Notice to Mariners.

Nova Scotia—South-East Coast—Revolving Light on West End of Sable Island—The Government of the Dominion of Canada has given notice, that a light is now exhibited from a lighthouse recently erected on the West end of Sable Island, Nova Scotia. The light is a revolving white light, making a revolution in three minutes, and showing three distinct flashes at intervals of half a minute, and then eclipsed during one and a half minutes; thus completing the three minutes. It is elevated 123 feet above high water, and in clear weather should be seen from a distance of 17 miles. The illuminating apparatus is catoptric or by reflectors. The Tower is an octagonal wooden building, 98 feet high and painted white. Position, lat 43 57 N, lon 59 8 W. The distance from this light to the fixed white light on the east end of the island, is 17 miles. A Steam Fog Whistle has been erected in the vicinity of the lighthouse, which in thick or foggy weather, or snow storms, will sound eight seconds in each minute, leaving an interval of fifty-two seconds between each blast. The Whistle will probably be heard in calm weather or with the wind, from 10 to 15 miles, and in stormy weather, or against the wind, from 3 to 6 miles.

Freights.

**Jenkins Dines with the Premier—The British Columbia Difficulty.**

OTTAWA, Feb. 11.

Last night the Premier entertained Edward Jenkins, M. P., at a club dinner.

Nothing further has been received from British Columbia, telegraphic communication between Victoria and San Francisco having been cut off, leaving DeCosmos and the people to settle matters without outside advice. The trouble is supposed by some to be about the proposed alteration of the Union terms respecting the mode of assisting in the construction of the Esquimault Graving Dock. Mackenzie proposed that Canada should be relieved of a fixed engagement by an immediate payment of £50,000. De Cosmos accepts these terms. British Columbians object on the ground that, if they alter any part of the Union terms, Canada may alter the others, and the guarantee that the Pacific Railway will be constructed be thus thrown away. They demand that such a serious question be submitted to them at the polls.

The ostensible cause of the difficulty may be the dock question, but the real cause is the anxiety of the people in reference to the carrying out of the Pacific Railway agreement.

Last night 561 members had been elected to the British Parliament. Of the 97 elections to come off 55 are for English, 2 for Scotch, and 40 for Irish constituencies. The Conservatives and Home Rulers will gain in these elections.

**Auction Sales.**

Messrs. Lockhart & Chipman sold at auction, at Chubb's corner, at noon today, the Morrison Farm, in the Hibernia Settlement, on the Quaco Road, containing 300 acres, together with cottage, barn and outbuildings thereon. After some lively bidding the property was knocked down to Mr. J. Beazley.

**"Reform" Meanness.**

The latest case of pure "Reform" has been developed. On election day the committees of the three candidates for Parliamentary honors, in a certain Ward not ten miles from the Court House, agreed to get refreshments and to divide amongst themselves the bill. The Deputy Sheriff, the clerk, and others specially interested in the Ward, partook to their hearts' content, and it was considered one of the expenses of the election On making up the bills this one was found to amount to $15.24, or, as it was put, $5 and the price of a drink for each representative. The representatives of the two elected candidates, the next day, paid their part of the bill when it was presented, but the great "Reform" party ignored it entirely until bluffed into it by repeated dunning. It is said they have now consented to foot the bill whenever the finances will permit, but, meanwhile, the bills have been paid and the members of other committees are out of pocket. If there is a legitimate election expense, providing a meal for the Sheriff's officer and the clerk who cannot leave the polling place is one.

Martin Higgins, the hackman, convicted of an outrage on Mary O'Brien, of Providence, an Irish girl, who arrived in New York the other day by steamer from Philadelphia, was sentenced by Recorder Hackett to 20 years in State Prison.

The virtue of resignation appears to be pretty nearly the only thing left to Mr. Gladstone, now that the elections in Great Britain have gone against him. But it is not always the man who resigns who is most resigned.

The Press Association of London states that Gladstone is at variance with his colleagues in the Government on the question of its resignation. The Premier, it is said, wishes the Ministry to resign immediately, when the others desire to wait until the new Parliament assembles.

The new Constitution of Pennsylvania has this provision, which the Philadelphia papers are quoting in the midst of their municipal campaign, viz.: "Any person who shall, while a candidate for office, be guilty of bribery, fraud, or wilful violation of any election law, shall be forever disqualified from holding office of trust or profit in this Commonwealth."

Wednesday afternoon Sheriff Irvin started for Carbondale, Ill., with Charles Wyatt, the negro charged with the murder of Mrs. Ryan, but, learning that a crowd was collecting at Carbondale with the intention of lynching his prisoner, Irvin left the cars below Carbondale with his prisoner, and walked across the country eight miles to Murphysboro, the county seat of Jackson county. Thursday night a crowd of four or five hundred men visited the jail at Murphysboro, took forcible possession of the prisoner, and hanged him. Wyatt confessed his guilt before his death.

In the matter of the suit of Mrs. Putnam, widow of Avery D. Putnam, who was killed by Foster with a car hook on a New York horse car, against the Railroad Co., in which she got a verdict of $5,000 against the railroad in the Supreme Court, and which was sustained by the General Term, the Court of Appeals has reversed the judgment, holding that the company was not responsible, as although Foster was intoxicated, Mr. Putnam did not ask the conductor to remove him, but keep him quiet, which he did, and no passenger asked the conductor to remove Foster.

**Archbishop Ledochowski.**

This German prelate, whose trial is to take place to-day, was somewhat irregularly elected in 1865 to the Primacy of the Polish Province, and was approved by the Pope on the express ground that he would be a useful man to fight the Prussian Government. He at once set about to vindicate the Holy Father's good opinion of him, and went on till there were over thirty cases against him of appointing priests to positions within his diocese without the approval of the Government. For at least one of these he was tried and condemned to pay a fine of 200 thalers. On his failure to meet this penalty, "the proper officer of the District Court of Posen" proceeded to Archiepiscopal palace and seized the state carriage and two fine horses. If all the cases were followed up, as the courts might impose a maximum fine of 1000 thalers on each conviction, it would cost the Archbishop all his property. Probably there is no design to persecute him, but as the course he has taken is a serious public annoyance—especially as none of his illegally appointed priests can solemnize marriages—it is determined to make his a test case as to whether the German Empire has jurisdiction over its own citizens, or whether it is to be defied at the instigation of a foreign power. The result will be awaited with great interest. He was fined for disobeying the law, and was arrested for non payment of the last fine imposed on him.

**A Schoolmaster Who Deserved What He Got.**

[From the Springfield Republican.]

A young student from Wesleyan University, teaching at East Glastonbury, saw one of his pupils, a girl about fifteen, writing a note during the school hours, a few days ago, and ordered her to bring it to his desk. She declined, saying it was not suitable for him to see, whereupon he told her to leave the school. She was just starting, when he approached her, and saying, "You are not 16; and I'll lick you," struck her three blows upon the arm and shoulder with a knotted stick an inch in diameter. As she was starting again he seized her by the hair and gave her another blow on the head. She went home, badly crippled, perhaps for life. She was the daughter of a poor widow, and was working in a factory to pay for her education.

The citizens were very indignant, and about 50 of them met the teacher in the street at night and mobbed him, but he escaped with a few bruises. The next day he settled with his pupil by paying $25, and was warned out of town on pain of tar and feathers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tenderlungs need this defence; and it is unwise to without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured. Prepared by
