionally published during the year.

Appointments.—Mr. John Campbell to be Harbour and Ballast Master for Rolle Bay, also a Preventive Officer and Landwaiter, in terms of the Act for raising a Revenue.

Mr. Francis Arsenault to be Protector of Alewives Fisheries for Skinner's Pond, Township No. One.

## To Correspondents.

A Freeman and no Exclusionist, A Youth, A Subscriber, Enigma, and several pieces of Poetry, will be attended to as soon as possible.

The Report of Legislative proceedings, though partly in type is deferred until our next issue for want of room.

Instead of our usual size, we issue two sheets to-day, which together are equal to about a paper and a half.

## TEMPERANCE SOIREE.

The Temperance Soiree, under the auspices of Rising Sun and Victoria Divisions, came off as advertised, on Thursday the 16th inst. The weather being mild and unusually favourable for this season of the year, the number in attendance was large and creditable to the community. The Committee, from the very handsome manner in which the whole affair was conducted, deserve the greatest credit, whether we consider the luxuries provided or the intellectual or musical repasts, which tended so much to enliven the pleasures of the evening. The Tea and viands, which were served up at the time announced, having been very readily and agreeably demolished, and the tables cleared, the company seated themselves to listen to a number of very able addresses on the all-important subject of Total Abstinence—Bro. Burnett, G. W. P., in the chair—from gentlemen whose influence must be felt on behalf of the temperance reform. Several resolutions were passed, expressive of the sentiments of the meeting, enlivened occasionally with some very fine airs, sung with much applause by Mr. Cupples, Teacher of Vocal Music,—the selection of which, as well as the style of performance, reflect the highest credit upon the musical abilities of that gentleman, who so kindly came forward to add to the pleasures of the evening. The following were the Resolutions adopted:

Moved by the Rev. G. Sutherland, seconded by Rev. Mr. Duncan—

"*Resolved*, That the alarming increase of Intemperance arising from the increased facilities afforded to indulge in the use of intoxicating beverages, loudly calls for the most energetic and persevering efforts to arrest its further progress."

Moved by Capt. Orlebar, R. N, seconded by Rev. D. Fitzgerald—

"That this meeting recognizes with gratitude, the successes which has hitherto attended the temperance enterprize, and believing it to be the cause of God and humanity, deems it incumbent upon all Christians and especially ministers of the gospel to give it their influence on all suitable occassions."

Moved by J. Arbuckle Esq., seconded by Rev. J. Macmurray—

"That the reorganisation of temperance societies when such a course may be found necessary, and the formation of new ones where none have hitherto existed, would in the opinion of this meeting prove one of the most effectual means under God of preventing the further spread of intemperance."

Moved by Mr. W. C. Trowan, seconded by Capt. Orlebar R. N—

"That the thanks of this meeting be given to the ladies that have rendered such signal services in furtherance of our objects this evening, and likewise to Mr. Cupples for his kindness in assisting on this occassion."

Upon the adoption of the above resolutions, the meeting closed by singing God save the Queen, Brother E. J. Burnett pronouncing the benediction. We can only hope in closing our notice of the Soiree, that from the support which it has received, the friends of temperance may be induced at an early day to add to the many that has passed another of such social gatherings as was witnessed on Thursday evening last.—*Com.*

## CLOSE OF THE LEGISLATURE.

On Wednesday last His Excellency the Lieutenant Governor closed the session with the following Speech:

*Mr. President and Honorable Gentlemen of the Legislative Council:*

*Mr. Speaker and Gentlemen of the House of Assembly:*

The termination of the business that has engaged you enables me to relieve you from further attendance.

The unremitted attention which you have given to the public interests, has, to a considerable extent, realized the expectations I had formed at the opening of the Session, and I congratulate you on the accomplishment of some highly important measures which I had recommended to your consideration, and which I confidently hope will be productive of lasting benefit to the Colony.

Although retaining my opinion as to the advantages that must result from the early establishment of Municipal Institutions, I concur with you in believing that by affording ample time and opportunity to the people to become familiar with the nature and character of those institutions, they will be more ready to adopt them when again brought under the consideration of their Representatives.

