Her Majesty held a privy council, which was attended by the lord president, the lord chancellor, the lord privy seal, the first lord of the treasury, the secretaries of state for the home and colonial departments, the first lord of the admiralty, the president of the board of control, the president of the board of trade, and the secretary at war.

The imperial crown was brought to St. James's Palce by Mr. Bridge.

IMPERIAL PARLAMENT

Prorogued by Her Majesty Queen Victoria, in person.

LONDON, JULY 17.

The novelty of a Queen of England going to meet Her Parliament was not the least attractive inducement to the immense crowds who assembled at an early hour.

The Queen, accompanied by the Grand Officers of State, reached the House of Lords amid the acclamations of the people, at two o'clock, and having entered the House, the Commons were summoned to the bar as usual, when her Majesty read the following most gracious

Speech from the Throne :

"My Lords and Gentlemen,

"I have been anxious to seize the first opportunity of meeting you, in order that I might repeat in person my cordial thanks for your condolence upon the death of his lte majesty, and for the expression of attachment and affection with which you congratulated me upon my accession to the throne. I am very desirous of renewing the assurance of my determination to maintain the Protestant religion as established by law—to secure to all, the free exercise of the rights of conscience to protect the liberties and to promote the welfare of all classes of the community.

"I rejoice that in ascending the throne I find the country in amity with all Foreign powers; and while I faithfully perform the engagements of the Crown, and carefully watch over the interests of my subjects, it shall be the constant object of my solicitude to enjoy the blessings of peace.

"Gentlemen of the House of Commons,

"I thank you for the liberal supplies which you have granted for the public service of the year, as well as for the provision which you have made to meet the payments usually chargeable for the civil list.

"I will give directions that the public expenditure in all its branches be administered with the strictest economy.

"My Lords and Gentlemen,

"In taking leave of this Parliament, I return you my thanks for the zeal and assiduity with which you have applied yourself to the public business of the country.

"Although your labours have been unexpectedly interrupted by the melancholy event which has taken place, I trust they will have the beneficial effect of advancing the progress of legislation in a new Parliament. I perceive with satisfaction that you have brought to maturity some useful measures, amongst which I regard with peculiar interest the amendment of the criminal code, and the reduction of the number of capital punishments. I hail this mitigation of the severity of the law as an auspicious commencement of my reign.

"I ascend the Throne with a deep sense of the responsibility which is imposed upon me, but I am supported by the consciousness of my own right intentions, and by my dependance on Almighty God. It will be my care to strengthen our institutions, civil and ecclesiastical, by discreet improvement wherever improvement is required, and do all in my power to compose and allay animosity and discord.

"Acting upon these principles I shall upon all occasions look with confidence to the wisdom of Parliament, and the affections of my people, which form the true support of the dignity of the Crown, and ensure the stability of the Constitution."

Sir Francis Burdett has been called upon by the electors of North Wilts, to offer for that place, to which he has consented.

The Duke of Cambridge is now the expected successor of Lord Hill in the command of the Army, instead of Lord Wm. Bentick.—*Limerick Chron.*

Accounts from Madrid, of the 4th, state that numerous arrests had been made on the two preceding days. It was reported that a regicide attempt had been made on the person of the Queen Regent.

The Reform of Parliament (Ireland) Bill has been thrown out of the Lords, on the second reading after a short discussion, by a majority of 74 to 36.

THE MONEY MARKET.

Confidence among the merchants and traders of the city, as well as the principal out ports, and in the manufacturing districts, revives but slowly. The stocks of manufactured goods on hand are large, produced by the recent changes in the habiments of the people, rendered necessary by the demise of the crown. It is understood, however, that orders will be issued curtailing the duration for the general mourning, a boon on the part of the Queen which would give great satisfaction in the city.

In the wholesale departments of trade and manufactures only a slight increase in activity is reported this week. As regards colonial and foreign produce the public sales this week have not been large, but they have, notwithstanding the slow revival of confidence, gone off with increased activity. There are indications of a more extensive business for the latter end of the present and the commencement of the succeeding month.

The Money Market has been subjected to variation this week, prices have frequently changed. The principle feature within the last two days has been a pressure of stock, and in consequence a fall has taken place in consols of about 1-4 to 3-8 per cent.

SATURDAY EVENING.—There was scarcely any business transacted to-day, in any department of the stock exchange, so that the quotations are nearly the same as yesterday. Consols left off at 91 to 1-8 for money, and 92 1-2 to 5-8 for the account.

HOUSE OF LORDS—TUESDAY.

The Marquis of Lansdowne presented the following answer of the Queen Dowager to their Lordships' address of condolence presented to her Majesty :—

"My Lords—I thank you most sincerely for your Lordships' affectionate message of condolence upon the great loss I have sustained. It shall ever be my study to merit the affections of the British nation, and shall endeavour to prove my gratitude for those marks of affection which you have shown to the widow of your late excellent Sovereign."

Mortality among children.—Three hundred and ninety-nine children, under five years of age, died at New-York during the last three weeks.

The late Mrs. Sheldon, of Sheldon Warwick, has left the following munificent bequests to different charities in Birmingham :—£1000 to the Hospital; £1000 to the Blue coat school; £1000 to the society for Promoting christian Knowledge; and the interest of £1000 to ten poor women who attend the regular worship of St. Philip's church.