I regret that measures so urgently required for establishing the Board of Works and for the more secure and effectual application of public moneys on Roads, Bridges, and other public objects, have not been matured in the present Session.

I trust, however, that the consideration those subjects have received may lead to the formation of an enlightened public opinion, which will ere long enable the Legislature to arrive at such a just estimate of the abuses of the system that has, up to this time, been persevered in, as may effect their early and final extinction.

*Mr. Speaker and Gentlemen of the House of Assembly:*

I thank you for the Supplies which you have granted for the Public Service, and also for the confidence which you have reposed in the Government, by placing at its disposal the requisite funds for various important objects.

*Mr. President and Honorable Gentlemen of the Legislative Council:*

It is gratifying to me to reflect that, under Providence, the tranquil and improving condition of this Island is such as to hold out a reasonable prospect of steady and satisfactory progress; and it is with the utmost satisfaction, in relieving you from your labors, that I recur to the spirit of moderation and harmony, so eminently conducive to the general welfare, which has chrracterized your proceedings.

## NEWS BY TELEGRAPH.

### "ARABIA" ARRIVED AT NEW YORK.

The Steamship *Arabia*, arrived at New York, yesterday afternoon, the following is the telegraphic report of the news brought by her.

Breadstuffs firm. Bank of England had advanced rates to 6 1-2 per cent. Consuls 93 1-8.

The despatch says that the elections have resulted in a complete triumph for Lord Palmerston's administration. Cobden, Bright, Layard and other Liberals defeated.

The members returned are 325 Whigs, and 210 Conservatives.

Great anxiety prevails in England, on account of supposed loss of Australian Packet Ship, with a large number of passengers.

The quarrel between Austria and Sardinia, is threatening a rupture.

### NEWFOUNDLAND.

By the arrival of the R. M. S. *Merlin*, Capt. Corbin, on Saturday last, after an unprecedentedly rapid trip hence to St. Johns and back, very late Newfoundland papers have come to hand. The Legislature has voted the sum of £500 to pay the expenses incidental to the delegation from that Colony to the British Provinces. But the best news by far is the success of the Seal Fishery up to latest advices, and a reasonable prospect of an abundant yield to that important branch of industry. Up to April 1st, upwards of thirty St. John's vessels had arrived from the Seal Fishery—having about one hundred and fifty thousand seals in the aggregate—valued at about One hundred thousand pounds. There is promise of a large voyage. The Legislature continued in Session. Among the Sealers arrived at St. John was the brig *Lena* with 6000 seals, to Messrs. McBride and Kerr. Delegates from both branches of the Legislature to the Imperial Government, on the Fishery Convention, have been appointed, and would leave St. John's in the *Circassian* (us) for Halifax, *en route* for England. Governor Darling, family, and private Secretary would also leave by the same conveyance, on his way to the West Indies. It appears from letters by the *Circassian* that the merchants of Liverpool had held a public meeting for the purpose of remonstrating with the British Government against granting any further concessions to the French Fishermen on the coasts of Newfoundland. The following replies from Mr. T. B. Horsefall, M. P. for Liverpool, have been received. Both are dated March 17: "I have given notice (which is necessary) of the motion for the papers which you desire to have, but don't expect that the Government will grant it." The second answer is: "Since writing to you this afternoon I have been at the F. Office and ascertained that a letter was sent me yesterday to the effect that the Convention has been disallowed by the Government of Newfoundland, and that nothing further will be done at present,—as soon as the letters come to hand, it shall be forwarded to you." The latest corresponence on this to us momentous matter is in substance as follows: The question belongs more immediately to the Colonial office, but having before communicated with the Foreign office, I have been there again and had a most satisfactory conversation with Mr Hammond, one of the Under Secretaries of State. He says that the merchants need not be under the slightest alarm as to any further steps being taken, as you will see in reference to article XX. of the Convention that nothing can be done without the concurrence of the Provincial Legislature of Newfoundland. I left your letter and resolutions in the hands of Lord Clarendon.