Extract of a letter, dated Shedine, August 24.—"On Saturday last, we were visited by one of the most destructive storms ever known in this province.—The violence of the wind, with hail and rain carried almost every thing before it, and the suddenness prevented any preparations against it. Every house within one mile north and south of me is more or less damaged—the church included.—The windows situated at the west were wholly broken in, and the rain and hail thrown to the further extremes of the buildings. Some hail stones, which I afterwards examined, measured one inch and a half across—many were flat and square, and in some places they lay three and four inches on the ground. Up the Shediac river the whole country is laid waste.—Those who were anticipating a plenty at hand, after a long series of half starvation, are now wholly destitute. Much grain and potatoes are ruined in this place; and at Scoodic the crops are materially injured."—*Courier.*

At the Annual Meeting of the Stockholders of the Bank of Fredericton, held at the Banking House on Monday the 14th inst. the following Gentlemen were chosen Directors for the ensuing year :—Asa Coy, W. D. Hartt, Thos. T. Smith, Joshua Dunn, James Hale, Charles Fisher, and F. E. Beckwith, Esquires.

And at a meeting of said Directors on same day, Asa Coy, Esquire, was unanimously re-elected President.

Russia bids fair to be the Mexico of the old World. Last year the produce of her gold mines ammounted to £600,000, and that of her silver mines about £335,000—An important account has appeared of a discovery in the process of melting the gold ore which is found in the Ural Mountain, which so greatly increased the produce of pure gold, as to be expected to influence favourably the future metallic circulation of all the European States. A large sum of native gold was received from Russia, in the course of last week, in payment of the next dividend on the Bond.

From the Vindicator of the 15th Augt.

Castle of St. Lewis,
Quebec, 12th August, 1837.

SIR,—The attention of the Governor in Chief having lately been called to a report contained in the *Vindicator* newspaper of the 16th May last, of the proceedings of a meeting held on the previous day at St. Laurent, in which you are stated to have taken an active part, and where Resolutions were passed, some of which distinctly recommend a violation of the laws, I am directed by His Excellency to call upon you as one holding a commission in the Militia, to state whether you were present at that meeting, and concurred in the Resolutions there passed; and if so, I am to enquire whether you have any explanation to offer in this matter.

I have the honor to be, Sir,
Your most obedient humble servant,
S. WALCOTT, Civil Secretary.

The Hon. L. J. Papineau,
Major 3rd Battalion Montreal Militia, Montreal.

The Hon. L. J. Papineau's reply to the above.

Montreal, 14th August, 1837.

Sir,—The pretension of the Governor to interrogate me respecting my conduct at St. Laurent on the 15th May last, is an impertinence which I repel with contempt and silence.

I however take the pen merely to tell the Governor that it is false that any of the Resolutions adopted at the meeting of the County of Montreal, held at St. Laurent on the 15th May last, recommend a violation of the laws, as in his ignorance he may believe, or as he, at least, asserts.

Your obedient servant,
L. J. PAPINEAU.

Samuel Walcott, *Civil Secretary.*

BARRACK CANTEEN.

OFFICE OF ORDNANCE,
St. John, N. B., 21st August, 1837.

NOTICE is hereby given, that the CANTEEN in the Barracks at Fredericton, is to be Let upon the following conditions, for *Three Years,* from the 1st October next, to the 30th September, 1840.

No person but of unexceptionable character, or who will not undertake, bona fide, to reside in the Canteen, and conduct the business thereof in his own person, will be approved: and two Sureties will be required for the regular payment of the Rent, and of all sums which may become due in respect of the said Canteen, and for the due performance of the several conditions and stipulations of the Lease.

The person whose proposal shall be accepted, and his Sureties, must execute the Indenture of Lease and Covenants relating thereto, the particulars whereof may be known by applying at this Office, or to the Barrack Master at Fredericton.

The names of two respectable persons, with their Christian names, professions and places of abode, who will join the Tenant in executing the Indenture, as his sureties, must be inserted in the proposals; and the Ordnance Department does not undertake to procure the Tenant a License.

Sealed Proposals, addressed to the Respective Officers of Ordnance, with the words "*Tender for Canteen*" written on the outside cover, will be received at the above Office, on or before twelve o'clock, at noon, of Friday the 15th September next, after which hour any proposals received cannot be noticed.

By the Mutiny Act, Canteens are not liable to have Troops billeted on them.

All persons making Tenders are to take notice, that they will be held to the strict performance of the covenants of their Leases and full payment of their Rents, without any remission or reduction further than the covenants of the Lease itself set forth.

The form of the Tender to be as follows:

I hereby offer for the Canteen in the Barrracks at Fredericton, for Three Years from the first October next, the Rent of Ten Pounds sterling per annum, for the house as a dwelling, and the further Rent of —— sterling per Month, for every Ten Private Soldiers who may occupy the Barracks during that period, and propose Mr. —— of ——, and Mr. —— of ——, as my Sureties for the same.

The Rent of the Canteen as a dwelling is fixed at the sum stated above, therefore the biddings will be upon what is offered for every ten men occupying the Barracks. This number will be ascertained from the Barrack Master's Monthly Returns, which are made up on the first day of every month; and no changes in the occupation of the Barracks which may take place in the progress of the month, either for or against the Tenant, will be taken into account. No less number than ten will be charged against the Tenant, nor will any odd number be calculated; thus, if the Barracks should be occupied by 148 men on the first day of the month, only 140 will be calculated for that month. The bidders are also desired to introduce no fractional part of a penny in their offers, as they will not be noticed, nor will any Tenders be noticed except such as are strictly according to the above Form.

The Rent to be paid in British Money, or Spanish or Mexican Dollars at the rate of 4s. 4d. each.
